PsycINFO

***Psychological Abstracts Information Services (PsycINFO)* is a family of interrelated information services that provides access to the world's literature in psychology and related behavioral and social sciences in a variety of ways. *PsycINFO* consists of:**

Psychological Abstracts (PA) journal (ISSN 0033-2887). The comprehensive monthly compilation of nonevaluative summaries of the serial literature in psychology and related disciplines.

Issue. The monthly **PA** issues contain abstracts listed under 17 major classification categories, with some categories having subsections, as shown in the Table of Contents. Under each classification heading, the abstracts are arranged alphabetically by first author. Abstracts are numbered consecutively each year. The volume contains approximately 34,900 abstract records.

Indexes. An author and brief subject index appear in each monthly issue. An expanded and integrated annual index is published at the end of each volume.

Three-Year Cumulative Indexes To PA. Author and subject indexes for all entries in the **PA** journal for 1969-1971, 1972-1974, 1975-1977, 1978-1980, and 1981-1983.

PsycSCANS: Clinical Psychology, Developmental Psychology, and Applied Psychology. Quarterly publications containing abstracts from subscriber-selected journals in the areas of clinical psychology, developmental psychology and applied psychology, respectively.

PsycSCANs: Psychoanalysis; and Applied Experimental & Engineering Psychology. Quarterly publications containing abstracts in the areas of psychoanalysis and applied experimental and engineering psychology, respectively.

PsycSCAN: LD/MR: A quarterly publication containing abstracts on learning disabilities, communication disorders, and mental retardation.

PsycBOOKS: Books & Chapters in Psychology. An annual five-volume compilation (ISSN 1044-1514) of information on books and chapters in psychology and related disciplines. Includes volumes on Experimental Psychology; Developmental, Personality, and Social Psychology; Professional Psychology; Educational and Health Psychology; and a separate volume containing Author, Subject, Publisher, and Book Title Indexes. A full bibliographic reference and information on content are included with each book or chapter record.

The Thesaurus of Psychological Index Terms: 6th edition. A compilation of the vocabulary used in psychology and related disciplines as generated from the files of **PA**. The Thesaurus is divided into three sections: the *Relationship, Rotated Alphabetical Terms*, and *Clusters Sections*.

PsycINFO User Manual: 1987 edition. Developed for the individual researcher of the information available from PsycINFO services, whether through use of the printed **PA** issues and indexes or by computer assisted search of the data base.

PASAR (PA Search and Retrieval). Retrospective search and retrieval service available through the PsycINFO office.

PsycINFO Database. Magnetic tapes of PsycINFO records to institutions for annual lease or license. Designed for use by information analysts and dissemination centers, the PsycINFO Database is also used for direct interaction by individuals through a computer terminal in their own facilities. This service is available through several dissemination centers throughout the world.

**Consult Webster's New Collegiate Dictionary.*

This Annual Subject Index, published in four volumes, consolidates more than 129,000 references to approximately 34,900 abstract records published in 12 monthly issues of *Psychological Abstracts* from January 1991 through December 1991. A companion work, the Annual Author Index, references these records by author and document title.

Index terms, selected from the *Thesaurus of Psychological Index Terms*, represent the literature covered for the periods indicated. Only terms assigned as major terms, reflecting the main focus of the article, appear in the printed subject index. (Terms assigned as minor do not appear in print but are available for online searching.) Subject matter content determines the specific terms used and, thus, not every thesaurus term will appear in every index. "See" and "See Also" references are present to direct the user to the preferred terminology or related areas of interest. Index phrases are alphabetically arranged under the appropriate index terms and represent a concise statement of the article's content or, when appropriate, identify the independent and dependent variables described in the material as well as the subject population. Style changes such as the increased use of abbreviations or the elimination of some hyphens may result in some inconsistencies and may affect the alphabetical order of phrases.

citalopram with or without LSD, firing activity of dorsal raphe nucleus serotonergic neurons, rats, conference presentation, 17836
classical conditioning, frequency specific plasticity of single unit discharges in medial geniculate body, rats, 11921
classical conditioning, nictitating membrane response & excitability of Purkinje cell dendrites of cerebellar lobule HVI, male rabbit, 26703
classical heart rate conditioning, multiple unit activity in mediodorsal & intralaminar nuclei of dorsal thalamus, rabbits, 14568
click intensity, amplitude of auditory brain stem responses, 1 mo to 6 yr olds vs 22–32 yr olds, 26975
clinical & family psychiatric history, P300 amplitudes & latencies & eye tracking, schizophrenic patients, 9991
clomipramine, firing rate of septal nuclei, male rats, 9373
conditioned feeding task & olfactory & gustatory brain stimulation & chemicals, glucose sensitive vs insensitive neuronal activity in lateral hypothalamic area, monkeys, 23583
cortical & cognitive activation & dreaming & imagery & thought in sleep & waking states, 11995
CS duration in avoidance conditioning, training induced cingulate cortical & limbic thalamic neuronal discharges, male rabbits, 11968
CS presentation & conditioned suppression of leverpressing for food, hippocampal multiunit activity, rats, 20618
deprenyl & amphetamine, physical abuse liability & EEG, rats, 12140
desipramine or sertraline, ponto geniculo occipital waves during REM sleep, female cats, 12150
development of CR in response to cortical stimulation, prolonged changes in synaptic efficiency & cellular excitability, rabbits, 11940
diet with vs without caffeine & refined sucrose, therapeutic effects & regional brain electrical activity, 35 yr old female with somatic symptoms, 30803
direction of visually guided arm movements & muscle activity patterns & timing, neuronal electrical activity in supplementary motor area vs primary motor cortex vs putamen, monkeys, 482
disparity stimuli moving in preferred vs nonpreferred directions, neurons of medial superior temporal area of cerebral cortex, monkeys, application to optic flow & perception of self motion, 9222
duration of chronic ethanol, impulse reactions & morphological structure of lingual nerve taste receptor, frogs, 23660
EEG baseline before vs after visual stimulation in eyes closed condition, 23–35 yr olds, 20592
EEG quantification of event related desynchronization & time course & topographical pattern of cortical speech activation during visual encoding & visual verbal task, right handed adults, 20624
egg laying hormone, spontaneous & evoked activity of cerebral pedal regulator during feeding, snails, 32699
electrical activity & contractile properties of motor neurons & effect of biofeedback, quadriplegic adults, 10441
electrical stimulation of interpeduncular nucleus, single neuron activity of off cells vs on cells in nucleus raphe magnus, female rats, 599
electrical stimulation or cocaine, intrinsic activity of neurons in hippocampus, cats, 26773
electrodermal response habituation rate, clinical & personality & electrodermal measures, patients with anxiety vs phobias vs obsessive compulsive vs dysthymic disorders, 1458
electrolytic stimulation of tongue & changes in surface potential or charge density of taste cells, taste transduction & unitary discharges of glossopharyngeal nerve, bullfrogs, 14679
electrophysiologic comparisons of memory loss vs visuospatial impairment as primary symptom, 53–68 yr olds with Alzheimer's disease, 1680
electrophysiological activity of serotonergic neurons, behaving animals, 23508
escapable vs inescapable vs no footshock, hippocampal theta activity, male rats, 17762
ethanol superfusion, M current in hippocampal slices, male rats, 716
ethanol, time course of tolerance development & decay of miniature end plate currents from muscles, long vs short sleep male mice, 29736
features & regularities of formation of CR in electro-excitable & chemosensitive membrane of LPa3 neuron, snails, 23504
food reinforcement & sound stimulation & substantia innominata neuronal activity during place conditioned reflex, neocortex neuronal reactions, cats, 32446
haloperidol, classically conditioned eyelid response & conditioning related cerebellar interpositus nucleus activity, rabbits, 3945
hippocampal activity during detection of tone change in nonmatching to sample paradigm of working/short term memory, rats, 17682
hippocampal activity during detection of tone stimulus change in nonmatching to sample paradigm of working/short term memory, rats, commentary reply, 17681
hippocampal activity during detection of tone stimulus change in nonmatching to sample paradigm of working/short term memory, rats, commentary, 17692
hippocampus, nasopharyngeally vs vertex recorded P300 latencies & amplitudes, 22–44 yr olds, 6695
imagined emotional scenes & verbal activity, electrical activity in left & right cerebral hemispheres, 18–32 yr olds, 9223
inescapable shock 24 vs 48 hrs before assessment, electrophysiologic activity of locus ceruleus noradrenergic neurons & behavioral depression, male rats, 20716
instruction on direction of forthcoming movement, visuomotor step tracking task movement preparation & supplemen-

tary motor area vs primary motor cortex vs putamen neuronal electrical activity, monkeys, 468
ipsapirone, serotonergic & dopaminergic neurotransmission & electrical activity in brain, male rats, 14859
learning of control of mu rhythm amplitude, control of CRT cursor movement through EEG based computer interface, 25–38 yr olds, implications for prosthetics for motor or communication disorders, 23538
leg muscle motoneuronal commands & common inhibitor activity during swimming, shore crabs, 471
level of alimentary vs defensive motivation, electrical activity of amygdaloid complex, dogs, 23501
listening vs resting task & ability to concentrate & intelligence, infraslow potential oscillations, 18–30 yr old males, 6698
lithium, nerve conduction velocities & multimodality EPs, manic depressive 21–59 yr olds, 7941
locus of control & visuospatial vs semantic task & brain arousal & activation & right arm EMG values, college students, error correction & reanalysis, 29598
locus of control & visuospatial vs semantic task & brain arousal & activation, college students, 20588
microstimulation mapping of precentral cortex during wrist flexion & extension movements, monkeys, 17771
model neocortical network of synchronized bursting action potential discharge, 29594
movement associated neural excitation, spatial representational memory, male rats, 3705
MRI derived T1 proton relaxation values in frontal white matter, patients with unipolar vs bipolar affective disorder, England, 9989
multiunit activity in hippocampus & magnocellular medial geniculate & auditory cortex during acquisition & long term retention of response to CS, male rats, 485
naloxone, conditioned heart rate vs concomitant multiple unit activity in amygdaloid central nucleus, rabbits, 14786
negative potential in frontal region in pattern reversal visual EPs, 19–31 yr olds, 20603
neonatal decortication, EEG activity of hippocampus, male rats, 23624
neural activity movement on superior colliculus motor map during gaze shifts, cats, 23516
neural processing in & cortical & subcortical mechanisms & response competition & distributed nature of attention, literature review, implications for attention deficit hyperactivity disorder, 17675
neuronal activity in motor regions of cerebral cortex, voluntary motor commands, conscious monkeys, literature review, 11955
neuronal discharge patterns of pretectal nucleus of optic tract in optokinetic & smooth pursuit eye movements, monkeys, 505
neuronal responses in thalamic & striopallidar nuclei during visual test of orientation sensitivity, adults with intracerebral electrode implants, 3621
neuronal responses in ventrobasal thalamic complex during hyperalgesia & allodynia, male rats with experimentally induced mononeuropathy, 12070
neuronal spike activity evidence of emotional mechanisms of reinforcement in classical conditioning, dogs, 6651
nictitating membrane conditioning, hippocampus pyramidal cell currents, male rabbits, 23523
paired tone CS &/or air puff UCS, dorsal accessory inferior olive activity during acquisition of classical eyelid conditioning, male rabbits, 26704
partial vs constant reinforcement of defensive CR, activation of sensorimotor cortex neurons, rabbits, 11973
pattern reversal stimulation, striate cortex visual EPs & current source density & concomitant multiunit activity, male monkeys, 32442
Pavlovian conditioning, membrane currents of motor cortex, cats, implications for memory & learning, 17700
pentobarbital, extracellular activity of single spinal dorsal horn neurons, female cats, 3833
position of visual stimulus, allocentric vs egocentric spatial representation & information processing activity of hippocampal neurons, macaque monkeys, 23500
power of occipital vs parietal area alpha vs beta activity during visual presentation of abstract figures & mental imagery, 37–62 yr olds, 3666
prefrontal cortical neurons, coding direction in delayed alteration, monkeys, 9188
procaine hydrochloride in amygdala vs ventral tegmental area vs lateral hypothalamus vs ip vs iv 2-buten-4-olide, lateral hypothalamic neural activity & licking behavior, operant conditioned rats, 723
pure vs harmonic complex tones vs noise, spectral response patterns of auditory cortex neurons, female rhesus monkeys, 518
rates of inner speech & subvocal electrical activity during verbal problem solving, college students, 17461
removal of cortical areas 17 & 18 & 19, spatial & temporal frequency processing by neurons in posteromedial lateral suprasylvian cortex, cats, 12069
repetitive intracortical microstimulation, movement representation in motor cortex, rats, 14681
representations of target or goal of movement by single neuron activity in supplementary motor area vs primary motor cortex vs putamen during visuomotor delayed step tracking task, monkeys, 467
RU 5135 vs surgery related cortical damage, epileptic spiking, rats & rabbits, 29696
sabeluzole, long term potentiation in hippocampus & increased learning, guinea pigs, 23632
self directed activities during spontaneous behavior vs emotional responses to same sex intruder, hippocampal electrical activity, rabbits, 32470
sex & 8-OH-DPAT & ovariectomy & castration & gonadal hormones, 5-HT receptor activation & hypothermia & body temperature, mice, 20693
single nanoinjections of met-enkephalin in midbrain central gray & nucleus reticularis paragigantocellularis, spontaneous & evoked trigeminal nuclear neuronal activity, male rats, 20819
single neuron discharge in globus pallidus, visually guided & self directed wrist movements, male monkeys, 20615
single unit activity in auditory cortex & medial geniculate body & inferior colliculus during auditory working memory task, male rats, 11961
single unit activity of cingulate cortex during sensorially triggered or self paced forelimb movements, male monkeys, 20629
single unit activity of locus ceruleus noradrenergic neurons during defense reactions, freely moving cats, 11943
single unit neuronal activity in lateral mesencephalic tegmentum, male rats engaged in free copulatory behavior, 14577
sleep postures & EEG power spectrum, 2–27 mo old male rats, 26708
spatial delayed response task, unit activity of medial wall of frontal cortex, rats, 14525
spatial distribution of response features in isofrequency domain of high frequency region of primary auditory cortex, anesthetized cats, 11964
stages of learning during delayed spatial choice task, neuronal activity of medial wall of frontal cortex, male rats, 23513
surgical isolation of subnucleus caudalis from subnucleus interpolaris & electrical stimulation, electrical activity & receptive fields of subnucleus interpolaris projections, rats, 580
tone & consonant-vowel syllable articulation & voice onset time variations, primary auditory cortex & thalamocortical radiation activity, monkeys, 524
tone bursts, temporal discharge patterns of single auditory neurons in dorsal medullary nucleus, Northern leopard frogs, 11932
tonic firing frequencies of motor units in elbow flexor muscle, parkinsonian patients, conference presentation, 19024
total or partial digit denervation vs intact nerves, response properties & cortical somatropy, raccoons, 14707

treadmill locomotion, firing rates of limb related units in lateral striatum, rats, 11975
uncued vs cued shock induced stressful environment, delta activity of right vs left amygdala, squirrel monkeys, 20713
unit activity of thalamus during voluntary movement, conference presentation, 17689
verbal vs spatial task performance, asymmetry of brain electrical activity, female college students, 11916
vigilance sleep wake level, circadian rhythmicity & frequency & number of absence discharges, male rats, animal model of generalized absence epilepsy, 26743
visual spot fixation task & blink & tone tests, neuronal activity in inferotemporal visual area TEO vs superior temporal auditory vs polysensory area, monkeys, implications for selective attention, 29633
visual threshold recognition task, depth EPs vs neuronal impluse activity, parkinsonian 34–58 yr olds, 33714
vitamin & mineral supplementation, intelligence & brain function, delinquent 13–16 yr olds, 25379
white light stimulation, EEG activity & blood flow in distribution territory of carotid arteries, adults in state of emotional stress, 6703
whole night polysomnographic records, 18–25 yr olds with somnambulism, Israel, implications for diagnosis, 33641
4-aminopyridine vs tetrahydroaminoacridine, potassium conductances in medial septum & forebrain nucleus, guinea pigs, 14778
6-OHDA & tail shock stress, residual nigrostriatal dopamine neuron response & extracellular dopamine & behavioral state, male rats, 26758

Electrical Brain Stimulation

aluminum injection & electrical brain stimulation, retention of classically conditioned nictitating membrane response, rabbits, 3770
amphetamine induced kindling sensitization & electrical stimulation of amygdala & role of acetylcholine & dopamine & norepinephrine activity, male rats, 23584
amygdaloid stimulation, startle, male rats, 6731
anodal direct current to substantia nigra pars compacta, rotational behavior, male rats, 598
apomorphine vs LY 17155 vs SKF 23390 vs haloperidol vs spiperone & electrical stimulation of ventromedial hypothalamus, affective defense behavior, cats, 591
automated system for control & assessment of intracranial electrical self stimulation behavior, 14686
aversive electrical brain stimulation, logistic model of subliminal & threshold functions of defensive behavioral output, male rats, conference presentation, 14683
beta receptors & locus ceruleus stimulation, memory retrieval, male rats, 29714
cerebral electrostimulation during drug washout, anxiety & insomnia, depressed patients, 25079
chlordiazepoxide & diazepam & bromazepam & meprobamate & pentobarbital, dorsal central gray stimulation induced escape behavior, male rats, 17736
conditioned feeding task & olfactory & gustatory brain stimulation & chemicals, glucose sensitive vs insensitive neuronal activity in lateral hypothalamic area, monkeys, 23583
cranial electrostimulation, withdrawal symptoms, opiate dependent patients, literature review, 5710
deep brain stimulation, pain control, patients, literature review, 28024
dopaminergic agonists & antagonists in medial preoptic anterior hypothalamus, affective defense behavior elicited by electrical stimulation of ventromedial hypothalamic nucleus, cats, 29705
dorsal raphe glutamate vs morphine vs serotonin vs electrical stimulation, spontaneous activity & nociceptive responses of thalamic parafascicularis neurons, male rats, 571
electrical brain stimulation as economic substitute for food & water VR reinforcement, female rats, 23606
electrical brain stimulation induced eating, opioid receptor binding, rats, 14684
electrical stimulation in caudal medulla, antinociception & cardiovascular responses, male rats, 3777
electrical stimulation of amygdaloid complex, conditioned alimentary reflexes, dogs, 26795
electrical stimulation of area PG of posterior parietal cortex, eye movements, monkeys, 29716
electrical stimulation of diencephalon, latencies to initiate locomotor stepping, awake rats vs those anesthetized with pentobarbital & lidocaine, 3768
electrical stimulation of interpeduncular nucleus, single neuron activity of off cells vs on cells in nucleus raphe magnus, female rats, 599
electrical stimulation of medial amygdaloid nucleus, peptidergic transmission & activity level, male rats, 32536
electrical stimulation of mesencephalic locomotor region, treadmill locomotion & aversive escape effects, male rats, 17765
electrical stimulation of select cortical neurons, perceptual judgment of motion direction, monkeys, 604
electrical stimulus & carbon monoxide or triethyltin, brain stimulation reward threshold, rats, implications for threshold methods, 6711
exposure to novel environment, interference with of hippocampal primed burst potentiation induced by electrical stimulation, rats, 6728
frequency & pulse width of electrical stimulation of subdiaphragmatic vagus, antinociception threshold in tail flick test & spinal substrates & BP & heart rate, male rats, 23608
haloperidol, rewarding properties of medial prefrontal cortex electrical stimulation in conditioned place preference test, male rats, implications for dopamine neurotransmission, 26745
intensity & frequency & pulse duration, discriminative properties of aversive electrical stimulation of mesencephalic locomotor region, rats, 23605
intracortical microstimulation, motor organization of forelimb & face & tongue & shoulder representation of primary motor cortex, baboons, 14687
morphine vs electrical stimulation of anterior pretectal nucleus, antinociceptive effects, male rats, 23601
neurophysiological correlates of speech activity, brain injured 30–54 yr olds with aphasic disorders treated with therapeutic electrostimulation, 22009
norepinephrine or clonidine with vs without yohimbine in anterior hypothalamus, affective defense responses elicited by electrical stimulation of ventromedial hypothalamus, cats, 3751
olfactory & somatosensory & electrical brain stimulation, sensory EPs in mesolimbic dopaminergic neurons, male rats, 14688
palladial neuron discharge patterns in RT vs delayed go/no go discrimination vs self paced movement tasks, monkeys, 602
pentobarbital, locomotion elicited by diencephalic electrical stimulation, male rats, 3769
periaqueductal gray stimulation, naloxone & naltrexone effects on endogenous opioid nociception inhibition, male rats, 26765
prefrontal cortex vs nucleus accumbens stimulation, conditioned BP & avoidance by pressing, male rats, 32545
repetitive intracortical microstimulation, movement representation in motor cortex, rats, 14681
rewarding electrical stimulation of lateral hypothalamus, compound action potentials in ventral tegmental area & substantia nigra & periaqueductal gray, male rats, 601
rubrospinal stimulation, inhibition of sensory responses of inferior olive neurons, cats, 12058
single or repeated daily electrical stimulation of medial & lateral areas of amygdala, optokinetic nystagmus, rabbits, 3784
species specific acoustic signals during subthreshold electrical stimulation of ventromedial nucleus of hypothalamus, behavioral response, adult male cats, 9321
tetanic stimulation & voltage dependent thresholds, long term depression & potentiation in slices of visual cortex, rats, 6727

therapeutic electrical stimulation, restoration of visual & mental functions, adults with optic nerve lesions or craniocerebral trauma, 10535
transcranial electric treatment, affective disturbances, alcoholic patients in remission, 22553
transcranial magnetic stimulation, hand preference in forced choice task, right handed adults, 3778
unilateral electrical stimulation of hippocampus, material specific learning, patients with unilateral temporal lobe epilepsy, 10361
Electrical Injuries
nonictal EEG changes & development of episodic mania, male 20 yr old who experienced electrical trauma to brain, case report, 33711
Electrical Stimulation [See Also Electrical Brain Stimulation, Electroconvulsive Shock]
acute stress & escapable vs inescapable footshock, mesocortical dopamine role in acquisition of medial prefrontal cortex electrical self stimulation, rats, 32537
anticipation of painful stimuli, fear induced stress & antinociception & level & release of endogenous opioid peptides, male rats, 17770
antigens & footshock stressor, plaque forming cell response, mice, 9313
auditory cues differentially paired with shock, eyeblink UCS, rabbits, 29712
auditory cues paired with shock vs locus of shock application, differential modulation of conditioned eyeblink response, rabbits, 29711
auricular transcutaneous electrical nerve stimulation, 23–72 yr old amputees with phantom limb pain, 25043
basal forebrain & cutaneous stimulation & release of acetylcholine, cortical neuron responses, cats, 12057
changes in ambient pH & shock, respiratory pump rate, aplysia, 9099
chlordiazepoxide vs flumazenil, time spent in shock punished conflict situation & response rate, food restricted male rats, 14879
consistency of pulse frequencies & patterns of transcutaneous electrical nerve stimulation, 39–66 yr old chronic pain patients, 25040
CS slides with vs without electric shock UCS, skin conductance responses & vocalization latencies for superimposed numbers during extinction phase, college students, 17769
current density vs intensity of electrical taste stimulus & electrode size, elicited taste aversion magnitude, 19–25 yr olds, 6726
dorsal column stimulation, perception of clinical pain & intensity of & change in painful heat & visual stimuli, 34–70 yr old pain patients, 34217
dorsal column stimulation, perception of clinical pain & intensity of & changes in painful heat & visual stimuli, 34–70 yr old pain patients, commentary, 34226
electric shock source near nest site, defensive burying & nest relocation & pup transport, lactating female rats, 12052
electrical cutaneous stimulation, long lasting excitability of spinal interneuron rostral scratch effect, turtles, 12048
electrical dosage for & efficacy of ECT, 34197
electrical intracellular stimulations, associative learning of small isolated neurons, edible snails, 26798
electrical shock intensity, immunomodulatory effect on mitogenic responsiveness, male mice, 20714
electrical stimulation as CS & UCS, nictitating membrane response, male rabbits, 6732
electrical stimulation in medullary nucleus raphe magnus, noxious heat evoked fos protein like immunoreactivity in lumbar spinal cord, rats, 14678
electrical stimulation produced analgesia & its cross tolerance between dorsal & ventral periaqueductal gray loci, rats, 603
electrical stimulus location & intensity, across fiber response patterns, raccoons, 12054
electrode position in tegmental field, shock induced alterations in intracranial self stimulation, male mice, 12060
electrode size, threshold for current pulses, college students, 6730
escapable shock exposure, development of learned helplessness in response to inescapable shock, American cockroaches, 17764
factors in 1 trial contextual conditioning of freeze response using shock, female rats, 373
flunitrazepam vs diazepam vs ipsapirone vs maprotiline vs FG 7142, acoustic startle vs electric footshock induced ultrasonic vocalization, male rats, animal model of anxiety, 32504
footshock stress as juvenile &/vs adult, susceptibility to ulcers in response to restraint or partial water immersion, rats, 20715
footshock stress during priming with antigen, secondary humoral immune response to low dose antigen, male mice, 9294
forced swim test vs inescapable shock, behavioral despair vs learned helplessness & role of learning & memory, rats, test of animal model of depression, 14670
history of interest in electricity as physical treatment method, psychiatric patients, 1800s, Great Britain, 10478
inescapable footshock, central noradrenergic & dopaminergic & serotonergic activity, male vs female rats, 14677
inescapable shock, production of antibodies to keyhole limpet hemocyanin, male rats, 9319
inescapable shock 24 vs 48 hrs before assessment, electrophysiologic activity of locus ceruleus noradrenergic neurons & behavioral depression, male rats, 20716
inescapable shocks, shuttlebox performance & elevated plus maze behavior, male vs female rats, 9327
intrahypothalamic ACTH vs electrical stimulation, grooming behavior, male rats, 17759
lappaconitine & N-deacetyllappaconitine, footshock induced analgesia, rats, 23579
long term use of transcutaneous electrical nerve stimulation, client characteristics & stimulator & outcome variables, 24–85 yr old pain patients, 25039
morphine or footshock, suppression of splenic natural killer cell cytotoxicity, rats, 9303
N-methyl-D-aspartate antagonists, shocked vs unshocked exploration, mice, 29907
naloxone & nor-binaltorphimine in parabrachial nucleus, electrically induced feeding, rats, 26740
neonatal cyproterone acetate with vs without gonadectomy, footshock induced aggressive behavior, male rats, 32498
pain produced by high vs low current stimulations, applicability of 30 word list estimating perceptual characteristics of pain & visual analog scale, college students, Japan, 23305
passive avoidance footshock stress, immune reactivity, male rats, 12047
Pavlovian CS paired with shock, modulation of conditioned eyeblink response, rabbits, test of Pavlovian model distinguishing emotive & sensory conditioning, 29713
perforant path stimulation with vs without mu vs delta opioid receptor antagonists, wet dog shakes & hippocampal methionine enkephalin & dynorphin & GABA, male rats, 29693
prenatal shock induced stress, avoidance performance in learned helplessness paradigm, rats, 20711
presentation of cat, naltrexone reversible analgesia in tail flick response to radiant heat & electronic shock, male rats, 14660
pretreatment shock, learned helplessness in escape task, rats, 29709
pulse pattern of transcutaneous electrical nerve stimulation, cold induced pain perception, healthy 17–35 yr olds, England, 26799
punishment with electric shock, threat displays, male sticklebacks, 26801
rehabilitative patterned functional electrical stimulation, restoration of volitional limb movement, hemiplegic stroke patients, 19547
repeated footshock after exposure, locomotor activity after amphetamine vs morphine infusion in nucleus accumbens, male rats, 9320

sex & inescapable shocks, holeboard & elevated plus maze behavior 24 vs 72 hrs later, rats, 32543
shock intensity, clonidine induced tolerance to decreased avoidance response, male rats, 23592
shock threat vs monetary incentive vs mantra meditation, breath holding span & recall of word lists, healthy male college students, 23404
short & long term imipramine & lithium, shock stress induced escape failure & acetylcholinesterase activity, male rats, 17847
short vs long term relaxation training vs biofeedback vs microelectrical therapy vs multimodal treatment, adults with vascular/migraine vs muscle contraction headaches, 36 mo followup, 7804
signaled escapable shock pretraining, immunization against chronic learned helplessness of signaled inescapable shock, male rats, 20720
signaled shock, modulation of splenic natural killer cell activity & T-lymphocyte mitogenic responsiveness, male rats, 9316
signaled vs unsignaled shock, perceived shock intensity, college students, Canada, 20712
stimulation of rostroventromedial medulla, inhibition of nociceptive flexion reflex, male rats, evidence for inhibition at premotoneural level, 17767
strain & footshock stressor, intracranial self stimulation from mesocortex, mice, 14689
surgery & electrical stimulation, memory & other mental functions, 16–59 yr olds with chiasmal sellar tumors, 7853
tongue stimulation, somatosensory EPs, 18–72 yr olds with vs without peripheral & central lesions of afferent trigeminal pathway, 14521
transcutaneous electrical nerve stimulation &/or vibratory stimulation, 29 yr old male with chronic pain in right foot accompanied by involuntary movements of middle toes, 5517

Electro Oculography
calibration procedure combining measurement of EOG voltage & assessment of direction of gaze revealed by corneal reflection of target light, 2–3 mo olds, 4027
EOG & Arden Ratio, assessment of retinal pigment epithelium response, 30–72 yr olds with nonseasonal major depression, 30567
night call duty vs normal day work, EEG & EOG recordings, 29–38 yr old internists & surgeons, 6597

Electrocardiography
amitriptyline & amitriptylinoxide, EKG alterations & BP side effects & plasma metabolite levels, depressed 22–68 yr olds, 22252
covariation & reliability of EKG parameters during monitoring, male cardiac patients, 20285
desipramine, plasma 2-hydroxydesipramine & EKG, depressed 20–51 yr olds, 28386
imipramine or desipramine, EKG effects, 4.6–17.6 yr old psychiatric patients, 19255
sertraline vs amitriptyline, EKG & cardiac conduction, hospitalized adults, conference presentation, 19283
tranylcypromine &/vs amitriptyline, EKG effects, depressed adults, 28364

Electroconvulsive Shock [See Also Electroconvulsive Shock Therapy]
antidepressant drugs & ECS, presynaptic & postsynaptic alpha-2-adrenoceptor function & clonidine induced hypoactivity & mydriasis, male mice, 23580
brain concentration of fluphenazine during ECS, rats, 12061
chronic ECS, local cerebral glucose utilization in regions of CNS, male rats, implications for mode of action of ECT, 32542
ECS, hormone release & brain adrenal steroid receptors, male rats, 9328
ECS, interstitial concentrations of dopamine & DOPAC & HVA & 5-HIAA & uric acid in striatum, male rats, 14680
imipramine or amitriptyline &/vs ECS, quinpirole induced serum corticosterone concentration, rats, 17751
naltrexone or alpha-2-adrenoreceptor antagonist or Ro 15-1788, ECS induced hypothermia, male mice, 23582
prenatal nicotine, pup susceptibility to ECS & perinatal maternal & pup behavior, female rats & their pups, 32572
repeated ECS, affinity & density of dopamine binding sites in various brain regions, male rats, 12046
repeated ECS, glial fibrillary acidic protein & ornithine decarboxylase & somatostatin & cholecystokinin immunoreactivities in hippocampus, rats, 14682
RO 15-1788 vs flurazepam, antagonism of seizures induced by stressful incremental ECS as measure of benzodiazepine receptor sensitivity, male mice, 574
single ECS on alpha-2 adrenergic receptors, acute vs time dependent effects, male rats, 596

Electroconvulsive Shock Therapy
ACTH, hypothalamic pituitary adrenocortical axis activity before & after ECT, 24–78 yr olds with major depression, 13147
acute transient & self limited manic syndrome as side effect to ECT, 16 yr old female with major depression & psychotic features, case report, 13133
age & ECT vs pharmacotherapy, depressed 65–80 yr old & older inpatients, 31048
American Psychiatric Association Task Force recommendations on stimulus electrode placement in ECT, 13193
antidepressants with ECT, length of hospital stay & delirium & relapse, young adult vs elderly depressed patients, 31016
atropine vs glycopyrrolate, post ECT amnesia, depressed elderly, 2272
benzodiazepines during ECT, therapeutic effects of ECT, depressed 28–85 yr olds, 5187
bilateral ECT, verbally agitated elderly with dementia, 31310
bilateral electrode placement in maintenance ECT, 25046
caffeine associated cardiac dysrhythmia during ECT, 85 & 77 yr old females with bipolar disorder & 84 yr old male with major depression with prior cardiac illness, 13160
change in methohexitone dose required to induce anesthesia, ECT outcome, depressed patients, 12 mo study, 25009
clinical aspects & cognitive effects of unilateral nondominant ECT, 13149
clinical efficacy of maintenance ECT, 63–77 yr olds with major mood disorders, commentary on longitudinal study with reply included, 15953
clomipramine & fluoxetine & sex & electrode placement & age & seizure duration, ECT induced prolactin release, depressed 22–78 yr olds, 33898
cognitive function & subjective memory, patients treated with more than 100 bilateral modified sine wave ECT treatments, 34193
combined ECT & neuroleptic therapy, schizophrenic 15–65 yr olds resistant to neuroleptics, 7–10 yr followup, 15997
continuation of outpatient ECT, client with major depression, erratum, 25018

biological substrates & arousal & endorphins & other psychobiological factors, development of pathological gambling behavior, fruit machine gamblers, 33494
chronic ethanol treatment & naloxone, novelty induced antinociception & hypothalamic beta endorphinlike immunoreactivity & inhibitory avoidance task performance, female rats, 23651
circadian fluctuations of plasma interleukin-1B & beta endorphin during normal vs disturbed sleep, 25–26 yr old females, 32456
CSF & plasma beta endorphin & cortisol levels, female 2.7–23 yr olds with Rett syndrome, 33668
CSF beta endorphin like immunoreactivity, delirious 60–88 yr olds, Finland, 1 yr followup, 10353
desenkephalin-gamma-endorphin, schizophrenic patients, 10688
dl-phenylalanine, symptoms associated with betaendorphin decline, 24–29 yr old females with late luteal phase dysphoric disorder, 2204
ECT & hypothalamic pituitary adrenal axis adaptations, beta endorphin immunoreactivity response, depressed 27–82 yr olds, 34248
estimation of somatic afferent nerves & activation of central opioid systems during prolonged rhythmic exercise, implications for treatment, 542
experimental pain thresholds & plasma levels of beta endorphins & cortisol & catecholamines before vs during vs after physical exercise, male 20–46 yr olds, 23293
hippocampal dynorphin B neurochemical variation, exploratory behavior, inbred male mice, 29630
icv beta endorphin, microdialysis assessed dopamine overflow & release in nucleus accumbens & induced locomotor activity & reinforcement, anesthetized vs freely moving male rats, 32693
intrathecal saline placebo injection, peak beta endorphin in CSF, chronic pain patients, 5021
lateral ventricular infusion of dynorphin A & beta endorphin antiserums & naloxone, frequency of lateral hypothalamic self stimulation, ad libitum fed vs food deprived rats, 14735
multimodal inpatient treatment, CSF beta endorphin levels, 31–68 yr olds with chronic low back pain with vs without major depression, 15979
naloxone & beta endorphin, retrieval effects & novelty induced antinociception, 30–90 day old rats, 26902
opioid system & plasma levels of beta endorphin, chronic alcoholic patients, 7505
plasma beta endorphin & cortisol levels, autistic 26 yr olds, case reports, 24517
postsession & presession beta endorphin, retention, rats, 6868
prior exposure to inescapable electric shock & reexposure to cues associated with shock, pituitary & central levels of immunoreactive beta endorphin, male vs female rats, 29715
restraint stress & plasma corticosterone & beta endorphin levels, immune function, rats, 577
Endurance [See Also Physical Endurance, Psychological Endurance]
adherence to training, mood & self motivation, female college students working toward position on rowing team, 17104
job analysis & physical abilities tests in assessment of strength & endurance & movement requirements in occupational tasks, 34783
tactile & pain threshold & tolerance & range of endurance, 28–64 yr olds with vs without angina, 7739
Energy Expenditure
age & sex, heart rate & perceived exertion during muscular work, 10–14 vs 18–47 yr olds, 6917
caloric & nutrient & physical activity & resting metabolic rate, male 18–29 yr old smokers vs nonsmokers, 33063
colony energy stores, responses to predation risk during foraging behavior, bumblebees, 26562

social comparison, perceived fairness of organizational procedures, college students, 26005
social justice theory & perceived fairness of parental leave policies, university faculty, 26026
Erection (Penis)
antecedent copulation & thoracic spinal block, penile erections & sexual reflexes, male rats, 9431
categorical vs multiaxial diagnosis, males with erectile disorder, 24949
covert sensitization & social skills training, penile tumescence, 24 yr old White male obscene telephone caller, case report, 1 yr followup, 28293
dopamine agonists FDA 24 & FDA 27F & FDA 40, penile erection & stretching & yawning, male rats, 17842
erectile & sexual dysfunction, patients with penile curvature due to heredity vs Peyronie's disease, 30987
exogenous testosterone & exposure to erotic film prior to sleep, REM sleep & nocturnal penile tumescence, male 20–28 yr old medical students, 3829
Ginkgo bilboa extract, penile rigidity & arterial flow, males under 70 yrs old with erectile impotence, 28382
home vs hospital nocturnal penile tumescence monitoring vs neurological & vascular & hormonal analysis, impotent patients, 15898
metoclopramide, apomorphine induced yawning & penile erection, male rats, 29820
neuroleptic induced priapism & hepatoxicity & impotence, 59 yr old male with depressive psychosis, case report, 16213
omega-conotoxin GVIA vs nimodipine vs verapamil vs flunarizine, ACTH induced yawning & stretching & penile erection, male rats, 643
penile plethysmography, assessment & treatment of sexual deviance, 18769
prevalence & onset of erectile problems in relation to cognitive impairment & age & depression, elderly with Alzheimer's disease, 5125
psychotropic medication, development of priapism, literature review, 10773
sensitivity & specificity of phallometric test of erotic preference for minors, male 18–55 yr olds vs sex offenders against female adults vs minors, 27638
sex therapy & intrapenile injections, impotent males, 25042
sexual vs general imagery training, fantasy induced sexual arousal, 19–26 yr olds with nonvivid imagery & history of low penile responsiveness to imagined erotic stimulation, 10537
unwanted erections associated with obsessional intrusions, male 38 & 43 yr olds with obsessive compulsive disorder, case reports, 15539
viewing of sexual vs nonsexual videotape with ongoing verbal description, voluntary control over sexual arousal & erection, 21–40 yr old males, 17718
vividness of imagery in different sensory modalities, fantasy induced levels of physiological & subjective sexual arousal & erection enhancement, male college students, 20665
Ergonomics [See Human Factors Engineering]
Ergot Derivatives [See Also Bromocriptine]
dihydroergotoxine, active avoidance conditioning & locomotor activity & norepinephrine & dopamine sensitive adenylate cyclase activity in frontal cortex, 4 vs 24–26 mo old rats, 29803
hydergine, smooth pursuit eye movement changes & auditory EP late positive component latency, 56–87 yr olds with primary degenerative dementia, 2227
nicergoline vs ergoloid mesylates, patients with mild to moderate dementia, Italy, 19256
prolonged postpartum amenorrhea after removal of infant at birth & self stimulation behaviors & bromocryptine mesylate or pergolide effects, female chimpanzees, 32496
2-bromolisuride, locomotor activity, male rats, 29801
3 mg vs 12 mg daily dose of ergot mesylates, memory & figure drawing & mood & psychiatric symptoms, patients with Alzheimer's disease, 1 yr study, 16266

Erikson (Erik)
ancient Greek time frame Kairos & early work of E. H. Erikson, 29136
differentiation of hopelessness & helplessness & powerlessness using E. Erikson's "Roots of virtue", 30–42 yr old psychiatric patients, implications for psychiatric nursing, 13489
J. Stott & E. H. Erikson's application of responsibility & judiciousness to problems of technology & pluralism in modern society, applications for church ministry, 9706
Eroticism
content analysis & ratings of coercive or violent acts in sexually explicit pornographic or erotic films, college students, 18280
exogenous testosterone & exposure to erotic film prior to sleep, REM sleep & nocturnal penile tumescence, male 20–28 yr old medical students, 3829
hostile & erotic & dependent transferences, patients with multiple personality disorder, 28202
mythic status of "original" object & postmodernism & eroticism & psychoanalysis, 3028
visual erotic stimuli, testosterone & LH & prolactin & cortisol & ACTH plasma levels, 20–26 yr old males, 9256

cognitive & motivational & emotional & intentional factors in error analysis of traffic behavior, conference presentation, 11250
curriculum based measurement with vs without skills analysis word & error list, spelling achievement, special education students, 25950
deviation between activity & task in error analysis, application to driving behavior research, conference presentation, 11249
driver safety margin as focus of error research, conference presentation, 11242
operation of repair mechanism of defective procedural knowledge base, errors in solving physics problems, students, 29436
performance level & error distribution on Progressive Matrices test, Ethiopian immigrant vs native Jewish 9–16 yr olds, Israel, 23839
simulation index for detection of factitious errors on WAIS-R & Wechsler Memory Scale, patients with severe vs minor head injury with simulated impairment, 26237
spelling errors on written confrontation naming task, Thai speaking 55 yr old with conduction aphasia, 33686
spontaneous writing errors, normal college students vs patients with conduction vs Wernicke's vs Broca's aphasia, 27951
task competition & attention distribution & time pressure, task & error analysis of traffic accidents, drivers, France, conference presentation, 11251
tracking error & heart rate & control handle strength measurements of emotional tension in development of visual motor tracking skills, adults, implications for pilot performance estimation, 29656
visual vs spoken feedback & structure of error correction dialog, data entry accuracy, 16–55 yr olds, 23027
Error of Measurement
amount of trait & method & error variance of measures used in social/behavioral sciences & personality & attitude measures, 3054
C. J. Bartlett's methodology for controlling illusory halo error in ratings from summated forced choice rating scales, 32106
causal model of halo error in ratings, 3230
conditional standard error of measurement at specific score on ability levels, 3248
error variance & load effect detection in dual attention & motor task interference, adults, 17332
errors in measurement & reliability of acceleration stress tolerance, male 22–31 yr olds, 17744
false positive rate & value of psychological tests in personnel selection, 28965
FORTRAN program to locate errors in research data collected from questionnaires, 17163
incidence of Type I errors in mental retardation articles published in "American Journal on Mental Retardation" & "Journal of Mental Deficiency Research", 1988, 15704
individual differences vs random error in measurement of perceptual asymmetry scores on laterality tasks, 17–40 yr olds, 14149
linear equating methods for error equation of admissions test scores, college students, Israel, 19890
LISREL model in estimation of simplex models using negative variances, 26280
method for teaching concepts of measurement error & reliability, psychology students, 22705
prototype for identification & reduction of measurement error in patient classification process, raters, 33865
scale selection, error in calibration of item & ability parameters, 17156
sources of error in common factor model in factor analysis, 20282
standard errors of measurement values & Wechsler Memory Scale Revised, 17289
standard errors of prediction & confidence interval tables for Vineland Adaptive Behavior Scales, 8860
statistical procedure for identification & correction of systematic error in oral examination ratings, medical specialty candidates, 20287
Type I error rates for independent samples Hotelling's T2 with heteroscedastic variance covariance matrices & small ratios of unequal sample sizes, 151
WAIS-R administration errors, graduate students, implications for training, 26142
Error Variance [See Error of Measurement]
Errors [See Also Error of Measurement]
A not B error in searching, 5–11 mo olds in Piaget's Stage IV of development, Spain, 6941
ability to adopt perspectives & detect errors in auditory text, 2nd vs 4th graders, 15032
analysis of grammatical errors in speech production, aphasic 66 yr old male, 7 mo study, 27785
analytic system for detecting design flaws in visual displays of charts & graphs, analysis of multipaneled display appended, 14376
cognitive structure of social relationships & patterns of substitution & errors in confusing 1 person with another, adults, 24129
common errors made by interpreters in communication with Spanish speaking patients, 14 yr old male & 40 yr old female suicidal patients, 18773
correspondence errors in counting objects, moderately mentally handicapped 12–17 yr olds, Ireland, 27734
critical incident analysis, assessment of errors in investigation & management of child abuse, social workers & related professionals, 2436
detection of error in group label, college students, 4397
discrepancies between spoken & signal classroom utterances & interpreter difficulties, confusion & miscommunication, deaf college students, 25907
divided vs focused attention, RT & visual vs auditory EPs during correct vs incorrect trials in choice reaction task, 15–43 yr olds, 32779
error as integral aspect of skill development, implications for driving behavior, conference presentation, 11245

error backpropagation learning algorithm in feedforward neural network models, 3415
error correction capability of associative memory M-ary neural network model vs bipolar Hopfield neural net, 17505
error rates & manual RTs, 20–50 yr old stutterers, 30770
error training, computer skills & performance, 17–50 yr old novice users, 26306
errors in estimation of weightbearing at 3 target levels during bilateral upright stance, patients with neuropathic feet, 27775
errors vs violations in self reported driving behaviors, 20–78 yr olds, conference presentation, 11252
Evaluative Classification of Mismatch scheme for analysis of human vs user system errors, systems design team members, 26046
extensional vs intuitive reasoning, conjunction fallacy vs misunderstanding in probability judgment, commentary, 3379
failure types & psychological precursors & unsafe acts & breakdown of defenses in road accident causation, conference presentation, 11254
frequency & type of errors on K-ABC, certified &/or licensed clinical & school psychologists, 2675
frequency & type of examiner errors on Wide Range Achievement Test-Revised, standard scores, practitioners in metropolitan school district, 34768
human error models & prediction of traffic accident scenarios, implications for road transport system design, conference presentation, 11247
identification of errors in administration & scoring of WISC-R, master's level counselor education & rehabilitation counseling students, 8758
inferential skills in problem solving & response to errors on pattern recognition task, learning disabled 7.8–16 yr olds with arithmetic with vs without word recognition disabilities, Canada, 7591
instructional vs frustrational level reading materials & grade level, miscue patterns & word recognition in oral reading errors, learning disabled 2nd–11th graders, 13896
intrusion errors & cholinergic system, 60–90 yr olds with major depression & degenerative or vascular dementia, 21373
misdiagnosis of conversion disorder, psychiatric emergency service clients, 27500
model of likelihood of misrepresentation in learner vs teacher generated selection vs mapping components of analogical processes, literature review, educational implications, 25871
morphological impairment vs organization of lexicon as source of errors on picture naming task, brain damaged male 33 yr old, Belgium, 33761
penalty time for incorrect response, matching & oddity learning, pigeons, 20508
perception & attention errors in information acquisition, design of man machine transportation systems, conference presentation, 11337
phonemic segmentation skills & nature of spelling errors, children with normal vs poor reading & spelling skills, 23835
phonological errors & validity of speech data & research, 3340
phonological structure & evaluation & remediation of sign language production errors, learning impaired vs hearing vs mentally handicapped children, 18822
presentation of correct answer vs requirement to rework problem in computer based map interpretation task, error remediation, male Army aviation students, 6164
presynaptic vs postsynaptic unit activity & biological support for error correcting learning rule in neural networks, 32279
probability of directional errors with 2-factor design of disordinal interaction, 26300
relation among low level reading skills & sentence verification & error detection, 4th graders, 4116
reliability & accuracy of perception & transcription of spontaneous slips of tongue, listeners, 20363
response options & presentation format, reasoning errors, college students, 14358
role of conceptual relatedness of proper names in recognition of errors in sentences, college students, 26443
role of error in human system interactions, conference presentation, 11340
role of errors in acquisition of skills during driving task computer simulation, conference presentation, 11244
self correction rates in oral reading, reading acquisition, good vs poor reading 1st & 2nd graders, 5909
self monitoring vs IQ & age, recall of errors, 50–86 yr olds, conference presentation, 9574
speeded response to pictures of high & low frequency names, nature of errors, college students, England, 32272
spelling errors, learning disabled 7–14 yr olds vs normal 1st–5th graders, implications for instruction, 18840
spoken vs written English errors, hearing impaired college students, 10377
talker's repair strategy in continuous discourse tracking utterance repetition task, responses, profoundly hearing impaired & temporarily deafened normal adult listeners, 33779
target size & stabilized touchscreen vs mouse, speed of performance & error rates & preferences, college students, application of Fitt's Law, 29063
target true vs false belief of location of object with vs without implicature of E purpose in questioning, prediction of initial searching behavior, 3–4 yr olds, 20947
theories & actual errors in fraction learning, 11–15 yr olds, implications for intelligent tutoring systems, 16868
types of intrusive errors on FULD Object Memory Evaluation, mildly & moderately impaired patients with Alzheimer's disease vs multiple cerebral infarctions vs major depression, 33259
use of mal-rules & algebra errors, 13–14 yr old secondary school students, 11110
variable error & limit to traffic environment adaptation, drivers, conference presentation, 11241
visually vs orally presented primes, problem specific retrieval processes vs answer representation in multiplication, college students, 26456
word length &/vs erroneousness, word interruption, speakers, France, test of W. J. Levelt's theory of self repairing, 20823

Erythrocytes
antidepressants, erythrocyte membrane transport & plasma tyrosine & tryptophan & phenylalanine, depressed adults, 13376
chlorpromazine or amitriptyline, antibody response to challenge with sheep erythrocytes in presence of saccharin flavored water, mice previously exposed to cyclophosphamide, 9394
emotional stress, polycythemia, male Type A vs Type B 20–34 yr old medical students, 21868
erythrocyte choline concentrations, 18–83 yr olds with neuropsychiatric disorders, 21398
erythrocyte lithium-sodium countertransport activity during lithium prophylaxis, 37–70 yr olds with bipolar affective illness, 28371
erythrocytes, 70–90 yr olds with Alzheimer's disease vs multi-infarct dementia, 18874
fluorescence polarization measures of membrane order of erythrocytes, alcoholic adults, implications for ethanol pharmacodynamic tolerance as alcoholism marker, 12905
interleukin-1 & muramyl dipeptide, antibody response to sheep red blood cells following 8 hrs of sleep deprivation, male rats, 9364
lithium transport across erythrocyte membrane & passive lithium diffusion, schizophrenic vs depressed 19–52 yr olds, 21546
lithium treatment & osmotic strain & elevation value & number of erythrocyte membrane vesicles, 20–84 yr olds with major depressive or manic bipolar affective disorder, 2205

progressive muscle relaxation training, sympathetic nervous system activity, 28–53 yr olds with essential hypertension, 16182
pulse wave velocity & thermal biofeedback & relaxation pretraining, BP decrease, White male 30–65 yr olds with essential hypertension, 13339
research & processes of biofeedback & relaxation techniques, patients with essential hypertension, 7913
sex & normal family arguments, BP & conversation, 32–73 yr olds with essential hypertension & their partners, implications for treatment, 33675
Esterases [See Also Acetylcholinesterase, Cholinesterase]
psychological stress, changes in response of peripheral blood leucocytes to gamma irradiation & phorbol ester, adults, 3744
Estimation [See Also Statistical Estimation, Time Estimation]
ability to estimate set sizes & use reference points in mathematics task, 4–6 yr olds in preschool & kindergarten program for potentially gifted, 14967
base rates, sex stereotypes in estimation of target height, college students, 4452
behavior frequency & number of behaviors monitored & time delay, counting vs estimation accuracy in behavioral assessment, college students, 32144
category difference enhancement vs reduction, estimate of category means, college students, 20398
category effects, reports from memory & estimation of spatial location of dot in circle, adults, 32280
computational estimation performance & strategies, 5th vs 8th graders, Japan vs US, 15015
context, estimation skill, elementary school children, implications for mathematics education, 16818
counting vs frequency estimation, accuracy in behavioral assessment of word frequency, college students, 300
equity vs ridge vs OLS vs principal components estimators, response function estimation for pharmaceutical products, 20086
estimation of own vs another known person's personality test scores, college students, 18370
estimation of WAIS-R IQ from Shipley Institute of Living Scale for Measuring Intellectual Impairment, 15–73 yr old male psychiatric inpatients, replication, 32096
method for estimation of cumulative impact of multiple hydroelectric development on foraging areas, elk & mule deer, conference presentation, 26523
mirror feedback, body width estimation, 12–18 yr old females, 20834
participation in activities for development of estimating skills, achievement in & retention of metric application skills, 7th graders, 19791
processes in & contextual effects estimation of relative frequency & proportion judgment, adults, 308
productivity estimation in psychiatric nursing, 16560
somatosensory EPs, estimation of sensory disturbance, stroke patients, 7756
training in algorithmic decomposition, quantitative estimation performance using extended vs full algorithms, adults, 26406
universal approximation by radial basis networks, 32257
valence of own group & overestimation of consensus, social projection, adults, reanalysis of meta analysis, 7192
validity of image marking estimates of body width, assessment of body image & satisfaction, healthy females, 24269
Estradiol
cholesterol vs 17 alpha estradiol in paraventricular nucleus, food & water intake & body weight, female ovariectomized rats, 647
distribution of 3H estradiol concentrating neurons in brain & pituitary, gonadectomized male & female oyster toadfish, 17679
embryonic treatment with estradiol vs testosterone, sexually dimorphic behaviors, male vs female chicks, 29911
estradiol & novel or familiar diet, taste aversion & suppression of food intake, ovariectomized rats, 12030
estradiol & progesterone, sensitivity to pain & morphine induced antinociception, ovariectomized rats, 29899
estradiol benzoate, dominance relationships & social rank, ovariectomized heifers, 3823
estradiol benzoate vs progesterone, dendritic length of neurons in ventromedial nucleus of hypothalamus, female hamsters, 3916
estradiol, effects of testosterone on extinction of conditioned taste aversion, rats, 6776
estradiol treatment of mates, behavioral & hormonal & morphological responses, male pied flycatchers, 20801
estradiol vs progesterone vs estradiol benzoate, home cage & maternal aggression & maternal behavior latencies, female rats, 3912
estradiol vs progesterone vs testosterone, sexual behavior, female pigs, 14767
intrahypothalamic implants of norepinephrine, estradiol & progesterone facilitated lordosis, ovariectomized female rats, 669
iv progesterone & estradiol benzoate, lordosis onset & duration, female hamsters, 32641
long term estradiol, choline acetyltransferase activity & acetylcholine content & nicotinic autoreceptor function, female rats, 3897
norethisterone & its metabolites with vs without DHT or estradiol, restoration of sexual behavior, castrated male rats, 14820

ovariectomy with vs without testosterone & estradiol, aggression toward unfamiliar intruder, female rats, 32484
RU 486, lordosis, estradiol benzoate primed ovariectomized female rats, 3928
serum estradiol implant concentration, maintenance of body weight & attractiveness & proceptivity & sexual receptivity, ovariectomized female rats, 23628
striatum estradiol vs cholesterol treatment, behavior & dopamine receptors, ovariectomized rats, 3937
testosterone vs estradiol, scent marking & related behavior & morphology, female gray short tailed opossums, 14757
17-beta-estradiol with vs without cyclic nucleotides, in vitro ventral hypothalamus neurons, ovariectomized guinea pigs with vs without estrogen pretreatment, 713
Estrogen Antagonists [See Antiestrogens]
Estrogens [See Also Estradiol]
bilateral lesions of sexually dimorphic nucleus in preoptic/anterior hypothalamic area, androgen & estrogen dependent sexual behaviors, male ferrets, 613
dopamine receptor supersensitivity & endogenous estrogens, female 23 & 25 yr olds with postpartum psychosis & abnormal extrapyramidal movements, case reports, 7444
estrogen & progesterone, agonistic & scent marking & sexual & proceptive behaviors, sexually mature female mammals, 14630
estrogen & testosterone, proenkephalin messenger RNA levels in ventromedial hypothalamic nucleus & lordosis & reproductive behavior, gonadectomized male vs ovariectomized female rats, 17910
estrogen &/vs androgen, restoration of catecholamine function in hypothalamic vs auditory vs vocal control nuclei, castrated male zebra finches, 3813
estrogens, prolactin secretion, male vs female 18–32 yr old transsexuals, 9392
ethinyl estradiol, plasma levels of estrogen stimulated neurophysin as neuroendocrine marker of receptor function, healthy vs anorexic vs puerperal females, 18417
formation & metabolism of catecholestrogens before vs during treatment with tranylcypromine, patients with endogenous retarded depression, 7934
lordosis inducing estrogen & progesterone, activity level & somatosensory responsiveness of hypothalamus neurons, female golden hamsters, 738
normal menstrual cycle vs exogenous estrogen, female noncopulatory vs proceptive calls & male response, lion tailed macaques, 6 yr study, 14593
objections to estrogen treatment of adult male with severely physical aggressive behavior & dementia, male vs female physicians, 28342
plasma concentrations of estrogen stimulated neurophysin & delayed response to estrogen, 44–70 yr olds with Alzheimer's disease vs other disorders, 18889
Premarin during latter half of menstrual cycle, mental & physical symptoms, 22–44 yr old females with moderate to severe PMS, 31194
prenatal diethylstilbestrol, development of gender role behavior, female 17–30 yr olds, replication, 17882
progesterone &/vs estrogen priming, aggressive & maternal behavior induced by mechanical vaginocervical stimulation, multiparous vs nulliparous ewes, 32507
use of information in decision to use estrogen replacement therapy, perimenopausal females, 13444
Estrus
asynchrony within seasonal synchrony of estrous cycles, female ringtailed lemurs, 17630
horn size & age, activity patterns during rut, hunted vs unhunted Dall sheep rams, conference presentation, 26640
male & female pheromone chemosignals, plasma corticosterone level, female mice in estrous, 11984
sex & estrous cycle phase, anxiolytic effect of diazepam vs buspirone vs indorenate vs ipsapirone, rats, 6806
zinc sulfate & occlusion of nasopalatine canals, discrimination between estrous & nonestrous ewe urine odors, rams, 14638
6-methoxy-2-benzoxazalinone & photoperiod & male urine, estrus induction, female prairie voles, 17746
Ethanal [See Acetaldehyde]
Ethanol
absorption profiles of ethanol, healthy 20–60 yr old males, implications for DUI litigation, 23674
abstinence, ethanol consumption induced by cue exposure, male rats, 6836
acamprosate vs diazepam, alcohol induced behavioral preference toward alcohol & blood alcohol level & cortical microvascular network, rats, 32603
actions & interactions of zopiclone & triazolam & alcohol, performance & memory, 20–28 yr olds, 699
acute aspartame vs alcohol ingestion, cognitive performance, pilots, 29925
acute chronic ethanol, N-methyl-D-aspartate stimulated catecholamine overflow in cortex vs hippocampus vs striatum, male rats, 26837
acute ethanol & dietary folate deficiency, maternal fetal folate transfer, female rats, 29853
acute ethanol, esophageal sphincter motility, cats, 20766
adenosine agonists & antagonists & enprofylline, ethanol induced motor incoordination, male mice, 14747
alcohol & drug interactions, 20779
alcohol, brain development & CNS damage, animals, implications for alcohol related developmental disabilities in humans, 20815
alcohol, serotonin & tryptophan blood levels, male healthy 19–34 yr olds vs nondrinking depressed patients, 33425
aminotriazole, development of & tolerance to ethanol induced hypothermia & narcosis, rats, 32697
amphetamine vs propranolol vs pyrroxanum vs methysergide vs 5-methoxytryptamine, behavior & learning & memory, ethanol dependent male rats, 3886
artificial rearing with vs without postnatal ethanol, stress induced plasma corticosteroid & conditioned emotional responses, male vs female rats, 32505
average weekly alcohol consumption & self ratings of intoxication after acute dose of ethanol, 18–34 yr old twins, Australia, 21672
body weight, ethanol induced saccharin aversion, male rats, 9366
caffeine & bombesin, ethanol & food intake, water vs food deprived rats, 23573
CGP 39551 vs MK-801, ethanol induced locomotor stimulation, male mice, 32639
chlordiazepoxide, maintenance of ethanol tolerance & dependence, male mice, 29756
chlormethiazole, convulsive behavior during ethanol withdrawal, male mice, 6816
chronic ethanol, BP & basal sympathetic nerve activity & heart rate & baroreflex sensitivity & hypertension, male rats, 32678
chronic ethanol, glutamate binding in hippocampus, rats & alcoholic males, 4836
chronic ethanol, high density lipoprotein subfractions, male rats, 29854
chronic ethanol, short & long term EEG & auditory EPs, rats, 32590
chronic ethanol treatment & naloxone, novelty induced antinociception & hypothalamic beta endorphinlike immunoreactivity & inhibitory avoidance task performance, female rats, 23651
chronic ethanol vs chlordiazepoxide, aggressive behavior, rats, 14764
chronic ethanol vs ibotenic acid, cholinergic deafferentation of cortical mantle & cognitive processes, rats vs brains of Alzheimer's & Korsakoff's disease patients, implications for animal model, 7608
chronic or intermittent ethanol during or while protected from hypothermia, learned & cellular tolerance, male rats, 17883
chronic vs acute tetrahydrocannabinol vs cocaine, ethanol intake, rats, animal model of multiple drug use, 29866
convulsive drugs, handling induced convulsions after cessation of chronic ethanol vapor inhalation, withdrawal seizure prone vs resistant mice, 32584

corticotropin releasing factor, anxiogenic response to ethanol withdrawal, male rats, 23636
cyanamide vs 4-hydroxypyrazole, ethanol brain catalase interaction, rats, 29740
desglycinamide-(ARG8)-vasopressin, acquisition of free choice ethanol drinking, rhesus monkeys, 20767
development of strains with genetic susceptibility to severe or mild ethanol withdrawal, mice, animal model of alcohol dependence & withdrawal, 14743
diazepam vs RO 15-1788, ethanol induced autonomic & motor impairment, male rats, 3927
dihydrotestosterone, rate of ethanol elimination, healthy male 25–44 yr olds, 29937
dopamine beta hydroxylase inhibitor FLA-57, conditioned taste aversion & ethanol intake, male rats, 23629
dosage & injection time of benzodiazepine receptor inverse agonist Ro-4513, ethanol discrimination, female C57BL/6 mice, 29869
duration of chronic ethanol, impulse reactions & morphological structure of lingual nerve taste receptor, frogs, 23660
early ethanol consumption, alcohol motivation, male rats, animal model of alcohol abuse, 23719
electric footshock stress, alcohol vs water preferences, male rats, 14685
ethanol & secobarbital, male college students with positive vs negative family history of alcoholism, 10173
ethanol & white noise induced arousal & presence vs absence of word order cues, free recall of intentionally learned words & incidentally learned word locations, 19–30 yr old males, 17867
ethanol, acetaldehyde dehydrogenase associated DNA polymorphisms, alcohol preferring vs avoiding mice, 29750
ethanol challenge, EEG alpha activity, 18–25 yr old sons of alcoholics, 30698
ethanol, conditioned tolerance, male mice, 6859
ethanol discrimination learning, acute tolerance & open field behavior, female mice & rats, 6822
ethanol dose, locomotor activation & depression, 23 genotypes of mice, 29786
ethanol, expression of neuromuscular acetylcholine receptor alpha subunit gene in soleus muscles, male rats, animal model of chronic alcoholism, 29822
ethanol, hypothalamic response to clonidine & pituitary response to growth hormone releasing hormone, female rats, 29766
ethanol, hypothermia & locomotor activation, long sleep vs short sleep inbred mice, erratum, 3855
ethanol in high ambient temperature, body temperature regulation, male rats, 9395
ethanol in home vs unfamiliar environment, DOPAC & HVA in various brain areas, ethanol tolerant male rats, 14810
ethanol infusion, placental blood flow & fetal glucose metabolism, pregnant sheep, 3856
ethanol inhalation, behavioral effects on FR 24 vs 50 liquid vs continuous reinforcement schedule of intracranial self stimulation, male rats, 29810
ethanol, inhibition of acetylcholine & adenosine triphosphate induced vascular relaxation, rats, 20755
ethanol initiation, pattern of later drinking behavior in continuous access situation, male rats, 17915
ethanol, inositol 1,3,4,5-tetrakisphosphate brain metabolism, rats, 20741
ethanol intake & whole blood & plasma selenium levels & glutathione peroxidase activity & lifestyle variables, 22–76 yr old light to moderate drinkers vs abstainers, 18300
ethanol mediated taste aversions & state dependency, 16 day old rats, 9098
ethanol, morphologic features of cultured astrocytes, rats, 26849
ethanol, N-methyl-D-aspartate evoked electrophysiological activation of medial septum neurons & behavioral activity, male rats, 29920
ethanol, normal food intake & eating behavior, male rats, 23714
ethanol or chlordiazepoxide, delayed matching to position & forgetting & signal detection sensitivity, male rats, 14817
ethanol, plasma alcohol vs erythrocyte aldehyde dehydrogenases vs blood ethanol vs acetaldehyde levels, Caucasoid vs Mongoloid genotype 25–45 yr olds, 6858
ethanol preference & intake, rats of Harrington derivation of Maudsley reactive vs nonreactive strains, 29734
ethanol pretreatment, prevention of putative anxiogenic effect of beta phenylethylamine on social & individual behavior, male albino SHR vs C57B1/6 mice, 3921
ethanol, rate depression in water reinforced behavior, alcohol accepting vs nonaccepting rats, 12106
ethanol, reinforced variability vs repetition under multiple schedule, male rats, 653
ethanol, reinforcement & neurosensitivity to ethanol, long & short sleep mice, 6799
ethanol, responses under FR schedules of point gain reinforcement & point loss avoidance, 20–36 yr olds, 29874
ethanol, rewarded repetition vs variation, male rats, 3915
ethanol, risk assessment & movement arrest & inhibition of nondefensive behaviors in presence of threat stimuli, adult rats, methodological considerations, 6767
ethanol, stress induced tachycardia & mood & mental performance, medical students with high vs low trait anxiety & high vs low alcohol consumption patterns, 14884
ethanol superfusion, M current in hippocampal slices, male rats, 716
ethanol, taste reactivity vs avoidance vs place conditioning, male rats, 9375
ethanol, thermoregulatory functions & metabolic rate, 2–15 day old rats, 20806
ethanol, time course of tolerance development & decay of miniature end plate currents from muscles, long vs short sleep male mice, 29736
ethanol tolerance & sensitivity & related traits, alcohol preferring vs nonpreferring rat lines selected for high vs low ethanol intake, animal model of alcoholism, 26859
ethanol, visual presence or absence detection thresholds, male vs female college students, 3809
ethanol vs chlordiazepoxide, reward learning & memory, male rats, 673
ethanol vs cocaine vs opioids, drug seeking behavior & intake, Lewis vs Fischer 344 inbred rat strains vs D57BL/6J vs DBA/2J inbred mouse strains, 26861
ethanol vs pentobarbital, blood levels & objective performance & ratings of drug effect & liking & mood, healthy males with history of alcohol or sedative abuse, conference presentation, 7533
ethanol vs pentobarbital pretreatment, rapid cross tolerance, male rats, 29842
ethanol vs water solution with vs without food, stability & presence of ethanol reinforced behavior, male monkeys, 17887
ethanol, waking & sleep variations in vigilance states, male alcohol dependent rats, 12151
ethanol with vs without divided attention task, EEG alpha activity & auditory EPs & subjective reports of intoxication, 25–39 yr olds, 6843
ethanol with vs without Ro 15-4513, discriminative stimulus specificity & effects & tolerance, rats, 29792
ethanol with vs without zopiclone or nitrazepam, immediate & overnight effects on psychomotor performance & memory, 18–50 yr old females, 687
familial alcoholism density, psychophysiological responses to ethanol, male college students, 30713
fat vs carbohydrate diet preferences, ethanol intake, male rats, 32630
fluid deprivation or saline, intake of tap water vs ethanol solutions, male golden hamsters, 575
flumazenil, reversal of ethanol tolerance & dependence & induced ataxia & hyperthermia & chloride ion uptake, male mice, 32575
fluorescence polarization measures of membrane order of erythrocytes, alcoholic adults, implications for ethanol pharmacodynamic tolerance as alcoholism marker, 12905

fluoxetine vs desipramine & solution palatability, ethanol intake, alcohol nonpreferring female rats, 9389
food restriction & ethanol, suppression of natural killer cell activity, female mice, 20672
forced alcohol exposure, ethanol intake & synaptosomal 3H-serotonin uptake in hippocampus & cortex & hypothalamus, male Fawn-Hooded rats, 23652
ganglioside or sialic acid, ethanol induced decrements in locomotion & nose poke exploration & anxiety & body temperature, male mice, 17850
habituation to handling, naive behavior & stress responses, ethanol tolerant vs nontolerant male rats, 14803
haloperidol &/or ethanol, stereotyped behavior & tolerance & sensitization, female rats, 3976
heritability of susceptibility to locomotor stimulant effects of ethanol, selectively bred fast vs slow mice, 29895
hyperbaric exposure, ethanol induced depression of aggressive behavior during social confrontation, male mice, 26734
icv adenosine analogs varying in receptor affinities, ethanol induced motor incoordination, mice, 17832
incorporation rate of 3H choline vs ethanolamine into membrane phospholipids of platelets, drug free patients with Alzheimer's disease, 18946
indomethacin, ethanol self administration & intoxication, male rats, 12105
ingestion of baclofen with alcohol, development of delirium leading to coma, paraplegic male 37 yr old, case report, 10720
intake of high concentration ethanol vs palatable fluids, alcohol preferring vs nonpreferring rats, validation of genetic animal model of alcoholism, 32634
interruption of ethanol supply, subsequent drinking behavior, male monkeys, 3890
intubation with ethanol vs sucrose during pregnancy, fetal weight & soft tissue & skeletal malformations, reciprocally mated C57BL/6J vs long sleep mice, 3867
isoprinosine vs levamisole, sulfhydryl compounds in plasma & liver & brain after alcoholic liver injury, male rats, 29759
lead, antipunishment effects of ethanol, adult male rats, 17894
learning, ethanol tolerance development, 6841
leu-enkephalin & enkephalinamide, initial expression & maintenance of ethanol intake preference, male rats, 9434
low ethanol concentration, in vivo capacity of urea synthesis & alanine elimination & nitrogen retention, fed vs fasted rats, 20687
low vs high doses of ethanol, arterial pressure & cardiac output, male rats, 20788
MDL 72222, voluntary ethanol consumption, ethanol preferring male rats, 32593
MDMA, conditioned place preferences & ethanol intake & body weight, rats, 17817
MK-801 vs MK-801 isomer & N-methyl-D-aspartate receptor role, rapid ethanol tolerance in tilt plane & hypothermia tests, male rats, 29843
morphine dosage, ethanol intake, male rats, 32707
morphine, intake of beer with varied ethanol levels, male rats, 32653
morphine vs naloxone, ethanol intake, male rats, model of drug effect on alcohol intake & alcoholism, 32668
N-aminodeanol containing diet, replacement of free & phospholipid bound choline & N-aminodenol levels in plasma & erythrocytes, rat pups, animal model of Alzheimer's disease, 17873
N-aminodeanol replacement of dietary choline, behavior & physiological functions of cholinergic system, rat pups, animal model of Alzheimer's disease, 17912
N-methyl-D-aspartate agonists & antagonists, hypnotic response to acute ethanol, long vs short sleep mice, 6904
naltrexone & ethanol, restraint stress induced locomotor depression, male rats, 29934
naltrexone, puberty onset, fetal alcohol exposed prepubertal female rats, 29768
narcotic dose of ethanol & high atmospheric pressure, spontaneous locomotor behavior & convulsions, male rats, 14646
neurobiological mechanisms of alcoholic motivation, chronically alcohol treated rats & their offspring, 20731
neurochemical & behavioral properties of cocathylene vs cocaine, rats vs primates vs postmortem patients, 23672
nicotine vs oxotremorine vs ethanol, locomotor activity & body temperature, rats selectively bred for ethanol sensitivity, 29776
nizatidine dosage with vs without alcohol, psychomotor performance & memory & sedation, healthy elderly males, 14772
oral cocaine self administration, ethanol reinforced leverpressing behavior, male mice, 29809
oral ethanol vs iv low vs high dose diazepam, healthy 21–25 yr old males, implications for benzodiazepine abuse in alcoholic patients, 20800
parachlorophenylalanine, voluntary consumption of ethanol vs water vs food, genetically low vs high ethanol consuming rats, 6781
pharmacological & behavior & genetic factors governing development of ethanol tolerance, rodents, 14808
pimozide vs Schering 23390 vs phenoxybenzamine vs yohimbine, ethanol induced excitation, male mice, 6833
plasma noradrenaline & platelet alpha-2-adrenoceptor density, patients hospitalized for ethanol withdrawal vs elective gastroscopy, 5741
po self administration of ethanol, striatum ethanol concentrations, male rats, 32595
posttraining ethanol & group housing, memory of appetitive task, male mice, 32486
postweaning ethanol exposure, ethanol self administration & reinforcing properties, male rats, 26932
prenatal &/vs postnatal ethanol, CNS changes & behavior & neurotransmitters, rat pups, animal model of fetal alcohol syndrome, 29787
prenatal administration of alcohol, postnatal ethanol odor preference & intake, rats, 9371
prenatal alcohol exposure, spatial learning, male vs female adult rats, 23749
prenatal ethanol, cell proliferation in cerebral cortex, fetal rats, 29870
prenatal ethanol exposure, attentional impairment during discrimination task, rats, conference presentation, 12165
prenatal ethanol exposure, behavior, C57BL mice, animal model of fetal alcohol syndrome, conference presentation, 12088
prenatal ethanol, N-methyl-D-aspartate sensitive 3H-glutamate receptor binding site density, rats, 29910
prenatal ethanol, pregnancy outcome & offspring development & birth defects, alcohol sensitive long sleep vs resistant short sleep mice, 9287
prenatal ethanol, sexual preference, male rats, 32587
prenatal paternal alcohol exposure, grooming behavior, rat offspring, 17806
pretreatment with naltrexone or ethanol & restraint stress, locomotion & corticosterone levels, male rats, 14636
prior drinking history, ethanol vs diazepam effects on subjective intoxication & performance & prolactin & cortisol, male 18–25 yr olds, 29914
prostaglandin E2, alcohol vs water vs glucose consumption, male rats, 739
remoxipride &/vs ethanol or diazepam, sensory & cognitive & neuromotor performance, healthy volunteers, conference presentation, 6852
Ro 15-4513 & familiarity with environment, effect of ethanol on retention performance, male mice, 9369
sc administration of D-Ala-Met-enkephalinamide, acquisition of ethanol & sucrose preference, male rats, 6888
secobarbital vs ethanol, extended intoxication & increased withdrawal effects, male college students with vs without history of family alcoholism, 21690
selective breeding for insensitivity vs sensitivity to hypothermic effects of ethanol, mice, 9426

self administration initiation procedures, ethanol reinforced leverpressing, alcohol preferring rats, 29916
self evaluation vs O ratings of feelings of intoxication following ethanol & diazepam, healthy adult males, 714
sensitivity to & consumption of ethanol, male Fischer 344 vs Long-Evans vs Sprague-Dawley vs Wistar rats, 6830
sensitivity to ethanol induced motor impairment, alcohol tolerant vs nontolerant rat lines, 14799
sertraline vs mianserin with vs without alcohol, psychomotor & cognitive & CNS depressant effects, normal elderly, conference presentation, 17860
sex & prenatal ethanol & plasma testosterone vs progesterone vs estradiol titers, volume of sexually dimorphic nucleus of preoptic area, 14–31 day old rats, 26823
social behavior & dominance & deprivation, ethanol & diazepam intake, male rats, 29946
stimulus control of ethanol responding, male rats from high vs moderate drinking strains, 29827
subhypnotic doses of ethanol, locomotor activity, long vs short sleep inbred mice vs their F1 hybrids, 29896
tachykinins substance P vs neurokinin A vs NH/2-sektide, ethanol & water intake, alcohol preferring male rats, 29891
taste cues as CS, Pavlovian conditioned tolerance to ethanol induced hypothermia & flavor aversion, male rats, 23649
tetrahydropapaveroline in nucleus accumbens vs ventral tegmental area, ethanol preference, rats, 23658
valproate & picrotoxin, anxiolytic action of ethanol in nonshock conflict task, male rats, 3816
verapamil vs diltiazem, role of CNS in ethanol consumption, alcohol drinking monkeys, 32670
volatile organic solvents vs barbiturates & benzodiazepines & ethanol, CNS depressant effects, 26855
voluntary wheel running exercise, ethanol induced sleep, C57BL/6J mice, 23701
6-OHDA lesions of substantia nigra & apomorphine vs ethanol, classically conditioned stimulus control of rotation, female rats, 9305
6-OHDA lesions of tuberculum olfactorium vs nucleus accumbens, ethanol drinking, male rats, 29727
Ether (Anesthetic)
acute ether stress during chronic intermittent immobilization stress, corticotropin releasing factor receptors & pituitary adrenal responses, male rats, 14649
ether anesthesia & temperature decrease & mother exchange, postnatal testosterone surge & sexual differentiation, newborn male rats, 14668
novel environment vs immobilization vs ether, plasma & CSF oxytocin & vasopressin, male rats, 20686

cognitive developmental & experiential & attitudinal factors in coping with pain, children, 7740
computer simulation of eyewitness testimony paradigm, test of blended memories hypothesis, legal implications, commentary, 17534

content analysis of autobiographically consequential experiences, eminent psychologists, implications for adult personality development, 17995
coping patterns & current psychological functioning, nurses who served in Vietnam conflict vs other locations, 8318
dimensions of event damage, anger, college students, 21273
dispositions vs propensities, assessment of counterfactuals & causation & probability of events, 9844
ease of recall, subjective judgment of content of experiential recall, college students, 33131
emotional experiences, facial expressions, 8–12 yr old male psychiatric patients, 18419
emotional vs nonemotional retrieval cues, memory of experienced vs reported events, college students, 6489
event appraisal & discrete emotion elicitation, 11799
event memories & weighing vs communication context vs source vs exposure, construction of world view, college students, 17485
event salience, validity of metamemory reports for naturally occurring events, college students, 9054
event vs theme cue, recall of interevent relations & specific events, college students, 32277
events precipitating parents' decision to seek psychiatric hospitalization for child, school age children, 2523
experience of unemployment & coping factors, college graduates, implications for vocational counseling, 6010
experiences & expectations of hospitalization & illness attitudes, 20–51 yr old psychiatric patients, 13599
experiences & strategies for coping with transition, female immigrants, Canada, conference presentation, 32956
experiences with food & eating, associative conditioning of food acceptance patterns, elderly, conference presentation, 15075
extremity of event, magnitude of single vs multiple causal explanations of actions, college students, 30312
focused vs divided attention, free & cued recall of verbal & action events, college students, Sweden, 20430
frequencies of everyday life events & mental health, 60–80 yr olds with or without recent conjugal bereavement vs physical disability, 3 mo study, 5124
hypnotizability & hypnotists' attitude, secondary identity enactment & historical accuracy during past life regression, college students, 32308
identification with & type of peer group, coping with critical events, adolescent members of formal vs informal groups, Italy, 15059
intensity of emotional experiences, accuracy of long term memory, Nazi concentration camp survivors, 1943–47 vs 1984–87, 10144
intensity of happiness in given event & congruence between working self & ideal self, college students, 24240
interpretation of schizophrenic world using M. Heidegger's conception of Cartesian model of human experience, 12777
language descriptions & semantic dimensions of communication events in everyday life, 16–17 yr olds, 821
life conditions & problems, 15–18 yr olds with myelomeningocele, Sweden, 4922
life events & mood, prediction of common cold, adults, England, 24825
life events & social supports, survival & treatment stay & recovery from stroke, 26–95 yr olds, 1 yr followup, conference presentation, 10796
life events, relapse, schizophrenic adults, 1 yr followup, 4658
maladaptive thoughts & real life experiences, negative & positive affect, college students, 4420
memory & experience in case based planning, 8981
memory for stressful events, 3–7 yr olds, 18028
memory of auditory localization experience at 6.5 mo old, 1.6 & 2.6 yr olds, 20931
negative vs positive vs neutral events, physiological & cognitive & emotional & social responses, test of mobilization minimization hypothesis, literature review, 32481
occurrence of synchronistic event in therapy session, analysis of personal & archetypal symbolism of transference countertransference relationship, psychotherapist & patient, 13244
orientation to large vs small events, representation of real world events in memory & recognition vs recall, college students, commentary, 17531
orientation to large vs small events, representation of real world events in memory & recognition vs recall, college students, commentary reply, 23384
parental childcare beliefs & values & social networks & local neighborhoods, child experiences, parents & their 3 yr old children, 4154
perceived control over daily uplifts vs hassles, depression & restraint, 6th graders, 30498
perception of causal & noncausal events, 6 & 10 mo olds, 4096
perceptions of change & experiences in white water canoeing, 19–42 yr old mates with psychiatric disabilities, Canada, 28019
perceptions of coronary artery bypass surgery & postoperative processes, 51–73 yr olds, 34210
perceptions of usefulness of high school experiences, high school students, 1 yr followup, 22782
personal & family hospital experience, health beliefs & concerns & behavior, 10–11 yr olds, 22474
phenomena of composite & compromise recollections & computer simulation of eyewitness testimony paradigm, test of blended memories hypothesis, legal implications, commentary, 17551
phenomena of composite & compromise recollections & computer simulation of eyewitness testimony paradigm, test of blended memories hypothesis, legal implications, commentary reply, 23390
plays about dilemmas confronted in old age, content & facilitation of life review, elderly, 27140
preferences for temporal separation vs combination of emotionally positive vs negative events, college students, 15253
previous personal experience with disabled persons, reactions to depression expressed by disabled person, college students, 4956
rated importance of experiential component for learning group counseling concepts, college students in group counseling or group dynamics class, 25769
recall accuracy of dates of past events, males vs females, meta analysis, 11785
recollection of past words & deeds, orientation of present & future behavior, adults living in kibbutz or community of former Beduin, Israel, 24138
relation of dimensions of life stress to specific forms of disorder, research implications, 12748
reports of & reasons for not reporting peak experiences, 18–64 yr olds, 17568
retrospective estimation of public events duration, 17–52 yr olds, 26390
sex & self vs other event memorability & pleasantness & person typicality, memory for event content & temporal aspects, college students, 26495
social skills deficits in relation to past delinquent activities, young offenders, 18757
sociodemographics & drinking patterns & alcohol related problematic events, reasons for seeking treatment, alcohol treatment clients, 8269
specific vs misleading sexual abuse questions, reenactment & recall of social interaction with male confederate using anatomically detailed vs regular dolls with vs without visual cues, 3 vs 5 yr olds, 21174
stressful condition, perception of everyday events, elderly home caregivers of relative with Alzheimer's disease vs noncaregivers, 2361
stressful events & domain specific vs global life satisfaction, elderly, 27150
subjective & after effects & interpretations of A. Maslow's intense personal experiences, ashram members, 7105
subjective experience of caring for family member with Alzheimer's disease, caregivers, 5533
temporal order of occurrences, perceived mutability of events & blame for outcome, college students, 9845

traumatic events & prevalence of PTSD, 21–30 yr olds, 21437
typology of life themes & experiences & personality styles, 60–90 yr olds, 32939
validity & reliability of experience sampling, collection of information about activities & thoughts & moods, widowed 69–94 yr olds, Australia, 32934
visual attention fixation, memory for emotional event slide, college students, 32275
wholeness of life experiences & soul in understanding psychotherapy, 19167
Experiences (Life) [See Life Experiences]
Experiential Psychotherapy
cognitions & affect & behaviors, depressed females with vs without chronic pain in experiential group psychotherapy, 5311
experiential use of patient's past & remembering & personality processes in psychotherapy, clients, 25162
influence of S. Ferenczi's experiential psychoanalysis on development of clinical psychoanalysis, 28165
strength of feeling & occurrence of in-session good moments, clients in client centered vs rational emotive vs experiential psychotherapy, 16108
Experiment Controls
control population stratification, study of seasonality of birth, schizophrenic patients, Spain, 24395
effectiveness of placebo control group in educational research, 16768
need for selection of healthy controls for psychiatric experiments, 1951
prevalence of psychiatric morbidity, research volunteers, implications for systematic clinical assessment of normal controls, 6235
S description & use of control groups & research designs, language impaired children, literature review, 12951
sequential alternating treatments vs baseline design, 5354
Experiment Volunteers
degree of volunteer participation in treatment study, self report of alcohol related problems, alcoholic adult males, 10969
prevalence of psychiatric morbidity, research volunteers, implications for systematic clinical assessment of normal controls, 6235
sexual questionnaire responses & demographics, females willing vs unwilling to participate in laboratory studies of sexual response, 9251
social & emotional adjustment & distress levels & reluctance to participate in developmental family research, male 6th graders, 20851
techniques for reduction of no show for experiment, college student volunteers, 6234
type of symptomatology & consent to volunteer for research, 21–68 yr old male forensic psychiatric inpatients, 33485
Experimental Apparatus [See Apparatus]
Experimental Design [See Also Between Groups Design, Cohort Analysis, Followup Studies, Hypothesis Testing, Longitudinal Studies, Null Hypothesis Testing, Repeated Measures]

use vs nonuse of ethical safeguards & use of stressful & deceptive & innocuous procedures, perceptions of ethicality of social psychological research, psychology students & faculty, 4335

Experimental Instructions
age & amount of detail requests, relative sizes of head & trunk in human figures drawing, 4–7 yr olds, England, 9631
audiotaped instructions to tense muscles presented during operation, intraoperative muscle tension, anesthetized surgical patients, 31326
blocked vs random presentation of categorized items vs instructional organization, category priming vs explicit memory tests of free & cued recall, college students, 17546
consequences & rule instructions, conditional discriminations, college students, 8993

demand characteristics & full spectrum lighting, reading & writing & noun underlining performance & mood, 18–24 yr olds, Canada, 26073
instructions & prior knowledge, temporal learning, 4.5 & 6 yr olds, 6947
instructions, drawing & selection of view specific pictures, 5 yr olds, 9510
instructions to answer candidly vs to obtain desirable job, changes in answers on Phase II Profile honesty test, behavioral scientists vs college students, 4448
instructions to think about target person, attitudes & social judgments after dialog against target, junior high school students, 965
integration & cues & encoding instructions, word recognition, 20–27 yr olds, 14391
liberal instruction to suppress thoughts, frequency & rate of thought during expression period, successful vs unsuccessful suppressors, laboratory model for real life obsessions, 32252
original disguised vs modified nondisguised format of mixed standard scale, reduction of leniency & halo effects in performance ratings, college students evaluating instructors, 6252
overt & covert task instruction & visual &/or auditory stimuli, selective & alert orienting response occurrences, female 18–23 yr olds, 23300
pretrial instruction in procedural & substantive law & proof requirements, evidence recall & interpretation & comprehension of law & verdict choice & latency, mock jurors, 24076
questionnaire with vs without clinical vignette, self report of spontaneous or situationally bound panic attacks, college students, 24276
sex & handedness & field side & fixation instructions, processing of tachistoscopic information, college students, 3296
thought suppression instructions, content of stream of consciousness verbalization, 18–20 yr olds, replication, 17466
wording of instructions, minimization of context effects in absolute magnitude estimation, college students, 11716
written &/vs oral instructions, psychomotor task performance, 18–43 yr olds, 23303
Experimental Laboratories
anticipation of vs involvement in experimentally induced mental stress vs musical performance in natural environment, heart rate & BP, musicians, 26719
concepts needed for simulation environment for space station laboratory management by robot organizations, 6147
dextroamphetamine, unrestricted eating behavior & macronutrient intake, 21–38 yr olds living in residential laboratory, 3862
heart rate reactivity to laboratory tasks & ambulatory responses in daily life, healthy 18–35 yr old males, 17708
importance of animal research facilities in undergraduate psychology curriculum, commentary, 28687
interpersonal computing in geographically distributed research organization & design & implementation of support tools, group members, 23031
physician's office vs laboratory stressors vs real life conditions, heart rate & BP, healthy nonsmoking adults, 29655

3/4 vs full face vs profile view, recognition of familiar vs unfamiliar faces, college students, 9015
Face Recognition [See Face Perception]
Facial Expressions [See Also Smiles]
ability to recognize emotional facial expressions, 5–67 yr olds with vs without mental retardation, 33610
acquisition of conditioned sentences in American Sign Language through use of grammaticized nonmanual facial expressions, deaf 3.3–8.4 yr olds, 15899
age & live vs simulated models of tongue movement or mouth opening & closing, elicitation of facial gestures or imitation of object movement, 3–16 wk olds, 32754
age & story context, interpretation of contradictory verbal & facial expression, preschoolers vs 2nd vs 4th vs 6th graders vs college students, 4085
age, recognition of affective facial expressions, 8–17 yr olds with vs without mild or moderate mental retardation, 33594
angry vs happy facial expression as CS & aversive vs nonaversive UCS, electrodermal responses, college students, implications for prepared learning, 32479
brain laterality, classical conditioning to pictures of facial emotional expressions, female adults, conference presentation, 26470
caretaker positive vs negative facial expression, infant social referencing & distance from toy, female day care workers & 10–19 mo olds, 32840
child facial expressions & use of cues in perception of emotions, parental attributions of emotion, mothers & their 10–15 yr olds in dyads, 7045
color vs facial expression vs style of garment, attractiveness, 6 yr olds & younger to 45 yr olds, 9653
contingency task learning with vs without extinction, facial expression, 2–8 mo olds, 4084
coping style vs sex vs type of stressor, autonomic arousal & facial expression & subjective feeling in stressful situations, college students, 32483
counselor's facial expressions & use of medical jargon & sex, ratings of expertness & trustworthiness & attractiveness & masculinity/femininity, college females, 22100
deterioration of spatial vs contrast resolution vs picture size, recognition of emotion from facial expressions, college students, 20465
development & validation of videotaped role plays of basic facial expressions of emotion, 18–44 yr olds, 20460
emotion specific autonomic nervous system activity related to facial expressions, 71–83 yr olds, 18170
emotional experiences, facial expressions, 8–12 yr old male psychiatric patients, 18419
emotional expressivity in facial expressions, 6–25 mo olds with nonorganic failure to thrive vs normal development, 18413
emotional state, preferences for & memory & labeling of emotional facial expressions, 6.3–7.8 yr olds, 23863
facial activity & intensity & amount of positive vs negative emotion while talking about pleasant vs unpleasant experience, patients with schizophrenia vs right brain damage, 7326
facial asymmetry in emotional expression, meta analysis, 32299
facial expressions in dyadic interactions, schizophrenic or psychosomatic & normal 19–57 yr olds, 4540
facial expressions of emotion during solitary play, 6–60 mo olds, 9650
facial gestural expressions vs contextual information, judgment of other's emotion, college students, 12533
facial orientation & smiling vs angry expression, distance adjustment of luminous profiles, 19–35 yr olds, 20349
familiarity vs expression vs sex decisions, repetition priming from familiar faces, college students, 3260
historical & theoretical background & research on ability to imitate facial & other gestures, neonates, literature review, 17973
internal vs external locus of control, speed of discrimination of facial expression affect, 17–46 yr old females, 9883
invasive vs noninvasive aversive stimulation, facial activity & cry responses, neonates, 9533
mechanisms in voluntary & spontaneous facial expression control, callosotomy patients vs right handed adults, 4970
neuropsychological vs social psychological vs cultural aspects of asymmetrical facial movements & expressions, 6650
onset vs offset time of deliberate vs spontaneous facial expressions of happiness & disgust, college students, 9063
perception & production of facial & vocal emotional expressions, patients with schizophrenia vs unipolar depression vs right brain damage vs Parkinson's disease, 7297
perception of facial expressions of pure vs blended emotions, high school students & teacher trainees, Finland, 7030
performance on facial emotional expression vs emotionally neutral buccofacial task, schizophrenic patients, 24376
person vs object modeling, imitation of mouth openings & tongue protrusions, 5–8 wk olds, 27032
photos of familiar objects & facial expressions of affects, information extraction capacity, chronic schizophrenic vs general medical patients, errata, 1432
physical attractiveness & facial expressions & sex stereotyping of target photographs, perceptions of infants, college students, 15223
pictorially depicted facial expressions, interpretation of emotion, male vs female 8–9.9 vs 11–14.8 yr olds with vs without learning disabilities, 21747
pictures of emotional vs neutral facial expressions, EPs, 20–50 yr olds, 11941
positive vs negative emotional arousal induced by task difficulty, facial asymmetries, college students, 9225
processing facial emotion, adults with left vs right brain damage, 1709
prosodic features in speech production & vocal & facial expression & cognition & perception, patients with Parkinson's disease, 33654
recognition & categorization of emotional expressions of upright vs inverted faces, 7 mo olds, 32789
recognition & decoding of emotional facial expressions, abused 2.7–9.6 yr olds & their abusive mothers, Canada, 30610
recognition of emotional facial expressions, patients with delusional misidentification syndromes, 31004
sensitivity & appropriateness & organization of comments & expression & related & unrelated words in study of varied affect facial expressions, hospitalized schizophrenic adults, 12735
sex & stress, accuracy in decoding of kinesic facial vs vocalic emotional expressions, college students, conference presentation, 32246
sex of angry vs happy facial stimuli, facial EMG reactions, male vs female college students, 11920
social contingency model & classification of postural & facial & vocal signals in pair relationships, olive baboons, 26563
spontaneous facial expression of positive vs negative emotions, adult encoders & decoders, 32300

spontaneous facial expressions, right vs left brain damaged patients, commentary, 1713
spontaneous facial expressions, right vs left brain damaged patients, commentary reply, 1924
stimulus presentation variation & facial features, discrimination & recognition of facial emotional expression, long-tailed macaques, 9089
threatening subliminal stimulus, defense reactions & subjective tendencies in phenomenal representation of facial displays of affect, college students, 27353
transfer of effective & communicative behaviors to facial behaviors when sign language is 1st or 2nd language, deaf 1–4 yr olds & college student 2nd language learners, 10378
Type A vs Type B traits, facial behavior during interview & speech components & heart rate reactivity, males, 6679
verbal involvement of left hemisphere, recognition of facial expressions of emotion, college students, Japan, 23518
vocal expression with affectively matched vs mismatched vs no facial expression, discrimination of & dishabituation from vocal expressions, infants, 32822
voluntary facial configuration, emotion specific autonomic nervous system activity & subjective experience, adults, 9264

Facial Features
embarrassment about facial flushing & alcohol drinking, male vs female Japanese drinkers, Japan vs US, 27301
facial features, perception of male physical attractiveness, female college students, test of multiple motive hypothesis, 1192
facial hair, perception of male job applicant, 19–70 yr old managers, 8602
masculinity or femininity of faces, attribution of homosexuality & rating of attractiveness, 18–25 yr olds, 7211
perception of facial attributes & attractiveness, male vs female college students, 4399
perception of physical attractiveness of faces vs computer generated averaged composite images & atypical facial characteristics as enhancement, college students, commentary, 24168
prototypical vs blended display of positive affect in facial features, generalized discrimination of affect, 7 vs 10 mo olds, 20923
right vs left field presentation of familiar vs unfamiliar faces, order of feature recognition & RT, college students, 14406
stimulus presentation variation & facial features, discrimination & recognition of facial emotional expression, long-tailed macaques, 9089

Facial Muscles
afferent information processing & true vs false feedback in signal detection paradigm, sensitivity & response bias in discrimination of peripheral facial muscle activity, adults, 20607
contraction of left vs right side of face, emotional state & pleasantness ratings of cartoons, right handed college students, replication, 26692
EMG recordings of mystacial pad muscle activity during whisking behavior, female rats, implications for tactile information acquisition, 32409
facial EMG response as component of emotional reaction, humans, 11919
orofacial dyskinesia & cognitive functioning, 65–91 yr olds with senile dementia of Alzheimer's type, 21930
perceived functional & health related & cosmetic benefits of EMG biofeedback & behavioral control techniques & muscle stimulation, female 19–51 yr olds with Bell's palsy & their physicians, 10479
self assessment & sad vs baseline cognitions & EMG measurements of facial muscles, adults with vs without major depression, 12733

Facial Nerve
monosodium glutamate &/vs disodium salt &/vs guanosine 5-monophosphate, whole vs single fiber chorda tympani nerve responses, female chimpanzees, conference presentation, 32611
testosterone, acceleration of facial nerve recovery following crush surgery, castrated male hamsters, 12034
umami substances, chorda tympani nerve responses & conditioned aversion & generalization & preference, rats, conference presentation, 32718
umami substances, responses of chorda tympani nerve, dogs, conference presentation, 32632
umami substances, taste sensitivity & responses of chorda tympani & glossopharyngeal nerves, 7–10 day vs 8–16 wk old rats, conference presentation, 32654

Facilitation (Social) [See Social Facilitation]

Facility Admission [See Also Hospital Admission]
admission to & outcome of psychogeriatric assessment & rehabilitation service, 43–92 yr olds, Canada, 1 yr follow-up, 31444
candidates' psychological characteristics, committee selection for treatment in residential therapeutic community, 17–44 yr olds with personality disorders, 22472
characteristics & rate of admission to addiction treatment clinic, cocaine vs cannabis vs alcohol abusing clients, 1983–88, Canada, 10968
ethnicity & home ownership & age & cognitive & functional ability & living alone or near nursing home & physician use & nursing home admission, at risk elderly, 13598
health care utilization patterns, elderly clients admitted vs assessed & not admitted to long term residential care, Canada, 19495
increase in admittance to residential treatment centers, patients with coexisting substance abuse & psychiatric disorders, clinical & administrative implications, 25588
patterns & determinants of admission to addiction treatment facility, 25–55 yr old & older alcoholic females, 16630
psychiatric comorbidity vs severity of alcoholism, inpatient readmissions, alcoholic patients discharged from rehabilitation, 16632

Facility Discharge [See Also Hospital Discharge]
demographics & utilization patterns, schizophrenic patients discharged from nonfederal hospitals in California, 1984, 5635
role from admission to discharge from psychogeriatric transitional program, occupational therapists, implications for discharge planning, 16614

Facility Environment [See Also Hospital Environment]
Baker-Miller pink paint in prison cells, aggressive & antisocial behavior, prisoners vs male college students, England, 34451
behavior problem severity & intervention type, ratings of acceptability of behavioral intervention for self injurious behavior, direct care staff at facility for mentally retarded, replication, 2514
development & content & uses of Multiphasic Environmental Assessment Procedure, quality of residential programs, elderly, 26260
development & implementation of group program in nursing home, community feeling, staff, 2477
difficulties encountered in host organizations, social workers, 28704
environmental & organizational factors in child abuse in residential care settings, 5649
environmental & personal factors, self appraisal of self care abilities, 60–100 yr old nursing home residents, 5647

Factitious Disorders
allegations of ritual Satanic abuse victimization, 25 yr old female hospitalized for suicide attempt & later diagnosed with Munchausen syndrome, case report, 30369
characteristics, mother with Munchausen's syndrome by proxy & her victimized infants, implications for psychiatric nursing, 12806
clinical characteristics, adults with Munchausen syndrome, conference presentation, 9996
clinical review & legal issues of Munchausen syndrome by proxy as form of child abuse, female 9 yr old, 27646
diagnosis of Munchausen syndrome by proxy, 11 mo old female portrayed by mother as having developmental disabilities & cerebral palsy, 7440
diagnosis of Munchausen syndrome by proxy, 8 yr old female with persistent vomiting & feeding intolerance, case report, 24972
difficulties in evaluation of genuine workman's compensation claim & issues of factitous disorders & malingering & secondary gain phenomenon, male 38 yr old minor industrial accident victim, 31871
elicitation of nurturance & other secondary gains, 35 yr old female with factitious cancer, case report, 24396
etiological theories & treatment & assessment issues, females with Munchausen syndrome by proxy, 33431
feigned split personality with changing symptomatology, female 20 yr old with factitious disorder, case report, 21438
feminist perspective of development & treatment of Munchhausen by proxy & Polle syndrome, child abusing mothers & their children, 1539
hematuria & sepsis, 40 yr old male with Munchausen syndrome, case report-590 13, 27547
interrelationships in Munchausen by proxy syndrome, mothers & children & medical staff, 15612
medical & psychiatric history & diagnostic issues, male with coexistent Munchausen syndrome & multiple personality disorder, commentary on case report, 30574
medical & psychiatric history, male with coexistent Munchausen syndrome & multiple personality disorder, case report, 30576
mild Munchausen syndrome by proxy, 4–11 yr olds, Israel, 10413
Munchausen syndrome & Munchausen by proxy & multiple personality disorder, female patient, 27518
Munchausen syndrome by adult proxy, male prisoner, case report, 27593
Munchausen syndrome by proxy, male 1 mo old presenting with recurrent apnea, case report, 15586
Munchausen syndrome by proxy with chronic illicit insulin administration, mother & 1 yr old female & twin sons, 15598
Munchausen syndrome, 19 & 21 yr olds who simulated adolescence, case reports, 18471
prevalence & clinical presentation & treatment within general hospital setting, 19–64 yr olds with factitious disorders, 10932
psychogenic HIV infection diagnosed as malingering & factitious disorder, 27 yr old homosexual White male, case report, 27962
psychopathology & diagnosis & management of Munchhausen syndrome, 25 yr old female, case report, 4605
psychopathology & temporary Munchausen syndrome, adult female with repeated general & psychiatric hospital admissions over 14 yrs, case report, 10008
simulation index for detection of factitious errors on WAIS-R & Wechsler Memory Scale, patients with severe vs minor head injury with simulated impairment, 26237
treatment program for Munchausen syndrome with paraplegia, female 32 & 25 yr olds, case reports, 19101

mu opioid receptor agonist fentanyl into brachial plexus sheath, antinociceptive effects, male rats, 3888
Fertility
age & religiosity & education & house space, familism & family size & fertility, foreign vs Canadian born 18–44 yr old females married or living common law, Canada, 12426
body weight, sexual behavior & fertility, male broiler breeder domestic fowl, 415
counseling strategies, grieving infertile couples, 22424
cultural & social practices & traditions, fertility behavior, India, 1940s–80s, 9702
delusional & suicidal behavior history, celibacy & fertility, 22–74 yr olds with major affective disorders, 9970
fertility & family size & family planning attitudes, male Yoruba vs Hausa vs Ibo college students, US, 21123
fertility & reproduction & value of children & infertility, population control, China, 12466
individual vs community education, fertility & marriage patterns & contraceptive use, Hindu vs Roman Catholic married female 30–49 yr olds, India, 32968
male body size, female fertility & interval to remating, Drosophila melanogaster, 29565
psychosocial factors, urban area fertility levels & family planning, 15–49 yr old married females, India, 1049
remating, laying of new egg batches & proportion of fertile eggs, female caddis flies, 29564
sexual experience & fertility & breast feeding & contraceptive use, 15–49 yr old American Indian females on vs off reservation vs Blacks vs Whites, 12477
socioeconomic & cultural factors, age at marriage & fertility, married female 15–49 yr olds, Nepal, 27210
Fertilization
process of conception, infertile vs fertile couples, implications for reproductive technology, 5069
Fetal Alcohol Syndrome
analysis of incidence & economic impact of fetal alcohol syndrome, 33543
etiology & characteristics of fetal alcohol syndrome, 12910
frustration & persistence theories & attention & arousal & suppression, reward schedule effects, children with attention deficit hyperactivity disorder & rats in fetal alcohol research, 7606
maternal alcohol consumption & neonatal anomalies, females & their offspring, replication of threshold analyses, conference presentation, 12882
neuropsychological deficits, 5.2–18.5 yr old Native Indians with fetal alcohol syndrome vs fetal alcohol effects, Canada, 10158
ophthalamological examination as aid in diagnosis of fetal alcohol syndrome, mildly mentally retarded children, Sweden, 10841
pathophysiology & mechanisms of fetal alcohol syndrome, 15670
performance on RT & vigilance tasks, 5–12 yr olds with fetal alcohol syndrome or effect vs attention deficit disorder, 9928
prenatal & neonatal alcohol exposure, behavioral & neuroanatomical effects, rodents, animal models of fetal alcohol syndrome, conference presentation, 12149
prenatal &/vs postnatal ethanol, CNS changes & behavior & neurotransmitters, rat pups, animal model of fetal alcohol syndrome, 29787
prenatal alcohol exposure, developmental & neurobehavioral effects, newborns & 12–42 yr olds with fetal alcohol syndrome or effects, 7 yr study, conference presentation, 12917
prenatal alcohol use & abuse, cognitive development & birth weight & craniofacial anomalies, disadvantaged 4.8 yr olds, 18786
prenatal ethanol exposure, behavior, C57BL mice, animal model of fetal alcohol syndrome, conference presentation, 12088
priorities & experimental design in fetal alcohol research, animals & humans, 9456
Test of Language Development-Primary vs -Intermediate, American Indian children with fetal alcohol syndrome, 27689
Fetishism
fluoxetine, male 27 yr old with fetish about flexed muscles, case report, 19294
hypersexuality & disinhibition & fetishism, male 28 yr old with multiple sclerosis & frontal & temporal lesions, case report, 24858
Fetus
acute ethanol & dietary folate deficiency, maternal fetal folate transfer, female rats, 29853
cocaine vs saline, behavioral states, fetal sheep, 9365
daily cocaine intubations, cocaine peak levels, female rats & fetuses, 26851
delusion of fetal duplication & relationship to misidentification phenomena, 36 yr old pregnant patient with Capgras syndrome, 24524
fetal movements & rest-activity cycles, normal pregnancies at 20 & 32 & 38 wks, 4046
fetal vs maternal health locus of control in 2nd vs 3rd trimester & psychological distress & compliance, pregnant females with overt vs gestational diabetes, 33785
heart rate patterns & body movements & eye movements, 25–30 week old fetuses of healthy multigravid females, 4025
intrauterine position & maternal sexual maturation, plasma sex steroid concentrations, pregnant & fetal Mongolian gerbils, 23543
olfactory bulb transection, effect of chemosensory vs tactile stimulation on behavior, rat fetuses, 17802
perceived fetal activity & temperament & movement & parent fetal attachment, 20–38 yr old couples expecting 1st child, 12446
quiet vs active sleep behavioral state, heart rate & gross body & eye movements, healthy 36–38 wk fetuses, 4043
response to tactile stimulation of various body loci, mouse fetuses, 3767
Fever [See Hyperthermia]
Fibrillation (Heart)
risk of cardioversion during ECT & decision to maintain anticoagulation, 75 yr old female with major depression & incidental atrial fibrillation, case report, 34204
Fiction [See Literature]
Field Dependence
cognitive style vs ability, field dependence & independence & learning, 20443
color coded information & field dependence vs independence, information processing strategies & achievement, college students, 31710
contextual organizers during computer assisted instruction, immediate & delayed retention, 6th graders with field intermediate vs independent vs dependent cognitive styles, 25836
cooperative learning, field dependent & independent cognitive style, college students, 8471
dance/movement therapy, mode of perception, field dependent alcoholic 30–66 yr old female inpatients, 13670
degree of field dependence, problem solving strategies on Kohs Block Design Test, female high school students, France, 32811

discrimination of changes in rod & frame positions on Rod & Frame Test, field dependent vs independent college students, 4412
factor analysis of personal epistemology of dualism or realism & dogmatism & locus of control & field dependence or independence & cognitive complexity, college students, 24275
field dependence, color & weight judgment, 20–34 yr old female soldiers, implications for research on human performance, 8978
field dependence independence & psychomotor learning & performance on visuomotor coordination task, 16–17 yr old males, Poland, 18074
field dependence independence & training, depth picture perception, 10–20 yr olds, Nigeria, 12272
field dependence, scores on McCarthy Scales of Children's Abilities & Children's Embedded Figures Test, 7–8 yr olds, Spain, 4073
field dependence vs independence, school grades, 10–14 yr olds, 5904
field independence, ability to abstract spatial position from self reference, student pilots, 20300
formal reasoning ability & prior knowledge & field dependence or independence & memory capacity, chemistry achievement, 11th graders, Australia, commentary, 11090
formal reasoning ability & prior knowledge & field dependence or independence & memory capacity, chemistry achievement, 11th graders, Australia, commentary reply, 11119
framing & risk taking personality & sex & decision problem & field independence, choice of sure vs risky option of equal expected value, college students, 7254
open vs closed item format & field independence vs dependence, performance on written Piagetian test, high school students, 31777
optokinetic stimuli & field dependence, body balance, 19–23 yr old females, Japan, 17363
performance on visual field dependence & roll vection & rod & frame tests, 59–97 yr old fallers vs nonfallers, 18171
sex, field dependence independence in absence of vestibular activation & eye movements, college students, 17379
speak only vs picture context, message evaluation, field dependent vs independent 1st vs 3rd graders, 20855
training level, field dependence vs independence & spatial ability, female child to adult ballet students, Mexico, 30030

Field Instruction [See Curricular Field Experience]
Field Work (Educational) [See Curricular Field Experience]
Fighting [See Aggressive Behavior]
Figurative Language [See Also Metaphor]
age & semantic analyzability, understanding of idioms, K–4th graders, 30038
age, comprehension of similes vs metaphors, 6–12 yr olds, 873
cognitive psychology & theoretical analyses of figurative language use & comprehension, 26959
evaluation & enhancement of idiom comprehension, language disordered students, 34723
grade & sex & writing competency, production of similes & metaphors in writing samples, 4th vs 8th vs 12th graders vs college students, 13857
issues in use of nonliteral language as clinical tool & brain model of nonliteral language processing, 29631
literal meaning conveyed in figurative meanings through allusion & comprehension of figurative language & metaphor & idioms, 29965
literal vs figurative short stories, reading comprehension, hearing impaired 8.5–18.9 yr olds, 18998
mental images for idiomatic expressions, college students, 280
pragmatic role of tropes & metaphor vs types of tropical operations, 782
production & evaluation of similes in storytelling situation, 2.9–7.7 yr olds, 26995
sentence characteristics, choice of metaphor vs simile in sentence completion, college students & 24–68 yr olds, 17956

Figure Ground Discrimination
complementary colors as figure ground, closure RT & recognition accuracy, adults, 29357
figure ground relationships as expression of structural qualities in psyche, 27389
semantic context & ambiguity of target words, latency to identify figure ground organization, college students, 17446
viewing distance & object vs retinal spatial frequency of filtered letters with vs without Gaussian noise, letter discrimination, 20–27 yr olds, 32198

Figures of Speech [See Figurative Language]
Financial Assistance (Educational) [See Educational Financial Assistance]
Fine Motor Skill Learning
kinematic information, observational learning of complex motor & aesthetic skill in ballet, female college students, 23298
MA & CA & IQ & fine motor skill quotients & dichotic speech processing scores, prediction of language ability, developmentally delayed 5–9 yr olds, 24760
written handout vs hands on demonstration, number of traumatizing hand movements, 25–64 yr old industrial workers in repetitive jobs, 6067

Finger Tapping
age & sex, speed & accuracy of small amplitude motor movements during reciprocal tapping task, 20–89 yr olds, 18005
cardiac locomotor coupling during finger tapping, adults, 20643
finger tapping by left &/vs right hands, asynchrony & temporal dispersions of interresponse intervals, right handed 22–43 yr old males, 14307
handedness profile & eyedness & footedness & finger tapping performance, right vs left handed vs handedness switch college students, Hong Kong, 9202
manganese, simple RT & digit span & finger tapping & dexterity, male foundry workers, Sweden, conference presentation, 11304
missing tones, RT in rhythmical tapping task, healthy adults, conference presentation, 3272
nicotine, finger tapping & handsteadiness, adult male smokers vs nonsmokers, 6877
performance on rod & frame test & concurrent unimanual tapping task, assessment of hemispheric specialization for field articulation, 17–25 yr old males vs females vs 43–53 yr old females, India, 29620
periodic tapping performed with vs without cognitive task, interresponse intervals, adults, 17370
practice of periodic finger tapping, rhythm & variable error of timing, 22–29 yr olds, 14300
sex & associative learning of accessible vs inaccessible noun pairs & finger tapping interference & mental effort, 3rd vs 7th graders, 32786

Fingers (Anatomy)
active finger motion, manual discrimination of resistance force, 22–45 yr olds, 29332
age, finger localization in crossed vs uncrossed task, 6 & 8 & 10 yr olds, 32807
degree of independence of digits during instructed flexion & extension movements of digits & wrists, male rhesus monkeys, 29643
dexterity & differences in fingers of dominant hand, speed & accuracy in RT task, college students, 11652
dynamics of steady state & perturbed rhythmic finger movements, male adults, 17362
finger & palm print analysis, autistic 2–8 yr olds, 12805
finger pairing in left vs right hand & foreperiod duration, 2 choice RT, right handed 20–40 yr olds, 217
handedness & dominance & laterality, verbally elicited finger movements, 21–62 yr olds, 6607
long term finger crossing, tactual perceptual learning, adults, 17348

motion programing demands, power spectral density function of wrist & finger movements, college students, 8908
thumb & index finger vs whole hand control technique, recovery from visually induced analog of giant hand phenomenon, 32–52 yr old pilots, 20311
total or partial digit denervation vs intact nerves, response properties & cortical somatropy, raccoons, 14707
Fingerspelling
acquisition of fingerspelling & signs, deaf 2.3 yr old female followed to age 7.4 yrs, 10374
features of effective simultaneous communication, deaf professionals working in postsecondary deaf education program, 15874
hypnosis induced by fingerspelling, handwriting & diagnosis of multiple personality disorder, 23 yr old prelingually deaf female, case report, 10257
presentation rate, tactual vs visual perception of fingerspelled sentences, deaf blind vs sighted deaf 36–87 yr olds, 13087
Finland
age & sex, trends in suicide mortality, 1921–87, Finland, 15603
argumentativeness, college students, US vs Finland, 24229
characteristics of special & remedial education, disabled 7–16 yr olds, Finland, 19863
demographic & diagnostic factors & duration of hospitalization & methods, psychiatric inpatients who committed suicide, 1971–87, Finland, 16595
efficacy of psychotherapy subsidized by Finnish Social Insurance Institute as rehabilitation component, working functional capacity, clients, 1 yr followup, 1978–86, 5280
historical vs modern child psychiatric practices, Finland, 15954
history & development of behavioral & cognitive therapy, 1960s to present, Finland, 16035
nonverbal immediacy in interpersonal interaction, college students, US vs Finland, 24159
positive DST result as aberrant stress reaction, 31–81 yr olds with alexithymic features, Finland, 4652
prevalence of different mental disorders, population boom between 1905–54, Finland, 21499
prevalence of mental disorders, 15–64 yr olds, Finland, 16 yr followup, 4647
psychiatric status of & treatment modes for 2.7–17 yr old psychiatric inpatients, physicians & head nurses, Finland, 16585
psychosocial background & clinical disorder & inpatient & outpatient treatment needs, 65 yr olds & older in psychogeriatric ward, Finland, 16589
regional & local differences in prevalence & treatment of mental disorders, 30 yr olds & older, Finland, 16001
split & reintegration between general & forensic psychiatry, Finland, 16039
stability of sociocultural variance of Type A behavior pattern, 12–21 yr olds, Finland, 3 yr followup, 954
theoretical background & application of need adapted psychotherapy, schizophrenic or psychotic clients, Finland, 16048
trends & characteristics of homicide, Nordic countries, literature review, 7469
Fire Fighters
ideas of heroism & material factors & social organization, resistance to proletarianization, fire fighters, 22984
intrusive & avoidant & depressive & anxious & posttraumatic symptoms after nonfatal military aircraft accident, 18–45 yr old crew & squadron members & their wives & fire & control tower personnel, 4718
seniority of job performance, entry level police officers & fire fighters & 1st level supervisors, 6024
work conditions during stressful 24 hr alert, mental state, 18–45 yr old fire fighters, USSR, 20017
Fire Prevention
group cognitive behavioral fire safety prevention skills training vs individual fire assessment awareness, firesetting, 4.3–8.1 yr old psychiatric patients, 6 mo followup, 28435
planning & production of campus fire safety program, college students, 16944

Fixed Interval Reinforcement
changeover FI schedules of 0 vs 10 vs 20 sec, responding on concurrent VI schedules, homing pigeons, 17590
clonidine, tolerance to decreased FI responding, male rats, 3950
cocaine, locomotor activity & FI schedule controlled behaviors, inbred rat strains, 9459
FI schedule requiring different response during pause & work periods, modification of response pattern, pigeons, 3486
hypoxia & subsequent decrease in activity level vs motor performance, retention & performance of FI responding, rats, 26742
pellet size & rate of FI delivery & barpressing, choice of feeding patch & consumption rate, male rats, 17595
performance on FI schedules, rats with complete surgical removal of neocortex, 6740
propranolol, leverpressing on FI 20 schedule, male rats, 3962
random ratio vs random interval vs regulated probability interval schedule of reinforcement, chain pulling, male rats, 3464
schedule history & availability of adjunctive responding, FI performance, male rats, 26536
variation in average relative frequency of FI responding with elapsed time, cats vs rats vs woodmice vs pigeons vs doves vs Tilipia vs freshwater turtles, 20496
9 & 30 sec signal FI with reversal & single vs simultaneous presentation or empty trials, response distribution & timing, pigeons, 20488
Fixed Ratio Reinforcement
clonidine, FR schedule response, male rats, 3949
eseroline with vs without naloxone vs atropine, FR operant responding, male rats, 29856
ethanol inhalation, behavioral effects on FR 24 vs 50 liquid vs continuous reinforcement schedule of intracranial self stimulation, male rats, 29810
ethanol, rate depression in water reinforced behavior, alcohol accepting vs nonaccepting rats, 12106
ethanol, responses under FR schedules of point gain reinforcement & point loss avoidance, 20–36 yr olds, 29874
magnitude of initial effect of morphine induced response suppression in FR schedule of food presentation, development of tolerance to rate decrease effects of morphine, rats, 29951
paradoxical sleep, acquisition of autoshaping vs 10 response FR vs sequential operant tasks, rats, 20664
reinforcer magnitude & ratio size in 2nd FR, schedule sequence preference, pigeons, 17586
response requirement & reinforcer magnitude, unit price analysis of cigarette smoking, 18–49 yr olds, 24106
sigma receptor ligands, FR responding to food reinforcement & binding affinities at sigma or PCP receptor sites, male rats, 32714
5-MeODMT or parachlorophenylalanine, cyclic ratio schedule response, male rats, 23708
Flashbacks [See Hallucinations]
Flexibility (Personality) [See Adaptability (Personality)]
Flexion Reflex
dynamic neural network model of local bending reflex, leeches, 9250
glutamate vs morphine in midbrain periaqueductal gray or lateral reticular formation, hindlimb withdrawal from heat stimuli, male rats, 9367
reliability of & flexion withdrawal magnitude evoked by noxious radiant heat, assessment of pain sensation intensity, 20–38 yr olds, 32150
stimulation of rostroventromedial medulla, inhibition of nociceptive flexion reflex, male rats, evidence for inhibition at premotoneural level, 17767
subthalamotomy &/or thalamotomy, stretch reflex components in brachialis EMG, patients with Parkinson's disease, 2 yr followup, 5526
Flextime [See Work Scheduling]

Flicker Fusion Frequency [See Critical Flicker Fusion Threshold]
Flight Attendants [See Aerospace Personnel]
Flight Instrumentation
psychological problems associated with instrument display of spatial position of aircraft & flight visualization, aircraft pilots & operators, 20307
tactical instructions information display formats, target location & flight simulation performance, 24–43 yr old male National Guard helicopter pilots, 34878
Flight Simulation
alcohol, simulated flight performance, air carrier pilots, 17816
computer menu interface design, implications for aircraft simulator instructional support systems, literature review, 23032
display principles & control dynamics & environmental factors, acquisition & transfer of aircraft landing skills, 18–30 yr old flight naive males, 8650
simulator practice, aircraft landing performance, 18–30 yr old flight students, 8649
terrain visual cue features salient for low level high speed flight simulation, experienced Air Force pilots, 3300
time since delta-9-tetrahydrocannabinol, performance in aircraft simulator, 24–40 yr old pilots, implications for carryover effect of social marihuana use, 17880
training of instructors in simulation based flight training, 8588
Flooding Therapy [See Implosive Therapy]
Fluency [See Verbal Fluency]
Fluid Intake [See Also Water Intake]
alcohol diet, locomotor activity & intracranial self stimulation, male rats, 17917
ambulatory activity & drinking behavior, streptozotocin induced diabetic male rats, 26923
area postrema lesions, alcohol intake & reductive ability of angiotensin II, male rats, 29722
caffeine & bombesin, ethanol & food intake, water vs food deprived rats, 23573
cholecystokinin & lighting cycle phase & limited access procedure, alcohol intake, male rats, 29688
cholecystokinin release before vs after liquid test meal, anorexic vs bulimic 16–30 yr olds, Germany, 33759
cholinergic activity enhancer Hoe 065, voluntary alcohol intake & abutapril induced reduction in alcohol intake, male rats, 29817
chronic vs acute tetrahydrocannabinol vs cocaine, ethanol intake, rats, animal model of multiple drug use, 29866
circadian rhythms of taste preferences & food & fluid intake & body weight gain, male rats with pinealectomy or sham pinealectomy, 633
coffee consumption & personality type & diazepam & imipramine, prediction of cancer vs coronary heart disease, adults, 24847
cognitive & emotional variables, fluid noncompliance & symptomatology & distress, 20–77 yr olds with end stage renal disease, 33884
combined D1 & D2 receptor antagonists SCH 23390 & raclopride dosages, infra-additive inhibition of sham sucrose feeding & reinforcement, male rats, 32684
development of tolerance to amphetamine anorexia, amphetamine vs haloperidol induced motor effects & milk consumption, male rats, 752
dopamine beta hydroxylase inhibitor FLA-57, conditioned taste aversion & ethanol intake, male rats, 23629
electric footshock stress, alcohol vs water preferences, male rats, 14685
ethanol preference & intake, rats of Harrington derivation of Maudsley reactive vs nonreactive strains, 29734
fat vs carbohydrate diet preferences, ethanol intake, male rats, 32630
fluid deprivation or saline, intake of tap water vs ethanol solutions, male golden hamsters, 575
fluoxetine vs desipramine & solution palatability, ethanol intake, alcohol nonpreferring female rats, 9389
food intake or hypertonic saline or water deprivation or naloxone, light & dark fluid consumption, 3 vs 12 vs 25 mo old male mice, 26778
forced alcohol exposure, ethanol intake & synaptosomal 3H-serotonin uptake in hippocampus & cortex & hypothalamus, male Fawn-Hooded rats, 23652
isoproterenol & vasopressin & angiotensin II & prostaglandin & histamine & fluoxetine regulation of alcohol consumption by renin angiotensin system, rats, 26865
lesions of catecholaminergic & noradrenergic systems, drinking response to icv angiotensin III, male rats, 20675
leu-enkephalin & enkephalinamide, initial expression & maintenance of ethanol intake preference, male rats, 9434
MDL 72222, voluntary ethanol consumption, ethanol preferring male rats, 32593
MDMA, conditioned place preferences & ethanol intake & body weight, rats, 17817
mere exposure to telereceptive visual cues, ingestion of novel flavor, 12 day old chicks, 32320
morphine dosage, ethanol intake, male rats, 32707
morphine, intake of beer with varied ethanol levels, male rats, 32653
naloxone & opiates, ingestion of sucrose & saccharin, male albino rats, 3905
naloxone vs delta opioid receptor antagonist ICI 174864 vs thiorphan vs hydrocinnamic acid, alcohol & water intake, male rats of high alcohol drinking line, 29806
osmotic & volumetric & depleting & repleting characteristics of carbohydrates vs proteins vs sodium vs fat, thirst & amount & timing of fluid intake, 18–69 yr olds, 26711
parachlorophenylalanine, voluntary consumption of ethanol vs water vs food, genetically low vs high ethanol consuming rats, 6781
perinatal protein deprivation, alcohol intake & taste preference, adult female rats, 568
polyethylene glycol, fluid & food intake, Fischer vs Sprague Dawley rats, 23739
preconditioning dexbrompheniramine & cimetidine & sham feeding, conditioned gastric acid secretion & drinking, male rats, 17875
prenatal administration of alcohol, postnatal ethanol odor preference & intake, rats, 9371
prostaglandin E2, alcohol vs water vs glucose consumption, male rats, 739
reactivity to aldehyde adduct & mapping of limbic structures & enhanced vs suppressed alcohol intake, rats, test of multiple metabolite vs 2 channel theory of alcoholism, 6866
renin gene alteration, alcohol consumption, inbred Dahl rats, 20697
repeated short term exposure to cold, spontaneous salt intake & colonic temperature, mice, 32457
Ro 15 4513, consumption of water vs saccharin ethanol solution, water deprived male rats pretreated with Ro 15 4513 vs Tween 80, 32625
rotary infusion pump for intraoral fluid infusion delivery, animals, 42
SCH 23390 raclopride, sham feeding or sucrose or corn oil, male rats, 9455
sensitivity to & consumption of ethanol, male Fischer 344 vs Long-Evans vs Sprague-Dawley vs Wistar rats, 6830
truncal vagotomy, food & liquid intake, morbidly obese 18–50 yr olds, 25436
urine excretion as indicator of fluid intake, diurnal weight gain, institutionalized chronically psychotic patients, 15533
vasopressin treatment, spontaneous manipulator & locomotor activities & food & fluid intake & diet selection, Brattleboro vs Long Evans male rats, 23642
verapamil, alcohol consumption, alcohol preferring rats, 6883
verapamil vs diltiazem, role of CNS in ethanol consumption, alcohol drinking monkeys, 32670
2-mercaptoacetate, sham feeding milk intake, rats, 750
6-OHDA lesions of tuberculum olfactorium vs nucleus accumbens, ethanol drinking, male rats, 29727

Fluoxetine
addition of fluoxetine to daily doses of haloperidol, plasma concentrations of haloperidol, 29–56 yr olds with schizophrenia or schizoaffective disorder, 31212
adjunctive fluoxetine, male schizophrenic patients, 10719
attempted suicide with imipramine overdose during daily fluoxetine, elevation & prolongation of tricyclic levels, 61 yr old depressed female, 31271
chronic ip administration of fluoxetine or fenfluramine, serotonin release from & levels in frontal cortex, male rats, 12153
clomipramine & fluoxetine & trazodone, blockade of uptake of 5-HT & norepinephrine & neurotransmitter receptors, 9427
clomipramine challenge dose & fluoxetine & EEG mapping, interhemispheric serotonergic asymmetry, depressed vs nondepressed 40–57 yr olds, 33394
clomipramine or fluoxetine, moral or religious scrupulosity, Jewish & Catholic 15–69 yr olds with obsessive compulsive disorder, 16239
cyproheptadine, fluoxetine induced anorgasmia, depressed male 33 & 40 & 52 yr olds, 31198
cyproheptadine, fluoxetine induced ejaculatory dysfunction, male 43 & 45 yr olds, case reports, 7993
desipramine with vs without fluoxetine, 25–68 yr olds with major depression, 25355
development of suicidality after fluoxetine &/vs tricyclics with vs without lithium vs other antidepressants, depressed outpatients, conference presentation, 25302
dosage of fluoxetine vs maprotiline, 18–65 yr olds with unipolar major depressive disorders, 34082
ECT with fluoxetine, refusal to eat or drink as self punishment, 34 yr old female with major depression, 5150
efficacy & side effects of dothiepin vs fluoxetine, depressed 18–75 yr olds, Ireland, 5393
efficacy & side effects of fluoxetine vs maprotiline, 19–69 yr olds with major depression without psychotic features, 31192
efficacy & side effects of fluoxetine vs trazodone, geriatric patients with unipolar major depressive disorder, 2198
exacerbation of multiple sclerosis symptoms following fluoxetine treatment, female 41 yr old, 5374
fluoxetine & buspirone, development of dystonic reaction & akathisia, depressed 36 yr old female, 13421
fluoxetine & desipramine, depressed 55–70 yr olds, 19273
fluoxetine & MAO inhibitor interaction, patients with refractory depression, commentary, 25366
fluoxetine & trichotillomania, autistic 18 yr old male, case report, 25313
fluoxetine & tricyclic antidepressants, elevated plasma levels of tricyclic antidepressants, patients, 5394
fluoxetine, affective & somatic symptoms, females with PMS, 16327
fluoxetine, anorexic & bulimic 16 yr old female, case report, 13413
fluoxetine, autistic 26 yr old female, case report, 13419
fluoxetine, autistic 26 yr old female, commentary on case report, 31209
fluoxetine, behavioral sensitivity & neuroendocrine responses to metachlorophenylpiperazine, male patients with obsessive compulsive disorder, 22239
fluoxetine, cocaine abuse, heroin addicted clients in methadone maintenance, 19574
fluoxetine, depressed 13–18 yr olds, followup study, conference presentation, 13450
fluoxetine, depression, male 28 & 45 yr olds with HIV infection, 31259
fluoxetine, depressive & impulsive symptoms, 23–48 yr olds with treatment resistant borderline personality disorders, case reports, 28311
fluoxetine, depressive symptoms, female 25 yr old with acute intermittent porphyria, 25397
fluoxetine, development of bradycardia & fainting or syncope, anxious vs depressed female 40 & 42 yr olds, case reports, 7951
fluoxetine, development of bradycardia & syncope, female 35 yr old with depression & anxiety, 25303
fluoxetine, development of decreased frontal lobe blood flow & neuropsychological symptoms, male 23 yr old with obsessive compulsive disorder, case report, 25318
fluoxetine, development of elevated tricyclic antidepressant plasma concentrations, male 20 & female 30 yr olds, case reports, 10750
fluoxetine, development of hypersomnolence, male 25 & 39 yr olds with residual attention deficit disorder with hyperactivity, case reports, 10761
fluoxetine, development of inappropriate secretion of antidiuretic hormone, depressed female 53 yr old, case report, 25401
fluoxetine, development of orgasmic dysfunction, depressed 30–48 yr olds, 25412
fluoxetine, development of self injurious ideation or behaviors, 10–17 yr olds with obsessive compulsive disorder, case reports, 25334
fluoxetine, development of severe hair loss, female 53 yr old with obsessions & compulsions, case report, 19288
fluoxetine, development of suicidal ideation, depressed male, case report, 25319
fluoxetine, development of suicidal ideation, depressed patients, commentary, 13457
fluoxetine, development of suicidal ideation, depressed patients, commentary reply, 13455
fluoxetine, development of truncal dyskinesia & severe leg restlessness, 38 yr old female with depression & CNS lupus, case report, 28318
fluoxetine discontinuation, plasma fluoxetine &/or norfluoxetine, patients with obsessive compulsive disorder, 4 & 8 wk followups, 31256
fluoxetine, elderly with major depression, 16341
fluoxetine, exhibitionism, male schizophrenic 32 yr old who attempted suicide by hanging, 5369
fluoxetine, feared loss of control of malodorous flatulence, male 28 yr old with dysmorphophobia, case report, 16243
fluoxetine hydrochloride, 30 yr old male with paraphilic rape fantasies, case report, 34077
fluoxetine induced bleeding, 16–75 yr olds with obsessive compulsive disorder, 34143
fluoxetine induced dysrhythmia, female 87 yr old with cardiac disease & depressive symptoms & suicidal ideation, case report, 31180
fluoxetine induced dystonia, depressed 22 yr old female, case report, 16320
fluoxetine induced neuroleptic malignant syndrome, 53 yr old male with major depression, case report, 5407
fluoxetine induced stuttering & restlessness as manifestation of akathisia, depressed female 36 yr old, commentary on case report with reply included, 2201
fluoxetine, male 27 yr old with fetish about flexed muscles, case report, 19294
fluoxetine, male 33 yr old with Tourette's syndrome & recurrent paraphilic masturbatory fantasies, case report, 25333
fluoxetine, males with social phobia, case reports, 2274
fluoxetine, mildly mentally retarded 23–24 yr olds with obsessive compulsive disorder, case reports, 2189
fluoxetine, obsessive compulsive disorder, 6–17 yr olds with Gilles de la Tourette's syndrome, 31187
fluoxetine, obsessive thoughts & compulsive rituals, 18–35 yr old males with obsessive compulsive disorder, 25406
fluoxetine or fluvoxamine, 5-HT uptake & development of extrapyramidal disorders including akathisia, 62 & 36 yr old females with bipolar affective or obsessive compulsive disorders, 28301
fluoxetine overdose toxicity, 39 yr old female who attempted suicide, 4802
fluoxetine, paraphilias, male 26 & 28 & 30 yr olds, 31258
fluoxetine, pathological jealousy, female 34 yr old with delusional & obsessional disorder, case report, 31215
fluoxetine, patients with tricyclic refractory major depression, 13363

fluoxetine, plasma drug levels & imipramine binding to platelet membranes & whole blood 5-HT, depressed outpatients, conference presentation, 13458
fluoxetine, polydipsic hyponatremic schizophrenic males, test of compulsive behavior hypothesis, 25309
fluoxetine precipitated mania, male 40 yr old with panic disorder, 5457
fluoxetine prior to ECT, occurrence of prolonged generalized tonic clonic seizure, depressed 74 yr old male, case report, 34184
fluoxetine, reactivation of herpes simplex virus, 42 & 43 & 64 yr olds with major depression, case reports, 34109
fluoxetine, self injurious behavior, 23–46 yr olds with profound mental retardation, 7988
fluoxetine, sleep, females with bulimia nervosa &/or major depression, 28338
fluoxetine, treatment resistant 24–72 yr olds with bipolar II depression, 22278
fluoxetine, trichotillomania, female 39 yr old, case report, 25265
fluoxetine vs amitriptyline, antidepressant response & plasma concentrations, adults with major depressive disorder, 34108
fluoxetine vs amitriptyline, depressed outpatients, 16241
fluoxetine vs amitriptyline, efficacy & safety & sleep polygraphic variables, depressed 18–64 yr olds, 22244
fluoxetine vs clomipramine, female 37 yr old with familial trichotillomania, case report, 31227
fluoxetine vs clomipramine, therapeutic efficacy & side effects, 18–65 yr olds with obsessive compulsive disorder, 8010
fluoxetine vs desipramine & solution palatability, ethanol intake, alcohol nonpreferring female rats, 9389
fluoxetine vs doxepin, adults with major depressive disorder, 16323
fluoxetine vs enantiomers of oxaprotiline, cyclic adenosine monophosphate binding proteins in cerebral cortex, male rats, 14835
fluoxetine vs fenfluramine, consummatory & operant behavior, male rats, 6902
fluoxetine, weight gain, 16–45 yr olds with anxiety & mood disorders, 31200
fluoxetine with buspirone augmentation, patients with obsessive compulsive disorder, 19289
fluoxetine, 17 yr old female with Prader-Willi syndrome & mild mental retardation & obesity & trichotillomania with trichophagia, case report, 25290
fluoxetine, 19–35 yr old females with low weight chronic bulimia nervosa, 16349
fluoxetine, 19–38 yr olds with anorexia nervosa, 7961
fluoxetine, 27–52 yr old females with trichotillomania, 34128
fluoxetine, 3H-imipramine binding & 5-HT uptake & concentrations, hospitalized 25–69 yr olds with depressive disorder, 10778
fluoxetine, 30 yr old male with voyeurism, case report, commentary, 34059
fluoxetine, 38–52 yr old females with treatment resistant panic disorder with agoraphobia & depression & PTSD, case reports, 34125
fluoxetine, 39 yr old male with pathological jealousy accompanied by depression, case report, 5421
fluvoxamine or fluoxetine, apathy & indifference & loss of initiative & disinhibition, 35–55 yr olds with panic disorder & chronic depression, 13393
GBR 12909 vs desipramine vs fluoxetine, cocaine induced drug discrimination, male rats, 32586
haloperidol & fluoxetine induced tardive dyskinesia, male 39 yr old with episodic paranoia, case report, 31279
high dose fluoxetine vs standard dose imipramine, activation or sedation, patients with psychomotor agitated vs retarded depression, 31175
interaction of fluoxetine & cyproheptadine, female 24 & 32 yr olds with bulimia nervosa, Canada, case reports, 34066
interaction of fluoxetine & desipramine or nortriptyline, depressed treatment resistant adults, 2182
interaction of fluoxetine & marihuana, development of severe mania & psychosis, depressed 21 yr old female with bulimia, case report, 34129
interaction of fluoxetine with other drugs & therapeutic response & toxicity, 2184
lithium augmentation of fluoxetine, female 35 yr old with obsessive compulsive disorder & depression, case report, 25321
lithium carbonate & desipramine or fluoxetine, 24–55 yr old outpatients with major depression with melancholia, 31201
lithium carbonate added to fluoxetine or desipramine, 24–55 yr olds with refractory major depression with melancholia, 22265
lithium with vs without carbamazepine, fluoxetine induced mania, female 29 yr old with bipolar disorder, 16242
long term–fluoxetine, outpatients with bulimia nervosa, 10 mo followup, 2199
morning vs evening fluoxetine administration, patients with major depressive episode, 25396
neuroleptic & fluoxetine treatment, development of agitation, male 14 yr old monozygotic twins with obsessive compulsive features, 19296
neuroleptic drugs with fluoxetine, treatment response & side effects, treatment resistant schizophrenic or schizoaffective male outpatients, 19252
neuroleptic drugs with fluoxetine, treatment response & side effects, treatment resistant schizophrenic or schizoaffective male outpatients, commentary, 19280
nortriptyline following discontinued fluoxetine, development of cognitive dysfunction, 60 yr old female with major depression, case report, 34095
parenteral fluoxetine vs RU-486, food intake & body weight, genetically obese & lean mice, 14751
phenelzine vs tranylcypromine vs fluoxetine, 29–45 yr olds with avoidant personality disorder, 16228
psychotherapy & fluoxetine & expectations of therapeutic effects, dysphoric patients, 13157
ritualistic use of very low dosages of fluoxetine during psychotherapy, female 33 yr old with dysthymia & avoidant personality & former polysubstance abuse, case report, 5404
safety & efficacy & side effects of nortriptyline vs fluoxetine, adults with major depression, conference presentation, 34061
safety & efficacy of high dose fluoxetine, 20–51 yr old psychiatric patients, 31284
side effects of combined fluoxetine & selegiline, female 46 & 56 yr olds with Parkinson's disease, case reports, 5463
suicidal ideation & fluoxetine, 58 yr old male with major depression & 28 yr old female with bulimia & major depression, 22257
suicidal preoccupation during fluoxetine treatment, depressed 19–62 yr olds, commentary on case reports, 5441
trazodone, 28–37 yr old females with insomnia associated with fluoxetine, 10749

Fluphenazine

brain concentration of fluphenazine during ECS, rats, 12061
dosage of fluphenazine decanoate, plasma levels & clinical response & side effects, schizophrenic patients, longitudinal study, 34092
fluphenazine decanoate, delusional symptomatic transsexualism, male schizophrenic 24 yr old, case report, 2187
fluphenazine dosage, dystonic reactions, inpatients with schizophrenia or schizoaffective disorder, 16346
fluphenazine, mentally retarded 6.8–46 yr olds with severe self injurious behavior, test of dopamine blocking hypothesis, 25312
fluphenazine, oxidative stress & free radical scavenging in brain, rats, implications for understanding biochemical basis of tardive dyskinesia, 6773
fluphenazine, plasma HVA, schizophrenic patients, 16309
fluphenazine with vs without debrisoquin, plasma HVA concentrations, schizophrenic inpatients, 25337
high dose fluphenazine, severe aggressive behavior, 60 yr old male with Alzheimer's type dementia, Switzerland, 16324

in vivo detection of fluphenazine decanoate in brain by MRI, schizophrenic 26 yr old male, 18528
noncompliance with oral fluphenazine, newly readmitted schizophrenic males, 2279
penfluridol vs fluphenazine decanoate, patients with subchronic vs chronic schizophrenia, India, 16233
short term fixed doses of fluphenazine hydrochloride, clinical response & extrapyramidal symptoms, schizophrenic vs schizoaffective vs atypical psychotic inpatients, 2230
single dose of fluphenazine decanoate, half life & pharmacokinetics of plasma fluphenazine, 23–43 yr old inpatients with chronic psychosis, 16344
Flurazepam
chronic flurazepam, motor behavior sensitivity to intranigral GABA or THIP, male rats, 26909
efficacy & safety of zopiclone vs flurazepam, 19–64 yr olds with insomnia, 8024
flurazepam & midazolam, sleep & next day performance & mood, patients with chronic insomnia, 13397
flurazepam before vs after FI behavioral training sessions, behavioral tolerance & dispositional tolerance to serum elimination rate, male rats, 29849
pharmacodynamics of zopiclone vs flurazepam, sleep disorder, 65 yr olds & older, 34048
Focusing (Visual) [See Ocular Accommodation]
Folic Acid
acute ethanol & dietary folate deficiency, maternal fetal folate transfer, female rats, 29853
lithium prophylaxis, serum & red cell folate & affective morbidity, 17–73 yr olds with unipolar or bipolar affective disorders, Ireland, 22260
red cell folate concentrations, depressed vs euthymic vs manic vs schizophrenic vs alcoholic patients, 4497
Folie A Deux
clinical implications of folie a deux, moderately mentally retarded male 32 yr old, 24732
diagnosis of folie a deux, 76 yr old female with paranoid psychosis who mummified her son's corpse, 21433
etiology & management of folie a deux, 79 & 81 yr old sisters with probable senile dementia of Alzheimer's type, 1748
folie a deux, female 41 yr old & 5 family members with persecutory delusions, West Germany, case report, 21446
folie a trois of paranoid delusional beliefs, immigrant Soviet Jewish male 49 yr old & female 39 yr old & their elderly parents, Israel, 4657
suicide pacts & delusional folie a deux as psychoses of association & psychological rationales, adults & cult members, 12669
Folk Medicine
cross cultural factors in nature & origin & prevalence, shamans & magico religious healers, 7106
healing practices vs Western health care process & procedures, Cree Indians, 33873
history & changes in shamanism & healing, Inupiaq Eskimos, 9710
home based treatment for blocked intestine & depressed fontanelle & fright sickness & evil eye, Mexican Americans, implications for culture specific health care delivery, 22062
integration of cultural traditional healing in counseling interventions, Native Americans, 10890
integration of modern & traditional obstetrics, Nepal, 25462
interpretation of illness & sickness & various treatments, Anishinaabe, Canada, 12598
locus of illness control beliefs, herbalists, Brazil, replication, 22037
plant model of healing effect, 43 yr old male healer, 23113
reliance on folk healing, delivery of child welfare & health care services, Mexican American families, 25447
treatment & rehabilitation via traditional healers & religious cults vs modern psychiatry, mentally ill, Nigeria, 7768
Folklore
environment & expression of aggression in folktales, 1029
Japanese folklore of "Kan-No-Mushi" as inner externalization of misbehavior & means for learning compromise & coexistence, children, implications for family therapy, 7051
representation of separation in phallic narcissistic developmental phase in dream about fairy tale & movie "The Red Shoes", 40 yr old female analysand, 31063
role of folklore in residential therapeutic community, emotionally disturbed children, 8159
Folktales [See Folklore]
Follicle Stimulating Hormone
menstrual cycle phase & LH & FSH levels, electrodermal activity & tone habituation & trait anxiety & psychosomatic symptoms, 19–24 yr old females, 12001
Followup (Posttreatment) [See Posttreatment Followup]
Followup Studies
methodological shortcomings in followup studies of adult inpatient psychiatric treatment, 13613
Food
ability to ignore false toxicity food labels, college students, 11736
attitudes toward food & dieting, 15–81 yr old patients at family practice clinic, 2350
butorphanol &/vs bremazocine, rate of responding to food presentation, morphine tolerant vs nontolerant male rats, 727
caloric density vs consistency of peanut butter, rumination, mentally retarded institutionalized 22–53 yr olds, 25563
captopril & pregastric food contingent stimulation with open gastric fistula, drinking & systemic dehydration, male rats, 23587
cardiovascular dietary risk knowledge & attitudes & food shopping behavior, female shoppers, 18925
central injections of growth hormone releasing factor, operant response for food reward, male rats, conference presentation, 12103
cocaine administration & withdrawal, responses under fixed consecutive number schedule of food presentation with vs without external discriminative stimulus, pigeons, 29761
conceptual themes of Thanksgiving celebration & consumption rituals, consumers, 33211
continuous dopamine D1 antagonist SCH 23390, cocaine vs food maintained responding & iv cocaine self administration, rhesus monkeys, 29845
cultural factors & consistency of perceptions of food characteristics & effects on eaters & language use, Cantonese speakers, Hong Kong, 12185
dependent & food related Rorschach imagery, obese vs normal weight vs eating disordered 16–38 yr old females, 21796
dexfenfluramine in food reward paradigm, paw lick latency & beta endorphin & dopamine & serotonin metabolism, female rats, 23710
diazepam, shock CS disruption of barpress for food reinforcement, male rats, 658
divisibility of food patches, producer vs scrounger strategies in group foraging, finches, 3524
eating bout interval, acquisition & loss of food craving, college students, 20649
electrical brain stimulation as economic substitute for food & water VR reinforcement, female rats, 23606
female attractiveness & food orientation in children's TV commercials, implications for eating disorders, 3983
food consistency, ruminating, profoundly retarded 25–36 yr old males, 10212
food deprivation/stimuli & sexual arousal, feeding & locomotion, snails, 14635
food FR & deprivation, food maintained performance during PCP withdrawal, monkeys, 32493
food in mating chamber, mating success, mutant White vs other genotypes of Drosophia melanogaster, 9126
food texture, chewing duration & development, healthy 6 mo to 2 yr olds, 18025
foraging & food sharing outside nuclear families, Ache males, Paraguay, verification of show off hypothesis, 18333
gastrointestinal poison administered with food, food avoidance learning ability, sheep, 26852

haloperidol vs clozapine, reacquisition of alleyway running for food reward, male rats, 765
importance of food & household budgeting & cooking in therapeutic community, severely disturbed children, case reports, 25566
macronutrient analysis of foods rated safe or forbidden & binge episodes, bulimic females, 24866
neonatal vs adult medial prefrontal cortex lesions, food hoarding & spatial delayed alternation, male rats, 23611
neophobia toward animal vs nonanimal foods, college students, 33199
parent & peer influences & TV advertising & snacking & food purchases, urban 10th–12th graders, 23876
prenatal protein malnutrition, response rate to food reward, male adult rats, 12042
properties & origins & determinants of food craving, literature review, 11991
proportion of health & weight loss claims for food directed at women in women's magazines, 1960–69 vs 1970–79 vs 1980–87, 23058
risk message & background characteristics & knowledge about & attitudes toward food irradiation, acceptability of irradiated food, adult females, 17086
seasonal variation of food availability, social grouping patterns, moufflon ewes, 14463
self reported diet diary vs quantitative food frequency questionnaire, estimation & classification of alcohol consumption, 24–51 yr olds, 1 yr study, 3057
severing of esophageal nerves, long term memory of learning that food is inedible, aplysia, 17800
social system & food supply, sex ratios & mortality rates, juvenile nonhuman primates, 3593
texture & physical state of food, calorie intake, 22–25 yr olds, 20704
VR ratio schedules in closed economy, long term contrafreeloading, male rats, 9104
VR schedule & reinforcing value of smoking vs money vs food in smoking &/vs food deprivation vs nondeprivation, adult females, 29315
weight pulling for cocaine mixed food, male rats, 753

Food Additives
dietary protein levels & sources & umami, preference for sodium chloride, male rats, conference presentation, 32508
inosine 5-monophosphate & ions, taste sensitivity to glutamate salts, college students vs elderly, conference presentation, 32813
monosodium glutamate & sodium saccharin & citric acid & saccharin mixture, temporal patterns of taste quality descriptors, female 18–20 yr olds, conference presentation, 32169
monosodium glutamate &/vs disodium salt &/vs guanosine 5-monophosphate, whole vs single fiber chorda tympani nerve responses, female chimpanzees, conference presentation, 32611
monosodium glutamate, food intake & palatability, institutionalized elderly, France, conference presentation, 32149
monosodium glutamate, glucagon & insulin release & plasma glucose & cellular metabolism, male rats, conference presentation, 32704
monosodium glutamate, hunger & food intake, college students, 23717
monosodium glutamate, parabrachial gustatory neural responses while awake, rats, conference presentation, 32655
monosodium glutamate taste, consummatory behavior, dogs & rats, conference presentation, 32377
monosodium glutamate, taste preferences, 3–24 mo olds, Mexico, conference presentation, 32762
preference for amino acids & other gustatory stimuli with vs without monosodium glutamate, male monkeys, conference presentation, 32666
TV linked health education, reduction of dietary salt intake, adult viewers, Australia, 8064
umami substances, chorda tympani nerve responses & conditioned aversion & generalization & preference, rats, conference presentation, 32718
umami substances, responses of chorda tympani nerve, dogs, conference presentation, 32632
umami substances, structural relation of umami taste receptor to glutamate CNS site & specificity of receptor mechanisms & nucleotide synergy, hamsters, conference presentation, 32594
umami substances, taste perception & threshold & judgment of pleasant vs unpleasant taste, adults, Japan vs US, conference presentation, 32168
umami substances, taste sensitivity & responses of chorda tympani & glossopharyngeal nerves, 7–10 day vs 8–16 wk old rats, conference presentation, 32654

Food Allergies
adverse reactions to food & possibility of psychological food intolerance, 4960
locus of control & life stress & eating attitudes & somatic & psychological features, 18–60 y olds with adverse food reactions, 33753

Food Deprivation
access or nonaccess to food &/or mates, feeding & locomotion & mating behaviors, snails, 14674
access or nonaccess to food &/or mates, feeding & reproductive behaviors & activity level, snails, 14673
age & dietary restriction, biochemical changes in jejunal & ileal enzymes, male rats, 33–34 mo study, 26756
age & 1-phenylalanine, endogenous cholecystokinin satiety effects on food intake & body weight, normal vs undernourished 1–22 day old male rats, 26894
brain monoamines & neuropeptides & related peripheral autonomic & endocrine functions & food deprivation, normal vs disturbed eating, animals, 12035
caloric restriction via novel apparatus, food hoarding behavior, female rats, 17749
diet restriction, body temperature & membrane viscosity of lymphocytes & hepatocytes & cerebellar cells, aged female rats, test of theory of physiological aging, conference presentation, 32522
food & litter deprivation, exploratory behavior as measure of motivation, laying hens, 20696
food deprivation & ambient temperature, nocturnal hypothermia & motor activity, Japanese quail, 26755
food deprivation & breeding site quality, risk sensitive foraging, bitterlings, 3775
food deprivation & corticosterone levels in blood, dietary fat intake during refeeding, adrenalectomized male rats, 6705
food deprivation &/or stress, blood triiodothyronine & thyroxine & cortisol & glucose levels, sheep, 9311
food deprivation, autoshaped acquisition, male rats, 23593
food deprivation, male parental investment & courtship role, katydids, 579
food deprivation, motivation to work for food reward, hens, development of push-door apparatus, 9297
food deprivation vs insulin treatment, light dark variations in short term feeding responses, male rats with suprachiasmatic nuclei lesions, 23595
food deprivation vs satiation, rating of intensity & hedonic value of sucrose concentration, 18–33 yr olds, 29329
food deprivation/stimuli & sexual arousal, feeding & locomotion, snails, 14635
food rationing & unavailability of mother during lactation, play, kittens, 6704
food restriction & ethanol, suppression of natural killer cell activity, female mice, 20672
food restriction, serum progesterone levels & duration of lactational diestrus, female rats, 20708
food restriction stress, immune response, male mice, 9295
morphine vs codeine alternation & levels in cortex vs midbrain vs pons & medulla vs cerebellum vs adrenal gland vs pancreas, fasting rats, implications for study of eating disorders, 29690
naloxone & site of action, neuropeptide Y induced food intake, fasted male rats, 32683
naloxone, food deprivation induced high rate wheelrunning, male rats, 6768

naloxone with methysergide vs ketanserin vs ritanserin vs ICS 205930, food intake & naloxone hypophagia, food deprived male rats, 26738
nor-binaltorphamine, food deprivation & opioid induced feeding, rats, 14809
open vs closed feeding economy, timing of external stimuli & behavior, female pigeons, 12044
parameters & duration & number of pecks during head in trough behavior, food intake, food deprived vs undeprived laying hens, 26789
PCP hydrochloride, exploratory behavior & plasma corticosterone levels, food deprived vs free feeding male rats, 569
PCP hydrochloride vs dextroamphetamine sulfate dosage & food deprivation & stress, exploratory behavior, male rats, 570
phenylpropanolamine vs dextroamphetamine sulfate in paraventricular hypothalamus, sweetened mash diet consumption, food deprived rats, 3973
prefeeding & deprivation & alternate source of calories & increase in caloric density, food intake, male baboons, 6710
raclopride vs SCH 23390, sham sucrose feeding & water drinking after food & water deprivation, male rats, 14666
repeated food restriction cycles, weight gain & body fat, white footed mice, 6712
restricted vs nonrestricted food access, consummatory behavior, vasopressin deficient Brattleboro male rats, 23589
semistarvation vs exercise, plasma corticosterone vs triiodothyronine vs LH vs testosterone levels, male rats, 9281
threat displays & fights, behavioral & biochemical effects, fed vs fasted fish, 17737
time restricted access to protein & carbohydrate, diet preferences, male mice & rats, 23572
undernourishment, discrimination of light intensity under simple vs difficult conditions, male rats, 32488
vasopressin during food restriction stress, body weight & food & water intake & gastric ulcer formation, vasopressin deficient Brattleboro rats, 23742
Food Intake [See Also Diets, Eating]
access to varied vs constant strength sucrose solution & interval between sucrose & regular food access, caloric intake & weight gain, male rats, test of negative consummatory contrast effect, 11894
acute anxiety, food intake & preferences, male 33–67 yr olds awaiting surgery for hernia, 5494
acute fenfluramine & predarkness food presentation, neuropeptide Y concentrations in hypothalamic nuclei & anorectic impact, male rats, 23716
age & meal size, preprandial or postprandial intervals between feedings, breast fed 2–12 wk olds, 9496
age & 1-phenylalanine, endogenous cholecystokinin satiety effects on food intake & body weight, normal vs undernourished 1–22 day old male rats, 26894
alpha-1 adrenergic receptor antagonist benzoathian in paraventricular nucleus, phenylpropanolamine induced anorexia & food & water intake, male rats, 29940
amiloride & taste enhancement chemicals, food intake & nutritional status, elderly, conference presentation, 14861
animal models of obesity vs human food intake & obesity, 12029
artificial CSF vs semi purified & high performance liquid chromatography purified human satietin vs alpha-1-glycoprotein, ingestion & body weight, food deprived male rats, 23637
aspartame, motivation to eat & food intake, college students, 737
aspartame vs aspartic acid vs phenylalanine, food intake, eating motivation, 20–37 yr olds, 32676
barpressing for food & eating, DOPAC & HVA & dopamine turnover in prefrontal cortex, male food deprived rats, conference presentation, 23506
behavioral assessment & management of food refusal, 10–42 mo olds with cystic fibrosis, 25254
bilateral intraperifornical sulpiride vs dopamine vs other drugs, food & water seeking locomotion, male rats, conference presentation, 23712
biochemical measures of nutritional status & food intake & psychometric test scores, cognitively impaired 60 yr olds & older, conference presentation, 15921
bite size, chewing & eating development, 6–24 mo olds, 20833
breakfast size, blood glucose & mood & short term memory & concentration, 13–20 yr olds, 17998
brief exposure to aspartame concentrations, immediate preference & delayed intake, 19–38 yr olds, 23703
brief vs extended sustained shock avoidance/escape procedure & number of required leverpresses, food intake & elasticity of demand & circadian rhythms, male rats, 26797
caffeine & bombesin, ethanol & food intake, water vs food deprived rats, 23573
caloric & nutrient & physical activity & resting metabolic rate, male 18–29 yr old smokers vs nonsmokers, 33063
caloric level & energy density & sensory specific satiety, food intake, 19–34 yr old males, 6672
calorie & nutrient intake, 20–35 vs 65–95 yr olds, conference presentation, 14956
carbohydrate & protein content of formula, intestinal hydrogen production & crying & fussing, 28 day olds, 32740
carbonated soft drinks with aspartame, subjective hunger & food intake & selection, male 19–25 yr old restrained vs nonrestrained eaters, 32570
cholecystokinin octapeptide, concentration of cholecystokinin like immunoreactivity in plasma & food intake, male rats, 23684
cholesterol vs 17 alpha estradiol in paraventricular nucleus, food & water intake & body weight, female ovariectomized rats, 647
chronic endogenous hyperinsulinemia, food intake & feeding patterns, male rhesus monkeys, 9243
circadian rhythms of taste preferences & food & fluid intake & body weight gain, male rats with pinealectomy or sham pinealectomy, 633
clonidine, carbohydrate intake, genetically obese & lean mice, 17830
cocaine, food intake before vs during vs after desipramine, male baboons, 3861
concurrent chained schedules of food & water & iv cocaine, food vs water intake vs cocaine self administration, rats, 29789
conditioned feeding task & olfactory & gustatory brain stimulation & chemicals, glucose sensitive vs insensitive neuronal activity in lateral hypothalamic area, monkeys, 23583
consumption of sweet food as 1st vs 3rd course, food intake during 3 course lunch, normal weight 21–35 yr old males, 29642
corticotropin releasing factor antagonist & exercise, food intake & body weight gain, male rats, 3766
cumulative food intake curves & postprandial thermogenesis & skin & core temperature during solid food meals, normal weight vs obese restrained vs unrestrained eating adult females, 23567
cyclo(His-Pro), amphetamine or fenfluramine or serotonin induced food intake, male rats, 29846
cyclo(His-Pro), food intake, male rats, 29847
data collection & analysis program in study of effects of drugs on food consumption & water & ethanol microdrinking, rats, conference presentation, 29836
delay of postsession feedings, within session response rates for lever & key pressing, rats, commentary, 26540
desipramine & saline, cocaine &/vs food self administration, rhesus monkeys, 6861
development of real time automated computerized eater meter, rats, 11817
dexfenfluramine &/vs opioid agonists vs naltrexone, food intake & brain serotonin turnover, female rats, 29902
dexfenfluramine vs fluoxetine vs RU 24969, carbohydrate vs protein diet intake & selection, male rats, 705
dexfenfluramine vs RU24969 vs fluoxetine, food intake & diet selection & body weight, male rats, 26887
dextroamphetamine sulfate & fenfluramine hydrochloride, food intake of high carbohydrate or high fat diet, male rats, conference presentation, 17868

dextroamphetamine, unrestricted eating behavior & macronutrient intake, 21–38 yr olds living in residential laboratory, 3862
dosage & chronic m-chlorophenylpiperazine, functional sensitivity of presynaptic & postsynaptic 5-HT receptors & 8-OH-DPAT induced food intake changes, food deprived vs nondeprived male rats, 32564
doses of corticotropin releasing hormone, anorexigenic effects & operant conditioned food maintained behavior vs escape responding, adult male rhesus monkeys, 26862
drinks sweetened with sucrose vs aspartame, hunger & thirst & food intake, nondieting 21–39 yr old males, 559
electrical brain stimulation induced eating, opioid receptor binding, rats, 14684
estradiol & novel or familiar diet, taste aversion & suppression of food intake, ovariectomized rats, 12030
ethanol, normal food intake & eating behavior, male rats, 23714
ethanol vs water solution with vs without food, stability & presence of ethanol reinforced behavior, male monkeys, 17887
exercise, food intake & calorie consumption, lean vs obese adults, 13170
extinction of taste aversion to denatonium, ingestional potentiation, weanling rats, 11829
fluoxetine vs fenfluramine, consummatory & operant behavior, male rats, 6902
food deprivation & corticosterone levels in blood, dietary fat intake during refeeding, adrenalectomized male rats, 6705
food intake & dietary self selection, female rats assessed during pregnancy vs lactation, 32309
food intake & selection & eating styles, males vs females, literature review, eating disorders research & treatment implications, 27394
food intake after overeating in laboratory, female dieters vs nondieters, Netherlands, 23545
food intake, reflex response to touch on face, Soay vs Clun Forest lambs in 1st 2 wks of life, 26550
food preload, regulation of food intake, normal weight vs overweight female college students classified as restrained dieters vs nondieters vs unrestrained nondieters, 33731
foraging behavior & energy gain & population growth & fitness, zebra finches, 32364
galanin, food intake, male rats, 6837
glyceric acid vs 3,4-dihydroxybutanoic vs 3,4,5-trihydroxypentanoic acid g-lactone before dark phase in 3rd cerebroventricle, feeding behavior & humoral factors, male rats, conference presentation, 23718
hepatic glycolysis & glucose release & glycogenolysis & oxygen consumption & ketogenesis & gluconeogenesis & glycogen & food ingestion, meal fed male rats, 6657
hepatic portal infusion of epinephrine, plasma glucose & insulin & food consumption, dogs, 6763
high vs low carbohydrate intake during weight loss, high intensity physical performance, college student wrestlers, 2991
homogeneity of dietary restraint vs disinhibition constructs, adults in weight reduction program, 12 mo study, 20707
hydrational vs nutritional status altered by continuous sodium vs milk, ingestion & hematocrit & plasma osmolality, rat pups, 32521
hypothalamic d-norfenfluramine vs peripheral d-fenfluramine during different times of diurnal cycle, protein & carbohydrate & fat intake, male rats, 23740
icv beta funaltrexamine, food intake in freely feeding vs deprivation vs glucoprivic conditions & opioid receptor binding, male rats, 14717
icv doses of muscimol with vs without picrotoxin, food vs water intake, turkey hens, 26850
icv injections of GABA & muscimol with vs without bicuculline, operant feeding, prepubertal pigs, 6757
ingestion with vs without simultaneous sight of food vs salt vs nonfood objects, release of GABA vs monoamine neurotransmitters in zona incerta, food vs sodium deprived sheep, 32506
insulin, food intake & body weight during summer feeding period, marmots, 23663
insulin, food intake & weight gain, streptozotocin induced diabetic male rats, 23743
interferon, horizontal activity & food & water intake, male mice, 3946
interleukins & tumor necrosis factor & tuftsin & platelet activating factor, CNS & feeding regulation, literature review, 14566
interreinforcement interval duration, appetitive contextual conditioning, rats & ringdoves, 29517
intracranial GABA vs muscimol vs picrotoxin, food intake & ventromedial vs lateral vs paraventricular hypothalamic electrical activity, rats, 6881
intrahypothalamic administration of human vs rat amylin vs calcitonin gene related peptide, anorexia producing feeding effects & neurotransmitter metabolism, male rats, 20740
ip vs introventricular cholecystokinin agonists vs antagonists, central vs peripheral type receptor sites for inhibition of food consumption, male rats, 32585
lateral hypothalamic 5-HT, mazindol induced anorexia, male rats, 17923
lesions of lateral telencephalon & visual Wulst & fronto archistriatal tract, feeding & food discrimination, pigeons, 9338
levotyrosine, sympathomimetic drug induced anorectic activity, food deprived hyperphagic male rats, 12118
light cycles & suprachiasmatic nuclei lesions, feeding time anticipation & location discrimination, rats, 9330
light/dark cycle, food to water intake ratios, male rats, 11983
lithium with vs without insulin or sulpiride, body weight & food intake, male vs female rats, 26828
manipulation of perceived dieting self efficacy by inducing perception of good vs bad dieter, reaction to dietary challenge, restrained vs unrestrained female college students, 15261
meal size, performance efficiency & mood & cardiovascular function, 19–39 yr old females, 29668
meal to meal & day to day variability in energy intake, 2.2–5.2 yr olds, 17975
meal to meal & day to day variability in energy intake, 2.2–5.2 yr olds, commentary, 17985
metergoline & fenfluramine, appetite & food intake, healthy males, implications for role of 5-HT neurotransmission in seasonal affective disorder, 12158
methiocarb methypyrazine treated rice with vs without color, food consumption & avoidance, red winged blackbirds, 3810
MK-329 vs L-365,260, cholecystokinin-8 induced feed intake & activity, 9–12 day old rat pups, 17925
monosodium glutamate, food intake & palatability, institutionalized elderly, France, conference presentation, 32149
monosodium glutamate, hunger & food intake, college students, 23717
morphine & kappa receptor agonist U50,488H, food intake & electrophysiological effects, terrestrial mollusc Limax maximus, 17946
multiple cholecystokinin receptors & monoamine interactions, food intake, rats, 23647
N-terminal fragments of neuropeptide Y, maximal food intake, male rats, 26896
naloxone & nor-binaltorphimine in parabrachial nucleus, electrically induced feeding, rats, 26740
naloxone & site of action, neuropeptide Y induced food intake, fasted male rats, 32683
naloxone with methysergide vs ketanserin vs ritanserin vs ICS 205930, food intake & naloxone hypophagia, food deprived male rats, 26738
neuropeptide Y vs synthesized amino terminus fragment neuropeptide Y 1-27, food intake, male rats, 29887
nicotine, hunger & caloric intake, smokers vs nonsmokers, 14836
nor-binaltorphamine, food deprivation & opioid induced feeding, rats, 14809
nor-binaltorphamine or naltrexone, nocturnal & glucoprivic feeding & high fat diet intake, male rats, 14716

norepinephrine vs neuropeptide Y vs galanin injections into paraventricular nucleus during early vs late dark period, feeding responses, male rats, 23734
nutritional manipulations, food intake & body weight, animal models of obesity & appetite, 12018
obesity & dietary intake & health & food related behavior, lean vs overweight Navy personnel, implications for Navy weight reduction programs, 1749
opiate agonist vs morphine after amphetamine in ventral tegmental area, food intake, male rats, 26901
osmotic & volumetric & depleting & repleting characteristics of carbohydrates vs proteins vs sodium vs fat, thirst & amount & timing of fluid intake, 18–69 yr olds, 26711
overnight fast, platelet serotonin uptake, female psychiatric patients with bulimia nervosa, 7649
oxytocin, food & water intake, male rats, 23630
oxytocin vs agonist vs antagonist, food & water intake, male rats, 20785
palatability & restraint & amount of food offered, food intake during 4 course meal, obese vs normal weight females, 30997
parachlorophenylalanine, voluntary consumption of ethanol vs water vs food, genetically low vs high ethanol consuming rats, 6781
parameters & duration & number of pecks during head in trough behavior, food intake, food deprived vs undeprived laying hens, 26789
parenteral fluoxetine vs RU-486, food intake & body weight, genetically obese & lean mice, 14751
parenteral vs 3rd ventricle injection of enterostatin, food intake induced with vs without clonidine, male rats, 26920
perceived control & drive for thinness, food consumption, female college students with anorexic tendencies, 24937
personality traits, preferences for & dietary intake of salt & sugar flavors, college students, 4472
phenylpropanolamine vs dextroamphetamine sulfate in paraventricular hypothalamus, sweetened mash diet consumption, food deprived rats, 3973
physiological bases of anorexic action of phenylpropanolamine, animals vs humans, 3725
physiological dose ranges of icv somatostatin in light vs dark, feeding, male rats, 14760
po proteinase inhibitor II, food intake, lean young adults, 6820
polyethylene glycol, fluid & food intake, Fischer vs Sprague Dawley rats, 23739
prefeeding & deprivation & alternate source of calories & increase in caloric density, food intake, male baboons, 6710
presence of others, duration & size of & food intake during meals, 18–54 yr olds, 546
proglumide, phenylpropanolamine induced anorexia, male rats, 29941
raclopride vs SCH 23390, sham sucrose feeding & water drinking after food & water deprivation, male rats, 14666
recall duration, reported food intake frequency, college students, Australia, 20650
red nucleus lesions, limb preference & skill in reaching for food task, female rats, 12085
restricted vs nonrestricted food access, consummatory behavior, vasopressin deficient Brattleboro male rats, 23589
role of brain serotonin & fenfluramine, calorie & protein & carbohydrate intake from snacks vs meals & mood changes, obese adults with carbohydrate cravings &/or seasonal affective disorder, 13467
Roman Catholic view on definition of terminal illness & cessation of burdensome care & artificial delivery of food & fluids, permanently unconscious patients, commentary, 5541
selective kappa agonist U50,488, food intake, 4 strains of female mice, 3909
sensory preferences for & consumption of fat & sugar, children & adolescents vs adults, conference presentation, 14948
serotonin, role of medial hypothalamic nuclei in macronutrient ingestion, rats, 17878
sex & kainic acid lesions of lateral hypothalamic area vs ventromedial hypothalamic nucleus, changes in body weight & food & water intake, rats, conference presentation, 20725
short vs long term lithium, fenfluramine induced decreases in food & water intake & weight gain & locomotor activity, male rats, 32563
single diet vs food selection feeding paradigm, temporal patterns of food intake & arterio-venous differences in plasma glucose & insulin & tryptophan, rats, 20648
smoking deprivation, calorie consumption, bulimic female 21–30 yr old smokers, conference presentation, 7623
smoking regular vs low nicotine cigarettes vs smoking deprivation, caloric intake & mood & cigarette cravings & urges to binge, bulimic 20–31 yr old females, 33651
structure & activity of neuropeptide Y, food intake & body temperature decrease, male rats, 20762
subfornical organ lesions with vs without captopril, sodium appetite & other ingestive behaviors, sodium depleted & otherwise deprived male rats, 6725
sucrose vs aspartame in breakfast cereal & information about sweetener, hunger & energy & food intake, adults, 708
supplanting conspecifics from foraging sites & food intake, black coots, 26552
swallowing threshold & gut encounter models, prediction of occurrence & extent of prey preparation, grasshopper sparrows, 3543
temperature & mode of presentation of juice, hunger & thirst & food intake, normal weight nondieting 18–35 yr olds, 12036
texture & physical state of food, calorie intake, 22–25 yr olds, 20704
time or place or alcohol consumption or snacks, social facilitation of spontaneous meal size, 18–54 yr olds, 7182
time since consumption, memory of dietary intake, adults, 32291
traditional depletion/repletion vs long term perspective models of food intake, anticipation of future nutritional needs, animals, 23445
truncal vagotomy, food & liquid intake, morbidly obese 18–50 yr olds, 25436
type of food or nutrient, brain neurotransmitters & appetite & calorie & nutrient intake, animals & humans, 12043
validity of hunger ratings, assessment of frequency & caloric content of food intake, 20–37 yr olds, 6284
variety of vs single solid food unit flavors, food intake, underweight vs normal weight vs overweight 19–50 yr old females, 5086
vasopressin, food intake, rats, conference presentation, 17876
vasopressin treatment, spontaneous manipulator & locomotor activities & food & fluid intake & diet selection, Brattleboro vs Long Evans male rats, 23642
YM-09151-2 vs remoxipride vs raclopride vs SCH 23390, food & water intake, male rats, 20743
zinc sulfate induced behavioral anosmia, wheelrunning in anticipation of daily meal, male rats, 654
5-HT uptake inhibitor sertraline vs 5-HT agonists m-cholorphenylpiperazine vs RU 24969 vs DOI, feeding behavior during & after meal, male food deprived rats, conference presentation, 23727
8-OH-DPAT vs buspirone, corticotropin releasing factor induced locomotor activity & grooming & food consumption, male rats, 32636

Food Preferences

acamprosate vs diazepam, alcohol induced behavioral preference toward alcohol & blood alcohol level & cortical microvascular network, rats, 32603
age & educational background & family status, perceptions of healthy vs nonhealthy foods, adult females, Australia, 33216
brief exposure to aspartame concentrations, immediate preference & delayed intake, 19–38 yr olds, 23703
caloric content of visually displayed foods, palatability & hypothetical duration of consumption, bulimic vs anorexic patients, 33647

carbonated soft drinks with aspartame, subjective hunger & food intake & selection, male 19–25 yr old restrained vs nonrestrained eaters, 32570
color preference, food choice, 5–9 yr olds, 18081
conspecific chemical cues, influence of maternal labels on dietary preferences, spiny mouse weanlings, 440
conspecific interactions, food choices, protein deprived juvenile rats, 20681
dexfenfluramine vs fluoxetine vs RU 24969, carbohydrate vs protein diet intake & selection, male rats, 705
dietary fat content, food preferences, female weanling rats, 11821
dietary preference for sweet foods, 56–102 yr olds with probable Alzheimer's disease & vascular dementia, 10388
differences in olfactory thresholds & magnitude matching & odor identification, food enjoyment, 18–24 vs 70–90 yr olds, conference presentation, 14961
dosage of N-methyl-D-aspartate antagonist MK-801 & preexposure, blocked learning vs conditioned aversion in socially mediated learned food preference, female rats, 17891
excretory marking surrounding food sites, communication & social learning of food preferences, male Norway rats, 32360
experiences with food & eating, associative conditioning of food acceptance patterns, elderly, conference presentation, 15075
exposure to demonstrator, communication of diet preferences, female rats, 11832
fat vs carbohydrate diet preferences, ethanol intake, male rats, 32630
food & aesthetic preferences & values, college students vs their parents, 30354
food availability & feeding behavior, proboscis monkeys, 1 yr study, 3607
food deprivation vs satiation, rating of intensity & hedonic value of sucrose concentration, 18–33 yr olds, 29329
food intake & dietary self selection, female rats assessed during pregnancy vs lactation, 32309
food intake & selection & eating styles, males vs females, literature review, eating disorders research & treatment implications, 27394
food preferences & feeding behavior, rhesus monkeys living at human disturbed sites, 3 yr study, 3525
fructose & sucrose & maltose solution intake, acceptance & preferences, diabetic rats fed low vs high fat diets, 20703
genetically controlled taste sensitivity, use & perceived bitterness of & tolerance for cruciferous vegetables, 18–46 yr old females, 6661
historical developments in study of social learning of safe food preferences, Norway rats, 19th century to present, 6533
intake of high concentration ethanol vs palatable fluids, alcohol preferring vs nonpreferring rats, validation of genetic animal model of alcoholism, 32634
lateral hypothalamic neural responses to & preference for amino acid vs sodium chloride vs other solutions, rats on lysine deficient diet, conference presentation, 32531
lateral hypothalamus lesions, body weight & water intake & gustatory preference vs aversion functions for saccharin, male rats, 637
long vs short photoperiods, nutrient preferences, migratory juncos vs nonmigratory sparrows, 12028
marginally zinc deficient diet, food preferences, 2.5–3 yr old rhesus monkeys, 29678
maternal preference & lamb age, food selection, ewes & their lambs, 20539
metabolic & psychological & sociocultural variables, food choices, patients with eating disorders or obesity, conference presentation, 24814
monosodium glutamate, food intake & palatability, institutionalized elderly, France, conference presentation, 32149
nalmefene, perceived pleasantness of smell & taste of foods, healthy 19–22 yr olds, 32720
nutritive & nonnutritive oil emulsions, conditioned flavor preferences, female rats, 12027
olfactory loss, nutritional status & food enjoyment, 25–45 vs 60 yr olds & older, conference presentation, 15783
personality traits, preferences for & dietary intake of salt & sugar flavors, college students, 4472
pleasantness rating of fat sucrose & fat salt mixtures, normal vs overweight college students vs elderly, 11658
positive & negative conditional food preferences, rats, conference presentation, 23426
preference for food with capsaicin following 2 wk habituation, male rats, 17837
preference for saccharin vs water, ravens, 3471
risk perception, consumer choice of organically vs conventionally grown produce, grocery shoppers, 8670
sc administration of D-Ala-Met-enkephalinamide, acquisition of ethanol & sucrose preference, male rats, 6888
sensory preferences for & consumption of fat & sugar, children & adolescents vs adults, conference presentation, 14948
social influences, development of food preferences, naive female mice, 446
sucrose sensitive neurons in chorda tympani nerve fibers of tongue, sweet preference, male hamsters, 6637
taste & smell & measurement of food perception & preference & nutrient selection, conference presentation, 14289
time restricted access to protein & carbohydrate, diet preferences, male mice & rats, 23572
variety seeking in food choice, 18–81 yr olds, 21310
vasopressin treatment, spontaneous manipulator & locomotor activities & food & fluid intake & diet selection, Brattleboro vs Long Evans male rats, 23642
Football
interscholastic football as catharsis for aggressive emotions, adolescents, 30086
perceived leadership style & behaviors of coach, group cohesion, 14–18 yr old football players, 21063
personality characteristics & adjustment, low vs high achieving graduate football players, India, 2994
Foraging (Animal) [See Animal Foraging Behavior]
Forced Choice (Testing Method)
acquiescent response bias & social desirability of paired items on forced choice scales, 51
C. J. Bartlett's methodology for controlling illusory halo error in ratings from summated forced choice rating scales, 32106
categorical vs schematic behavior in forced choice picture vs object sorting task, 5–6 yr olds, France, 6955
choice strategy, performance on multiple choice vs true/false tests, dental students, 16720
forced choice prerecognition, 1935–87, meta analysis, 4
method of limits vs forced choice method of determining thermal discrimination thresholds, 18–72 yr olds with diabetes mellitus, 1725
single interval adjustment matrix vs forced choice method for unbiased adaptive testing, adults, 14148
transcranial magnetic stimulation, hand preference in forced choice task, right handed adults, 3778
2-interval vs 3- & 4-interval forced choice, estimator bias & efficiency in tone detection in noise, adults, 6406
Forebrain [See Also Diencephalon, Telencephalon]
basal forebrain & cutaneous stimulation & release of acetylcholine, cortical neuron responses, cats, 12057
behavioral deficits in go/no go alternation task, morphological changes in frontoparietal cortex, male rats with electrolytic lesions of basal forebrain, 32557
carbachol in basal forebrain with vs without atropine vs pirenzepine pretreatment, locomotion, male rats, implications for muscarinic receptors, 26838
choline acetylase activity in basal forebrain cholinergic nuclei & hippocampus & cortex & spatial memory performance, 3 vs 24 mo old female rats, 3476
chronic nimodipine, ultrastructural alteration of microvascular morphology in forebrain, aged male rats, 661
cognitive functions deficit, right handed 16–57 yr olds with forebrain damage & intracranial pressure, 5107
distribution & affinity of melanotropin receptors in forebrain, male rats, 17698

early exposure to complex visual environment with vs without novelty, c-fos messenger RNA gene, young chicks, 26735
forebrain ischemia, memory impairment in maze task, male rats, 17788
forebrain ischemia, spatial learning, rats, 14695
ibotenic acid vs quisqualic acid induced lesions of nucleus basalis magnocellularis, spatial matching & discrimination, male rats, 626
lesions of basal forebrain cholinergic system, cognitive impairment, animals, animal models of Alzheimer's disease, conference presentation, 9296
lesions of cholinergic neurons from nucleus basalis magnocellularis with vs without central serotonin depletion, learning & memory of maze spatial discrimination task, male rats, 17793
lesions of medial temporal lobes & midline diencephalon & cholinergic basal forebrain & associated functional deficits, amnesic patients & animals, 33740
melittin & H7 inhibition of protein kinase C of left intermediate medial hyperstriatum ventrale, memory formation & amnesia for 1-trial passive avoidance task, chicks, 14732
progesterone, t-butylbicyclophosphorothionate binding in forebrain areas & aggressive behavior, ovariectomized rats, 14734
projections from spinal cord & solitary nucleus through parabrachial nucleus to forebrain, cats, 11909
quisqualic acid induced nucleus basalis lesions, cortical EEG & passive avoidance & water maze performance, male rats, 631
quisqualic acid lesions of nucleus basalis magnocellularis, working vs reference memory in double Y maze & cortical choline acetyltransferase concentration, male rats, 29719
restraint stress, glutamate uptake & release in forebrain, male rats, 3756
retinal inputs to hypothalamus & anterior thalamus & basal forebrain, hamsters, 23540
selective destruction of cholinergic neurons of basal forebrain & injection of nerve growth factor diptheria toxin, passive avoidance learning, male mice, animal model of Alzheimer's disease, 32502
sex & forebrain commissure area & brain size, degree of laterality in paw preference, selectively bred mice, 11913
tetrahydroaminoacridine vs pilocarpine, scopolamine vs nucleus basalis lesion induced change in neocortical spectral EEG amplitudes during movement vs waking mobility periods, male rats, 29702
withdrawal from chronic cocaine treatment, motor behavior & forebrain dopamine synaptic function, rats, 17909
4-aminopyridine vs tetrahydroaminoacridine, potassium conductances in medial septum & forebrain nucleus, guinea pigs, 14778
5,7-dihydroxytryptamine, interaction of serotonin & dopaminergic systems of forebrain in latent inhibition & passive avoidance CR, male rats, 23686
6-OHDA lesions of tuberculum olfactorium vs nucleus accumbens, ethanol drinking, male rats, 29727

Foreign Language Education

action oriented lesson plan utilizing future projection & guided fantasy & situation test, college French students, 2724

discrimination of number of sides of polygons, squirrel monkeys, 397
discrimination thresholds for illusory contour orientations, cats, 356
discrimination thresholds of deformation zones of sides & corners of rectangular object, adults, test of multichannel threshold model of visual detection of brightness differences, 32204
disparity information, depth constancy & perception of cylindricality of stereoscopically defined curved random dot surfaces, adults, 32183
display size & number & closeness, parallel computation of primitive shape perceptions, 21–40 yr olds, 26332
distinction of adequate vs inadequate support, 7.5–9.5 mo olds, 819
distributed symbolic representation in computing architecture of visual shape representation, 6377
duration of form priming, letter recognition, adults, France, 17525
dynamic touch, shape perception, college students, 6341
fixation & spatial attention locations & intention to favor biased regions, perceptual organization of objects, college students, 17417
form & space perception & constructional abilities, clumsy vs nonclumsy 5–8 yr olds with learning disabilities, 1649
form distortion of familiar shape, perceptual adaptation, college students, 23325
form of brightness flashes near boundaries of objects with local image contrasting, detection thresholds, adults, 32205
form perception & visual acuity & individual recognition during alphabet learning task, 6.5 yr old female chimpanzee, 3477
geometric shape, area judgments, 4–9 yr olds vs adults, 9527
hierarchical pattern variation, hemispheric processing of global & local form & texture, 18–31 yr olds, 29351
image segmentation in computational approach to object recognition, 3312
implicit memory or priming, decision about structurally possible vs impossible novel 3 dimensional objects, college students, 17481
individual differences & psychophysical maps & subadditive saliency metric for dissimilarity judgment of rectangles, college students, replication, 20339
interface between Macintosh computer & glasses with liquid crystal shutter lenses in 3-dimensional perception cue presentation, conference presentation, 29368
interhemispheric differences in recognition of lateralized patterns, 18–35 yr olds, 6626
luminance contour & spatiotemporal uncertainty detection of coincident chromatic flash, Os, 20326
masked shape recognition routines, initial identification of figure ground relationships, college students, 23326
mathematical model of visual perception of area of circles vs squares, 18–42 yr olds, 17396
modality of shape presentation, perceptual learning, college students, 240
monoptic vs dichoptic presentation & characteristics of homogeneous target & mask, brightness perception & perceptual filling in of contours, adults, 32197
neural mechanism for computing shape information from image shading, 3270
object recognition in viewer centered reference frame & rapid alignment processes in shape recognition, adults, commentary, 29350
object recognition in viewer centered reference frame & rapid alignment processes in shape recognition, adults, commentary reply, 29373
parallel processing of color & form in redundant target detection task, college students, 242
pattern size & predictability, curve tracing response time, 18–44 yr olds, 14320
perceived surface shape, perceived lightness, adults, 26343
perceptual motor model of spatial orientation of shapes & evolutionary changes in vision & movement, humans & animals, conference presentation, 6528
perceptual shape constancy in picture perception, adults, Canada, 32193
peripheral distracting words presented during geometric figure classification task, inhibitory processes in visual spatial attention, college students, 20357
planar size & hardness & texture & contour, haptic classification, college students, 14304
qualitative & quantitative approach to threshold functional models of visual detection of spatial edges of objects, 8939
rectangular vs trapezoidal stimuli & monocular vs binocular viewing conditions, detection of surface orientation, 19–21 yr olds with normal uncorrected vision, 11686
repetition priming, word vs nonword lexical decision & symmetry discrimination of 2 dimensional polygons, 21–74 yr olds, 14410
shape & position expectations, RT, 18–26 yr olds, test of hierarchical expectancy hypothesis, 26342
simple convex vs singly concave contour deleted pictures, visual priming & facilitation, adults, 32171
spatial grouping of local shape & color, texture segregation in visual motion perception, Os, 20331
straight & right angle & parallel edge figures, Bourdon illusion, adults, 6361
straight & right angle & parallel edge figures, Bourdon illusion, adults, commentary, 23333
structural information & familiarity & discriminability, RT & judgments of fragmented forms presented in center of vs left vs right visual field, adults, 29341
structure from motion cues, perception of 3-dimensional shape of object, adults, 3295

task context requirements, formation of object features, adults, East Germany, 6390
test field wavelength & form & hue thresholds during dark adaptation, adults, 3324
unbending & bending effects in subjective contours in Bourdon illusions, college students, 6387
use of imagined haptic exploration in judgments of object properties, college students, 17364
visual field advantage for recognition of digits & random shapes, 4–6 yr olds, 3 yr study, 14991
visual field advantage for recognition of digits & random shapes, 4–9 mo olds vs 4–6 yr olds, 3 yr study, commentary, 32776
visual processing & subjective contours & color & movement under changing conditions of stimulation, 20350
visual-touch perceptual equivalence for shape information, 74–90 mo olds vs college students, 4074
Form Classes (Language) [See Also Adjectives, Adverbs, Nouns, Pronouns, Verbs]
acquisition & form & function of sentence ending suffixes in Korean speech, 1.7–2.9 yr olds, 30028

use of war toys & aggressive games during play, kindergartners & 4th graders, 9673
verbal games in group psychotherapy, social & emotional development, emotionally maladjusted late adolesents in psychiatric day care, 13324
working memory & reasoning & RT & vocabulary, 55–91 yr old bridge players & nonplayers, 12375

Gamma Aminobutyric Acid

baclofen, GABA binding sites, depressed male 21–57 yr olds treated with amitriptyline or imipramine or fluoxetine, 5435
benzodiazepine administration, alterations in neuroendocrine function & role of GABA & other neurotransmitters, humans & animals, conference presentation, 12097
benzodiazepine GABA receptors & serotonin systems, anxiolytic activity of antidepressants, rats, conference presentation, 12167
benzodiazepine receptor ligands, alterations in cerebellar GABA receptors, selectively bred alcohol tolerant vs intolerant rats, 29936
bilateral infusions of GABA into medial frontal cortex, performance on delayed spatial alternation task, male rats, 9379
blockade of benzodiazepine & GABA ionophore complex, reproduction of amnesic memory trace, mice preadministered diazepam, 3881
chronic flurazepam, motor behavior sensitivity to intranigral GABA or THIP, male rats, 26909
cocaine induced behavioral sensitization, changes in GABA neurons in lateral basolateral amygdala, male rats, 26882
CSF GABA levels, abstinent alcoholic adults, 4863
desipramine & MAO inhibitors, role of GABA-B receptors in Ca2-activated K-efflux in cultured spinal cord neurons, mice, 26873
distribution of GABAergic neurons in cerebellar cortex & dentate nucleus, postmortem brains of 74–93 yr olds with senile dementia of Alzheimer's type, Switzerland, 25005
ECT, GABA levels, male rats, 3781
familiar vs unfamiliar environment, function of benzodiazepine GABA receptor complex, male rats, 26772
flumazenil, locomotor activity & body temperature & cerebral cortex GABA-benzodiazepine receptor ionophore complex binding, rats, 700
GABA-A vs bicuculline methiodide, running activity, female rats, 767
GABA as neurotransmitter & physiology of receptor ion channel complex & modulation of receptor function by benzodiazepines & barbiturates & alcohol, implications for psychiatry, 17704
GABA benzodiazepine receptors, pathogenesis of anxiety & stress, animals & humans, literature review, conference presentation, 12091
GABA cyclic derivatives DM-9384 vs aniracetam with vs without scopolamine vs GABA antagonists, cycloheximide induced amnesia & GABA & muscarinic receptor binding, male mice, 29876
GABA modulating drugs & fornicotomy & hippocampectomy & septal lesions, extinction of discrete trial FR 5 leverpress response, rats, 14671
GABA receptor binding drugs, tissue noradrenaline content & beta adrenoreceptor binding, male mice, 14770
GABAergic & glutamatergic mechanisms in substantia innominata/lateral preoptic area, modulation of locomotor activity, male rats, 29622
GABAergic terminal density in nucleus accumbens & corpus striatum & nucleus tractus solitarius & lateral septum, alcohol preferring vs nonpreferring vs high vs low alcohol drinking rats, 3878
icv injections of GABA & muscimol with vs without bicuculline, operant feeding, prepubertal pigs, 6757
imipramine vs desipramine, frontal cortex & hippocampus GABA B binding in learned helplessness paradigm, male rats, 9413
ingestion with vs without simultaneous sight of food vs salt vs nonfood objects, release of GABA vs monoamine neurotransmitters in zona incerta, food vs sodium deprived sheep, 32506
intracranial GABA vs muscimol vs picrotoxin, food intake & ventromedial vs lateral vs paraventricular hypothalamic electrical activity, rats, 6881
local nipecotic acid induced inhibition of GABA uptake in dorsomedial hypothalamus, extracellular levels of GABA & air stress induced tachycardia, rats, 14712
localization of GABA synthesizing enzyme glutamic acid decarboxylase in suprachiasmatic vs dorsal raphe nucleus vs intergeniculate leaflet & circadian system, rats vs hamsters, 11948
molecular mechanisms involved in complex interactions between anticonvulsant steroids & GABA benzodiazepine receptor chloride ionophore complex, 3630
morphine vs GABA, perception & escape response & long term habituation to danger stimulus, male crabs, 32700
muscimol activation of GABA A & GABA B receptors, recovery of amnestic memory trace, male mice, 12144
pentobarbital or penobarbital or flunitrazepam or muscimol or picrotoxin or ethanol, GABA mediated chloride flux in brain membrane vesicles, rats bred for alcohol sensitivity, 29739
pharmacologic significance of structural heterogeneity of GABA receptors in CNS, literature review, 14585
physostigmine & muscimol in substantia innominata, GABAergic innervation of basal forebrain cholinergic neurons in conditional visual discrimination performance, male rats, 23657
picrotoxin & GABA doses & chloride ion channel component, lateral merus defensive display & aggressive behavior, male crabs, 26840

Gamma Aminobutyric Acid Agonists
avoidance posttraining bicuculline or muscimol, retention, male mice, 3830
bicuculline vs picrotoxin vs phaclofen, blockage of phase shifts induced by GABA agonists in circadian rhythm of locomotor activity, golden hamsters, 14870
bilateral lesions of amygdala vs dorsal hippocampus vs caudate nucleus, effects of muscimol vs bicuculline on retention of inhibitory avoidance task, male mice, 32485
chronic flurazepam, motor behavior sensitivity to intranigral GABA or THIP, male rats, 26909
desipramine, picrotoxin or muscimol or baclofen induced locomotion, male rats, 728
fengabine, depressed 18–65 yr olds, 34103
GABA agonists vs antagonists vs dopamine D1 vs D2 agonists in nucleus accumbens, locomotor activity, male rats, 29947
icv doses of muscimol with vs without picrotoxin, food vs water intake, turkey hens, 26850
icv injections of GABA & muscimol with vs without bicuculline, operant feeding, prepubertal pigs, 6757
inactivation of cortical computational maps with muscimol, perception of biosonar signals, bats, 20792
intracranial GABA vs muscimol vs picrotoxin, food intake & ventromedial vs lateral vs paraventricular hypothalamic electrical activity, rats, 6881
muscimol & kainic acid, RT for movement onset & muscle contraction, male monkeys, 20781
muscimol activation of GABA A & GABA B receptors, recovery of amnestic memory trace, male mice, 12144
muscimol, dextroamphetamine induced rearing & locomotion, infant vs weanling vs adult mice, 17932
muscimol dosage to medial septum, spatial learning & hippocampal high affinity choline uptake, male rats, 646
muscimol, locomotor activity & hot plate responding & habituation, mouse pups, 3898
muscimol or picrotoxin infusion of ventral pallidum, prepulse inhibition of acoustic startle response disruption by dopamine induced sensorimotor grating deficits, rats, 14876
muscimol vs bicuculline in motor & premotor cortex, manual dexterity & visual RT task performance & EMG activity, monkeys, 29863
oxotremorine, retrograde amnesia induced by posttraining muscimol & baclofen, male mice, 32580
phaclofen, baclofen induced antinociceptive & sedative effects, male rats, 6789
phenelzine & tranylcypromine & imipramine & desmethylimipramine, motor suppressant effects of sabbutamol, male rats, 23693
pimozide vs morphine vs naloxone & muscimol, brain stem self stimulation, rats, 14854
posttraining endogenous benzodiazepines in amygdala, modulation of GABA-A mechanism down regulating consolidation, male rats, 3882
progabide, 41–73 yr olds with tardive dyskinesia, 19264
sodium valproate & gamma acetylen GABA, sexual behavior & copulatory pelvic thrusting, male rabbits, 17808
tetracaine or muscimol or scopolamine in medial septal area, working memory & hippocampal theta rhythm, male rats, 12108
6-OHDA vs ibotenic acid vs muscimol, efferent projections of nucleus accumbens & apomorphine induced locomotion, rats, 14802
Gamma Aminobutyric Acid Antagonists [See Also Picrotoxin]
adrenalectomy with vs without corticosterone vs dexamethasone vs cholesterol replacement, bicuculline induced seizure sensitivity, long vs short sleep male mice, 26739
avoidance posttraining bicuculline or muscimol, retention, male mice, 3830
bicuculline, behavioral & electrocorticographic events, infant rats, 17810
bicuculline, flash visual EPs & concurrent multiple unit activity & ocular dominance, male monkeys, 12124
bicuculline into prefrontal cortex, inducement of movement of contralateral forelimb, male rhesus monkeys with vs without go/no go motor task training, 3922
bicuculline or picrotoxin injections in caudate nucleus vs putamen, motor behavior & hyperactivity, cats, 20820
bicuculline vs atropine vs alpha melanocyte stimulating hormone, excessive grooming behavior, male rats, 20746
bicuculline vs picrotoxin vs phaclofen, blockage of phase shifts induced by GABA agonists in circadian rhythm of locomotor activity, golden hamsters, 14870
CGP 35348, body temperature & baclofen vs progabide vs loprazolam vs morphine vs UK14,304 induced hypothermia, mice, 29829
diazepam vs chlordiazepoxide &/vs GABA antagonists vs flumazenil vs inverse benzodiazepine agonist, ambulatory activity & motor execution & sexual behavior, male rats, 29735
ethanolamine O-sulfate, exploratory behavior, male rats, errata, 762
GABA-A vs bicuculline methiodide, running activity, female rats, 767
GABA agonists vs antagonists vs dopamine D1 vs D2 agonists in nucleus accumbens, locomotor activity, male rats, 29947
injections of sodium l-glutamate vs bicuculline methiodide in dorsal midbrain & superior colliculus, cortical EEG desynchronization & behavior, rats, 20745
intraseptal bicuculline, working memory, male rats trained to perform delayed non-match-to-sample maze task, 20742
local nipecotic acid induced inhibition of GABA uptake in dorsomedial hypothalamus, extracellular levels of GABA & air stress induced tachycardia, rats, 14712
MK-801, linguopharyngeal events, female rats, 29861
muscimol vs bicuculline in motor & premotor cortex, manual dexterity & visual RT task performance & EMG activity, monkeys, 29863
phaclofen, baclofen induced antinociceptive & sedative effects, male rats, 6789
posttraining bicuculline or picrotoxin or Ro 5-4864, memory modulation, animals, conference presentation, 14793
removal of telencephalon & intravitreal bicuculline, direction sensitive input to accessory optic system, turtles, 589
strychnine vs bicuculline, jaw closer motoneuron inhibitory postsynaptic potentials induced by nucleus reticularis pontis oralis stimulation in active vs quiet sleep vs wakefulness, cats, 26741
vigabatrin, 16–65 yr olds with long standing refractory epilepsy, 19316

Gender Identity
assessment & counseling & psychotherapy for sexual identity conflicts, 21–60 yr old males sexually attracted to boys, 19106
biogenetic structural theory of prenatal & perinatal neurocognitive development in child & gender symbolism in Tibetan cosmology & tantric meditation, 17994
concept contents indicating mechanical self experience, children & adolescents with disturbances in sexual identity or object choice or sexual behavior, Austria, 30657
depression & borderline pathology & childrearing attitudes & practices, mothers of 4–12 yr olds with gender identity disorder, 24327
desires as central to gender identity & alternatives to dualistic male/female discourse, 15166
differential diagnosis & treatment of gender identity disorder & psychosexual concerns, children & adolescents, literature review, 4494
durable salience & centrality of gender identity, information processing about self & group membership & evaluation of internal ingroup vs outgroup members, female college students, 33089
expression of fantasy configurations in gender identity confusion, 3.5–16.5 yr old male & female analysands, 16069
feminist viewpoint of culturally influenced gender identification process & role of father in childrearing, sexual aggression & rape, males, 15592
formation of gender identity & motivation for suicide, adolescents, 21601
gender identity development & rejection of traditional feminine role, lesbian 19–38 yr olds, 15164
gender identity development & sex role formation, 12–19 yr old females with vs without history of intrafamilial sexual abuse & psychotherapy, 24558
gender roles & stereotypic beliefs about male homosexuality, college students & student counselors, 15172
genetic & environmental factors, childhood vs adult sex dimorphic behaviors & sexual orientation & identity, male monozygotic vs dizygotic twin pairs, 21191
Hercules & Hippolyte & Amazons as metaphor for social construction of gender identity in occupational culture & role models, policemen of Royal Ulster Constabulary, Northern Ireland, 34822
intrapsychic manifestations reflected in projective tests, 3.7–17.7 yr old males referred for potential gender identity disorder, 17159
long term effects of behavioral treatment, males 4.6–13.3 yrs old at inital referral for gender identity disorder, 4.3 yr followup, 19232
nontraditional sex role aspirations & gender identity conflict, disordered eating, college females, 21963
ontogenesis & mother son relations, 3 yr old & older males with gender identity disorder & their mothers, 12680
Personal Attributes Questionnaire vs Bem Sex Role Inventory, measurement of same or different sex role & gender concepts, college students, commentary, 26254
prenatal hormones & postnatal socialization, homosexual gender identity, conference presentation, 27107
prenatal methadone & opiate exposure, gender identity, 5–7 yr old males, conference presentation, 12920
prenatal stress, male homosexuality & childhood gender nonconformity, mothers of heterosexual & bisexual & homosexual males vs females, 27282
psychoanalysis, 3.9 yr old male with gender identity disorder, case report, 25145
psychopathology & psychosocial & erotic development & peer rejection, cross gender identified male 4–16 yr olds, 4551
sex & gender identity & sex role attitudes, patterns in Christmas gift shopping, adults, 18279
social/expressive vs instrumental context & masculine vs feminine sex role identity, self disclosure during acquaintance process, female college students, 27324
transsexualism, patients at gender identity clinic, 5504

transsexualism, patients at gender identity clinic, commentary, 34191
transsexualism, patients at gender identity clinic, commentary reply, 34181

causal model of halo error in ratings, 3230
direct vs indirect evaluation & positive-negative asymmetry, evaluation inference & halo effect & positivity bias & negativity effect, college students, 24177
original disguised vs modified nondisguised format of mixed standard scale, reduction of leniency & halo effects in performance ratings, college students evaluating instructors, 6252
radiating beauty effects of associate's attractiveness, rating of target's physical attractiveness, college students, Japan, 15225
Haloperidol
acute vs chronic haloperidol, dopamine metabolism in caudate putamen & prefrontal cortex & amygdala, rats, 32592
addition of fluoxetine to daily doses of haloperidol, plasma concentrations of haloperidol, 29–56 yr olds with schizophrenia or schizoaffective disorder, 31212
adrenalectomy & immobilization stress & theophylline, haloperidol induced catalepsy & lactography assessed metabolism of glucose & lactate in striatum vs hippocampus, male rats, 29673
amphetamine vs haloperidol dosages, motor activity, squirrel monkeys, development & application of ultrasonic motion sensing measurement system, 26871
antipsychotic haloperidol, plasma concentration & therapeutic response, schizophrenic 17–56 yr olds, 16270
benztropine, haloperidol induced dystonia & other side effects, psychotic 22–55 yr old males, 28326
cannabidiol vs haloperidol, apomorphine induced stereotypy & prolactin secretion & catalepsy & palpebral ptosis, male rats, 32723
chlorprothixene vs haloperidol, 28–60 yr olds with chronic schizophrenia, 28324
chronic haloperidol following early social isolation vs cohabitation with haloperidol treated other, striatal dopamine D2 receptor density, developing male rat pups, 26737
chronic haloperidol or lithium, neurochemistry of prefrontal cortex vs nucleus accumbens vs striatum vs lateral hypothalamus vs hippocampus, male rats, 23669
chronic ip chlorpromazine vs thioridazine vs haloperidol, levels of leu-enkephalins & met-enkephalins in striatum, male rats, 32613
cigarette smoking, pharmacokinetics of haloperidol, schizophrenic patients, 5434
clozapine vs haloperidol vs sulpiride, dopamine release from nucleus accumbens vs striatum vs prefrontal cortex, male rats, 23700
coadministration of dextroamphetamine & haloperidol, cognitive processes & behavior & affect & neuropsychological functioning, schizophrenic 20–54 yr olds, 16250
cocaine &/vs haloperidol & SCH 23390, cardiovascular function, squirrel monkeys, 20799
cocaine with vs without SCH 23390 & haloperidol, operant behavior, squirrel monkeys, 14795
CSF neurotensin & HVA, symptoms & latency of antipsychotic response to haloperidol, 19–44 yr olds with mood incongruent psychoses, 25305
development of tolerance to amphetamine anorexia, amphetamine vs haloperidol induced motor effects & milk consumption, male rats, 752
dizocilpine & PCP, haloperidol induced spatial & temporal patterns of locomotion & investigatory behavior, male rats, 32637
dizocilpine, haloperidol induced movement initiation deficits, rats, 14782
dopamine vs haloperidol vs clozapine vs ICI-204,636 in nucleus accumbens septi vs corpus striatum, locomotion, rats, 29755
dosage level of haloperidol decanoate, plasma level, schizophrenic 13–65 yr olds, 16290
dosage of haloperidol, serum prolactin LH & testosterone levels, schizophrenic 21–55 yr old males, 8014
dosage of nicotine with vs without haloperidol, catalepsy & locomotor hypoactivity, male rats, implications for neuroleptic responsive disorders, 29791
dose & administration frequency & behavioral testing conditions, tolerance vs sensitization to haloperidol induced catalepsy, male rats, 3815
dosing procedure, haloperidol plasma levels & clinical change, 19–58 yr olds with acute exacerbations of schizophrenia, 16221
efficacy & safety of once daily controlled release remoxipride vs twice daily haloperidol, schizophrenic 18–64 yr olds, conference presentation, 8008
efficacy & safety of remoxipride vs haloperidol, schizophrenic 17–65 yr olds, conference presentation, 7949
efficacy & safety of remoxipride vs haloperidol, schizophrenic 18–63 yr olds, conference presentation, 7979
efficacy & safety of remoxipride vs haloperidol, 18–63 yr olds with schizophrenia or schizophreniform disorder, conference presentation, 7984
efficacy & side effects of remoxipride dose vs haloperidol, schizophrenic 18–57 yr olds, Canada, conference presentation, 7978
haloperidol & fluoxetine induced tardive dyskinesia, male 39 yr old with episodic paranoia, case report, 31279
haloperidol & thioridazine, paraventricular & supraoptic nuclei & water drinking, rats, 14792
haloperidol &/or ethanol, stereotyped behavior & tolerance & sensitization, female rats, 3976
haloperidol, classically conditioned eyelid response & conditioning related cerebellar interpositus nucleus activity, rabbits, 3945
haloperidol, correlates of neuroleptic response latency, schizophrenic males, 8007
haloperidol decanoate, effect & tolerance & side effects, schizophrenic patients & male sex offenders, 19–28 mo study, conference presentation, 5478
haloperidol, development of movement disorders, young vs mature male rats, 17866
haloperidol doses & side effects, newly admitted schizophrenic males, 2280
haloperidol, electrophysiology & behavior & histopathology, male rats, 9388
haloperidol, flapping tremor, schizophrenic 40 yr old male, 22220
haloperidol following high vs medium vs low intensity stimulation of pontine nuclei as CS & corneal air puff as UCS, CRs & neural pathway activity, male rabbits, 29679
haloperidol, haloperidol reductase activity in red blood cells, 14–64 yr olds with schizophrenia or schizophreniform disorder, Japan, 28383
haloperidol in nucleus accumbens septi, autotitration intracranial self stimulation, rats, 14825
haloperidol induced acute dystonic reaction, 34 yr old male with AIDS, case report, implications for differential diagnosis of neuroleptic malignant syndrome, 5423
haloperidol induced dopaminergic supersensitivity, hypomotility, mice, 17885
haloperidol induced pneumonitis, 21 yr old schizophrenic female, case report, 5451
haloperidol, lateralization patterns of verbal stimuli processing & EPs, schizophrenic 20–33 yr olds, 22243
haloperidol, male schizophrenic 50 yr olds & older previously stablized on neuroleptic medication, conference presentation, 25375

haloperidol or diazepam or hexobarbital, aggressiveness, inbred AB/Gat & AB Hal mice, 29746
haloperidol, performance of self vs object directed stereotyped behavior, sows, 32708
haloperidol, prolactin response, schizophrenic vs nonschizophrenic psychotic male inpatients, 9981
haloperidol, psychotic symptoms & serum prolactin levels & development of gynecological disorders & extrapyramidal motor symptoms, 35–78 yr old schizophrenic female inpatients, 25373
haloperidol, rewarding properties of medial prefrontal cortex electrical stimulation in conditioned place preference test, male rats, implications for dopamine neurotransmission, 26745
haloperidol, runway running speed for amphetamine reward, male rats, 670
haloperidol, self stimulation rate intensity functions, male rats, 3904
haloperidol, stimulus control of complex movement disorder, developmentally disabled female 22 yr old, case report, 7972
haloperidol, symptoms & concentrations of HVA & 5-HIAA & MHPG in CSF, schizophrenic 18–55 yr olds, Northern Ireland, 5383
haloperidol, vacuous chewing movements, Sprague Dawley vs Wistar vs Long Evans rats, animal model of tardive dyskinesia, 14877
haloperidol vs apomorphine, maternal retrieval & nest building behavior, female rats, 681
haloperidol vs clozapine, apomorphine induced behaviors mediated by mesocorticolimbic & nigro striatal dopamine blockade, rats, 14769
haloperidol vs clozapine, dopamine release & metabolism & DOPAC & 5-HIAA levels in striatum & nucleus accumbens, male rats, 17864
haloperidol vs clozapine, reacquisition of alleyway running for food reward, male rats, 765
haloperidol vs clozapine vs loxapine, polydipsia, male treatment resistant schizophrenic 35 yr old, case report, 31232
haloperidol vs pentobarbital vs dantrolene, unconditioned locomotion & operant behavior, male rats, 32609
haloperidol vs sulpiride, latent inhibition, male rats, animal model of schizophrenic attention disorder, 29798
haloperidol with vs without procyclidine or promethazine, cooperation & compliance, drug free schizophrenic patients, 25365
high dose iv haloperidol, agitated delirium, 56 yr old male cardiac patient on intra aortic balloon pump, case report, 28372
isomers of N-n-propylnorapomorphine vs haloperidol, brain regional concentrations of neurotensin, male rats, 14826
iv administration of 100 mg dose of haloperidol decanoate, injection site reactions, 20–38 yr old psychiatric patients with history of substance &/or alcohol abuse, 16256
levodopa, idiopathic edema resulting from haloperidol treatment, female 29 yr old with anxiety, case report, 22230
lithium & haloperidol, development of neuroleptic malignant & central anticholinergic syndrome, male 28 yr old with bipolar affective disorder, case report, 5368
lithium & haloperidol, neurotoxicity, patients, literature review, 7935
low dose haloperidol & sulpiride, temporal regulation in differential reinforcement of response duration schedule, dogs, 17823
maintenance haloperidol, schizophrenic 17–50 yr olds, India, 19327
milk availability vs saline vs amphetamine vs food deprivation, maintenance & loss of tolerance to amphetamine induced anorexia & haloperidol induced catalepsy, rats, 29704
molindone vs haloperidol, masking effects, schizophrenic patients with withdrawal exacerbated tardive dyskinesia, 16249
nicotine gum with haloperidol, tic frequency, 8–46 yr olds with Tourette's disorder, 31238
pimozide vs haloperidol, 9–50 yr olds with Tourette's disorder, 1–15 yr followup, 2266
po haloperidol dosage, schizophrenic 17–60 yr olds, 22270
prediction of steady state plasma haloperidol concentrations by kinetic vs dose method, schizophrenic 19–58 yr olds, 2241
prenatal vitamin A vs haloperidol, response to circling training, rat pups, 29752
prolactin response to haloperidol, positive & negative schizophrenic symptoms, male psychotic patients, Australia, 10737
promazine vs haloperidol vs desipramine, feeding behavior, male rats, 3924
remoxipride dose vs haloperidol, schizophrenic patients, conference presentation, 8004
remoxipride vs haloperidol, cognitive abilities, schizophrenic adults, conference presentation, 8029
remoxipride vs haloperidol, schizophrenic patients, Europe & Canada, conference presentation, 7981
remoxipride vs haloperidol, schizophrenic 17–68 yr olds, Finland, conference presentation, 7930
remoxipride vs haloperidol, schizophrenic 18–64 yr olds, conference presentation, 7932
remoxipride vs haloperidol, schizophrenic 18–64 yr olds, conference presentation, 7947
remoxipride vs haloperidol, schizophrenic 18–64 yr olds, Netherlands, 5386
remoxipride vs haloperidol, 21–72 yr olds with schizophrenia vs schizophreniform disorder, conference presentation, 7997
repeated or reduced haloperidol, plasma & reduced haloperidol ratios, schizophrenic 30–52 yr olds & male guinea pigs, implications for drug therapy, 26842
response & nonresponse to haloperidol induced catalepsy, 8 generations of selectively bred mice, 23670
response latency to haloperidol, patients with schizophrenia vs schizophreniform disorder, 28355
safety & tolerability & efficacy of remoxipride vs haloperidol, schizophrenic patients, 6 vs 12 mo study, conference presentation, 8036
safety of short vs long term remoxipride vs haloperidol, schizophrenic patients, conference presentation, 7998
SCH 23390 &/vs haloperidol, SKF 38393 induced nonstereotyped grooming, male rats, 14834
SCH 23390 vs spiperone vs haloperidol, nicotine self administration & food maintained responding & locomotor activity, male rats, 32583
scopolamine &/vs haloperidol, neuronal activity in cingulate cortex & limbic thalamus during discriminative avoidance conditioning, male rabbits, 685
serotonergic agonists, haloperidol induced catalepsy, male rats, 9400
terguride &/vs haloperidol, serum prolactin & locomotion & food reinforced operant responses & intracranial self stimulation, rats, 29923
thioridazine vs haloperidol, behavioral symptoms & side effects, elderly with primary degenerative dementia & Alzheimer's disease, 31288

Halstead Reitan Neuropsych Battery
cluster analysis of Luria Nebraska Neuropsychological Battery & Halstead Reitan Neuropsychological Battery, subtype identification, schizophrenic vs schizoaffective vs depressed vs manic patients, 7439
construct validity of Halstead Reitan Neuropsychological Test Battery, learning disabled 9–14 yr olds, 26156
cut scores on Halstead Reitan Neuropsychological Test Battery & Impairment Index & Average Impairment Rating, 20–31 vs 37–44 vs 55–67 yr olds, 26181
discrimination accuracy of Halstead Reitan vs Luria Nebraska Neuropsychological Test Battery, 19–75 yr olds with vs without medically documented brain damage, 14181
emotional factors & MMPI scores, performance on Trail Making Test of Halstead Reitan Neuropsychological Test Battery, adults referred for neuropsychological assessment, 17335

factor analysis of Wechsler Memory Scale & Halstead Reitan Neuropsychological Test, neurology patients, 26217
MMPI correlates of Halstead Reitan Neuropsychological Test Battery performance, military veterans with neuropsychological referrals, 21351
use of & training in & preference for Halstead-Reitan vs Luria Nebraska Neuropsychological Battery, neuropsychologists, 14147
Hand (Anatomy)
body image, decision to undergo reparative hand surgery, female 31–78 yr olds with rheumatoid arthritis, 10845
development & neural bases of inhibition of reflexive & prepotent response tendencies in reaching, 5–12 mo olds vs adults & infant monkeys with vs without brain lesions, conference presentation, 30032
hand vs foot movement times, male college students, 29325
knowledge base & hand movements during haptic exploration & classification of common objects, college students, 3265
manual preference & performance benefits in unimanual & bimanual tasks, capuchin monkeys, 487
moving background, trajectories of aimed hand movements in visual tracking, adults, implications for optical aids near large moving machinery parts, 26321
nicotine, finger tapping & handsteadiness, adult male smokers vs nonsmokers, 6877
O hand position & posture, stimulus response compatibilities between vertically or horizontally oriented stimuli, college students, 23302
practice & age, RT to hand movements in response to visual vs vibratory cues, 19–36 yr olds & male monkeys, 6526
prior biofeedback assisted control of hand temperature, transfer of training, 20–35 yr olds, 26667
self reported vs performance based hand function, dependency on others, elderly, 32930
SES, hand size & strength & vestibular function & visuomotor integration & praxis, 3–5 yr olds, 823
steady state isometric force control, neuroleptic treated vs untreated patients with vs without tardive dyskinesia in hand, 9969
system for programing & control, multisensor robotic hand, 8883
task inference & phase transition curves, coordination of hand transport & grasp aperture in reaching & grasping, adults, 26317
warning-imperative visual stimulus, hand movement associated cortical EPs, monkeys, 517
weight vs spring loads applied to hand, multijoint pointing arm movements, adults, 14288
written handout vs hands on demonstration, number of traumatizing hand movements, 25–64 yr old industrial workers in repetitive jobs, 6067
Handedness
active vs passive touch & handedness, tactile pattern recognition, right handed blindfolded adults, 11650
age & cohort effects, handedness, 15 yr olds & older, Algeria vs Greece vs Italy vs France vs Spain, 29599
anatomical & functional lateralization of language related temporal cortex, left vs right handed adults, 26706
asymmetrical transfer of training, recognition of braille letters, sighted right vs left handed college students, 3684
attentional bias & handedness, concurrent bimanual production & movement initiation of different isochonous sequences, right handed adults, 20623
birth stress & familial sinistrality, laterality in head turning & manual activity, 2 day olds, 892
callosal anatomy, hand preference, postmortem brains of male cancer patients, 26710
cerebral dominance & handedness, stuttering & allergic disorders, 14 yr olds & older, France, 1737
change in handedness during childhood, cerebral lateralization of bilingual functions, bilingual college students, Hong Kong, 32420
cognitive processing during visual motor task with auditory probe stimulus, amplitude of N100-P200 complex of auditory EPs, right handed males, 29615
cognitive task demands, manual asymmetry during verbal & spatial block design construction, right handed college students, 20589
computer simulation of handedness & disorder, 7296
creative thinking & environmental frustration & self concept, left vs right handed college students, 475
direction of voluntary movements, discrimination of handedness, 4–12 yr olds, 4106
direction of voluntary movements, discrimination of handedness, 4–12 yr olds, erratum, 18063
directionality & handedness, dichoptic discrimination, children to adults, 20961
distribution & reliability of measurement of paw preference, male vs female inbred mice, 32445
emergency situation, hand preference when picking up infants, frightened mother monkeys, 20598
familial sinistrality & strength of handedness, choice RT & maze performance & verbal ability, left handed 17–20 yr olds, 3674
finger tapping by left &/vs right hands, asynchrony & temporal dispersions of interresponse intervals, right handed 22–43 yr old males, 14307
forced & nonforced attention, asymmetry in dichotic listening performance, right vs left handed 7 yr olds, 847
hand preference & sex, foot preference behavior, 3–5.8 yr olds, 32744
hand preference & skill, language impaired 8.5 yr olds, 4895
hand preference change attempts, college students, 14567
hand preference consistency, intellectual development & precocity & school achievement, male vs female 5–9 yr olds, longitudinal study, 32787
hand preference in reaching for objects, female 9 vs 13 vs 20 mo olds, 23821
hand preference in use & manufacture of probing tools, tufted capuchin vs lion tailed macaque monkeys, 26652
hand preferences for collection of scattered food remnants, monkeys, 9214
hand preferences while reaching for food pellets, Japanese macaques, 9140
handedness & abductive vs adductive movements, RT & movement time, adults, 11641
handedness & birth order & season of birth, 17–24 yr old males, France, 26677
handedness & dominance & laterality, verbally elicited finger movements, 21–62 yr olds, 6607
handedness & dominance, hemispheric asymmetry of pattern reversal visual EPs, 19–48 yr olds, 522
handedness & familial handedness & academic major, performance on Rey-Osterrieth Complex Figure, 18–24 yr old female college students, 11746
handedness & personal & family histories of allergy related problems, patients with allergies, 10462
handedness, adults, Tristan da Cunha, 514
handedness, adults with lupus vs Type I diabetes vs migraine vs Graves' disease, 1724
handedness, allergic disorders, 3 yr olds, New Zealand, 10 yr study, 27969
handedness, corpus callosum morphology obtained from MRI images, male vs female 18–51 yr olds, 32417
handedness, familial sinistrality & allergies or asthma & college major, college & graduate students, 17680
handedness, feminine vs masculine characteristics, female college students, test of testosterone theory, 3633
handedness, patients with myasthenia gravis, 13070
handedness profile & eyedness & footedness & finger tapping performance, right vs left handed vs handedness switch college students, Hong Kong, 9202
hemispheric asymmetries in attentional control, hand preferences in sensorimotor tasks, right handed male college students, 3711
historical analysis of work & views of P. Broca & development of mirror reversal vs dysjunction principle of cerebral hemispheric control of speech & handedness, literature review, 14545
hypnosis, left vs right hand tactile Italian vs English naming test, right handed polyglot female 19–24 yr olds, 344

lateral preferences during feeding & vocal vs nonvocal brachiation, adult & juvenile gibbons, 9228
lateralization & hemispheric dominance, finger maze acquisition, male vs female college students, 3393
left handed play, professional snooker vs darts vs 10 pin bowling vs golf players, 8675
left handedness & earlier mortality, literature review, 11914
left handedness & immune disorders & dyslexia & other learning disorders, assessment of Geschwind's testosterone hypothesis, conference presentation, 18818
left handedness & reading problems & dyslexia & stuttering & twinning, 18–39 yr old architecture & music students, Norway, 4509
left handedness & reading problems & dyslexia & stuttering & twinning, 18–39 yr old architecture & music students, Norway, commentary, 4525
left handedness, HIV testing & AIDS/HIV status, homosexual vs heterosexual adults, 27887
left vs right cortex ablation, mitogen induced lymphoproliferation & paw preference, female mice, 32518
lefthandedness, induction of autoimmune disease, adults, 10469
limb preferences & force generation, asymmetric interlimb interference during dynamic bimanual task, 21–37 yr olds, 14310
manual preference & performance benefits in unimanual & bimanual tasks, capuchin monkeys, 487
mechanisms in voluntary & spontaneous facial expression control, callosotomy patients vs right handed adults, 4970
natural killer cell activity & lymphocyte subset distribution & lymphoproliferative response to mitogens, left vs right handed male mice with vs without left vs right cortical lesions, 32546
natural loss of callosal axons, embryological development of hand preference & hemispheric anatomical & functional asymmetries, males, 32452
neuroanatomical correlates of atypical handedness, schizophrenic patients, 7433
parents' handedness & age, left vs right hand grasping of objects, 6 mo to 3 yr old males vs females, 32793
prevalence of immune & autoimmune diseases & non-right handedness, dyslexic 7.3–16.8 yr olds, test of testosterone hypothesis, 4879
prevalence of immune & autoimmune diseases & non-right handedness, dyslexic 7.3–16.8 yr olds, test of testosterone hypothesis, erratum, 21748
red nucleus lesions, limb preference & skill in reaching for food task, female rats, 12085
right hand agraphia & left hand apraxia, right handed 51 yr old with damage to corpus callosum, case report, 21980
right/left orientation, 5–13 yr olds, 827
right/left preference during free exploration in multiple Y maze, Wistar vs Sprague-Dawley vs Long Evans rats, 501
selective activation patterns of concurrent verbal & spatial memory loads in letter identification task, familial vs nonfamilial left handers vs right handers, 3710
sex & handedness & age, individual differences in cognitive performance on neuropsychological tests, 9–73 yr olds, 18029
sex & handedness & cerebral morphometry, MRI results, 18–49 yr olds, 9207
sex & handedness & field side & fixation instructions, processing of tachistoscopic information, college students, 3296
sex & handedness, laterality during dual language & motor task, 17–58 yr olds, 26672
sex & handedness, tardive dyskinesia, neuroleptic treated psychiatric outpatients, 2223
sex & lefthandedness, architecture & music students, Norway vs Scandinavia vs US, 9197
sex, auditory EPs to verbal vs musical stimuli & hand reaching preferences, 6 mo olds, 6928
sleep/wake cycle, interhemispheric EEG coherence, left & right handed college students, 3681
speech disorders, right vs left handed 35–63 yr olds with organic right hemisphere brain foci, 21817
target difficulty, unimanual vs bimanual movement & RT & acceleration & velocity in aiming task, 18–23 yr olds, 29323
task demand & manual lateralization & handedness vs specialization, nonhuman primates, literature review, 11924
task demand characteristics, asymmetry of hand use, college students, 3638
test retest reliability of Waterloo Handedness Questionnaire, college students, 11564
total & partial callosal agenesis, paw preference performance, male BALB/cCF vs Swiss mice, 26702
transcranial magnetic stimulation, hand preference in forced choice task, right handed adults, 3778
utility of Edinburgh Handedness Inventory vs M. Annett's handedness questionnaire, elicited hand responses, college students, 26269
visual feedback, gloved catching with dominant vs nondominant catching hand, skilled baseball & softball players, 26316
visual information, accuracy of manual aiming, right handed adults, 17351

rearward facing vs booster cushion seat, injury reduction, infants & children, 22886
red vs white automatic flashing railroad crossing lights, driving behavior, car drivers, Netherlands, 2842
research issues in behavior modification for injury control & traffic safety, 2829
rewarding driving behavior & hazardous consequence, behavior contingency trap, drivers, 28938
road checkpoint vs education vs publicity programs, reduction in DUI, 2837
road safety education programs, pedestrian safety, children, 2298
Selective Traffic Enforcement Program, seat belt use, 1 yr followup, Canada, 2827
size & visual field location of stimuli during simulation, driving performance & traffic safety risk, 20–30 & 50–60 yr olds with vs without visual field defects, 33730
use of cellular telephones & potential safety hazards, drivers, 22891
visual & driving performance & safety, tractor trailer drivers with monocular vs binocular vision, 34786
Hinduism
analysis of interviews & reflections on wisdom & maturity, elderly Hindu religious renunciates, India, implications for Western aging, 27168
individual vs community education, fertility & marriage patterns & contraceptive use, Hindu vs Roman Catholic married female 30–49 yr olds, India, 32968
prolonged socioeconomic deprivation, development of dependence proneness, Hindu vs Muslim 15–18 yr olds, India, 32828
psychotherapeutic paradigm based on ancient Hindu philosophy, 28096
spiritual concept of nonattachment, stress &/vs strain & health, Hindu 30–50 yr olds, 21114
Hippies [See Subculture (Anthropological)]
Hippocampal Commissure [See Fornix]
Hippocampus
acquisition of foot shock motivated brightness discrimination, hippocampal c-fos mRNA levels, male rats, 3706
acute vs chronic desimipramine, activities of 3 deiodinase isoenzymes in hippocampus, rats, 17813
acute vs chronic treadmill running, hippocampal vs parietal cortical high affinity choline uptake & muscarinic binding & spatial learning set task performance, F344 rats, 32494
adaptive neural network, description of hippocampus role in temporal & spatial navigation, 9226
age & nimodipine, hippocampal pyramidal cell firing & theta interneuron activity, female rabbits, 14880
age, blood vessels & neurovascular appositions in CA1 region of hippocampus, 3–30 mo old rats, 29626
age, sensitivity to magnesium of N-methyl-D-aspartate receptors on CA1 hippocampal pyramidal cells, rats, 9360
aging, blood vessels & neurovascular appositions in hippocampus, male rats, 527
aminophosphonovaleric acid, potentiation of inputs from posterolateral amygdala to dentate gyrus & resistance to stress ulcers, male rats, 12114
amphetamine preexposure, primary kindling vs rekindling of dorsal vs ventral hippocampus vs secondary kindling of contralateral amygdala, male rats, 32509
aspirative fimbria fornix lesions & intrahippocampal grafts of fetal septal diagonal band or hippocampal tissue, maze learning & acetylcholine concentrations, female rats, 14693
atropine sulfate, rhythmical slow activity in nucleus pontis oralis vs hippocampus during movement vs immobility, guinea pigs, 671
baclofen, disinhibition of monosynaptic inhibitory postsynaptic potentials in area CH1 of hippocampus, rats, 26881
behavioral responses during memory tasks, neuronal activity in hippocampal formation & parahippocampal gyrus & medial inferotemporal cortex, monkeys, 9235
bilateral coagulation of frontal zone of neocortex & hippocampus, response to aversive stimuli, rats, animal model of extraversion & introversion, 9344
bilateral lesions of amygdala vs dorsal hippocampus vs caudate nucleus, effects of muscimol vs bicuculline on retention of inhibitory avoidance task, male mice, 32485
bilateral vs unilateral intrafimbrial colchicine, spatial memory & morphology of fibers projecting to hippocampus through fimbria, male rats, 3848
binding activities of central excitatory amino acid receptors in cerebral cortex & hippocampus & relation to learning & memory, male 2 vs 7 vs 29 mo old rats, 23530
BMY 21502, delay of decay of hippocampal synaptic transmission & placticity in learning, young & old rats, 12111
brief epileptic seizures, hippocampal long term potentiation & mossy fiber sprouting, 4914
chemical damage to hippocampal formation, learning of cue relationships, male rats, erratum, 3801
choline acetyltransferase activity & sodium dependent high affinity choline uptake in hippocampus & cortex & striatum, young vs mature vs aged male mice, 14576
chronic ethanol, glutamate binding in hippocampus, rats & alcoholic males, 4836
chronic lithium, atropine induced supersensitivity of muscarinic phosphoinositide response & receptor binding in cortex & hippocampus, male rats, 6798
coincidal panic disorder & embolic infarction of right parahippocampal gyrus, 36 yr old female with mitral valve disease, case report, 33737
competitive learning & pattern classification computer simulation of hippocampal place cells, 32443
cortical & hippocampal protein kinase C activity & spatial learning performance & memory during Morris water task, C57 vs DBA vs recombinant inbred male mice, 3493
corticosterone, hippocampal dentate degeneration, adrenalectomized rats, 9301
CS presentation & conditioned suppression of leverpressing for food, hippocampal multiunit activity, rats, 20618
delta 9 tetrahydrocannabinol, delayed matching to sample performance & tone discrimination & electrophysiological

effects on hippocampus, rats, conference presentation, 6786
detomidine vs xylazine vs atropine sulfate vs tolazoline, hippocampal type 1 & type 2 theta, male rats, 20796
disorganization of pyramidal cells in right hippocampus, postmortem brains of schizophrenic vs healthy male 28–80 yr olds, 27480
EEG afterdischarge patterns, memory retrieval of conditioned avoidance response, hippocampally kindled cats, 3797
electrical stimulation or cocaine, intrinsic activity of neurons in hippocampus, cats, 26773
electrolytic lesions of fimbria/fornix, carbachol stimulated phosphoinositide hydrolysis in hippocampus & muscarinic receptor binding, elderly rats, 14641
enkephalins, memory trace & hippocampal plasticity & hormonal modulation, 6849
escapable vs inescapable vs no footshock, hippocampal theta activity, male rats, 17762
ethanol superfusion, M current in hippocampal slices, male rats, 716
exposure to novel environment, interference with of hippocampal primed burst potentiation induced by electrical stimulation, rats, 6728
features & selectivity of & role of hippocampus & medial temporal lobe in memory impairment & amnesia, humans vs nonhuman primates, animal models of amnesia, conference presentation, 31007
forebrain ischemia resulting in hippocampal damage, locomotor activity & spatial mapping, female gerbils, 14708
GABA modulating drugs & fornicotomy & hippocampectomy & septal lesions, extinction of discrete trial FR 5 leverpress response, rats, 14671
glucose, high affinity choline uptake mechanism in hippocampus after active training, male mice, 710
grafting of embryonic fascia dentata vs cerebral cortex neurons, locomotor & rotation & passive avoidance effects of radiation induced fascia dentata granule cell hypoplasia, male rats, 32514
grafts of nucleus basalis magnocellularis vs striatal cholinergic neurons transplanted into hippocampus, reinnervation & repair of deficits in maze performance & habituation, rats damaged by AF64A, 26872
hippocampal & amygdala lesions vs blockade of cholinergic & serotonergic function by scopolamine & chlorophenylalanine, behavior, rats, animal models of amnesia & dementia, 14642
hippocampal & neocortical brain neuropathology, patients with Alzheimer's disease or Down's syndrome, 7336
hippocampal ablation, dextroamphetamine induced locomotion & stereotyped behavior, rats, 26792
hippocampal activity during detection of tone change in nonmatching to sample paradigm of working/short term memory, rats, 17682
hippocampal activity during detection of tone stimulus change in nonmatching to sample paradigm of working/short term memory, rats, commentary reply, 17681
hippocampal activity during detection of tone stimulus change in nonmatching to sample paradigm of working/short term memory, rats, commentary, 17692
hippocampal dynorphin B neurochemical variation, exploratory behavior, inbred male mice, 29630
hippocampal kindling, radial maze performance, male rats, 12051
hippocampal lesions, development of navigational map, homing pigeons, 12065
hippocampal lesions, reference & working memory & place & cue learning in radial arm maze, rats, 17794
hippocampal manipulations in classical conditioning vs computer simulation of S. Grossberg's attentional model applied to hippocampal function, 17694
hippocampal maturation & development of delayed nonmatching to sample & visual paired comparison task mastery, children & monkeys, conference presentation, 30002
hippocampal mossy fibers distribution, novelty reactions & spatial memory, isogenic mice, 14572
hippocampal pyramidal cell density, presurgical verbal memory impairment, 16 yr olds & older with left temporal lobe seizures foci, 10420
hippocampal structural variation, exploratory behavior, inbred male mice, 29629
hippocampal subfield specificity & sensitivity of intracarotid amobarbital procedure to hippocampal neuron loss, 16 yr olds & older with medically refractory epilepsy localized to temporal lobe, 19002
hippocampal system damage vs fimbria fornix or ventral temporal lesions, object recognition memory, male rats, 23618
hippocampal theories & optimization that reduces signal redundancy & maintains pattern distinctiveness, 6628
hippocampal transplants, behavioral deficits produced by hippocampal lesions, male rats, 26821
hippocampal 3H-CPP binding, spatial learning in water maze, young vs old rats, 6633
hippocampus & parahippocampal temporobasal association cortex activity during delayed match to sample task, memory & complex behavior, monkeys, 26549
hippocampus, nasopharyngeally vs vertex recorded P300 latencies & amplitudes, 22–44 yr olds, 6695
humoral immune response, female rats with lesions of lateral septal vs hippocampal areas, 9342
imipramine vs iprindole with vs without high vs low doses of subchronic parachlorophenylalanine, 5-HT stimulated inositol monophosphate accumulation in hippocampal slices, male rats, 26880
impaired auditory sensory gating & hippocampal structural abnormality, etiology of schizophrenia, 21418
inbred strain & total vs spatial vs nonspatial spontaneous alternation in T maze, sizes of hippocampal intrapyramidal & infrapyramidal mossy fiber terminal fields, male mice, 32406
inbred vs hybrid maternal environment, hippocampal mossy fibers & spatial memory, BALB/c & C57BL/6 mice, 23535
inescapable shock, learning impairment in task sensitive to hippocampal function disruption, rats, 32544
kainic acid & hypoxia, behavior & seizures & histopathological changes in hippocampus, male rats, 3808
lesions to nucleus basalis magnocellularis &/vs dorsal noradrenergic bundle affecting cholinergic & noradrenergic systems, scopolamine potentiation of memory disruption, male rats, 17799
location & pattern of visual distraction stimuli, straight alleyway performance, male rats with dorsal hippocampal lesions, 3804
maze learning & memory, 4–6 mo old rats with bilateral lesions to hippocampus or prefrontal cortex vs 26 mo old normal rats, 3803
medial hippocampus vs dorsomedial parahippocampus lesions, homing behavior & flight path, pigeons, 17775
medial septal lesions with vs without ganglionectomy, behavioral & biochemical processes following hippocampal sympathetic ingrowth, gonadectomized male rats, 9336
methylazoxymethanol induced microencephaly, phosphorylation of B-50 by endogenous kinase C in cortex & hippocampus, pregnant rats, 14749
mild to moderate traumatic brain injury, prolonged spatial memory impairment without hippocampal cell death, male rats, 6744
MRI scans of hippocampus & parahippocampal gyrus & striatum for atrophy & scores on cognitive & olfactory test battery, patients with Alzheimer's disease, 18951
multiunit activity in hippocampus & magnocellular medial geniculate & auditory cortex during acquisition & long term retention of response to CS, male rats, 485
naloxone, blockage of self administration of opioid peptide dynorphin A into CA3 hippocampal region, male rats, 26927
neocortex removal vs hippocampal lesions, interresponse time in DRL schedule, male rats, 17786
neocortical vs hippocampal lesions, behavioral flexibility in obstructed alleyway task, rats, 17803

neonatal decortication, EEG activity of hippocampus, male rats, 23624
nictitating membrane conditioning, hippocampus pyramidal cell currents, male rabbits, 23523
nifedipine & verapamil in dentate gyrus, corticotropin releasing factor effects on retention in avoidance task, male rats, 20770
Org2766 peptide treatment after fimbria fornix lesions, hippocampal functioning during spatial learning & avoidance tasks, male rats, 26781
pathology of hippocampal lesions, male 65 yr old with amnesia due to seizures, 5102
position of visual stimulus, allocentric vs egocentric spatial representation & information processing activity of hippocampal neurons, macaque monkeys, 23500
possible hippocampal dysfunction, repetitive motor symptoms, deteriorated schizophrenic patients, 1428
prefrontal cortex vs hippocampal lesions, performance on VI delayed alternation & conditioned discrimination learning problems, rats, 23626
removal of hippocampal formation, memory for previously learned objects, monkeys, 20729
repeated ECS, glial fibrillary acidic protein & ornithine decarboxylase & somatostatin & cholecystokinin immunoreactivities in hippocampus, rats, 14682
resting with eyes open vs closed vs eyes open with auditory word vs visuospatial activation, hippocampal theta activity, epileptic 17–42 yr olds, 30910
role of delta opioid receptors in taste & other avoidance conditioning & long term hippocampal potentiation, rats vs mice vs chicks, conference presentation, 6850
sabeluzole, long term potentiation in hippocampus & increased learning, guinea pigs, 23632
sc carbachol & fetal suspension grafts at bilateral neurotoxic hippocampus lesion sites, memory function, rats, 32530
selective lesions in dorsal or ventral hippocampus, stress ulcer development, male rats, 17782
self directed activities during spontaneous behavior vs emotional responses to same sex intruder, hippocampal electrical activity, rabbits, 32470
self stimulation of lateral hypothalamus & substantia nigra ventral tegmental areas, dendritic branching in hippocampus & stimulation sites, male rats, 9315
spatial vs nonspatial reference memory, T-maze performance & hippocampal mossy fiber distribution, mice, 14533
species characteristic threat, individual differences in neurosensory EP responses of amygdala vs ventromedial hypothalamus vs ventral hippocampus & neural transmission, aggressive vs defensive cats, 26669
spectral components of hippocampal EEGs in relation to behavioral status, 17–52 yr olds with intractable complex partial seizures, 1796
structural changes in parahippocampus & hippocampus, brains of schizophrenic vs suicidal 18–72 yr olds, 9897
tandospirone vs diazepam vs zopiclone in dorsal hippocampus, conflict behavior, male rats, 29837
tetanus toxin injected into hippocampus, behavior & neuropathological effects, male rats, 3812
tetracaine or muscimol or scopolamine in medial septal area, working memory & hippocampal theta rhythm, male rats, 12108
tetrahydro-9-aminoacridine vs physostigmine, cortical neurons in vivo & hippocampal neurons in vitro, male rats, 9382
tianeptine, concentration of 5-HT in hippocampus, male rats, 17943
trichloroethylene, learning & myeline in hippocampus, rats, 689
trimethyltin induced lesions of hippocampus & CNS, delay dependent reversal learning, male rats, 612
unilateral electrical stimulation of hippocampus, material specific learning, patients with unilateral temporal lobe epilepsy, 10361
2-deoxy-d-galactose, monosynaptically evoked field potentials & course of long term potentiation in dentate gyrus & hippocampus slices, male rats, 20768
5,7-hydroxytryptamine deafferentation of serotonergic inputs to hippocampus, spatial discrimination task performance, male rats, 642

Hips
depressive symptoms, hip fracture recovery, female 60 yr olds & older, 12 mo study, 10384
factors in outcome & role of self efficacy based interventions in rehabilitation, elderly patients with hip fracture, 34383
geriatric anesthesiologic program, acute confusional states, 65–102 yr olds with femoral neck fractures, Sweden, 34068
major depression & hip fractures secondary to osteoporosis, female 54–78 yr olds, 1351

recommendation for use of National Institute of Mental Health test batteries, neuropsychological assessment, patients with HIV or AIDS, 11473
recommendation of National Institute of Mental Health Workshop for development of neuropsychological test battery, HIV seropositive asymptomatic patients at risk for AIDS, 11486
recreational drug use & high risk sexual behavior & risk for transmitting HIV, homosexual males, 7717
regional data collection & reporting system, hospitalized HIV patients, 1983–90, France, 31417
reliability of questionnaire vs self report assessment of sexual behavior & perception of HIV risk, 16–54 yr olds attending genitourinary medicine clinic, 27851
reproductive choice & freedom, HIV infected females, 1693
risk behavior & perceived susceptibility to HIV & self efficacy for risk reduction, iv drug users in New York City, 15723
risk for spread of HIV & implementation of sex education programs, schizophrenic patients, 18651
risk perception & knowledge of & attitudes toward HIV infection & prenatal screening, pregnant females, 1987–88, France, 16439
role for community mental health centers in early HIV detection, clients, 28499
role of behavioral science in HIV research & practice, 10431
safer sex practices vs behavioral relapse, HIV seropositive vs seronegative homosexual males, 1 vs 2 yr followups, 30777
screening of & record keeping for blood transfusions & risk of HIV transmission, Zaire, 28445
self deferral, reduction of HIV transmission by transfusion, blood donors, 15832
self esteem & social support & internalized homophobia & coping strategies & mood state, HIV positive gay males, 10391
self evaluated risk of HIV infection, adult females consulting in family planning center, 31360
self instruction, prevention of HIV infection from drug use or unsafe sexual activity, African American vs Hispanic adolescents, 2349
self reported HIV risk behaviors, 18–55 yr old psychiatric patients, 9939
self reported vs measured cognitive & motor dysfunction & psychiatric status, HIV positive patients with AIDS or ARC or no symptoms, 31001
seroprevalence of HIV-1 & HIV-2 antibodies, adults with high vs low risk behavior, 1986–88, Nigeria, 10465
sexual & reproductive choices, HIV infected females, 15852
sexual behavior & knowledge about HIV & attitudes about & use of condoms, male vs female college students, Uganda, 27289
sexual behavior & prevalence of HIV-1 infection, iv drug users, 1985–1989, Austria, 21686
sexual behaviors & experience & knowledge of HIV transmission & beliefs of risk & strategies for AIDS avoidance, male vs female college students, Australia, 21815
sexual behaviors & reasons for risk taking & individual characteristics & HIV related attitudes, 18–25 yr old gay males, 10324
single presentation educational format, knowledge & risk assessment of HIV disease, police officers currently attending seminar vs attending 1 yr earlier, 30844
single session postpartum contraception & reproduction counseling, subsequent sexual behavior, HIV infected mothers, Kenya, 16454
skills based interactive computer interventions, prevention of HIV infection & AIDS, African American & Hispanic adolescents, 5071
social & sexual & drug injecting behavior, risk for HIV, drug using 16–45 yr olds, England, 7539
social context of heterosexual transmission of HIV, iv heroin users & their sexual partners, 27702
social impact of HIV epidemic, 5064
social skills training & peer support for safer sex vs lecture &/or discussion alone, attitude change to prevent HIV infection, 18–68 yr old homosexual & bisexual males, 2328
social support & psychosocial factors, compliance with zidovudine therapy, 21–61 yr olds with asymptomatic HIV, 31249
sociodemographic & behavioral characteristics, HIV seropositive blood donors, 24799
sociogeographic network in transmission rate of HIV, 1984–88, 27989
spoon sharing, risk for HIV-1 infection, iv drug users, Austria, 30899
standard counseling, distress & suicidal ideation after voluntary HIV testing, seropositive vs seronegative at risk adults, 22440
stressful life events & symptom onset, HIV seropositive homosexual males, longitudinal study, 30884
student services educational & therapeutic responses to HIV & AIDS threat, college administrators, North America, 28923
subcortical vs cortical dementia & corresponding neuropathological findings, male 37 yr old & female 42 yr old with HIV, 24933
syringe exchange programs, prevention of HIV infection & AIDS, iv drug users, England & Scotland, conference presentation, 8263
syringe exchange programs, reduction in spread of HIV infection, 2355
therapeutic interventions for sexual & relationship problems, 36 yr old AIDS phobic female & 49 yr old HIV positive male & 28 yr old male partner of AIDS victim, case reports, 22090
training workshop participation, awareness of & attitudes toward anxiety & depression in AIDS & HIV counseling, nonpsychologist counselors, 31602
trichosanthin, p24 serum antigen & blood lymphocyte levels & development of side effects, HIV positive 18–64 yr olds, 19265
urinary free cortisol levels & measures of medical & immunological & neurological & psychiatric status & stress, HIV positive vs negative homosexual males, 15797
utility of Health Belief Model, prediction of HIV preventive behavior, student teachers, Zimbabwe, 27996
utility of Health Belief Model, prediction of HIV related risk behaviors, adolescents, implications for HIV prevention research, 24789
voluntary HIV testing, sexual behavior, homosexual male 16–67 yr olds, England, 24809
zidovudine, HIV infection due to suicide attempt by injection of blood from friend with AIDS, female 41 yr old, case report, 25296

accessibility as criterion for regularity & hierarchy in encoding of visual patterns & coding rules based on holographic regularity & transparent hierarchy, 32209
age & experiential deprivation & coding conditions, shape coding, 4–8 yr olds, 30070
age & sex & education, factor structure & normative data for Form 1 of Verbal Selection Reminding Tests, 18–81 yr olds, 8807
age, development of phonological recoding in reading comprehension, 6–8 yr olds, 27002
age, encoding & retention & retrieval components of memory functioning, 57–85 yr olds, 30169
aging, memory acquisition & storage & retrieval components, 57–85 yr olds, 18051
amount of learning achieved & interpersonal sensitivity in teaching interactions & encoding & decoding ability, high school students & their teachers, 22773
ascending vs descending patterns of success, encoding & recall & prediction of future success, dysphoric vs nondysphoric college students, 30456
assimilatory cognitive tools for information acquisition & learning task/control hypothesis, 6131

automatic & intentional processes in memory for spatial location, college students, 20434
automatic information processing, skill acquisition in complex high performance tasks, adults, 29411
automatic processes of episodic & recognition memory performance, 54–86 yr olds with vs without Alzheimer's disease vs 20–25 yr olds, 4899
cognitive coding & translation based account of orthogonal stimulus response arrangements, college students, 6465
cognitive coding & translation based account of orthogonal stimulus response arrangements, college students, commentary reply, 17497
cognitive coding & translation based account of orthogonal stimulus response arrangements, college students, commentary, 17492
competitive learning network algorithms for vector quantization in data compression, 9006
consistency of processing & episodic remembering during free association tasks, 19–30 vs 65–82 yr olds, Sweden, 9560
constraint factors at encoding & retrieval, story comprehension, 2nd vs 5th graders vs college students, 26989
contextual knowledge during encoding, sentence recognition, college students, India, conference presentation, 17511
depth of processing & elaboration & self generation of judgmental categories in encoding strategies, face recognition, adults, 17552
development of mnemonic strategy & encoding process in spatial task, 4.9–9.7 yr olds, 30041
developments in presynaptic vs postsynaptic explorations for long term potentiation in storage of new knowledge, 312
dissociated verbal & nonverbal retrieval & learning, right handed 22 yr old male with left anterior temporal damage, 24983
ease of recall, subjective judgment of content of experiential recall, college students, 33131
EEG quantification of event related desynchronization & time course & topographical pattern of cortical speech activation during visual encoding & visual verbal task, right handed adults, 20624
efficiency of automatic memory coding processes, elderly with early stage dementia, 24984
encoding & recall of choreographed vs randomly constructed motor sequences, expert vs novice figure skaters, test of skilled memory theory, 14402
encoding & recall of kinesthetic distance information, 16–60 yr olds with unilateral temporal or frontal lobe excisions, 21891
encoding & retrieval & sensitivity to inference constraint & question placement, causal inferences & understanding of story, 2nd & 4th graders vs college students, 32755
encoding & rotation & decision processes in mental rotation task, 18–22 vs 54–75 yr olds, 23833
encoding & strategy knowledge, strategy choices in serial recall procedures, 5–9 yr olds, 6972
encoding condition & retention interval, implicit vs explicit memory & recall & repetition priming, school age children vs college students, 12273
encoding, implicit vs explicit memory performance, adults with high vs low trait anxiety, 17548
encoding of contextual information, diencephalic vs temporal lobe amnesic patients, 10395
encoding of elevation in cognitive maps of outdoor environments, place decision retrieval time, college students, Sweden, 17071
encoding with vs without storage vs external storage note taking functions & conventional vs linear vs matrix note taking techniques, college students, 28827
extraversion & elaboration of encoding, immediate free recall & word recognition, male graduate students, 29461
familiarity of faces, recognition speed & accuracy & coding of information, college students, 20446
forward vs reverse recall of script based texts, schematic vs nonschematic retrieval, college students, 9030
fundamental reasons for applying storage/retrieval metaphor of memory to Pavlovian & instrumental conditioning & behavior analytic alternative, 9055
fuzzy set based knowledge representation systems, 23396
generation, dissociative effects on long term retention of item & order, college students, 32286
high vs low encoding effort, ability to recall central & secondary words from base & elaborative sentences, learning disabled vs mildly mentally retarded children, 10225
ignoring vs refuting discounting appeal & elaboration during message encoding, decision making, consumers, 31895
implicit prime of 1st vs 2nd syllable in 2 vs 3 syllable words, time course of phonological encoding in speech, college students, 6499
individual differences in eye movement scanning & rate of visual encoding, 2 vs 12 wk olds, 20869
individual item & relational & difficulty manipulations of tasks & delayed testing, material appropriate processing in text encoding & recall, college students, 6480
individualistic vs collectivistic cultural background, storage & retrieval of private vs collective self cognitions, college students from Chinese vs North American backgrounds, 24271
integration & cues & encoding instructions, word recognition, 20–27 yr olds, 14391
interruption of true or false propositions, rejection of false information, college students, 3359
inversion & distinctiveness, recognition & classification of unfamiliar vs famous & Black vs White faces, adults, test of models of face encoding as points in multidimensional space, 29451
language switching processes in decoding & encoding & translation tasks, Finnish-Swedish bilingual 19–44 yr olds, Sweden, 8976
learning system analysis of long term memory processes of information storage & retrieval, normal achieving vs learning disabled 8–11 yr olds, 15708
letter vs letter category vs iconic encoding techniques, recall, nonspeaking physically disabled literate adults using augmentative communication devices, 8048
lexical retrieval & phonological encoding in sentence production in Spanish language slips of tongue, 29962
limited retention of information in graphemic buffer & spelling errors, 56 yr old male recovering from myocardial infarction, case report, 27859
locus of irrelevant speech effect on immediate serial recall of visually presented items, college students, 26483
material appropriate processing approach & mnemonic effects of elaborative encoding tasks & study adjuncts, college students & 9–10 yr olds, implications for learning & reading disabilities, 11177
memory load & delay, face recognition, college students & staff, 9047
memory processes & assessment & diagnosis of phonological coding problems, reading disabled children, 10226
model for interpreting coding schemes, skilled vs learning disabled readers, 1656
models of arithmetic fact retrieval, brain damaged patients, 27894
motion signal integration & color cortical encoding in visual system, 29592
multivariate analysis of serial recall & encoding & distractibility & reality monitoring, schizophrenic vs manic adults, 1407
nature of science & teaching methods as contributors to difficulties in & information processing model for science learning, 34607
neural mechanisms of cortex & medial temporal lobe in storage & consolidation & retrieval of declarative memory, humans, 3632
number of relevant features & stimulus duration, encoding limitation, 27–40 yr olds vs pigeons, 11839
order of phonological encoding of syllables in speech production, college students, Netherlands, 20406

organization of declarative knowledge base, development & application of proceduralized knowledge, college students, 9600
organization vs elaboration models of trait information, impression formation & retention & recall & person memory, college students, 4390
perception & attention errors in information acquisition, design of man machine transportation systems, conference presentation, 11337
perinatal risk status, response decrement & recovery to novel visual stimulus, 4–12 mo olds, 27434
phoneme perception & awareness & lexical retrieval of phonology & articulatory speed & phonetic coding in verbal short term memory, dyslexic adults, 21769
phonological recoding during silent reading of natural text, college students, 32276
photos of familiar objects & facial expressions of affects, information extraction capacity, chronic schizophrenic vs general medical patients, errata, 1432
prior encoding of visual stimulus features vs setting appropriateness, memory for pictorial details, college students, 26481
process improvement & process switching mechanism for change in consistent mapping memory search, college students, verification of automaticity theory, 26480
question answering strategy independent of & potential confound with searched representation, 26494
reading sentences under memory or behavior categorization instructions, recall cued by trait adjectives vs semantic associate, college students, Belgium, 9019
recognition & decoding of emotional facial expressions, abused 2.7–9.6 yr olds & their abusive mothers, Canada, 30610
relevant information storage & retrieval conditions, category frequency judgment & cued recall, college students vs 61–80 yr olds, 26996
repetitions with massed vs distributed spacing, memory for actions, 18–23 vs 60–82 yr olds, 9546
resource monitoring & attentional capacity, laterality in ability group differences in distinctiveness encoding, learning disabled children, 21765
retrieval strategies for recall of names & location of misplaced objects, college students vs 66–86 yr olds, 27010
role of attention in mind viewed as anarchic intelligence system, 26416
role of attention in mind viewed as anarchic intelligence system, application to field of attention, 26417
RT in transition from algorithm to retrieval, college students, test of mixture vs race model of automaticity, 26458
self perpetuation of depressive encoding, depressed college students, 33367
semantic congruity, hemispheric processing of symbolic information, right handed college students, use of lateralized versions of symbolic judgment paradigm, 3713
semantic vs perceptual information, level at which knowledge mediating performance is encoded in incidental learning task, implications for implicit learning, 3410
semantic vs spatial encoding of map features, individual differences in retention & organization of general reference maps in memory, college students, 23397
sex & stress, accuracy in decoding of kinesic facial vs vocalic emotional expressions, college students, conference presentation, 32246
sign representation in memory & coding processes, deaf, 10357
single vs multiple talkers & word list presentation rate, perceptual encoding & rehearsal processes of serial recall, college students, replication, 17521
strategy training, recall & organization in recall, Black 3rd graders of low vs high cognitive ability, replication & extension, 23838
syllabication instruction, decoding of polysyllabic words, 4th & 6th graders with syllabication difficulty, 16923
target word frequency, visual encoding & manual motor programing during copytyping, expert typists, 26307
task vs ego focused motivation & shallow vs deep processing, encoding & recall, 5th–6th graders, 27016
taxonomic frequency of list items & recall cue condition & high vs low clustering, list recall, college students, 32274
temporal processing in word identification task & eye movements, dyslexic 10.3–14.9 yr olds, Canada, commentary, 27727
theoretical analysis & computer simulation of network function of superficial cerebral cortical layers, 3652
theoretical information processing model of cognitive rehabilitation, 2528
time of day, text recall & integration, adults, England, 9044
training induced knowledge schemas & encoding time, plausability effect on recall, 22–29 vs 65–85 yr olds, 27064
trion model of cortex, description of coding of musical structure in composition & perception, humans, 11942
type of encoding & exposure duration & recency & spacing of repetitions of 2 conditions, commensurability in frequency discrimination, college students, 6484
type of encoding & strength of discounting appeal, ignoring invalid testimony while making guilt & verdict judgments, college students, 1098
type of encoding task, incidental memory for famous faces & names, college students & staff, 14405
type of lexical study task, independent retrieval of information from lexical & semantic memory, bilingual high school & college students, Canada, 18069
use of semantic category cues to enhance memory performance, mildly to severely demented elderly with Alzheimer's disease, 18931
verbal short term memory & speech based coding, speech disordered 4–15 yr olds, 24757
visually vs orally presented primes, problem specific retrieval processes vs answer representation in multiplication, college students, 26456
word frequency & digit probe presence & item set size, response execution in lexical decision & memory scanning tasks, college students, 29454

depressions of nicotinamide adenine dinucleotide (NADH) ubiquinone oxidoreductase (complex I) activity, adults with Huntington's disease, 1856
Huntington's disease & Capgras syndrome with anosognosia, female 29 yr old, case report, 12597
ideomotor apraxia, 31–72 yr olds with Huntington's disease vs patients with senile dementia of Alzheimer's type, conference presentation, 19011
intraparenchymal striatal transplants, behavioral recovery, lesioned rats, animal model of Huntington's disease, 12079
intrastriatal lesions with excitatory amino acids, neuronal depletion in neostriatum, animal model of Huntington's disease, literature review, 616
kainic acid lesions & subsequent fetal striatal tissue transplantation, locomotor behavior & acetylcholinesterase staining, male rats, animal model of Huntington's disease, 12080
MK-801 & cortical grafts, reversal of quinolinic & kainic acid induced striatal degeneration & behavioral deficits, male rats, animal model of Huntington's disease, conference presentation, 9288
neuropsychologic & self report measures of positive vs negative halotyping for risk of Huntington's disease, 1896
neuropsychological vs MRI assessment, middle aged & elderly patients with Alzheimer's or Huntington's disease, 13042
pictorial priming vs cued recall performance, elderly with Alzheimer's or Huntington's disease, 1785
prefrontal physiology & cognitive function & regional cerebral blood flow during Wisconsin Card Sorting Test, 54–76 yr olds with Parkinson's vs Huntington's disease vs schizophrenia, 15345
prevalence of Huntington's disease, immigrants from Indian subcontinent, UK, 10434
range & relative frequency & clinical manifestation & progression of mental disorders, patients with Huntington's disease, 1970–87, Scotland, 18989
reliability & validity of suprasellar cistern measurement of dementia, 18–85 yr olds with Huntington's vs Alzheimer's disease, 24772
research on animal models of neurobiology & treatment of Huntington's disease & Tourette syndrome, conference presentation, 9302
saccadic eye movements, 23–62 yr olds with Huntington's disease, 30981
semantic & episodic memory, elderly patients with dementia of Alzheimer's type vs Huntington's disease, 18934
serial RT task learning, 30–50 yr olds with Huntington's disease, 30888
severity & specificity of cognitive impairment, patients with Alzheimer's type senile dementia vs progressive supranuclear palsy vs Huntington's vs Parkinson's disease, 27921
specific route learning & cognitive skill learning & route predictability, maze learning, adults with Huntington's disease, 1716
verbal learning & memory ability, patients with Parkinson's vs Huntington's disease, 7700
verbal learning characteristics, adults with dementia with Parkinson's vs Huntington's vs Alzheimer's disease, 15843
weight judgment, middle aged & elderly with Huntington's disease vs dementia of Alzheimer's type, 27840

Husbands
acceptance of guided imagery of wife's rape, macho vs nonmacho males, 27678
age & depression & severity of illness, sexual function, married males with Parkinson's disease vs arthritis, 10364
characteristics, abusive husbands, 4740
coping & psychological adjustment, 25–80 yr old wives with rheumatoid arthritis & their healthy husbands, 5026
description of former wives, remarried husbands, 21156
husband's failure to perform auxiliary child care tasks, depressive symptoms, employed vs unemployed 20–44 yr old mothers of infants, 30212
individual vs spouses' perceptions of family cohesiveness & emotional expressiveness & conflict, BP & dimensions of anger, husbands vs wives, 556
mental health problems, female victims raped by husbands vs boyfriends vs strangers, conference presentation, 18728
patriarchal ideology, wife beating, husbands, 27674
social & emotional consequences of caring for disabled husband, 69 yr old & older wives, implications for practice, 5564
transition to retirement, activities & satisfaction & adjustments & problems, 55 yr old & older males retired for 6–12 mo & their wives, commentary, 27154

Hybrids (Biology)
social aggregations & segregation by breed in free ranging herds, yearling & mature female cattle of 3 breeds & hybrids, commentary, 437

Hydrocephaly
cocktail party syndrome & cognitive functioning, 10–32 yr olds with spina bifida & hydrocephalus, 1797
ECT, depressive symptoms, female 54 yr old with headaches due to Paget's disease & hydrocephalus, case report, 25014
experimentally induced hydrocephalus, physiological properties of visual cortex cells & processing of visual information, developing cats, 17701

foreign language ability & verbal & performance intelligence, adult male with congenital hydrocephalic brain injury, England, case report, 24919
Kluver-Bucy syndrome preceding ventricular enlargement in normal pressure hydrocephalus, female 54 yr old, case report, 15745
prenatal exposure to cocaine, female infant with hydranencephaly & microcephaly, case report, 21704
prevalence of P. Fuld's WAIS subtest profile, adults with idiopathic or normal pressure hydrocephalus, implications for differential diagnosis of Alzheimer's disease, 13107
primary hypothalamic disturbances & sleep & endocrine measures, male 28 yr old with anorexia & bulimia & hydrocephalus internus, case report, 21933
psychotherapy, psyche/soma issues, 17 yr old female with spina bifida & hydrocephalus, case report, 25150
shoplifting, White female 52 yr old with normal pressure hydrocephalus due to aqueduct stenosis, case report, 15865
shunt operation, cerebral blood flow & gait disturbances & urinary incontinence & dementia, 50–76 yr olds with normal pressure hydrocephalus, 8099
shunt surgery in reversibility of anatomic & metabolic & cognitive deficits, 78 yr old female with normal pressure hydrocephalus, case report, 4 yr study, conference presentation, 16421
surgical vs medical treatment, short vs long term outcome & prognostic factors, patients with decompensated hydrocephalus, 22316
symptoms & diagnosis & surgical treatment & pathogenesis, 79 yr old male with dementia caused by normal pressure hydrocephalus, 27872
verbal & nonverbal cognitive & motor skills, 4.3–7.3 yr olds with hydrocephalus associated with myelomeningocele vs intraventricular hemorrhage & very low birth weight, 27975

Hydrocortisone

acetyl L carnitine, serum levels of cortisol & ACTH & clinical effect, 70–80 yr olds with senile dementia of Alzheimer's type, 16303
acute & repeated exposure to social conflict, plasma ACTH & cortisol & beta endorphin & testosterone, male golden hamsters, 29659
age, cortisol response to corticotropin releasing hormone, depressed 20–65 yr olds pretreated with dexamethasone, 30584
alexithymic features & cortisol hypersecretion, 31–79 yr old good vs poor vs intermediate sleepers, Finland, 10333
baseline ACTH & cortisol levels, interpretation of DST, females with severe vs minor depression, 18603
beta endorphin & cortisol plasma concentrations, mentally retarded 19–39 yr olds with symptoms of self injurious behavior &/or stereotypy, 1650
coping style & trait anxiety, salivary cortisol reactivity during mental stress, 41–69 yr old females, 26722
cortisol, arousal & personality, male college students & military veterans, 3839
cortisol hypersecretion after ECT & tendency for relapse, patients recovering from depressive episodes, 13146
cortisol level before vs after DST, recovered vs unrecovered patients with endogenous vs nonendogenous depression, 33435
cortisol secretion & levotryptophan serum levels & computed tomography scan measurements, unipolar depressed inpatients, 24539
CSF & plasma beta endorphin & cortisol levels, female 2.7–23 yr olds with Rett syndrome, 33668
CSF & plasma corticotropin releasing hormone & ACTH & cortisol, elderly with dementia, 24971
demographic & developmental & personality variables, salivary cortisol concentrations, 35–65 yr olds, 26723
dexamethasone dosage during DST, plasma cortisol & dexamethasone concentrations, depressed inpatients, 1492
dexamethasone, plasma dopamine & epinephrine & norepinephrine & cortisol levels, 22–57 yr olds with psychotic vs nonpsychotic depression, 15508
dexamethasone vs conditioning, cortisol levels & histamine release, guinea pigs, 12147
dexamethasone vs prednisone, cognitive function, cortisol nonsuppressing adults with major depression, conference presentation, 5475
dexamethasone vs prednisone, cognitive function, cortisol nonsuppressing adults with major depression, commentary on conference presentation, 34091
dexamethasone vs prednisone, cognitive function, cortisol nonsuppressing adults with major depression, reply to commentary on conference presentation, 34142
DST, prolactin vs cortisol responses, patients with anorexia nervosa, 10449
DST, salivary cotisol & plasma ACTH, depressed 20–65 yr olds, Spain, 24403
early vs late stage of acute episode & depression & negative & positive symptoms & DST cortisol response, schizophrenic patients, 15465
ECT, DST & plasma dexamethasone & cortisol, depressed patients, 34192
encounter with strange opponent in familiar vs unfamiliar cage vs open field area, offensive vs defensive behavior & plasma cortisol titers, male guinea pigs, 549
exercise & immunity & ACTH release & cortisol elevation, 14629
experimental pain thresholds & plasma levels of beta endorphins & cortisol & catecholamines before vs during vs after physical exercise, male 20–46 yr olds, 23293
fenfluramine, serum cortisol & prolactin, patients with endogenous vs nonendogenous vs bipolar vs delusional depression, 10029
formation of triads & introduction of male to group, gonadal hormone production & cortisol levels & breeding readiness, female squirrel monkeys, 26608
growth hormone releasing hormone, growth hormone & prolactin & cortisol responses, schizophrenic male patients, 12752
HIV-1 serostatus notification, plasma cortisol & beta-endorphins & denial coping strategies & intrusive thoughts, seronegative gay 18–30 yr old males, 7607
imipramine hydrochloride, platelet 3H-imipramine binding & plasma cortisol levels & clinical improvement, 18–66 yr olds with endogenous depression, 19271
ipsapirone, serotonin receptor mediated ACTH & cortisol secretion in hypothalamic pituitary adrenal system activation, patients with unipolar depression, 7980
L-5-HTP, cortisol escape from suppression in DST, melancholic patients, Belgium, 25345
lateralized viewing of emotionally aversive vs neutral film, salivary cortisol secretion, college students, 14634
levotryptophan, urinary free cortisol, melancholic depressed adult females, 7986
lymphocyte cytosolic glucocorticoid receptors & plasma cortisol, male 37–45 yr old Vietnam combat veterans with PTSD, 24555
m-chlorophenylpiperazine, prolactin & cortisol response & personality dimensions, males with antisocial personality disorder with substance abuse, 2245
measurement of cortisol in saliva as tool for investigations of hypothalamus pituitary adrenal axis activity & psychobiological research, 6664
metergoline & methysergide, prolactin & cortisol release to m-chlorophenylpiperazine, healthy adult males, 6828
morning naps vs car trips vs maternal separation, adrenocortical activity, 8.1–11.2 mo olds, 23807
naloxone, LH & ACTH/cortisol circulating levels, bulimic adult females with normal body weight, 30808
natural killer cell activity & cortisol secretion, depressed outpatients, 30531
nocturnal cortisol & TSH & growth hormone levels, depressed 16–19 yr olds, 30507
optimism & psychological & cold pressor stress, cardiovascular & pulmonary & cortisol responses, male 18–35 yr olds, 554

oral dose of methylphenidate, plasma levels & emotional state & cortisol levels, 20–59 yr old psychiatric inpatients, 8032
plasma beta endorphin & cortisol levels, autistic 26 yr olds, case reports, 24517
plasma cortisol levels & DST results, 33–70 yr olds with recurrent major depression with psychotic features, 4694
plasma dexamethasone & cortisol concentrations in DST following antidepressant treatment, depressed patients, 16254
plasma dexamethasone levels, DST sensitivity & cortisol dynamics, depressed 15–58 yr old inpatients, 30493
post-DST serum cortisol & BP & other physiological stigmata of Cushing's syndrome, depressed inpatients, 15485
postdexamethasone cortisol & ACTH values, plasma levotryptophan & ratio with amino acids, mildly to severely depressed females, 15450
postdexamethasone cortisol concentrations & symptomatology & cognitive impairment, neuroleptic free unmedicated male schizophrenic inpatients, 30538
predexamethasone & postdexamethasone plasma cortisol & suicidal behavior, 6–12 yr old psychiatric inpatients, conference presentation, 30550
psychological distress & plasma cortisol & lymphocyte proliferation & phytohemagglutinin & pokeweed mitogen, HIV positive gay 18–39 yr old males unaware of their infection, 30780
ritanserin, 5-HT mediated plasma cortisol & ACTH & prolactin, adult males, 23683
salivary cortisol, 9–9.6 yr old males with anxiety &/vs conduct disorder, 24328
seasonal variation in post-DST cortisol values, psychiatric inpatients, 9244
sleep disruption, plasma cortisol & ACTH, 23–28 yr old males, 26780
stress, plasma cortisol & growth hormone & prolactin & lymphocyte subpopulations, healthy 20–45 yr olds, 25885
total sleep deprivation, stress & arousal & mood & urinary cortisol, depressed adults, 19053
urinary free cortisol & 17-hydroxycorticosteroids & DST responses, elderly with Alzheimer's type vs multi-infarct dementia, 21904
urinary free cortisol excretion & dexamethasone level & age & DST results, depressed patients, 1430
urinary free cortisol excretion, depressed vs nondepressed cancer patients, 5116
urinary free cortisol levels & measures of medical & immunological & neurological & psychiatric status & stress, HIV positive vs negative homosexual males, 15797
voluntary mental arithmetic task, plasma cortisol, acute vs remitted depressed 31–70 yr olds, 30577
3-aminobenzoic acid ethyl ester anesthesia, plasma cortisol response, mummichogs, 20807
5-HT agonist MK-212, plasma cortisol & prolactin responses, 24–45 yr olds with obsessive compulsive disorder, 4561

Hydroxydopamine (6-)
benzazepine SCH-12679, aggressive & self injurious behavior, 3 day old rats treated with 6-OHDA, animal model of Lesch-Nyhan disease, erratum, 9361
fetal striatal vs liver tissue vs sham implants vs lesion, protection from 6-OHDA induced striatal dopaminergic toxicity, female rats, implications for Parkinson's disease treatment, 32524
intracerebral 6-OHDA lesions, outcome of enriched vs impoverished housing, neonatal vs adult rats, 9340
intrastriatal 6-OHDA, rotational behavioral & dopamine biochemistry, male rats, 32578
prefrontal cortical dopamine depletion, mesolimbic dopamine neuron responsiveness to stress, male rats, implications for role of stress in schizophrenia, 662
stereotactic implants of pellets of apomorphine & TRH & bromocriptine in right striatum, 6-OHDA induced rotation, rats, conference presentation, 17949
ventral tegmentum 6-OHDA lesions, morphine vs amphetamine analgesia in formalin vs tailflick tests, rats, 627
6-OHDA & tail shock stress, residual nigrostriatal dopamine neuron response & extracellular dopamine & behavioral state, male rats, 26758
6-OHDA & 5,7-dihydroxytryptamine, open field learning & exploratory behavior, male rats, 23671
6-OHDA in nucleus accumbens, hyperactive locomotor processes after intradentate injection of colchicine, male rats, 6800
6-OHDA induced lesion of dopaminergic mesotelencephalic system, receptor readjustments, neonatal & adult male rats, 6733
6-OHDA lesion to medial prefrontal cortex, acquisition & maintenance of iv cocaine self administration & dosage, rats, 23591
6-OHDA lesions, degeneration of dopaminergic neurons of nigrostriatal pathway, animal model of neurological symptoms of Parkinson's disease, literature review, 640
6-OHDA lesions of ventral tegmental area dopamine system vs ascending noradrenergic bundle noradrenaline system, skin conductance response to auditory stimuli, cats, 639
6-OHDA vs ibotenic acid vs muscimol, efferent projections of nucleus accumbens & apomorphine induced locomotion, rats, 14802

Hydroxyindoleacetic Acid (5-)
auditory brain stem EPs & CSF concentration of HVA & 5-HIAA, schizophrenic 19–41 yr olds, 4653
blockade of acid transport system by probenecid, HVA & 5-HIAA & MHPG concentrations in lumbar CSF, psychiatric patients, 7392
CSF HVA vs 5-HIAA vs MHPG, adults with panic disorder, implications for drug therapy, 27496
CSF 5-HIAA & psychopathological traits, anorexic females after long term weight restoration, 33710
levels of 5-HIAA in CSF, obsessions of violence, 24 yr old male & 28 yr old female with obsessive compulsive disorder, case reports, 4646
MHPG & HVA & 5-HIAA levels during ECT, unipolar depressed patients, 13166
mianserin, negative symptoms & plasma 5-HIAA concentrations, schizophrenic 27–62 yr olds, 2243
nocturnal sleep & CSF 5-HIAA & HVA & MHPG concentrations, schizophrenic male 19–55 yr olds, 33317
platelet 3H-imipramine binding sites & lumbar CSF 5-HIAA concentration, neurosurgical patients, 10840
tobacco smoking, 5-HT & 5-HIAA concentrations & 3H-8-OH-DPAT & 3H-ketanserin binding, postmortem brains of 55–88 yr olds, 3719
5-HIAA & HVA CSF concentrations, patients with Alzheimer's disease, 13115

Hydroxylase Inhibitors
dopamine beta hydroxylase inhibitor FLA-57, conditioned taste aversion & ethanol intake, male rats, 23629

Hydroxylases
amygdala lesions & sound stress, cortical & midbrain tryptophan hydroxylase activity, male rats, 9345
plasma dopaminbetahydroxylase levels, children through adults with endogenous vs exogenous depression vs hyperkinesis vs schizophrenia, conference presentation, 4523

Hydroxytryptamine (5-) [See Serotonin]

Hydroxytryptophan (5-)
adverse reaction to 5-HTP, depressed 30 yr old male with atopic dermatitis, 19257
habituation, serotonergic component of bulbospinal contribution to effect of morphine on spinal nociception, rats, 712
L-5-HTP, cortisol escape from suppression in DST, melancholic patients, Belgium, 25345
restraint stress & 5-HTP & parachlorophenylalanine, plaque forming cell response, male rats immunized with sheep erythrocytes, 12019

Hydroxyzine
buspirone vs chlordiazepoxide vs hydroxyzine, psychomotor test performance EEG, 20–25 yr olds, 20733
hydroxyzine vs lorazepam, attention & memory, healthy 21–29 yr olds, 12096

Hygiene [See Health]

Hyoscine [See Scopolamine]

Hyoscyamine (dl-) [See Atropine]
Hyperactivity [See Hyperkinesis]
Hyperglycemia
cognitive performance, elderly with diabetes in hyperglycemia phase vs glycemic equilibrium, conference presentation, 28003
hyperglycemia & tail skin temperature, pain threshold, alloxan diabetic rats, commentary, 14651
hyperglycemia & tail skin temperature, pain threshold, alloxan diabetic rats, criticism reply, 14659
Hyperkinesis
academic underachievement, 7–12 yr old males with attention deficit hyperactivity disorder or conduct disorder, 21350
actual vs informed medication status, self evaluation & performance expectancies, male 7–12.8 yr olds with attention deficit hyperactivity disorder, 34141
additive factor method in research on psychopathology & information processing deficits & childhood hyperactivity, literature review, 7437
adolescent academic skills & attention & impulse control & frontal lobe functions, hyperactive 4–12 yr olds, 8 yr followup, 4962
age & sex & sustained attention & impulsivity & teacher ratings of classroom problems, reading performance, 7–10 yr olds, New Zealand, implications for hyperactivity, 19823
age, impulsivity & attention & RT on microcomputer based video game test, hyperactive 5–13 yr olds, 1841
antisocial acts & cigarette & marihuana use & academic outcome, hyperactive 4–12 yr olds, 8 yr study, 1688
approaches & physician's role in diagnosis & management & drug treatment of attention deficit hyperactivity disorder, children & adolescents, 19035
arrest & conviction & incarceration records, hyperactive male 6–12 yr olds, 10 yr followup, implications for early intervention, commentary reply, 33736
arrest & conviction & incarceration records, hyperactive male 6–12 yr olds, 10 yr followup, implications for early intervention, commentary, 33742
assessment of attention using computerized continuous performance, 6–11 yr olds with attention deficit disorder with hyperactivity, 27948
assessment parameters for & behavioral correlates of attention deficit hyperactivity disorder, adolescents, 30828
assisted learning methodology, learning & transfer of inductive reasoning rules, overactive 7–11 yr olds, 24803
associated risks of treatment with stimulants, children with Gilles de la Tourette's syndrome or attention deficit hyperactivity disorder, 7956
associated risks of treatment with stimulants, children with Gilles de la Tourette's syndrome or attention deficit hyperactivity disorder, commentary, 8038
attention deficit hyperactivity or learning disorders, relatives of patients with Tourette's syndrome, 1289
Attention Training System classroom management approach, 6–9 yr olds with attention deficit hyperactivity disorder, 22825
basic characteristics & symptoms & classification system & adjustment problems, children with attention deficit hyperactivity disorder, 30841
behavior & symptoms, children with attention deficit disorder with vs without hyperactivity vs learning disabilities, 10247
behavioral parent training &/vs cognitive behavioral self control therapy, 7–11 yr olds with attention deficit hyperactivity disorder, 8 mo followup, 1959
biofeedback, bowel/bladder dysfunction & pain syndrome & hyperactivity, children, 10665
biofeedback treatment, hyperactive children, literature review, 25243
bupropion, adults with attention deficit hyperactivity disorder, 5474
carbamazepine with vs without imipramine, plasma imipramine & desipramine, 5–16 yr olds with attention deficit hyperactivity disorder, 13368
cerebral glucose metabolism during positron emission tomography & auditory attention task, adults with childhood onset attention deficit hyperactivity disorder, commentary, 13121
cerebral glucose metabolism during positron emission tomography & auditory attention task, adults with childhood onset attention deficit hyperactivity disorder, 13130
cerebral glucose metabolism during positron emission tomography & auditory attention task, adults with childhood onset attention deficit hyperactivity disorder, commentary, 27883
cerebral glucose metabolism during positron emission tomography & auditory attention task, adults with childhood onset attention deficit hyperactivity disorder, commentary reply, 28002
child vs parent vs teacher reports of hyperactive/inattentive or oppositional behaviors or conduct problems, male 7–12 yr olds, 1 yr followup, 18455
childhood disruptive behavior & attention deficit hyperactivity disorder, males vs females with borderline personality disorder, 27463
classroom behavior & family climate, elementary school students with learning disabilities &/vs hyperactive behavior, Israel, 33262
classroom contingency management & other behavioral interventions, students with attention deficit hyperactivity disorder, 31732
clinic observation in assessment of pervasiveness, male 6–12 yr olds with attention deficit disorder with hyperactivity & hyperkinetic syndrome, 33734
clinical & treatment issues, children with attention deficit hyperactivity disorder, 1985–90, bibliography, 30977
clinical features & symptomatology & neurobiologic nosology of attention deficit hyperactivity disorder, children, 19036
clinical use of stimulant medication & parent training in child behavior management skills, children with attention deficit hyperactivity disorder, 22005
clonidine vs clorotepine vs oxyprothepine, hyperkinetic male 6–12 yr olds, Czechoslovakia, conference presentation, 5444
cognitive ability & naming task performance & academic achievement & behavior, children with attention deficit disorder with vs without hyperactivity, 18941
cognitive behavioral therapy, home behavior, 7–13 yr old males with attention deficit hyperactivity disorder, 33910
cognitive consequences & literacy & behavioral problems & social competence, hyperkinetic 3 yr olds, New Zealand, 12 yr study, 24899
cognitive training, cognitive & academic & behavioral functioning, children with attention deficit hyperactivity disorder, literature review, 22184
comorbidity with conduct & oppositional defiant & mood & anxiety & other disorders & learning disabilities, children with attention deficit hyperactivity disorder, literature review, 30365
components & use of school based assessment procedures, targeting behaviors & determination of treatment efficacy, children with attention deficit hyperactivity disorder, 22803
continuous performance attentional deficits & cognitive & behavioral functioning, children with attention deficit hyperactivity disorder, 4985
correlational analysis & reliability of 4 assessment measures, 6.4–15.8 yr olds with attention deficit hyperactivity disorder, 70
critique of diagnostic criteria for ICD-10 & DSM-III-R for attention deficit hyperactivity disorder, 12960
demographic & clinical variables & comorbid psychopathology, 19–65 yr olds with attention deficit hyperactivity disorder, 15915
desipramine, neuropsychology & classroom & other behavior, 6–12 yr olds with attention deficit hyperactivity disorder, 31216
development & pathology of inhibitory control, children with attention deficit disorder with hyperactivity or conduct or

learning or emotional disorders vs normal 2nd & 4th & 6th graders vs adults, 4533
development of schizophrenia or major depression, male adolescents who presented with attention deficit hyperactivity disorder at age 6 & 8.5 yrs, case reports, 1881
developmental risk of comorbid antisocial behavior & substance abuse & psychopathology, adults with childhood attention deficit hyperactivity disorder, treatment implications, 27768
deviations in patterns of normal brain asymmetry, children with developmental dyslexia vs attention deficit disorder/hyperactivity, 1312
dexamphetamine, hyperactivity, White female 63 yr old with probable Alzheimer's disease, case report, 25320
diagnostic criteria & problems & needs, adults with residual type of attention deficit hyperactivity disorder, 18900
differential diagnosis & criteria & management of disorders potentially misidentified as or coexisting with attention deficit hyperactivity disorder, 3–17 yr olds, 19040
differential isomer & dosage effects of CNS stimulants & neural control & dopamine theory of attention deficit hyperactivity disorder, 30896
dose & time course of methylphenidate, learning & cognitive function, children with attention deficit hyperactivity disorder, literature review, 22269
ecological validity of laboratory vs naturalistic assessment of inattention & impulsivity & overactivity, 6–20 yr olds with attention deficit hyperactivity disorder, 24774
environmental & child & parental characteristics, parent child interactive stress, families with hyperactive vs physically abused children, 12616
EPs & auditory attention tuning during auditory or visual stimulation, 5.6–7 yr old males with attention deficit hyperactivity disorder, 2 yr study, 12937
etiology & characteristics & diagnosis & behavioral treatment of attention deficit disorder with hyperactivity, children, 7921
evaluation & assessment & classification of attention deficit hyperactive disorders, children, 30953
extensive & enantioselective pharmacokinetics of methylphenidate, 8–13 yr olds with attention deficit hyperactivity disorder vs healthy male 22–31 yr olds, 28385
extent of stimulant medication use & receipt of special education services, K–6th graders with vs without attention deficit hyperactive disorder, 10711
extremely low birth weight, psychiatric disorders & developmental delay & psychosocial disadvantage, 5 yr olds, implications for risk for attention deficit disorder with hyperactivity, 15525
fluoxetine, development of hypersomnolence, male 25 & 39 yr olds with residual attention deficit disorder with hyperactivity, case reports, 10761
frequent administration of Hyperactivity Index of Conners Teachers' Questionnaire, scores, teachers of 1st–3rd graders, 11206
frontal dysfunction in attention deficit hyperactivity disorder, 18865
genetic & biochemical & neurobehavioral & neuroanatomical correlates of attention deficit hyperactivity disorder, 30873
history of terms & taxonomic relationship of attention deficit hyperactivity disorder & learning disability, impact on Education for All Handicapped Children Act of 1975, 1344
history of terms & taxonomic relationship of attention deficit hyperactivity disorder & learning disability, impact on Education For All Handicapped Children Act of 1975, commentary, 21399
history of terms & taxonomic relationship of attention deficit hyperactivity disorder & learning disability, impact on Education for All Handicapped Children Act of 1975, commentary, 27433
history of terms & taxonomic relationship of attention deficit hyperactivity disorder & learning disability, impact on Education for All Handicapped Children Act of 1975, commentary reply, 27446
history of terms & taxonomic relationship of attention deficit hyperactivity disorder & learning disability, impact on Education for All Handicapped Children Act of 1975, commentary, 33271
hyperactivity & aggression, 2–42 yr olds with fragile X syndrome, 33669
hyperactivity & sensation seeking, incarcerated males with psychopathic vs neurotic vs socialized delinquent personality subtypes, 30633
illness outcome, hyperactive children & adolescents, 30886
K-ABC results, male children with attention deficit disorder with hyperactivity, 4937
laterality & implicit memory & cognitive ability & problem solving & creativity, 6th–7th graders with attention deficit hyperactivity disorder & IQs above 115, 31754
legal issues & parental & child rights regarding treatment, children with attention deficit hyperactivity disorder, 19091
memory, male 7–12 yr olds with reading disabilities vs attention deficit disorder with hyperactivity, Canada, 15298
merit of traditional approaches to diagnosis & treatment, hyperactive children, implications for humanistic approach, 24986
methodology in classification & identification, children with attention deficit hyperactivity disorder & other learning & behavior disorders, 18437
methylphenidate & pemoline, development of stuttering & napping, 3 yr old hyperactive female, 22222
methylphenidate, aggression, male 13–16 yr olds with aggressive conduct & attention deficit disorder with hyperactivity, 7971
methylphenidate, development of adverse side effects, mildly to moderately mentally retarded children with attention deficit hyperactivity disorder, 25314
methylphenidate dosage with vs without behavioral parent training & child self control therapy, 7–11 yr olds with attention deficit hyperactivity disorder, 25034
methylphenidate, impulsive commission errors on go-no-go test, 6–18 yr olds with attention deficit disorder with vs without hyperactivity, 19326
methylphenidate, negative EP components related to selective attention, 6–12 yr olds with attention deficit hyperactivity disorder with vs without aggressive/noncompliant features, 10733
methylphenidate, peer aggression in public school setting, aggressive hyperactive male 5.9–11.9 yr olds, 7955
methylphenidate, reading performance, 8–11 yr old males with hyperactivity with vs without conduct disorder, 28322

efficacy & safety & withdrawal effects of zopiclone vs triazolam, 18–64 yr olds with chronic insomnia, 2200
ethanol with vs without zopiclone or nitrazepam, immediate & overnight effects on psychomotor performance & memory, 18–50 yr old females, 687
group behavior therapy, hypnotic vs nonhypnotic drug using insomniac 30–73 yr olds, England, 31018
hypnogenic properties of vasoactive intestinal polypeptide, REM sleep, cats, 9423
methodologies for assessment of abuse liability of anxiolytic & sedative hypnotic drugs, humans, literature review, 33550
pentobarbital or penobarbital or flunitrazepam or muscimol or picrotoxin or ethanol, GABA mediated chloride flux in brain membrane vesicles, rats bred for alcohol sensitivity, 29739
pharmacodynamics of zopiclone vs flurazepam, sleep disorder, 65 yr olds & older, 34048
psychopathology & health & incidence of suicide, mentally ill 15–47 yr old twins treated with tranquilizing & hypnotic drugs, Sweden, 16192
sex & somatic & mental health & inpatient psychiatric diagnoses & risk of suicide, 16–74 yr old regular users of hypnotic medication, Sweden, 19247
temazepam capsules vs elixir, onset of hypnotic action, 18–81 yr old psychiatric patients, 28366
zolpidem dosage, sleep latency & efficiency & psychomotor performance & memory & daytime alertness, noninsomniac 60–80 yr olds, 23720
zolpidem, sleep EEG spectra & stages & parameters & daytime performance, healthy male 23–30 yr olds, 32574
zolpidem vs triazolam, effect onset & subjective effects & performance behavior & abuse liability, healthy males with history of sedative abuse, 15638
zolpidem vs triazolam, performance on psychomotor & immediate & delayed recall tasks, male adults with history of sedative &/or alcohol abuse, conference presentation, 7523
zopiclone, sleep & mood & work time performance, 18–35 yr old males working 12 hr shifts in Royal Air Force radar installations, England, 715
zopiclone vs temazepam, 18–70 yr olds with insomnia, Malaysia, 10753
zopiclone vs triazolam, daytime interdose anxiety, 26–58 yr olds with generalized anxiety disorder & insomnia, 10710
Hypnotic Susceptibility
absorption & hypnotizability & openness to experience, college students, 18372
absorption & vividness of imagery & fantasy play & social desirability & hypnotic responsiveness, 7.1–13.7 yr olds, 32749
analgesia vs distraction hypnotic pain reduction strategies, tolerance to pain, adults with high vs low hypnotic susceptibility, 3443
brief cognitive skill training, hypnotic suggestibility, college students, 32305
Carleton University Skill Training Program, enhancement of hypnotic susceptibility, commentary, 11801
Carleton University Skill Training Program, enhancement of hypnotic susceptibility, commentary reply, 11810
cognitive skill vs expectancy enhancing training, suggestibility or hypnotizability, 17–38 yr olds, 3442
compliance induced reporting bias, natural vs skill trained high hypnotizable college students, 32303
context, effect of absorption on hypnotizability, college students, 15257
correlation between Tellegen Absorption Scale & Openness To Experience inventory & Anhedonia scale, prediction of hypnotic susceptibility, 17–67 yr olds, Canada, 20242
cue visibility & probability, automatic & strategic effects on Stroop performance, college students with low vs moderate vs high hypnotizability, 9070
developmental pathways to hypnotizability & its relations to dissociation, 26506
dissociation & absorption as cognitive strategies in hypnosis, high vs low hypnotizable adults, 339
dissociation & hypnotizability & hypnotherapy, patients with PTSD, conference presentation, 13473
dissociation & multidimensionality of hypnosis & hypnotizability, commentary, 29491
dissociation & multidimensionality of hypnosis & hypnotizability, commentary reply, 29485
EEG correlates, hypnotic susceptibility, college students, 20611
EEG frequency band differences during waking & hypnosis, college students with high vs low hypnotic susceptibility, 20626
fantasy proneness & hypnotic susceptibility, college students, Poland, psychometric implications, 3441
hypnosis & hypnotizability, cognitive performance in visual memory task, college students, 3437
hypnosis following slide presentation & experiment setting context, report of suggested pseudomemory, high vs low hypnotizable college students, Australia, 20442

hypnotic capability & dissociative capacity, bulimic vs non-bulimic female college students, 15730
hypnotic susceptibility & instructions in hypnotic vs waking state, free vs structured recall of pseudomemory suggestions, college students, 14436
hypnotic susceptibility & preference for imagic cognitive style & absorption, creation of pseudomemory in hypnosis, 18–33 yr olds, 346
hypnotic susceptibility, patterns of consciousness, adults, 3440
hypnotizability & hypnotists' attitude, secondary identity enactment & historical accuracy during past life regression, college students, 32308
hypnotizability & imagination, 18–44 yr olds with history of physical or sexual child abuse, 18759
hypnotizability & smoking treatment outcome, private patients, 28647
hypnotizability, recall of memories reported during prior waking vs hypnosis, college students, 26513
hypnotizability, relaxation vs active alert hypnotic inductions with or without suggestion for cold pressor pain analgesia, adults, 23411
hypnotizability, schizophrenic & borderline patients in psychotherapy, 18621
hypnotizability, schizophrenic & borderline patients in psychotherapy, commentary, 18554
hypnotizability, schizophrenic & borderline patients in psychotherapy, commentary, 18591
hypnotizability, schizophrenic & borderline patients in psychotherapy, commentary reply, 18620
hypnotizability, schizophrenic & borderline patients in psychotherapy, commentary, 18659
imagination & ideomotor ideation exercise, assessment of capacity for imagery & hypnotic responsiveness, 22–73 yr olds, 22307
individual differences in positive & negative visual hallucination & circle & posthypnotic amnesia, 19 yr old excellent hypnotic female college students, 347
interpersonal climate & hypnotizability, hypnotic performance & rapport & archaic involvement with hypnotist, adults, 23410
laser stimulation, hypnotic suggested analgesia & EPs, highly hypnotically susceptible college students, 3779
manipulated expectancies concerning responsiveness, behavioral & subjective indices of hypnotizability, college students, 345
modification of hypnotizability with Carleton Skills Training program, low hypnotizable adults, 340
overt vs covert pacing of suggestions to phases of breathing cycle, hypnotic responding, low vs medium vs high hypnotizable college students, 32304
permissive vs authoritarian type of hypnotic induction, experience of effortlessness, 18–22 yr old females, 6519
positive vs negative expectancies about effectiveness of hypnotic procedure, hypnotizability, college students, 26512
reactive effects of imaginative involvement & hypnotic susceptibility, college students, 26507
right hemisphere dominance & hypnotizability & autonomic function, 20–24 yr olds, 520
self reported psychic experiences & hypnotic susceptibility, Association for Research & Enlightenment conference participants, 8710
short vs long delay skill training, hypnotizability, low hypnotizable college students, 2–18 wk followup, 26511
standardized Chiasson & eye closure hypnotic inductions, hypnotic depth & susceptibility, college students, 33196
suggestion & trance depth, durability of posthypnotic suggestion, high vs low hypnotizable 17–58 yr olds, 20466
tendency to act as if highly hypnotizable, high vs low suggestible college students, 6515
trance vs behavioral/skill training conception of hypnosis & hypnotic induction, hypnotic performance, college students, 14432
waking vs hypnotic visual instruction, pseudomemory, 17–68 yr olds with high vs moderate vs low hypnotic susceptibility, 17575

Hypnotists
hypnotizability & hypnotists' attitude, secondary identity enactment & historical accuracy during past life regression, college students, 32308

Hypochondriasis
apprehension & strategic use of symptoms in evaluative settings, low vs high hypochondriacal adults, 13092
clinical & psychological characteristics & sewing profession, 50–75 yr old postmenopausal females with rheumatoid arthritis & hypochondriasis & depression, Israel, case reports, 12629
definition of & psychotherapeutic approach to medical reassurance, hypochondriacal patients, 25187
diagnosis & characteristics of hypochondriacal personality disorder, psychiatric patients, 30579
DSM-III diagnosis & biochemical parameters, 36–75 yr olds with somatic diseases vs unexplained somatic complaints, 21405
dual diagnosis of panic disorder & hypochondriasis, 18–52 yr olds, case reports, 1301
hypochondriacal fears & beliefs, pregnant 19–41 yr olds, Italy, 7642
hypochondriasis & somatosensory amplification, 18–86 yr old general medical outpatients, 7613
illness attitudes & hypochondriacal symptoms, pregnant females, conference presentation, 10421
imipramine, patients with illness phobia, 34140
medical & psychiatric morbidity & health & social isolation & other factors, 45 yr olds & younger through 75 yr olds & older with vs without hypochondriasis, 33221
memory for health related vs unrelated events about self vs others, college students with high vs low hypochondriacal tendencies, 27808
operant conditioning vs hypochondriasis theory, explanation of chronic low back pain, adults, commentary, 10302
pimozide, monosymptomatic hypochondriacal psychosis, 39 yr old male with AIDS, commentary on case report, 31220
pimozide, monosymptomatic hypochondriacal psychosis, 39 yr old male with AIDS, commentary on case report, 31268
psychopathology, patients with transient hypochondriasis vs DSM-III-R hypochondriasis, 1691
roles & meanings of medical reassurance, psychopathology & diagnosis, hypochondriacal patients, 10839
similarities vs differences of hypochondriasis vs obsessive compulsive personality disorder, 1477
sum of scores on MMPI hypochondriasis & hysteria scales & neuroticism & somatic complaints, risk of angina pectoris vs myocardial infarction vs coronary death, 40–55 yr old males, 10 yr study, 24952
test retest reliability & internal consistency of Somatosensory Amplification Scale, assessment of uncomfortable visceral & somatic sensations, hypochondriacal patients, 20177
utility of Illness Attitude Scales, differential diagnosis of hypochondriacal fears & beliefs, patients with hypochondriasis vs psychiatric vs physical disorders, conference presentation, 30374

Hypogastric Plexus [See Autonomic Ganglia]

Hypoglossal Nerve [See Cranial Nerves]

Hypoglycemia
cognitive functioning after mild hypoglycemic episode, 7–15.1 yr olds with insulin dependent diabetes mellitus, 1867
growth hormone releasing hormone vs clonidine vs insulin induced hypoglycemia, growth hormone responses, normal weight bulimic females, 12985
hypoglycemic episode, neuropsychological functioning, diabetic 6–14 yr olds, 1872
insulin induced hypoglycemia, mobilization of peripheral blood leucocytes, depressed patients with melancholia or anorexia nervosa, 12743
insulin produced neonatal hypoglycemia, cognitive abilities & behavior, newborn monkeys, 9436
medical & psychological diagnoses of relationship between hypoglycemia & psychopathology, literature review, 18458
psychometrics of Hypoglycemic Fear Survey, diabetic children & adolescents, conference presentation, 14146

Hypogonadism [See Also Klinefelters Syndrome, Turners Syndrome]
spatial attentional performance on visually cued RT task, 23–49 yr old males with isolated hypogonadotropic hypogonadism, 1813
testosterone therapy, tactile sensitivity, 21–61 yr old males with replaced androgen vs untreated hypogonadism vs infertility, 31181
Hypomania
diagnostic dilemma in progression from healthy enthusiasm to mania, 24 yr old male with hypomania, case report, 18549
fluvoxamine overdose, female 31 yr old with cyclic hypomania & bipolar disorder, case report, 13409
hypomania & paranoia & depression, male 57 yr old with vitamin B12 deficiency, case report, 30989
hypomanic behavior & gait disturbance, male 35 yr old with familial spastic paraplegia, case report, 15827
hypomanic personality & attributional style, college students, 1272
idiopathic basal ganglia calcification, 64 yr old female manifesting with hypomanic psychosis & subcortical dementia & movement disorders of parkinsonism & chorea, case report, 15947
transient trazodone induced hypomania, depressed 24 & 61 & 70 yr olds, case reports, 25325
Hypoparathyroidism [See Parathyroid Disorders]
Hypophysectomy
hypophysectomy & adrenalectomy, naloxone & heat induced analgesia, rats, 23575
hypophysectomy or adrenalectomy, ACTH induced analgesia & dopaminergic transmission in arcuate, male rats, 32696
Hypophysis Disorders [See Pituitary Disorders]
Hypopituitarism
environment related impairment of stature & growth hormone secretion & mental growth & behavioral deficits, 8 yr old male with psychosocial dwarfism living in foster home, 15872
Hypotension
clonidine, systolic BP, 29–51 yr olds with panic disorder successfully treated with cognitive/behavioral therapy, 5171
moderately intense tones, electrodermal responsivity & habituation, hypotensive vs hypertensive 18 yr old males, 30839
postural hypotension, schizophrenic adults chronically medicated with antipsychotic drugs, 16343
trazodone, development of postural hypotension & syncope, 73 & 83 yr old males with major depression, 2248
vasoactive agents, physiologic & pharmacologic management of refractory hypotension induced by tricyclic antidepressant overdose, patients, literature review, 16208
Hypothalamo Hypophyseal System
ACTH, hypothalamic pituitary adrenocortical axis activity before & after ECT, 24–78 yr olds with major depression, 13147
clonidine vs metoprolol vs physostigmine, immobility & plasma corticosterone & hypothalamic pituitary adrenal axis activity, rats, animal model of depression, 17859
corticotropin, pituitary adrenal response & plasma & CSF cortisol & ACTH & corticotropin releasing hormone, abstinent males with alcohol amnestic disorder, 33544
early levodopa, hypothalamic pituitary adrenocortical response to emotional stress, hypotensive ISIAH vs normotensive Wistar rats, 26893
ECT & hypothalamic pituitary adrenal axis adaptations, beta endorphin immunoreactivity response, depressed 27–82 yr olds, 34248
ECT, hypothalamic pituitary adrenal axis & monoamine neurotransmitter activity, depressed 35–74 yr olds, 22054
growth hormone releasing hormone & corticotropin releasing hormone, ACTH & growth hormone responses & cortisol secretion, 49–66 yr olds with early onset Alzheimer's disease, 7688
hypothalamic pituitary adrenal axis functioning & weight gain & depression & DST results, anorexic patients, Australia, 15913
immune parameters & activity of hypothalamic pituitary adrenal axis, patients with minor vs major depression with vs without melancholia, 33396
individual differences in hypothalamic pituitary adrenal axis & dominance rank & personality, baboons, 12013
measurement of cortisol in saliva as tool for investigations of hypothalamus pituitary adrenal axis activity & psychobiological research, 6664
menstrual cycle, hypothalamo-pituitary-adrenal axis functioning & DST results, depressed 19–45 yr old females, 24532
nature & clinical significance of hypothalamic pituitary adrenocortical disturbances in affective & other psychiatric disorders, 21565
plasma ACTH & corticosterone & corticotropin releasing factor in hypothalamo pituitary adrenal axis, male rats bred for sensitivity vs resistance to cholinergic agonists, animal model of depression, 20622
social stress & housing, hypothalamo pituitary adrenocortical axis activity, high vs low aggressive male rats, 584
social stress, hypothalamo-pituitary-adrenal axis activity & corticosterone feedback & vulnerability to amphetamine self administration & number of hippocampal type I receptors, rats, 26762
Hypothalamus [See Also Hypothalamo Hypophyseal System]
acetylcholine & interruption of mammillary body activity, shifts in spatial synchronization of cortical EPs, rabbits, 14656
acute fenfluramine & predarkness food presentation, neuropeptide Y concentrations in hypothalamic nuclei & anorectic impact, male rats, 23716
alpha-1 adrenergic receptor antagonist benzoathian in paraventricular nucleus, phenylpropanolamine induced anorexia & food & water intake, male rats, 29940
ambient temperature vs cold swim stress, serum glucose & insulin & corticosterone levels & hypothalamic dihydroxyphenylethyleneglycol noradrenaline ratio, high fat vs starch fed male rats, 32520
amphetamine, extinction of intracranial self stimulation in medial prefrontal cortex vs posterior hypothalamus ventral tegmental area & postextinction performance, male rats, 761
amygdala & orbitofrontal cortex & hypothalamus, functions & theory of emotion, nonhuman primates, 6640
amygdaloid lesions, threshold for self stimulation of lateral hypothalamus & ventral tegmental area, male rats, 12084
androstatrienedione or diethylstilbestrol or tamoxifen or antiandrogen in preoptic area, testosterone induced copulatory behavior, castrated Japanese quail, 12087
anesthetization of medial preoptic area, sleep wakefulness & body temperature change, freely moving male rats, 20776
anterolateral lesions of medial forebrain bundle, frequency threshold for self stimulation of lateral hypothalamus & ventral tegmental area, rats, 32516
anticipation & eating of food, serotonin release in lateral & medial hypothalamus, male rats, 23525
bilateral intraperifornical sulpiride vs dopamine vs other drugs, food & water seeking locomotion, male rats, conference presentation, 23712
bilateral lesions of sexually dimorphic nucleus in preoptic/anterior hypothalamic area, androgen & estrogen dependent sexual behaviors, male ferrets, 613
bombesin microinfusion into hypothalamic paraventricular nucleus, core body temperature & feeding behavior, rats, 3811
cholecystokinin octapeptide sulfate, hypothalamic nuclei serotonergic system, female normal vs obese cafeteria rats, conference presentation, 23709
chronic bright light, density & affinity processes of hypothalamic & striatal muscarinic receptors, male rats, implications for seasonal affective disorder, 26748
chronic desipramine, reward or motor performance components of electrical self stimulation of hypothalamus, male rats, 9399
chronic nicotine & light dark cycle, locomotor activity & hypothalamic alpha bungarotoxin receptor binding, male rats, 9416

circadian patterning of sleep wake cycle & body temperature & cognitive & behavioral functioning, female 34 yr old with rostral hypothalamus lesion, case report, 27792
cis-flupenthixol in medial preoptic area, copulatory rate & penile reflexes & sexual motivation, male rats, 20814
clonidine & phenylephrine in hypothalamus, water intake, male rats, 672
computer assisted analysis of sexual behavior, male rats with excitotoxin lesions of lateral hypothalamic tissue adjacent to caudal zone incerta, 617
conditioned feeding task & olfactory & gustatory brain stimulation & chemicals, glucose sensitive vs insensitive neuronal activity in lateral hypothalamic area, monkeys, 23583
crystalline testosterone in & electrolytic lesions of preoptic nucleus, copulatory behavior, castrated male quails, 3750
delta-9-tetrahydrocannabinol, feeding evoked by electrical stimulation of hypothalamus, male rats, 23598
dexamethasone, hypothalamic pituitary thyroid axis function, depressed inpatients, 4655
diltiazem vs nicardipine vs verapamil vs hemicholinium-3 in anterior hypothalamus, activity level in forced swim, male rats, 3820
disturbed hypothalamic pituitary axis, male 17 yr old with idiopathic recurring hypersomnia syndrome, case report, implications for etiology of Kleine-Levin syndrome, 15782
dopamine vs acetylcholine vs their antagonists, lateral hypothalamus unit activity during discrimination learning of cued tone stimuli, rats, 3865
dopaminergic agonists & antagonists in medial preoptic anterior hypothalamus, affective defense behavior elicited by electrical stimulation of ventromedial hypothalamic nucleus, cats, 29705
electrical stimulation of hypothalamus & periaqueductal gray sites, cardiorespiratory components of defense reactions & monosynaptic connections with rostral ventrolateral medulla, albino rabbits, 26802
electrical stimulation of lateral hypothalamus, palatability of taste, male rats, 17763
electrolytic lesions of lateral hypothalamus, circadian period & phase & amplitude variables of locomotor rhythm, male hamsters, 26814
estradiol benzoate vs progesterone, dendritic length of neurons in ventromedial nucleus of hypothalamus, female hamsters, 3916
estrogen & testosterone, proenkephalin messenger RNA levels in ventromedial hypothalamic nucleus & lordosis & reproductive behavior, gonadectomized male vs ovariectomized female rats, 17910
ethanol, hypothalamic response to clonidine & pituitary response to growth hormone releasing hormone, female rats, 29766
fetal hypothalamic transplants, inducement of sexual behavior, male rats with medial preoptic lesions, 3800
food recognition & acquisition & reward, glucose sensitive vs insensitive taste olfactory neuron responses in lateral hypothalamus, monkeys, conference presentation, 32432
haloperidol & thioridazine, paraventricular & supraoptic nuclei & water drinking, rats, 14792
hypothalamic cooling vs heating, food pleasure & attractiveness & feeding & hedonic & aversive facial reactions to taste, male rats, 29710
hypothalamic d-norfenfluramine vs peripheral d-fenfluramine during different times of diurnal cycle, protein & carbohydrate & fat intake, male rats, 23740
hypothalamic glutamate, locomotor stepping, anesthetized male rats, 12131
hypothalamic lesions, circadian & ultradian behavioral rhythms, male voles, 618
hypothalamus & amygdaloid complex & orbitofrontal cortex, regulation of aggression, implications for clinical diagnosis, conference presentation, 27624
ibotenic acid lesions of parvocellular subdivisions of hypothalamic paraventricular nucleus, memory vs arousal related behavioral processes, female rats, 32550
idazoxan, cytosol progestin receptors in ventromedial hypothalamic nucleus & arcuate nucleus median eminence, female guinea pigs, 9453
injections of dispersed cell suspension of fetal hypothalamic tissue with suprachiasmatic nucleus, restoration of circadian rhythmicity, male hamsters with suprachiasmatic nucleus lesions, 6719
intracranial GABA vs muscimol vs picrotoxin, food intake & ventromedial vs lateral vs paraventricular hypothalamic electrical activity, rats, 6881
intrahypothalamic ACTH vs electrical stimulation, grooming behavior, male rats, 17759
intrahypothalamic administration of human vs rat amylin vs calcitonin gene related peptide, anorexia producing feeding effects & neurotransmitter metabolism, male rats, 20740
intrahypothalamic implants of norepinephrine, estradiol & progesterone facilitated lordosis, ovariectomized female rats, 669
intrapair interval, threshold frequency in hypothalamic self stimulation, male rats, 12059
lateral hypothalamic neural responses to & preference for amino acid vs sodium chloride vs other solutions, rats on lysine deficient diet, conference presentation, 32531
lateral hypothalamic 5-HT, mazindol induced anorexia, male rats, 17923
lateral hypothalamus lesions, body weight & water intake & gustatory preference vs aversion functions for saccharin, male rats, 637
lateral hypothalamus self stimulation & immunization with sheep red blood cells, humoral immune response & weight of lymphoid organs, male rats, 9326
lateral ventricular infusion of dynorphin A & beta endorphin antiserums & naloxone, frequency of lateral hypothalamic self stimulation, ad libitum fed vs food deprived rats, 14735
lesions of lateral dorsal parabrachial nucleus, satiety action of glutaryl-cholecystokinin-8 in ventromedial hypothalamus, male rats, 23596
lesions of preoptic area or medial arcuate nucleus, acupuncture analgesia, rats, 32555
light cycles & suprachiasmatic nuclei lesions, feeding time anticipation & location discrimination, rats, 9330
local nipecotic acid induced inhibition of GABA uptake in dorsomedial hypothalamus, extracellular levels of GABA & air stress induced tachycardia, rats, 14712
lordosis inducing estrogen & progesterone, activity level & somatosensory responsiveness of hypothalamus neurons, female golden hamsters, 738
mammillary body & combined amygdalar fornix lesions, working memory, male rats, 12062
mammillary body lesions, memory in spontaneous vs rewarded alternation tasks, mice, 3787
maternal behavior, female rats with cuts to dorsolateral vs ventrolateral connections of medial preoptic area, 12073
medial hypothalamic lesions & defensiveness & food motivation level, aggression & success in food competition, castrated male rats, 17774
medial preoptic area lesions & isolation, mounting & intromission & ejaculation, prepuberal male rats, 621
melatonin & light exposure & hypothalamic clock, 536
methyltrienolone vs 5-alpha-dihydrotestosterone vs testosterone propionate vs estradiol, steroid regulation of aromatase in preoptic vs posterior hypothalamic area & vocalization, castrated male doves, 32623
morphine with vs without dynorphin vs naloxone injected into medial preoptic area vs nucleus accumbens, sexual behavior, male rats, 6760
N-methyl-D-aspartate in hypothalamic paraventricular nucleus & dorsal hypothalamic area, behavior, male rats, 32674
neuronal responses in thalamic & striopallidar nuclei during visual test of orientation sensitivity, adults with intracerebral electrode implants, 3621
neuropeptide concentrations in temporal cortex vs hypothalamus, postmortem brains of schizophrenic 65–81 yr olds, 24399

noradrenaline & dopamine, sensitivity of neurons of lateral hypothalamus to pentagastrin, hungry vs fed wakeful male rabbits, 23638
norepinephrine or clonidine with vs without yohimbine in anterior hypothalamus, affective defense responses elicited by electrical stimulation of ventromedial hypothalamus, cats, 3751
norepinephrine vs neuropeptide Y vs galanin injections into paraventricular nucleus during early vs late dark period, feeding responses, male rats, 23734
ouabain in hypothalamus, cardiovascular responses, anesthetized male rats, 3884
parachlorophenylalanine, development of hyperphagia & weight gain & functional activity in hypothalamic noradrenergic systems, male rats, 9402
parasagittal knife cuts isolating hypothalamus & photoperiod, maturation & size of testes, day old male White Leghorn chicks, 32548
phenylpropanolamine vs dextroamphetamine sulfate in paraventricular hypothalamus, sweetened mash diet consumption, food deprived rats, 3973
photoreceptors in eyes & pineal body & suprachiasmatic nucleus in hypothalamus, generation of circadian rhythms, birds, 11951
preoptic angiotensin, salt appetite, male rats, 3859
preoptic hypothalamic infusions of opioid peptides & lesions & castration, sexual & instrumental behavior & place & partner preference, male rats, 6713
primary hypothalamic disturbances & sleep & endocrine measures, male 28 yr old with anorexia & bulimia & hydrocephalus internus, case report, 21933
procaine hydrochloride in amygdala vs ventral tegmental area vs lateral hypothalamus vs ip vs iv 2-buten-4-olide, lateral hypothalamic neural activity & licking behavior, operant conditioned rats, 723
recombinant interferon alpha vs interleukin-1 beta, activity of glucose responsive vs unresponsive neurons, in vitro rat ventromedial hypothalamus slices, 701
retinal inputs to hypothalamus & anterior thalamus & basal forebrain, hamsters, 23540
rewarding electrical stimulation of lateral hypothalamus, compound action potentials in ventral tegmental area & substantia nigra & periaqueductal gray, male rats, 601
rewarding properties of met-enkephalin into medial preoptic area, conditioned place preference, male rats, 32560
role of activation of hypothalamic pituitary adrenal axis in amphetamine induced sensitization, male rats pretreated with antiserum to corticotropin releasing factor, 9372
saline or liquid diet infused into duodenum during dark or light phase of circadian cycle, cholecystokinin & neuropeptide Y concentrations in hypothalamus & hindbrain areas, rats, 6708
salt appetite, rats with lesions of ventral part of ventral median preoptic nucleus, 6738
self stimulation of lateral hypothalamus & substantia nigra ventral tegmental areas, dendritic branching in hippocampus & stimulation sites, male rats, 9315
septal vs preoptic lesions, masculine vs feminine sexual behavior, castrated male rats, 3792
serotonin, role of medial hypothalamic nuclei in macronutrient ingestion, rats, 17878
sex & prenatal ethanol & plasma testosterone vs progesterone vs estradiol titers, volume of sexually dimorphic nucleus of preoptic area, 14–31 day old rats, 26823
sexual dimorphism in hypothalamic neuronal membranes, adult African green monkeys, 11949
sexual dimorphisms in hypothalamic regions, male & female typical pseudosexual behavior, parthenogenetic female unisexual whiptail lizards, 14532
social isolation induced intermale aggression, nerve growth factor immunoreactivity in hypothalamus, male mice, 469
sodium chloride, posterior hypothalamic norepinephrine release & mean arterial pressure & heart rate & locomotor behavior, free moving male rats, 12139
species characteristic threat, individual differences in neurosensory EP responses of amygdala vs ventromedial hypothalamus vs ventral hippocampus & neural transmission, aggressive vs defensive cats, 26669
species specific acoustic signals during subthreshold electrical stimulation of ventromedial nucleus of hypothalamus, behavioral response, adult male cats, 9321
steroid hormone receptors in role of hypothalamic neural circuit for lordosis behavior, female rats, 11954
suprachiasmatic nucleus lesions, oscillation of lateral hypothalamic multineuronal activity synchronized to daily feedings, male rats, 29725
sustained neuropeptide Y in hypothalamus, insatiable feeding, rats, 32659
systemic or intracranial apomorphine, copulation, castrated male mice with vs without subthreshold testosterone injection, 14858
threshold of responsivity in limbic & hypothalamic structures, inhibited vs outgoing 2–3 yr olds followed to age 6 yrs, 26977
unilateral vs bilateral implants of testosterone in medial preoptic area, neck gripping & mounting & thrusting behavior & LH levels, castrated male ferrets, 23733
1 vs 2 step neurotoxic lesion of perikarya of mesencephalic reticular formation &/vs posterior hypothalamus, behavioral disturbances & changes in EEG sleep waking cycle, cats, 20722
17-beta-estradiol with vs without cyclic nucleotides, in vitro ventral hypothalamus neurons, ovariectomized guinea pigs with vs without estrogen pretreatment, 713
2-deoxy-D-glucose & bombesin in preoptic area, hypothermia & role of glucose utilization, female rats, 23634
3H-imipramine bindings in human thrombocytes vs rat hypothalamus, conference presentation, 3671
8-OH-DPAT, enhancement of feeding stimulated by hypothalamic norepinephrine, male rats, 3845

Hypothalamus Lesions

lesion size in anterior part of lateral hypothalamus, sleep waking pattern & cortical desynchronization, male rats, 6747
sex & kainic acid lesions of lateral hypothalamic area vs ventromedial hypothalamic nucleus, changes in body weight & food & water intake, rats, conference presentation, 20725

Hypothermia

aminotriazole, development of & tolerance to ethanol induced hypothermia & narcosis, rats, 32697
CGP 35348, body temperature & baclofen vs progabide vs loprazolam vs morphine vs UK14,304 induced hypothermia, mice, 29829
chronic or intermittent ethanol during or while protected from hypothermia, learned & cellular tolerance, male rats, 17883
chronic phenobarbital with restricted food, tolerance to induced hypothermia & body weight & postmortem brain phenobarbital levels, male rats, 32671
construction of horizontal temperature gradient chamber, assessment of bombesin induced hypothermia, rats, 23732
drug or chemical toxicity, body mass effect on hypothermia & hypometabolism, application of toxicological data from animals to humans, conference presentation, 29814
ethanol, hypothermia & locomotor activation, long sleep vs short sleep inbred mice, erratum, 3855
food deprivation & ambient temperature, nocturnal hypothermia & motor activity, Japanese quail, 26755
induced hypothermia, hysteresis in somatosensory & auditory EPs, patients undergoing open heart surgery, 16429
induced hypothermia, short latency somatosensory EPs, 35–63 yr olds undergoing cardiac surgery, 16428
naltrexone or alpha-2-adrenoreceptor antagonist or Ro 15-1788, ECS induced hypothermia, male mice, 23582
rolipram phosphodiesterase inhibitors, reserpine induced hypothermia & head twitches, 3H rolipram displacement, male mice vs rats, 3943
selective breeding for insensitivity vs sensitivity to hypothermic effects of ethanol, mice, 9426
sensitivity to oxotremorine induced hypothermia & locomotor inhibition & muscarinic receptors, prepubertal vs pu-

bertal vs aged Flinders Sensitive vs Resistant Line rats, animal model of depression, 29773
sex & 8-OH-DPAT & ovariectomy & castration & gonadal hormones, 5-HT receptor activation & hypothermia & body temperature, mice, 20693
taste cues as CS, Pavlovian conditioned tolerance to ethanol induced hypothermia & flavor aversion, male rats, 23649
2-deoxy-D-glucose & bombesin in preoptic area, hypothermia & role of glucose utilization, female rats, 23634
Hypothesis Testing [See Also Null Hypothesis Testing]
achievement oriented personality type, test of J. L. Holland's congruence achievement hypothesis, 21312
covariance structure analysis, conception & testing of structural hypotheses & psychological constructs, application to self conception research, 14266

individual vs community level religiosity, projected deviant behavior, Catholic adults, test of moral communities hypothesis, 30671
nonparametric combination method for dependent permutation tests, 23281
statistical testing of factor interpretation hypotheses in factor analysis, 29313
verbal & nonverbal ability, epileptic 8–57 yr olds who had carotid amytal testing, test of crowding hypothesis, 19022
Hypothyroidism
diagnosis of paranoid psychosis due to hypothyroidism, female 86 yr old with visual & auditory hallucinations, case report, 24925
ECT, mood & thyroid axis functioning, 78 yr old female with major depression & subclinical hypothyroidism, case report, 34211
prevalence & neuropsychiatric aspects of subclinical hypothyroidism, psychiatric patients vs general population, 1780
propylthiouracil induced neonatal hypothyroidism, adult activity level & maze learning, male rats, 32561
psychiatric signs & symptoms & treatment issues, 15 yr old male with mental retardation & idiopathic hypoparathyroidism, 21371
psychological outcome & biochemical & social factors, infants with congenital hypothyroidism, 1 & 3 yr followups, 1848
Hypoxia [See Anoxia]
Hysterectomy
hysterectomy, self ratings of premenstrual symptoms, female 45 yr olds & younger with menorrhagia, 8092
psychiatric morbidity, female hysterectomy patients, India, 19345
psychiatric morbidity, patients undergoing hysterectomies for nonmalignant pathologies vs other gynecological surgeries, 22366
Hysteria [See Also Mass Hysteria]
dissociation theory & concept of hysteria in works of P. Janet, 27611
Freud's basic concepts derived from experiences with hysteria & application to multiple personality disorder, 27467
hysterical ataxia, female 70 yr old, case report, 30985

sex & age, histrionic personality disorder, high school vs college students, Iran vs England, 1431
Hysterical Vision Disturbances
etiology & manifestations of visual conversion reaction, 8–16 yr olds, 1689
Iatrogenic Effects [See Side Effects (Treatment)]
Ibotenic Acid
ibotenic acid & N-methyl-D-aspartic acid, forebrain bundle self stimulation reward, rats, 23730
ibotenic acid lesions of medial prefrontal cortex, amphetamine induced locomotion & regional brain catecholamine concentrations, rats, 14654
ibotenic acid vs quisqualic acid induced lesions of nucleus basalis magnocellularis, spatial matching & discrimination, male rats, 626
6-OHDA vs ibotenic acid vs muscimol, efferent projections of nucleus accumbens & apomorphine induced locomotion, rats, 14802
Iceland
demographic & psychosocial factors, prediction of smoking & alcohol use, 15–16 yr olds, Iceland, 32914
impulsivity & antisocial behavior & other personality traits, prisoners, Iceland, 33496
semantic vs formal factors & referent familiarity, identification of referents of gender marked pronouns, 4–8 yr olds, Iceland, commentary & comparison with Spanish data, 23850
trends & characteristics of homicide, Nordic countries, literature review, 7469
Iconic Memory
delay of partial report cues, selective recall of letter subsets from multiletter array, college students, 29458
iconic & enactive representation, school learning, elementary school students, implications for educational research, 11114
spatial & identity information processing in iconic memory, adults with borderline intelligence to mild retardation, 21763
transparency & translucency of iconic signs, recognition & retention, sign naive hearing adults, 26957
Ideal Self [See Self Concept]
Idealism
destructive idealization of future & splitting, implications for group process, 28245
high vs low idealism & moral norm salience & consequences of actions, moral choice & posttransgression reactions & attributions, 18–38 yr olds, 9863
need for ideals & recognition of human limitations in psychology, 6221
perceptions of self & ideal teacher, teacher education students, 13784
psychoanalytic perspectives on structure building & primitive drive defensive roles of idealization, 31920
Ideation [See Also Imagination, Suicidal Ideation]
alprazolam, mood improvement & distorted ideation, 62–78 yr olds with dysthymia, 22267
correlation of idea scale with Constructive Thinking Inventory, assessment of rational beliefs & practical intelligence, college students, 26198
creative potential in original thinking, male vs female 3.8–9.6 yr olds, 964
ecological perspective on ideological contagion & analogy of critical thinking as immune system, counseling, 25525
F. Dretske's analysis of concept of mental representation & applicability of operant & classical conditioning animal models, 3474

frustration & task difficulty, ideational fluency & creativity in problem solving task, college students, 3361
G. N. Tyrrell's idea pattern hypothesis of apparitions & application to autokinesis & other perceptual phenomena, 6211
homeostatic & representational function of symbolization & ego development & Freud's Rat Man's obsessive ideation, 20142
reflective vs impulsive cognitive style & ideational fluency as measures of creativity, 3.8–6 yr olds, 901
Identical Twins [See Monozygotic Twins]
Identification (Defense Mechanism)
analysis of projective identifications & object relations approach to marital therapy, spouses, 25224
aspects of projective identification in psychiatry, 15993
father absence, sex role identification, 13–16 yr old delinquent males, India, 33507
forensic misuse of false confessions & identification with aggressor as defense, 58 yr old male accused of child abuse, 1095
identification with criminal, attribution of responsibility to victims of rape & robbery, male college students, 24600
identification with victim as compromise formation in healthy & pathological masochism, analysands, 18601
model of projective identification in relation to theories of T. H. Ogden, psychotherapy clients, 19130
personal identification with survivor narrative of Holocaust, reader, 4463
projective identification in group psychotherapy, clients, 28270
projective identification in group psychotherapy, commentary, 28223
psychoanalytic perspectives on projective identification as interpersonal communication process, 33100
psychoanalytic theory of transference love & neurosis, resolution of intrapsychic image of psychoanalyst after termination of analysis, conference presentation, 16057
recognition & therapeutic utilization of client projective identification during psychotherapy, therapists, 5260
role of identification & orality & anxiety in psychoanalytic theory of depression, 15464
unconscious communication as projective identification in psychotherapy, 22087

Illiteracy [See Literacy]
Illness (Physical) [See Disorders]
Illness Behavior
age & sex & mobility & duration of illness & education & occupation & perceived cognitive difficulties, employment status, adults with multiple sclerosis, Canada, 30829
alexithymia & abnormal illness behavior, psychiatric vs medically ill patients, 21410
attention vs distraction & cognitive perceptual model of somatic interpretation, application to illness coping behavior, 12982
catastrophic illness in analyst, emotional reactions & psychoanalysis, analysands, 5785
child's glycemic control, parental expressed emotion & marital relationship, 12–20 yr olds with Type I diabetes & their mothers & fathers, conference presentation, 30972
clinical assessment of abnormal illness behavior & patient characteristics using Illness Behavior Questionnaire, patients with chronic low back pain, commentary, 5027
clinical assessment of abnormal illness behavior & patient characteristics using Illness Behaviour Questionnaire, patients with chronic low back pain, commentary reply, 5106
conceptualization of Hwabyung disease & associated suppressed anger, 64–80 yr old Korean American females, 12623
development & factor structure & reliability & validity of Checklist for Interpersonal Pain Behavior, chronic pain patients, 14250
development & validity of Early Rating Response Patterns Scale, classification of patient behavior & cognitive functioning, 9–62 yr olds with severe head injuries, 11502
etiology & maintenance & treatment of illness & family functioning, 1980–89, literature review, conference presentation, 12625
evaluation of diabetes management model & attitudinal elements, Type I & II Ss who had diabetes at least 1 yr, 5045
illness behavior & medical visits & psychological disturbances, 15–75 yr olds with chronic low back pain, 33743
illness related stress & self identified coping strategies, adult females with rheumatoid arthritis, 33700
illness trajectory, patients with chronic illness, 9949
interpretation of illness & sickness & various treatments, Anishinaabe, Canada, 12598
morbidity & illness & sick role & health behaviors & health care utilization, males vs females, Canada, 24319
psychological adjustment & outcome, children with burn injuries & their families, literature review, 33791
social comparison, coping & adjustment behaviors, adults with rheumatoid arthritis, 7618
somatization & assessment of psychiatric disorder & illness behavior, female neurology ward patients with organic neurological disease, 1729
stress & infectious disease & illness behaviors & psychological influences, literature review, 12984
subjective illness theory in short term problem oriented therapy, conference presentation, 16138
symptom perception & illness behavior, adults under 60 yrs old vs 60–74 vs over 75 yrs old with colorectal cancer, 33764
written health education, illness & help seeking behavior, young families with 8 yr olds & younger with minor illnesses, Denmark, 10811
Illumination [See Also Photopic Stimulation, Scotopic Stimulation]
actual exposure during natural summer & winter sunlight duration, 27–53 yr olds with seasonal affective disorder or winter depression or major depression, 12691
affective functioning & room brightness preference as expression of "light hunger", adults with seasonal changes in mood & behavior, 1237
age & cessation of light stimulation, contralateral vs ipsilateral electrical input delay & temporal overlap in tectum, frogs, 20627
bright & dark moving stimuli, inhibitory components of response of lateral suprasylvian area neurons, cats, 3655
bright light, response to oxotremorine, rats from Flinders Sensitive vs Resistant line, 6872
bright vs dim ambient light, alertness & cognitive performance efficiency during simulated nighttime shift, adults, 6678
bright vs dim light therapy with vs without ultraviolet spectrum blockade, patients with seasonal affective disorder, 31034
brightness & illumination pattern of response key & somesthetic quality of tunnel floor & association with odorants in confusion matrix, male rats, 402
calibration procedure combining measurement of EOG voltage & assessment of direction of gaze revealed by corneal reflection of target light, 2–3 mo olds, 4027
chronic bright light, density & affinity processes of hypothalamic & striatal muscarinic receptors, male rats, implications for seasonal affective disorder, 26748

circadian rhythms & bright light & sleep wake cycles, shift work, 22970
color & texture & shape & other visual requirements, perception of depth & 3 dimensional shape in shadow regions, adults, erratum, 8914
connectionist architecture for controlling sensitivity to light constancy, 6642
constant darkness, thermic response to oxotremorine, male rats, animal model of seasonal affective disorder, 17734
continuous light vs long day cycles vs long day skeleton cycles, illuminance thresholds for testicular maintenance, hamsters, 538
continuous vs intermittent presentations of homogeneously illuminated hemisphere background, appearances of geometrical illusions, adults, 14317
cycloheximide, light induced phase resetting of circadian clock, Neurospora crassa, 693
daylight saving time, parasuicide & psychiatric presentations & completed suicide, psychiatric patients, Scotland, 4535
demand characteristics & full spectrum lighting, reading & writing & noun underlining performance & mood, 18–24 yr olds, Canada, 26073
early experience, water maze spatial learning & memory, light vs dark reared rats, 9106
early morning bright light exposure, adjustment to early rising, adult males, 9257
full spectrum bright light, supersensitivity to oxotremorine induced by inescapable swim stress, rats, 3755
illumination conditions & eye elevation, perception of moon illusion, college students, 23329
illumination, direction of chromostereopsis & monocularly perceived disparity of colored targets with natural pupil, 20–45 yr olds, 3322
incandescent vs pulsating vs steady fluorescent artificial light, mood & bodily symptoms & heart rate, agoraphobic female 28–69 yr olds, Scotland, 7385
interplant movement & acoustic communication & phototaxis, mate location behavior, leafhoppers, 32357
irradiation by low level mid range ultraviolet erythema lamps, RT & relative visibility & school performance & health, schoolchildren, USSR, 19832
isoluminant background color, metacontrast masking & stroboscopic motion, 23–45 yr olds, 230
light flash, posterolateral nucleus of thalamus & tonic & phasic influences in information transmission to visual cortex, awake rabbits, 23576
light offset vs onset, potentiation of acoustic startle reflex & diazepam, 20685
light pulse during nights of short vs long days, circadian rhythm in plasma concentrations of melatonin, rams, 537
light pulses, phase shifting in novelty induced wheel running, male hamsters, 29695
lighting assumptions & perception of ambiguous 3-dimensional pattern, 32196
lighting level induced arousal, magnitude of goal valence of unpleasantness of expected noise, male college students, replication, 26503
lightness, perceived segregation of regions & populations in light/dark patterns, adults, 20316
long term exposure to constant light, generation & persistence of food entrained circadian rhythms, male rats, 29692
long wavelength pass tinted vs neutral density filter lenses worn in glare vs nonglare conditions, contrast performance & grating visual acuity, visually impaired adults, 5014
masking effects of testosterone & short vs long photoperiod exposure, sexual behavior, castrated male hamsters, 26771
melatonin & light exposure & hypothalamic clock, 536
multiple bright light exposures, resetting of human circadian pacemaker, commentary, 541
N-methyl-D-aspartate receptor antagonist MK-801 vs PCP vs ketamine, light induced circadian rhythm of wheelrunning activity, male hamsters, 3835
natural vs supplementary photoperiod, walking & standing & light preferences, calves, 26791
noise vs light CS & footshock UCS followed by extinction testing, response differences in aversive classical conditioning, male rats, 3456
object size, reaching behavior in light vs dark, 26–30 wk olds, 27000
object within vs beyond reach & illumination, auditory distance discrimination, 26–32 wk olds, 20878
office illumination & noise & sex & locus of control, reading comprehension, 17–20 yr olds, replication & extension, 11358
optical transparency of aircraft windscreen & glare, contrast sensitivity functioning, adult, implications for pilot visibility, 17402
parasagittal knife cuts isolating hypothalamus & photoperiod, maturation & size of testes, day old male White Leghorn chicks, 32548
photic stimulation & private self consciousness, complexity of visual imagination imagery, female college students, 3374
polarized light & viscocontrastometry, retinal organization & sensitivity, adults with vision defects, 10430
posttraining flashing light, retrieval impairment for avoidance task, male rats, 17598
prevalence & characteristics of light gazing, children with ocular visual loss or cortical visual impairment, 7671
prolonged exposure to continuous light vs light-dark cycle, chronopharmacological profiles of furosemide effects, male rats, 9286
red vs white automatic flashing railroad crossing lights, driving behavior, car drivers, Netherlands, 2842
role of daily light exposure in circadian photo entrainment, flying squirrels, 29638
saline vs hydrochloric acid functional decortication, acoustic startle reflex responses to light prepulses, rats, 32551
short vs long photoperiod exposure, gonadal regression & recrudescence & copulatory behavior, male golden hamsters, 23554
sleep deprivation in dimly vs brightly lit room, mood, depressed 24–68 yr olds, Netherlands, 2002
spatial & temporal & contrast neural filtering in light adaptation & background illuminance, visual detection sensitivity & suprathreshold discrimination, conference presentation, 11933
thresholds of light intensity for small areas of peripheral retina, dyslexic 20–25 yr olds vs fluent readers, 18821
transection of optic & rhinophore nerves, phototactic modulation of head waving, snails, 26818
varied light patterns, evolution of circadian motor activity rhythm, rats, 17729
vestibulo ocular response to caloric irrigation & effect of vestibular activation on eye movements in light vs dark conditions, psychotic 20–60 yr olds, 30446
visual input & lighting, long term behavioral changes following unilateral vestibular lesion, goldfish, 26806
visual input & lighting, short term behavioral changes following vestibular lesion, goldfish, 26807
white light stimulation, EEG activity & blood flow in distribution territory of carotid arteries, adults in state of emotional stress, 6703
50 vs 100 Hz flicker vs steady illumination, eye movement control, typists with video display unit editing experience vs college students, Scotland, 20335
500 lux light exposure, nocturnal melatonin suppression, patients with bipolar vs unipolar depressive disorder, 7400

adjunctive imipramine with fluphenazine decanoate & benztropine, 22–48 yr olds with postpsychotic depression, 6 vs 9 wk study, 16347
age & sex & diurnal variability, imipramine receptor binding & platelet serotonin uptake, 22–74 yr olds, 23505
alprazolam vs imipramine, anxiety & depression symptoms, 7–17 yr olds with school refusal, 7938
alprazolam vs imipramine, physiological activity & somatic symptom reports, 23–60 yr olds with generalized anxiety disorder, 13417
alprazolam vs imipramine vs placebo, improvement sequence, 19–63 yr olds with panic disorder, Sweden & Denmark, 8 wk followup, 34094
alprazolam vs imipramine vs placebo, incidence of secondary depression, 19–63 yr olds with panic disorder, Sweden & Denmark, 34116
alprazolam vs imipramine vs placebo, patients with panic disorder with vs without agoraphobia & comorbid secondary depression, conference presentation, 13404
alprazolam vs imipramine vs placebo, 19–63 yr olds with panic disorder, Sweden & Denmark, 34046
alprazolam vs imipramine vs placebo, 19–63 yr olds with panic disorder, Sweden & Denmark, implications for psychotherapy, 34113
attempted suicide with imipramine overdose during daily fluoxetine, elevation & prolongation of tricyclic levels, 61 yr old depressed female, 31271

carbamazepine with vs without imipramine, plasma imipramine & desipramine, 5–16 yr olds with attention deficit hyperactivity disorder, 13368
chronic chlorimipramine & imipramine, food hoarding behavior, food restricted male rats, 17748
chronic unpredictable shock stress, imipramine effects on escape behavior, male rats, 17747
clonidine & imipramine, 31–64 yr old Cambodian refugees with chronic PTSD & major depression, commentary with case example, 28336
desipramine, platelet 3H-imipramine & alpha-2-adrenoreceptor binding sites, healthy adults, implications for depression treatment, 20756
desmethylimipramine vs imipramine, kinetics of platelet 5-HT uptake, depressed patients, 28367
dothiepin vs imipramine, depressed adults, India, 19329
early treatment response to alprazolam vs imipramine, prediction of final outcome, patients with panic disorder with or without agoraphobia, 13359
factors predicting outcome of alprazolam vs imipramine vs placebo treatment, 19–63 yr olds with panic disorder, Sweden & Denmark, 34115
fluoxetine, 3H-imipramine binding & 5-HT uptake & concentrations, hospitalized 25–69 yr olds with depressive disorder, 10778
fluvoxamine vs imipramine, 20–70 yr olds with major affective disorder, 16193
hemispheric asymmetry of imipramine binding serotonergic mechanisms, postmortem brains of 25–75 yr old suicide victims, 30595
high dose fluoxetine vs standard dose imipramine, activation or sedation, patients with psychomotor agitated vs retarded depression, 31175
imipramine & dopamine antagonists, stressed vs nonstressed male rats, animal model of depression, 718
imipramine & ECT, postdexamethasone plasma cortisol levels & clinical improvement, 17–55 yr olds with endogenous depression, 22065
imipramine alpha-1-acid glycoprotein & serum free imipramine, depressed vs chemically dependent patients in acute withdrawal, 25331
imipramine, behavior, genetically nervous pointer dogs, animal model of anxiety disorders, 754
imipramine, clinical & biochemical variables, patients with panic disorder, 31253
imipramine, clonidine induced biochemical & physiological & hormonal & psychological responses, 18–57 yr olds with panic disorder, 34101
imipramine, depression dependent erotomanic delusions, mentally handicapped 25 yr old female, case report, 22233
imipramine, EEG monitored sleep, 13–17 yr olds with major depressive disorder, 5453
imipramine hydrochloride, platelet 3H-imipramine binding & plasma cortisol levels & clinical improvement, 18–66 yr olds with endogenous depression, 19271
imipramine, learning & memory, depressed adults, 31260
imipramine, liver function, patients with panic disorder & depression, 16318
imipramine, mood & illicit drug abuse, methadone maintenance patients with primary or chronic major depression or dysthymia, 31516
imipramine or alprazolam, nondepressed patients with panic disorder, 25293
imipramine or amitriptyline &/vs ECS, quinpirole induced serum corticosterone concentration, rats, 17751
imipramine or desipramine, EKG effects, 4.6–17.6 yr old psychiatric patients, 19255
imipramine or desipramine, patients with chronic vs nonchronic major depression, 19278
imipramine or other antidepressants, male 25 & 37 yr olds with urinary obsessions, 10708
imipramine, patients with illness phobia, 34140
imipramine, presence & magnitude of irritability & anxiety & depression, patients with panic disorder, 25359
imipramine, regional cerebral glucose metabolism revealed by positron emission tomography, adults with unipolar major depressive disorder, 13394
imipramine, treatment outcome, responding vs nonresponding vs noncompleting chronically depressed patients, 1–5 yr followup, 25335
imipramine vs desipramine & picrotoxin vs pentylenetetrazol, GABA stimulated chloride uptake in brain membranes & anti-immobility effects in forced swimming test, rats, 23661
imipramine vs desipramine, body weight, depressed patients, 16302
imipramine vs desipramine, frontal cortex & hippocampus GABA B binding in learned helplessness paradigm, male rats, 9413
imipramine vs ECT, platelet MAO activity, depressed male 24–57 yr olds, 19105
imipramine vs paroxetine vs chlorimipramine, platelet imipramine binding, depressed patients, 10745
imipramine vs phenelzine & history of panic attacks, treatment response, 18–65 yr olds with atypical depression, replication, 8012
imipramine vs phenelzine, placebo nonresponders with atypical depression, 25370
imipramine vs Tofranil, male 10 yr old with obsessive compulsive disorder & history of eating foam rubber, case report, 2268

anaphylactic shock & immunization with aluminum hydrochloride with vs without ovalbumin, conditioned taste aversion, female rats, 12026
ethical obstacles in identification of candidate HIV vaccines for testing & benefits & risks of testing experimental vaccines, 7697
hepatitis B & vaccine immunogenicity, mentally retarded 2–73 yr olds & care center staff members, Finland, 2334
hepatitis B screening & vaccination, clients in drug treatment facilities, England & Scotland & Wales, 16641
immunization against cholera & tetanus & typhoid, development of mixed organic mood disorder, 76 yr old female, case report, 31337
neonatal immobilization stress, antibody response to immunization with pneumococcal polysaccharide Type III, rats, 9447
omission bias & ambiguity & reluctance to vaccinate child, college students, 13516
passive avoidance conditioning & subsequent immunization against sheep red blood cells, antibody response, male rats, 9283
pertussis immunization patterns, infants formerly in special care nursery with high vs low risk for developmental delay, 22357
Immunogens [See Antigens]
Immunoglobulins
cyclophosphamide, immunoglobulin G antibody response to classical conditioning, male mice, 32606
dominance status, serum immunoglobulin levels, chimpanzees, 3549
examination stress, virus reactivation & capsid antigen immunoglobulin G antibody titers, medical students with latent Epstein Barr virus, 33689
immune system imagery & music vs music alone, production of secretory immunoglobulin A, college students, 6694
immunoglobulin G & 3H-imipramine binding of platelets, patients with major depression, 1361
investigation of intrathecal synthesis of immunoglobulin through examination of serum & CSF, elderly with dementia of probable Alzheimer's type, Sweden, 33642
job strain & availability & adequacy of support, immunoglobulin G, 26–63 yr olds, 1 yr study, 8632
neuroleptic treatment, peripheral blood lymphocyte subsets & serum immunoglobulin levels, schizophrenic patients, 5429
physiologically oriented mental imagery, production of secretory immunoglobulin A, college students, 14597
sad vs humorous videotapes & inhibition vs expression of overt weeping vs laughter, immunity & secretory immunoglobulin A in saliva & mood, female 18–40 yr olds, 12007
serum immunoglobulin autoantibodies against septal region of rhesus monkey brain, unmedicated schizophrenic 17–28 yr olds, replication, 4638
serum immunoglobulin concentrations, schizophrenic patients with vs without tardive dyskinesia, Ireland, 7449
systemic recombinant human interleukin 2 infusion, cerebrovascular permeability to immunoglobulin G, rats, 668
taste aversion conditioning with cyclophosphamide vs saccharin & time span between conditioning & reexposure, mitogen induced proliferation & immunoglobulin production, rats, 9409
Immunologic Disorders [See Also Allergic Disorders, Allergic Skin Disorders, Anaphylactic Shock, Food Allergies, Hay Fever, Human Immunodeficiency Virus]
autoimmune thyroiditis presenting as menstrual related mood disorder, 37 yr old female, case report, 10424

handedness, adults with lupus vs Type I diabetes vs migraine vs Graves' disease, 1724

immobilization stress, pathogenesis of acute murine toxoplasmosis, male mice, 12020
incidence of brain anomalies, mouse strains with vs without immune disorders, 14574
left handedness & immune disorders & dyslexia & other learning disorders, assessment of Geschwind's testosterone hypothesis, conference presentation, 18818
lefthandedness, induction of autoimmune disease, adults, 10469
magnitude of cellular & fiber disruption associated with presence of ectopias in cerebral cortex, autoimmune mice, 11965
number of neocortical vasoactive intestinal polypeptide neurons in hemisphere with focal cerebrocortical microdysgenesis, autoimmune New Zealand Black mice, 14575
prevalence of immune & autoimmune diseases & non-right handedness, dyslexic 7.3–16.8 yr olds, test of testosterone hypothesis, 4879
prevalence of immune & autoimmune diseases & non-right handedness, dyslexic 7.3–16.8 yr olds, test of testosterone hypothesis, erratum, 21748
serum lymphocyte antibodies & CNS & neuropsychological functioning, females with systemic lupus erythematosus, 10285

Immunology [See Also Psychoneuroimmunology]
activity in open field, subsequent conditioned immunity, inbred strains of mice, 9177
acute physiological stress with vs without naltrexone, natural killer cell cytotoxicity & lung metastases, male rats with chemically induced mammary tumors, 32487
aerobic exercise training, affective distress & immune decrements following notification of seropositive HIV antibody status, 18–40 yr old gay males, 7792
age & chronic stress, splenic lymphocyte proliferative responses & IL-2 secretion by T cells & natural killer cell activity, rats, 9325
antigens & footshock stressor, plaque forming cell response, mice, 9313
antiphospholipid & antinuclear & Epstein Barr & cytomegalovirus antibodies & T cell activation, patients with mania vs major depression with vs without melancholia, 21505
autoimmune hypothesis & immunopathologic aspects of schizophrenia, 12794
aversive CS, mitogenic responsiveness of splenic & blood lymphocytes & splenic natural killer cell activity & glucocorticoid secretion, male rats, 582
behaviorally conditioned immunosuppression & model of loop between CNS & immune system, 11986
benzodiazepine receptor inverse agonist FG 7142, dose dependent suppression of natural killer cells, male mice, implications for immune function modulation, 9425
bereavement, natural killer cell activity, widows, 9262
bright vs dim light phototherapy, cellular immune functioning, 30–58 yr olds with seasonal changes in mood & behavior, 28043
cellular immune function & antihistamine use, 18–63 yr old inpatients with major depressive episode or bipolar illness or atypical depression or dysthymia, 30514
centromedial vs basolateral amygdaloid lesions, stress related maze exploratory behavior & pain reactivity & immune responses, male rats, 9335
chlorpromazine or amitriptyline, antibody response to challenge with sheep erythrocytes in presence of saccharin flavored water, mice previously exposed to cyclophosphamide, 9394
chlorpromazine vs zetidoline, immune system, 18–52 yr olds with acute schizophrenia, conference presentation, 5470
cholecystokinin octapeptide, concentration of cholecystokinin like immunoreactivity in plasma & food intake, male rats, 23684
circadian fluctuations of plasma interleukin-1B & beta endorphin during normal vs disturbed sleep, 25–26 yr old females, 32456
classical conditioning of natural killer cell response with polyinosinic polycytidylic acid & camphor odor, survival, tumor bearing female mice, 12107
classical conditioning of natural killer cell response with saccharin & lithium chloride as CS & poly IC or cytoxan as UCS, female mice, 11982
cold or isolation stress, neuroinvasiveness of neurovirulent noninvasive Sindbis virus, mice, 20670
cold water stress, immunosuppression in macrophage physiology, male mice, 20688
controllable & uncontrollable shock & noise stress, lymphocyte proliferation & leucocyte percentages, 21–36 yr olds, 20706
CS-UCS pairing of saccharin & ovalbumin, development of anaphylactic shock induced conditioned taste aversion, immunized female rats, 9412
CSF beta endorphin like immunoreactivity, delirious 60–88 yr olds, Finland, 1 yr followup, 10353
CSF somatostatin like immunoreactivity, delirious 60–88 yr olds, Finland, 1 yr followup, 7676
CSF somatostatin like immunoreactivity, schizophrenic patients with cognitive impairment, 10048
CSF somatostatin like immunoreactivity, 57–73 yr olds with dementia associated with alcoholism, 12898
CSF somatostatinlike immunoreactivity & MHPG & 5-HIAA & HVA levels, patients with Alzheimer's disease or major depression, 33268
CSF somatostatinlike immunoreactivity, 45–74 yr olds with Parkinson's disease with vs without dementia, 18992
cyclophosphamide, conditioned enhancement of delayed type hypersensitivity, male mice, 9359
cyclophosphamide conditioned taste aversion, immunosuppression & plaque forming cell responses, male mice, 12090
cyclophosphamide, immunoglobulin G antibody response to classical conditioning, male mice, 32606
cyclophosphamide vs saccharin, conditioned immunosuppression, young vs old mice, 9393
defective alpha interferon regulation & viral reactivation in etiology of schizophrenia, 15538
depression & stress, psychoneuroendocrinology & immunology, 20–75 yr olds with advanced cancer, 30895
depressive disorders & immune system & health & illness, literature review, 21397
dexamethasone, taste aversion conditioned immunosuppression & plasma corticosterone, rats, 9408
early postnatal handling, humoral & cellular immune response, 21 & 60 day old mice, 9266
electrical shock intensity, immunomodulatory effect on mitogenic responsiveness, male mice, 20714
electrical stimulation in medullary nucleus raphe magnus, noxious heat evoked fos protein like immunoreactivity in lumbar spinal cord, rats, 14678
elevated doses of B vitamins before & after surgery, psychological state, patients with stress related immunosuppression due to surgery experience, 10823
emotional processes & stress, immune function, literature review, 7331
environmental stress & altered immune responsiveness in depression, 15447
examination stress, virus reactivation & capsid antigen immunoglobulin G antibody titers, medical students with latent Epstein Barr virus, 33689
exercise & immunity & ACTH release & cortisol elevation, 14629
food restriction & ethanol, suppression of natural killer cell activity, female mice, 20672
food restriction stress, immune response, male mice, 9295
footshock stress during priming with antigen, secondary humoral immune response to low dose antigen, male mice, 9294
glutamine & glutaminase & taurine immunoreactive pyramidal neurons & neurofibrillary tangles, postmortem brains of 60–81 yr olds with Alzheimer's disease, 21878

group vs individual housing & change in housing condition, spleen natural killer cell activity against tumor targets, mice, 26754
HIV-1 infection, mechanisms of immune mediated response & pathogenesis of neurological dysfunction & brain myelin damage, patients with AIDS dementia complex, conference presentation, 33738
housing density, immune responsiveness, mice, 11988
humoral immune response, female rats with lesions of lateral septal vs hippocampal areas, 9342
icv interleukin-1, stimulus investigation in novel environment, mice, implications for immune activation, 20804
icv interleukin-1 with saccharin cues, conditioned taste aversion & ACTH & corticosterone production, male rats, 32624
immune function, mice selectively bred for strong vs weak degrees of paw preference, 11926
immune parameters & activity of hypothalamic pituitary adrenal axis, patients with minor vs major depression with vs without melancholia, 33396
immune system functioning, male mice housed in 1 vs 5 mice per cage, 9252
immune system imagery & music vs music alone, production of secretory immunoglobulin A, college students, 6694
immunocytochemical distribution of corticotropinlike intermediate lobe peptide in human brain, 20637
immunologic function, acutely symptomatic schizophrenic 20–58 yr olds, 12699
immunological & psychosocial variables, prediction of disease recurrence, 28–74 yr old females with recently diagnosed breast cancer, followup study, 33725
immunological & viral serological markers, prediction of progression to AIDS, iv drug users with vs without HIV, 33 mo study, 10297
inescapable shock exposure, lymphocyte production suppression in response to mitogens, rats, commentary, 9322
inescapable shock, production of antibodies to keyhole limpet hemocyanin, male rats, 9319
interleukin-1 & muramyl dipeptide, antibody response to sheep red blood cells following 8 hrs of sleep deprivation, male rats, 9364
interleukin-1 alpha vs beta with vs without corticotropin releasing factor antagonist, exploratory behavior in multicompartment chamber & brain corticotropin releasing factor secretion, male mice, 29788
interleukin-1, sleep wake activity & brain temperature, male rats treated as neonates with monosodium glutamate, 6871
interleukins & tumor necrosis factor & tuftsin & platelet activating factor, CNS & feeding regulation, literature review, 14566
kainic acid induced seizures vs forebrain ischemia, brain pattern & time course of c-fos like protein expression, male rats, 17904
lateral hypothalamus self stimulation & immunization with sheep red blood cells, humoral immune response & weight of lymphoid organs, male rats, 9326
left vs right cortex ablation, mitogen induced lymphoproliferation & paw preference, female mice, 32518
maternal separation, immunological & behavioral changes, infant pigtail vs bonnet monkeys, 3449
melatonin, immunoenhancement & antistress response of CD4+,Thy-1+ cell released opioid agonists, female rats, 706
methodological issues relevant to behavioral immunology research, humans, 9263
mitogen induced lymphocyte proliferation, assessment of psychoimmunology, depressed male 22–71 yr olds, 18518
morphine or footshock, suppression of splenic natural killer cell cytotoxicity, rats, 9303
naloxone & naltrexone & betachlornaltrexamine, neuroendocrine mechanisms of social conflict stress induced immunity modulation, adrenalectomized male mice, 12129
naltrexone, blockage of immunosuppression after social confrontation, aggressive Tilapia, 14759
naltrexone, camphor conditioned enhancement of natural killer cell activity, female mice, 14871
natural killer cell activity & antibody dependent cellular cytotoxicity, schizophrenic 21–56 yr olds, 12653
natural killer cell activity & cortisol secretion, depressed outpatients, 30531
natural killer cell activity & development of infectious disease, depressed 18–45 yr olds, 6 mo followup, conference presentation, 21502
natural killer cell activity & lymphocyte subset distribution & lymphoproliferative response to mitogens, left vs right handed male mice with vs without left vs right cortical lesions, 32546
natural killer cell activity & mitotic response of T-lymphocytes, Roman high vs low avoidance Wistar rats, 17709
natural killer cell activity, depressed vs healthy adolescents, 24523
neuroleptic drugs & dopamine, immunologic changes, schizophrenic patients, 13401
neuroleptic treatment, cellular immunity, schizoaffective & schizophrenic 18–58 yr olds, 34097
neurotransmitters & neurohormones & cyclic nucleotides, immune homeostasis, alcoholic males with tuberculosis, 4830
neurotropin, prevention of stress induced immunosuppression, mice, 3963
pain & distress, immune system functioning, patients with chronic temporomandibular pain & dysfunction syndrome, 10369
passive avoidance footshock stress, immune reactivity, male rats, 12047
pentobarbital conditioning with cyclophosphamide, acquisition & extinction of immunoenhancement, male mice, 6844
perceived self efficacy, immunological changes & autonomic & endocrine activation while coping with phobic stressors, 25–48 yr olds, 12801
personal & family & social resources & coping with stressors, natural killer cell activity, adult kibbutz members with vs without anxiety neurosis, Israel, conference presentation, 21548
pharmacotherapy, humoral immune responses, 16–52 yr olds with obsessive compulsive disorder, 2226
physical restraint stress following local herpes simplex virus infection, generation of herpes simplex specific cytotoxic T lymphocytes & natural killer cell activity, male mice, 32489
postmortem analysis of beta amyloid immunoreactivity in parenchyma & cerebral blood vessels, 2–6 yr olds with Cockayne's syndrome, 19042
premature maternal separation, response of blood lymphocytes to phytohemagglutinin, rat pups, 9236
prolonged effects of psychological disturbance, macrophage chemiluminescence, mother & infant squirrel monkeys, 9258
propranolol before vs during conditioning, suppression of splenic mitogenic lymphocyte responsiveness induced by aversive CSs, male rats, 26888
psychological & immunological functioning prior to vs after notification of HIV antibody status, 18–39 yr old asymptomatic homosexual males, 7669
recent death of loved one vs other stressors, affiliative distress & recruitment of helper cells following sad film, adult with insulin dependent diabetes mellitus, 21914
recent death of loved one vs other stressors, affiliative distress & recruitment of helper cells following sad film, adults with insulin dependent diabetes mellitus, erratum, 33741
recombinant interferon alpha vs interleukin-1 beta, activity of glucose responsive vs unresponsive neurons, in vitro rat ventromedial hypothalamus slices, 701
relaxation & guided imagery, cellular immune function, healthy adults, 22206
repeated ECS, glial fibrillary acidic protein & ornithine decarboxylase & somatostatin & cholecystokinin immunoreactivities in hippocampus, rats, 14682

repeated ip injections of saline, attenuation of antibody response to subsequent ip antigen keyhole limpet hemocyanin, male mice, 9418
repeated stress, numbers & function of suppressor/cytotoxic T-cells, male rats, 12017
restraint stress & plasma corticosterone & beta endorphin levels, immune function, rats, 577
restraint stress & 5-HTP & parachlorophenylalanine, plaque forming cell response, male rats immunized with sheep erythrocytes, 12019
restraint stress, antiviral cellular & humoral immune response to influenza virus, 4–6 wk old mice, 20701
restraint stress, macrophage expression of major histocompatibility complex class II glycoproteins, mice, 20710
restraint stress, plaque forming cell response, normal vs olfactory bulbectomized male mice, 29686
rotation induced stress, lymphosarcoma tumor growth & interleukin-2 production & T-cell distribution & cytotoxic T-cell function, female mice, 9291
serum & CNS levels of interleukin-2 vs receptors vs tumor necrosis factor alpha vs interleukin-1 beta, patients with chronic progressive multiple sclerosis vs other neurological diseases, 18987
sexual activity, suppression of natural killer cell activity, male golden hamsters, 14592
sexual behavior, suppression of primary antibody response, Golden hamsters, 9268
shock induced stress, neuroimmunoregulatory response, bivalve mollusc, 20719
signaled shock, modulation of splenic natural killer cell activity & T-lymphocyte mitogenic responsiveness, male rats, 9316
social isolation induced intermale aggression, nerve growth factor immunoreactivity in hypothalamus, male mice, 469
social support, immune function, 32–75 yr old spouses of cancer patients, 1690
specific binding sites & presynaptic action of anaphylatoxin C5a in vivo, feeding behavior, rats, 9438
strain, lateral paw preference & immune function, mice, 488
stress & mood & immunity & recurrence, patients with chronic genital herpes simplex virus, 13045
stress, immune suppression & illness, medical students, 10310
stressor related cues, immunosuppression of peak splenic plaque forming cell response & serum antibody titers, mice, 9314
structured psychiatric intervention, short & long term immunological changes, 19–70 yr old cancer patients, 1949
taste CS with vs without cyclosporine, taste aversion & immunopharmacologic effects, female rats with experimentally induced adjuvant arthritis, 6832
ubiquitin immunoreactivity in neurofibrillary tangles, postmortem brains of 57–83 yr old ex-boxers with vs without dementia pugilistica, 33664
unemployment & job insecurity, coping style & neuroendocrine & immunologic changes, blue collar workers, 2 yr study, conference presentation, 31806
2-deoxy-D-glucose, immunosuppression of splenic lymphocytes, previously immobilized male rats, 6755

semantic & phonological & perceptual treatment of word finding problems, generalization to untrained words in picture naming task, language impaired 1st graders, 1676
similarities of language dysfunctions, patients with stroke vs Alzheimer's disease, 24992
speech & language impairment, children with hyperactivity vs emotional disorders vs elective mutism vs learning disabilities vs autism, 21331
stability of cohesion & verbal productivity scores in spoken narratives, language impaired vs normally developing 8–10 yr olds, 2 & 6 & 8 wk followups, 18855
subject case marking & verb morphology, 4–5 yr olds with specific language impairment vs normally developing 2.9–3.3 yr olds, 24755
syntactic comprehension, 4.1–6.2 yr olds with expressive language impairment vs developmental dyspraxia, 7289
therapy guidelines for referential communication skills, learning disabled or language impaired students, 16892
traditional articulation vs phonological process test stimuli, identification of vowel errors, phonologically disordered 2.9 yr old female, tests appended, 26235
utility of specific language impairment as principle for causal based research & treatment issues, children, 28041
verbal responsiveness to childrens' utterances, mothers of language impaired vs normal children, 15714
visual vs verbal metaphoric competence, learning disabled 9–11 yr olds with vs without history of spoken language impairment, 7323
vowel patterns, phonologically disordered children, England, 7599
whole language program, language learning disabled 5–9 yr olds, 25933
word recognition during sentence processing & real time retrieval ability, language impaired 62–144 mo olds, 4898

Language Proficiency
acculturation & cultural identity & proficiency in English, Chinese college students, Canada, 6913
assessment of language proficiency, limited English proficient children, implications for speech language specialists, instrument appended, 26149
bilingual interaction computer programs, teaching English, students with limited English proficiency, 31665
communication difficulties & methods for establishment of legal defense, limited English proficient adults accused of crimes, case reports, 24071
English language ability & approaches to reading, ESL students, Hong Kong, test of short circuit hypothesis, conference presentation, 26398
English writing development, limited English proficient vs native speaking kindergartners, 9 mo study, 15024
foreign language ability & verbal & performance intelligence, adult male with congenital hydrocephalic brain injury, England, case report, 24919
language learning background, 2nd language learning, college students in intensive English program, 22754
language switching processes in decoding & encoding & translation tasks, Finnish-Swedish bilingual 19–44 yr olds, Sweden, 8976
language teaching procedure, identification of language impairment, Hispanic bilingual 4.4–6.3 yr olds with limited English proficiency, 30771
oral reading miscues & retelling & fluency, Hispanic 4th–6th grade mixed dominant vs good English vs Spanish readers, 15004
Spanish & English language proficiency level, academic achievement, native Spanish- vs English-speaking 2nd–3rd graders in bilingual/immersion program, 19795
task context, language style, 2nd–5th graders with vs without English as native language, 15016
time sharing study of shadowing vs interpretation tasks, cerebral lateralization, professional simultaneous interpreters vs bilingual noninterpreters, 490
use of oral proficiency interview in language education, college students in 1st yr Spanish, 8543
verbal-manual interference paradigm, cerebral lateralization in simultaneous language interpretation, female polyglot students at school for translators, 486
2nd language acquisition, abilities in native & nonnative language, bilingual adults, 781

Latent Learning
analysis of repeated latency measures in behavioral studies, male mice, 6542
associative vs cognitive mapping processes, latent learning in swimming pool place task, rats, 20513
diazepam & nitrazepam & chlordiazepoxide, passive avoidance & latent learning, male mice, implications for dysfunction in cholinergic neuronal system, 12138
loglinear models, assessment of differential item functioning, college students in manifest vs latent groups, Netherlands, 13956
neural substrates of latent inhibition, literature review, 6652
odor preexposure, latent inhibition of heart rate conditioning, juvenile salmon, 9102
sertraline, activation of central 5-HT system, male rats, pharmacological model of latent inhibition, 23685
stimulus preexposure & delay of postexposure testing, latent inhibition of conditioned fear, rats, 29512
5,7-dihydroxytryptamine, interaction of serotonin & dopaminergic systems of forebrain in latent inhibition & passive avoidance CR, male rats, 23686
Latent Trait Theory [See Item Response Theory]
Lateral Dominance [See Also Handedness, Ocular Dominance]
ability to respond to footshock induced stress & susceptibility to learned helplessness, left vs right rotating male rats, animal model of depression, 32538
ablation of left vs right olfactory bulb, response to emotionally positive vs negative social odors, 3 mo old male rats, 9331
accuracy of saccades directed toward recalled target position in left vs right visual hemifield, 20–23 yr olds, 9186
age & functional asymmetry of hemispheres, Rolandic rhythm during real & imagined movement, 5–7 yr old males with speech underdevelopment vs 16–20 yr olds, 10235
age & sex & lateral dominance, duration of unilateral stance, 3–6 yr olds, 18032
age, finger localization in crossed vs uncrossed task, 6 & 8 & 10 yr olds, 32807
aging, hemispheric functional asymmetries & cognitive changes during dichotic listening, 25–74 yr old male abstinent alcoholic vs right hemisphere stroke patients, 15301
amphetamine vs apomorphine, motor asymmetry & direction of rotational behavior, male rats with 6-OHDA induced unilateral degeneration of nigrostriatal dopamine system, 595
anatomical & functional lateralization of language related temporal cortex, left vs right handed adults, 26706
apomorphine & quinpirole & SKF 38393 in left vs right nucleus accumbens, locomotor response, male rats, 14722
apparent right neglect, 74 yr old female & 84 yr old male with unilateral left visual neglect, case reports, 10452
associative & apperceptive agnosias & hemispheric specialization, 1772
asymmetries of brain glucose metabolism & memory, healthy elderly, 23496

asymmetry in identification of compounding grating stimuli presented to left vs right visual field, college students, test of spatial frequency hypothesis, 32410
asymmetry of mouth opening when repeating speech sounds, 30–74 yr old remitted euthymic outpatients with bipolar affective disorders, 21581
asymmetry of neuronal responses of cortex & subcortical nuclei in thalamus & striopallidar complex during word recognition, patients with long term diagnostic & therapeutic intracerebral electrodes, 11908
auditory perception of temporal vs spectral information, 34–68 yr olds with aphasia or aprosodia due to temporoparietal lesions in left vs right hemisphere, 15901
auditory shadowing & dominance in simultaneous interpretation, bilingual female student interpreters, Italy, 521
auditory stimulation & variable intertrial intervals, simple RT, right vs left brain damaged 52–76 yr olds, 1712
auditory visual fusion illusions of words & syllables, left or right brain damaged adults, 10272
biofeedback & instrumental learning, hemispheric asymmetry of slow cortical EPs & behavioral effects, right handed males, 6638
birth stress & familial sinistrality, laterality in head turning & manual activity, 2 day olds, 892
body image disorders, patients with schizophrenia vs left vs right hemisphere damage, 27411
brain laterality, classical conditioning to pictures of facial emotional expressions, female adults, conference presentation, 26470
brain lateralization & cognitive ability, 11911
brain neuroanatomy & cerebral asymmetry, postmortem brains of schizophrenic patients, implications for genetics, commentary reply, 15392
brain neuroanatomy & cerebral asymmetry, postmortem brains of schizophrenic patients, implications for genetics, commentary, 15540
cerebral asymmetry in control of speech indicated by carotid amytal test, mouth asymmetry during speech, epileptic 10–54 yr olds, 15801
cerebral hemispheric competence & spatial frequency, 17687
cerebral hemispheric equivalence & interhemispheric communication for simultaneity judgments of tactile stimuli delivered unimanually or bimanually, 17–37 yr olds, 3635
cerebral laterality & symptoms, 20–67 yr old males with schizophrenia vs schizoaffective vs manic vs depressive disorders, followup study, 18682
cerebral laterality, phonemic analysis & other neuropsychological functions, 8–12 yr old males with vs without reading disabilities, 27731
cerebral lateralization for language task, right handed 15–36 yr old males with Down's syndrome, 27736
cerebral lateralization for speech, right handed congenitally vs otherwise deaf 13–20 yr olds, 1828
change in handedness during childhood, cerebral lateralization of bilingual functions, bilingual college students, Hong Kong, 32420
characteristic perceptual asymmetry vs underlying patterns of hemispheric specialization, asymmetry scores, 17–40 yr olds, 20602
clinical & neuropsychological characteristics, patients with left vs right hemisphere language dominance & left vs right temporal lobe epilepsy, 27934
coexistence & laterality of tardive dyskinesia & neuroleptic induced parkinsonism, right handed schizophrenic patients, 18503
cognitive deficits in motor sequencing, right vs left hemisphere stroke patients, 21857
cognitive functions of left & right cerebral hemispheres, creative behavior, economics & accounting & creative arts college students, 6616
cognitive performance, 22–48 yr olds with brain tumor in right vs left hemisphere, India, 27837
complexity & number of stimuli on both sides of visual space, visual search performance, 62–83 yr olds with hemispatial neglect, 4953
construct validity of method for assessment of functional hemispheric asymmetry, 19–60 yr olds, Poland, 32427
contraction of left vs right side of face, emotional state & pleasantness ratings of cartoons, right handed college students, replication, 26692
corpus callosum transection & monocular training, interocular transfer & hemispheric superiority & cerebral dominance during visuospatial learning, female rats, 26805
cues used by right vs left hemispheres, recognition of geometric shapes, patients with occipital or parietal or temporal or frontocentral lesions & normal right handed adults with dominant right eye, 7703
denial of illness & mood & eating attitudes & right hemisphere activation & body weight, right handed 12–23 yr old females with anorexia nervosa, 18888
dichotic listening during forced attention, left handed female 14 yr old with posttraumatic left hemisphere lesion, 27993
dichotic stimulation, right ear advantage in human speech processing, 14586
directed attention & dissociated neglect behavior, 42 yr old female with focal right hemisphere strokes, case report, 1734
disorders of executive control functions, left or right brain damaged patients with or without aphasia, 1771
disorganization of pyramidal cells in right hippocampus, postmortem brains of schizophrenic vs healthy male 28–80 yr olds, 27480
distinction between near & far space, 57 yr old male with unilateral right hemisphere stroke, 27838
duration of restraint stressor, region vs side dependent alternations in dopamine &/vs DOPAC &/vs HVA activation in prefrontal cortex vs nucleus accumbens septi vs striatum, male rats, 32492
ear of presentation, emotional responses to words vs music during dichotic listening, graduate students, implications for cognitive affective vs independence models, commentary reply, 9058
ear of presentation, emotional responses to words vs music during dichotic listening, graduate students, implications for cognitive affective vs independence models, commentary, 9062
EEG alpha asymmetries during resting condition & sentence repetition task, stuttering vs fluent 16–49 yr old males, 21771
EEG frequencies & asymmetry in cognitive processing, adults, 14556
EEG measures of hemispheric function, abacus masters vs college students, 3656
EEG, prediction of memory for TV commercials' components, right handed females, 31894
EEG recordings, hemispheric processing patterns, 22–34 yr old male karate performers in easy vs hard training tasks, 6194
evolution & asymmetrically mediated behaviors & tool use & language, nonhuman vertebrates, implications for human dextrality, 23497
experimental evidence of lateral asymmetries & evolutionary perspective, birds & rodents & nonhuman primates vs humans, conference presentation, 6600
experimental examples of structural & functional laterality, birds & rats, evolutionary implications, conference presentation, 6639
eye movement direction & lateral visual fixation, heart beat perception accuracy, 18–26 yr olds, 11974
facial asymmetry in emotional expression, meta analysis, 32299
factor analysis approach to study of cerebral hemisphere function, college students, 20586
familiar vs unfamiliar Kanji characters, visual field asymmetries in tachistoscopic recognition, Japanese vs Chinese vs Korean vs Arabian vs Western college students, 32414
feedback related emotional states, perceptual &/or response process within right hemisphere, college students, 20590
feeling of knowing in memory tasks, patients with left vs right temporal lobe epilepsy, 27924

forced & nonforced attention, asymmetry in dichotic listening performance, right vs left handed 7 yr olds, 847
frequency domain, processing of interaural delays, listeners, 11701
graphical and statistical analyses for individual assessment of laterality in visual half-field tasks, 11912
haloperidol, lateralization patterns of verbal stimuli processing & EPs, schizophrenic 20–33 yr olds, 22243
hand preference & sex, foot preference behavior, 3–5.8 yr olds, 32744
handedness & dominance & laterality, verbally elicited finger movements, 21–62 yr olds, 6607
handedness & dominance, hemispheric asymmetry of pattern reversal visual EPs, 19–48 yr olds, 522
handedness profile & eyedness & footedness & finger tapping performance, right vs left handed vs handedness switch college students, Hong Kong, 9202
head turn vs perceived spatial position of sound, recognition of fused dichotic words & ear advantage, right handed college students, 17435
hemisphere specialization, face processing, college students, 20599
hemisphere specific tactual word stimulation of left vs right hand as treatment, word reading fluency, L-type vs P-type dyslexic children, 1929
hemispheric activation vs spatiomotor cuing, task performance & visual neglect, male 41 yr old with right hemisphere stroke, 21854
hemispheric asymmetry of imipramine binding serotonergic mechanisms, postmortem brains of 25–75 yr old suicide victims, 30595
hemispheric asymmetry, perceptual matching of facial stimuli & manner of arm folding, college & graduate students, 14554
hemispheric distribution of 3H-paroxetine binding sites in postmortem brain, adults with endogenous depression or depressive syndrome who completed suicide, 4785
hemispheric representation of auditory mediation of perception of harmony in musical chord priming task, callosotomized 36 yr old male & 33 yr old female, 33794
hemispheric specialization for semantic vs syntactic components in Italian vs English, female interpretation college students & professional interpreters, 32413
hemispheric specialization in thumb position & weight discrimination, female college students, Japan, 32160
hemispheric specialization, RT & number of correct responses in visual vs tactile vs cross modal assembling tasks, right handed 20–39 yr olds, 20596
hemispheric temporal processing of sensory & motor information, right handed 17–37 yr olds, 6604
hemisphericity, individual differences in teaching & learning styles, teachers vs students, 25793
hemisphericity style & sex & torque in circle drawing, 18–60 yr olds, 17690
heritability, asymmetry of frontal & occipital petalias, rhesus macaque endocasts, 6603
heteromodal stimuli, interhemispheric functional asymmetry during verbal logical activity, 16–17 yr olds, 6609
hierarchical pattern variation, hemispheric processing of global & local form & texture, 18–31 yr olds, 29351
high vs low spatial frequencies, left vs right visual field performance, 35–36 yr old commissurotomy patients, 4959
historical analysis of work & views of P. Broca & development of mirror reversal vs dysjunction principle of cerebral hemispheric control of speech & handedness, literature review, 14545
imagined emotional scenes & verbal activity, electrical activity in left & right cerebral hemispheres, 18–32 yr olds, 9223
immune function, mice selectively bred for strong vs weak degrees of paw preference, 11926
impulsive artistic creativity during attacks of altered cognitive state, 27 yr old male mosaic artist with spreading depression of left hemisphere & convulsive disorder, case report, 33680
incidence of crossed aphasia, Han vs Uighur-Kazak 23–83 yr olds with strokes or brain damage with vs without hemiplegia, China, 13035
independent projection of prime & target words on left or right visual fields, semantic & phonemic priming, college students, 11905
individual differences vs random error in measurement of perceptual asymmetry scores on laterality tasks, 17–40 yr olds, 14149
Integrated Area Measure of Event Related Brain Potentials, assessment of cognitive work load & EEG & hemisphere activity during visual tasks, male Navy sonar school students & instructors, 3142
interhemispheric asymmetry, adaptation to environment, 15 yr olds & older healthy vs sick immigrants vs healthy indigenous residents, northeastern USSR, 7291
interhemispheric asymmetry, stuttering & disturbances in expressive speech, implications for prevalence among males & early intervention, 7597
interhemispheric dominance within visual vs auditory motor subsystems, art & music secondary school students, Romania, 6923
interictal vs postictal recognition memory performance, seizure laterality, 16–50 yr olds with unilateral temporal lobe epilepsy, 12955
intracarotid sodium amytal procedure, identification of mixed speech dominance, epileptic patients, 7744
intrahemispheric lesion location, disturbances of emotional expression & comprehension, 80 yr old & younger right & left hemisphere stroke patients, 1719
judgment of finger toe correspondence in tactile perception task with right vs left foot, male vs female graduate students, India, 17696
known vs unknown warning stimuli, hemisphere specific activation & priming processes, language trained male chimpanzees, 17683
language & verbal memory performance, right vs left hemisphere damaged 40–80 yr olds, 1720
lateral bias in motor processes, infant chimpanzees followed for 3 mo, 9074
lateral ic 2-deoxygalactose, amnesia for passive avoidance or aversion task, day old chicks, 32566
lateral orientation of attention & argument agreement, recall & recognition memory, right handed 18–32 yr olds, 17512
lateral preferences during feeding & vocal vs nonvocal brachiation, adult & juvenile gibbons, 9228
laterality & implicit memory & cognitive ability & problem solving & creativity, 6th–7th graders with attention deficit hyperactivity disorder & IQs above 115, 31754
laterality score & shift order of reporting in dichotic listening, right handed schizophrenic patients, 4–6 & 15–16 wk followups, 21553
lateralization & hemispheric dominance, finger maze acquisition, male vs female college students, 3393
lateralization & response accuracy of previous visual field, current performance, college students, 20608
lateralization of courtship approach within populations, male zebra finches, commentary, 23493
lateralization of somatosensory EPs, schizophrenic 17–68 yr olds, 15414
lateralization of visual half field, anxiety & defense mechanisms & creative functioning, college students, 14529
lateralization of visuospatial function in problem solving tasks, chronic alcoholic adults, 10184
lateralized cerebral processing in discrimination of visual stimuli, split brain monkeys, 23613
lateralized dysfunction & etiology, depression, adults with right vs left hemisphere lesions, 7333
lateralized presentation of emotionally laden film, BP changes, 20–29 yr olds, 563
lateralized reinforced preference training with novel odors & transection of anterior vs posterior limb of anterior commissure & olfactory peduncle, odor memory retrieval, rats, 623
lateralized viewing of emotionally aversive vs neutral film, salivary cortisol secretion, college students, 14634

lateralized visual hemifield attention, 25–35 yr olds vs 9–18 yr olds in earlier study, 4095
left & right hemispheric structures, perception of emotional & expressive components of speech, adults with local vascular lesions of left & right hemispheres or focal epilepsy, 10380
left ear performance on dichotic listening tasks using digits vs CV combinations, right handed reading comprehension disabled children with vs without word recognition disabilities, 21753
left frontal preponderance of negative direct current potential shifts, nonverbal associative learning, 19–25 yr olds, 14582
left right position stimulus in ipsilateral visual field, attention & RT & sensitivity & response bias, patients with right hemisphere lesions with vs without hemispatial neglect, 10358
left side perceptual awareness deterioration, 59–81 yr olds with unilateral neglect of vascular origin, case reports, 21793
left to right vs right to left directional biases in perception of spatial order, K–6th graders, 14993
left turning rotational behavior, schizophrenic 23–71 yr olds, 18599
left vs right cortex ablation, mitogen induced lymphoproliferation & paw preference, female mice, 32518
left vs right hemisphere ability to recognize antonyms, commissurotomy patient with limited language in right hemisphere, 4969
left vs right monaurally presented comedy excerpts, lateralization of humor judgments, male vs female college students, replication, 29606
lesion laterality vs volume, neuropsychological performance, right handed adults with unilateral lesions, 15933
lesion size & right vs left middle cerebral artery occlusion, locomotor activity & rotation & sensorimotor integration to touch, male spontaneously hypertensive rats, 26815
limitations of studies on laterality of language functions, bilingual speakers, 14561
line bisection performance, right-handed 56–62 yr olds with right hemisphere stroke vs healthy 57–85 yr olds, 15809
local vs global practice, hemispheric priming in musical chords task, 18–35 yr old right handed males, 9187
masked vs unmasked visual stimuli & yes-no response procedure, hemispheric specialization of recognition & discrimination, right handed 16–46 yr olds, 9231
mental performance & laterality & incidence of epilepsy, 3–17 yr olds with hemiparetic cerebral palsy, 7751
modality specificity & hemispheric specialization of & EPs during mental image generation, 17–52 yr olds, 3640
monaural vs binaural auditory stimulation, patterns of audiogenic seizures, mice, erratum, 32525
monaural vs binaural listening, story recall in auditory comprehension test, psychotic 18–67 yr olds, 12697
motor & sensory components of tactual line bisection task performed at midline vs left vs right hemispaces, right handed 18–58 yr olds, 32440
motor & visual & auditory verbal laterality & capacity for voluntary acceleration of intellectual task, 20–21 yr olds, 3668
multivariate analyses of cognitive style & brain dominance & limbic & SAT scores & high school GPA, grades in college developmental reading & English & math, college students, 19800
music manual interference, cerebral lateralization during musical tasks, 11–13 yr old beginning musicians vs 19–28 yr old experts, 9523
natural loss of callosal axons, embryological development of hand preference & hemispheric anatomical & functional asymmetries, males, 32452
neuropsychological vs social psychological vs cultural aspects of asymmetrical facial movements & expressions, 6650
noise &/vs delayed acoustic feedback, hemispheric functional asymmetry & rate of speech, 16–47 yr old stutterers, 7598
normative data on verbal supraspan, 18–91 yr olds with head trauma vs right vs left hemisphere cerebrovascular accident, 15932
numbering as motivation for visuospatial searching, neglect, right handed 45–77 yr olds with left sided unilateral spatial neglect following right hemisphere stroke, 10337
obesity, hemispheric preference, male college students, 9234
overview of lateral dominance & other issues in prosopagnosia, conference presentation, 21791
pairs of novel nonverbal stimuli presented at various angles of disparity, right hemisphere specialization for mental rotation, normal vs brain damaged adults, 1744
patterns of dissociations in visual task performance, left brain damaged 33 yr old male with right visuospatial neglect & left sided neglect dyslexia, 24807
perception of combination of digits projected into center of visual field vs periphery of right vs left hemisphere, 18–24 yr olds, 9184
perception of emotional content of speech vs singing, functional asymmetry of brain, stuttering vs normally speaking 7–16 yr olds, 7596
performance on Coloured Progressive Matrices, 44–97 yr olds with unilateral vs right vs left brain damage, 21824
performance on rod & frame test & concurrent unimanual tapping task, assessment of hemispheric specialization for field articulation, 17–25 yr old males vs females vs 43–53 yr old females, India, 29620
performance on visual & tactile line bisection task, schizophrenic vs depressed 18–50 yr olds, 4661
performance on Wechsler Memory Scale & WAIS Digit Span subtest, males with lateralized anterior & posterior lesions, 10276
periventricular lesions & left ear extinction, performance on dichotic listening test, right handed 54–75 yr olds, 21940
phonetic analysis & segmentation & single word decoding & reading comprehension & spelling, 6–20 yr olds with right vs left brain lesions, 27752
positive vs negative emotional arousal induced by task difficulty, facial asymmetries, college students, 9225
prefrontal cortical neurons, coding direction in delayed alteration, monkeys, 9188
prenatal stress, sex differences in behavioral lateralization, male vs female rats, implications for human behavioral asymmetry, 17725
presentation of stimulus to left vs right of eye fixation in high speed memory scanning paradigm, response type RT, 20–60 yr olds, 11695
processing facial emotion, adults with left vs right brain damage, 1709
processing speed, cerebral asymmetry for right vs left field face recognition, male college students, 17673
processing speed, cerebral asymmetry for right vs left field face recognition, male college students, erratum, 32408
prognostic significance of aphasia with motor deficits, recovery of function, patients with cerebral infarction & hemiparesis after ischemic stroke, 27875
ratio of left to right asymmetry & fixation location, letter discrimination & word recognition, adults, 20347
realistic vs nonrealistic color vs black & white pictures, hemispheric laterality in recognition memory task, graduate students, 17672
reduced lateralization of verbal dichotic listening task, 13–18 yr old juvenile offenders, 1556
resource monitoring & attentional capacity, laterality in ability group differences in distinctiveness encoding, learning disabled children, 21765
response programing, hemispheric difference in lexical decision making, college students, 3679
resting EEG frontal brain asymmetry, prediction of affective response to emotion eliciting films, female adults, 3707
right hemisphere advantage & hemispheric interaction in discrimination of face stimuli, 18–42 wk olds, 834
right hemisphere damage symptoms & limb apraxia, male 71 yr old with left frontotemporal cerebrovascular accident, case report, 15831
right hemisphere dominance & hypnotizability & autonomic function, 20–24 yr olds, 520

right hemisphericity & eye movement during questions & randomized performance, right handed college students, 477
right vs left ear stimulation & wave number, short latency auditory EPs of I-V waves in brain stem, male vs female 17–23 yr olds, 23510
right vs left hemisphere slow surface EPs & cognitive processing, dyslexic 12.7–15.2 yr olds, 1642
right vs left visual field & spatial frequency, frequency discrimination, right handed male adults, 6368
right vs left visual hemifield presentation, speed of spatial shifts of visual attention, right handed 19–38 yr olds, 3625
role & asymmetry of P300 amplitude of EPs in schizophrenia, commentary reply, 24494
role & asymmetry of P300 EPs in schizophrenia, commentary, 24468
RT to lateralized visual stimuli, patients with unipolar depression vs chronic anxiety, 30516
schizophrenia as genetic encephalopathy & temporal lobe asymmetries in etiology, patients, 15391
selective activation patterns of concurrent verbal & spatial memory loads in letter identification task, familial vs nonfamilial left handers vs right handers, 3710
semantic congruity, hemispheric processing of symbolic information, right handed college students, use of lateralized versions of symbolic judgment paradigm, 3713
sensory & perceptual & motor ability, left vs right hemiplegic 4–14 yr olds, 1790
severity & age of onset & sex, lateral asymmetries in cognitive & hemodynamic & EEG data, 57–77 yr olds with primary degenerative dementia of Alzheimer's type, 21810
sex & forebrain commissure area & brain size, degree of laterality in paw preference, selectively bred mice, 11913
sex & handedness, laterality during dual language & motor task, 17–58 yr olds, 26672
sex & left vs right ear, presence of spontaneous otoacoustic emissions, 5–70 yr olds, 4054
sex & right vs left ear presentation, identification of mad vs sad vs glad affect in speech prosody listening task, right handed college students, 17430
sex, dichhaptic matching & perceptual asymmetries in somatosensory system, 19–42 yr olds, 1929–86, 526
sex, laterality of cognitive processing mode & reading achievement, Black vs White 4th–5th graders, 18034
sex, right hemisphere dysfunction on cognitive & dichotic listening tasks, chronic alcoholic adults, 7521
simultaneous finger tapping, cerebral lateralization of familiar & unfamiliar music perception, right handed college students with no musical training, 20604
simultaneous verbal interference of right & left proximal & distal upper extremity tapping, strongly right handed male 17–22 yr olds, 29610
skin conductance & skin potential responses, evaluation of reliability of electrodermal lateralization, right handed male college students, 20617
sodium amytal testing procedure, diagnosis of hemispheric memory functions, epileptic patients, 7631
soft contact lenses with partial occlusion of right or left visual field, application to study of cerebral asymmetries, 29343
song knowledge, hemispheric advantage in rhythm sequence matching, right handed college students, 20620
spatial attention & feature integration & contralateral vs ipsilateral illusory conjunctions, female 61 yr old with parietal lobe lesion from stroke, 24800
spatial frequency & visual field presentation of 2 successive sinusoidal gratings, hemispheric asymmetries in discrimination, adults, 32423
spatial grouping ability, 3–5 yr olds with right or left hemisphere congenital focal brain injury, 24965
spatial visual cues to right vs left visual field, RT & maintenance & shift of attention, children with attention deficit hyperactivity disorder, 19027
specialized functions of right & left hemispheres & creativity & mental health, 11936
spectral characteristics of EEG alpha band rhythm during left vs right hand vs bimanual sensorimotor responses, right handed 16–17 yr old males, 9185
spontaneous asymmetries in thigmotactic scanning, spontaneous vs apomorphine & amphetamine induced behavior, male rats, 14865
stimuli presented to right vs left visual field, spatially based verbal categorizations, adult males, 20628

standardization data on Eyberg Child Behavior Inventory, parental assessment of disruptive behavior, 2–17 yr olds with vs without learning disabilities &/vs behavioral problems, 26164
state standardized reading achievement tests for placement in Chapter 1 & learning disability programs, students, 22880
story composition abilities, learning disabled 6th–7th graders, 25929
storytelling in family therapy, families with learning disabled child, 19182
strategies of remedial intervention including individualized instruction, language development, failing students with supposed inability to learn, conference presentation, 13931
strategy choice & speed of processing in addition problem solving, gifted vs normal vs mathematically disabled 3rd–4th graders, 24731
strategy instruction using comprehension process, recall of expository ideas & knowledge of comprehension strategies, 4th–6th graders with learning disabilities, 28869
strategy teaching &/vs sequencing, identification of correct algorithm in solving addition & subtraction word problems, elementary school students with learning disabilities, 25934
stress & coping, mothers of 0–16 yr olds with severe learning difficulties, 30758
structural play, elementary school vs learning & emotionally disturbed special education students, 11193
structure of main idea in paragraph, comprehension of paragraph & transfer of learning, learning disabled vs average reading 9.7–13 yr olds, 33600
symptoms & classroom behavior similar to learning disabled, mislabeled substance abusing students, implications for educational prevention, 13910
teacher rated social competence & behavioral adjustment, learning disabled vs low achieving vs typical 3rd–6th graders, 34722
teacher rated social skills, regular education vs gifted vs severely behavior disordered vs learning & developmentally disabled 6–13 yr old students, 28876
test retest reliability of WISC-R, educably mentally retarded vs learning disabled 13.5–14.9 yr olds, commentary, 2798
therapy guidelines for referential communication skills, learning disabled or language impaired students, 16892
thinking aloud, problem solving performance, bright vs average vs learning disabled vs developmentally handicapped 5th graders, 25923
time delay in computer assisted instruction, memorized spelling performance, learning disabled or educable mentally retarded 11.3–12.3 yr olds, 28891
time delay vs trial & error strategies in observational learning vs direct instruction procedures, sight word acquisition, 8–9 yr olds with learning disabilities, 11176
time needed for & time spent in learning, retention of short reading passages, nondisabled vs learning disabled 4th–5th graders, 34714
timed vs extra time conditions, performance on reading tests, college students with learning disabilities, 19861
token reinforcement vs cognitive behavior modification vs direct instruction, mathematics skills, learning disabled 1st–5th graders, 34728
traditional vs dialogue oriented writing instruction & curriculum in general vs special education, learning disabled students, 31735
training in task related behaviors, microcomputer mathematics problem solving, learning disabled & nondisabled elementary school students, 16907
transfer from hospital or hostel to small community based group home, quality of life & adaptive behavior, adults with learning difficulties, England, 16473
treatment group heterogeneity, motor performance outcomes of sensory integration or perceptual motor therapy, learning disabled 6–9 yr olds with sensory integration dysfunction, 31470
TV viewing skills curriculum, TV related knowledge & attitudes & character identification & viewing habits, emotionally disturbed vs learning disabled 6–12 yr olds, 2163
types of learning disabilities & issues of diagnosis & remediation & cognitive & learning styles & levels & psychologist's role, commentary reply, conference presentation, 18826
types of learning disabilities & issues of diagnosis & remediation & cognitive & learning styles & levels & psychologist's role, conference presentation, commentary, 18825
types of learning disabilities & issues of diagnosis & remediation & cognitive & learning styles & levels & psychologist's role, conference presentation, 18827
use & noise level of frequency modulated auditory trainer in small vs large group classroom situations, attending behaviors, learning disabled children, 34703
use of simulation games to promote empathy, teachers of students with learning difficulties, 5822
utility of Thurstone test of mental rotation skills, school age children with academic vs neurological dysfunction vs attention deficit disorder, 18475
validity & norms of Make A Picture Story, assessment of fantasies, well adjusted elementary school students vs 5–13 yr olds with behavioral &/or academic difficulties, 11509
validity & reliability of Reporter's Test, assessment of expressive language ability, normally achieving vs learning disabled 6–9.5 yr olds, 17174
validity of Design Copying & Constructional Praxis subtests of Sensory Integration & Praxis Tests, assessment of constructional abilities, learning disabled 5–8 yr olds, 29200
validity of Learning Disabilities Index, prediction of achievement outcomes, elementary school students with learning disabilities, 6 yr study, 13979
validity of metamemory test battery & relationship to academic achievement, learning disabled 2nd–4th graders, 17209
validity of physical subscale of Pictorial Scale of Perceived Competence & Acceptance, male learning disabled 7–8 yr olds, 3116
verbal & nonverbal communication skills, 8.6–13.3 yr olds with reading &/or arithmetic disabilities, 1644
visual discrimination of letter like forms & intelligence & academic achievement, learning disabled 6–7 yr olds, 6 yr study, 1635

visual discrimination of letter like forms & intelligence & academic achievement, learning disabled 6–7 yr olds, 6 yr study, erratum, 12928
visual vs verbal metaphoric competence, learning disabled 9–11 yr olds with vs without history of spoken language impairment, 7323
whole language alternative for special & remedial education, learning disabled students, 25927
whole language program, language learning disabled 5–9 yr olds, 25933
WISC-R factor scores, gifted 8–12 yr olds with learning disabilities, 6313
WISC verbal & IQ performance & discrepancies & personality, psychosocial functioning, 6–12 yr olds with learning disabilities, 4877
within & between group sociometric status in academic & play groups, Hispanic learning disabled & nondisabled 4th–5th graders, 34724
word span & everyday memory, elementary school learning disabled vs skilled readers, 24748
Learning Disorders [See Also Dyslexia, Learning Disabilities, Reading Disabilities]
attention deficit hyperactivity or learning disorders, relatives of patients with Tourette's syndrome, 1289
behavioral methods, skill development & behavior reduction & management of challenging behavior, patients with learning difficulties, 19213

constant time delay & attentional response & feedback, acquisition of own & other students' target vs nontarget facts, 14–15 yr olds with learning or behavior disorders, 25935
construct validity of Halstead Reitan Neuropsychological Test Battery, learning disabled 9–14 yr olds, 26156
development & pathology of inhibitory control, children with attention deficit disorder with hyperactivity or conduct or learning or emotional disorders vs normal 2nd & 4th & 6th graders vs adults, 4533
development of autonomy, learning handicapped vs nonhandicapped 15–19 yr olds, 4887
diagnostic experience & occupational therapy & parental perceptions & therapist role, 5.8–11.8 yr olds with motor & learning difficulties, 28630
emergent literacy curriculum in early childhood special education, early reading & writing, mildly to moderately mentally retarded vs learning vs behavior disordered 4.1–6.1 yr olds, 22828
extinction & reinforcement training, modification of peer's inappropriate classroom behavior, 9–10 yr olds with learning & behavior disorders, 8522
learning & memory deficits & neuroanatomical & functional brain changes, detoxified alcoholic patients vs elderly, 30722
left handedness & immune disorders & dyslexia & other learning disorders, assessment of Geschwind's testosterone hypothesis, conference presentation, 18818
metamorphopsia of visual inversion of central sight, 9–11 yr old males with learning disorders, 12924
perception of quality of life, 20–55 yr olds with learning difficulties in staffed community homes, 13535
sensory integrative & practice abilities, nondelinquent prone vs delinquent prone 11–18 yr olds with learning problems, 1300
small group vs 1 to 1 remedial instruction, time to mastery, 5th grade males with learning difficulties, 5948
structure of graphemic representations, spelling performance, brain damaged dysgraphic 64 yr old male, case report, 12925
validity of Einstein Assessment of School Related Skills, assessment of learning problems, 5–11 yr olds referred to pediatric clinic, 29220
Learning Rate
acceleration strategy for adaptive learning backpropagation, 26498
extended practice, automaticity RT in alphabet arithmetic task, college & graduate students, 17535
growth curve approach to longitudinal profile analysis, evaluation of achievement & learning rate, students, 5992

perceptual vs conceptual vs selective attention strategies, learning & recall of marine biology text, successful vs less successful 10th grade readers, 12285
picture related to studied facts, fact learning, 9.7–12.7 yr olds, Canada, 12283
predictive ability of LASSI, assessment of cognitive & affective growth after participation in study strategies course, regularly admitted & developmental studies college students, 11223
prior achievement & individual & team success vs failure, achievement & academic attributions & affect, 3rd–7th graders using math Teams-Games-Tournaments cooperative learning strategy, Canada, 19785
proactive instruction with problem solving training with vs without strategy self monitoring training, problem solving, 5th–6th graders, 19728
progressive time delay vs system of least prompts with vs without descriptive consequent event, acquisition & maintenance of reading words, moderately & severely mentally retarded 15–19 yr olds, 34713
psychological aspects of self education, 1st–10th graders, 13883
psychological type measured by Myers Briggs Type Indicator, language learning styles & strategies, students in school of language study, 7250
reliability & validity of Learning Process Questionnaire & Study Process Questionnaire, high school & college students, 22854
remedial attribution video vs learning strategy course, academic achievement, college freshmen, Belgium, 19808
rewording &/vs context personalization, mathematical word problem solving, 2nd vs 5th graders, 19787
setting context, failure to use learning strategies, children & adults, 16866
sociocultural factors, study practices & learning strategies, college students, Hong Kong, 19793
strategic approaches to teaching solving problems of relative number judgment, 5–8.2 yr olds with communication difficulties, implications for L. Vygotsky's developmental model, 2773
strategies & self efficacy perceptions in self regulating academic learning & achievement, students, 8492
strategies for learning left vs right oriented letter shapes, 8 yr olds, implications for treatment of reversible letter confusion, 15021
strategy instruction using comprehension process, recall of expository ideas & knowledge of comprehension strategies, 4th–6th graders with learning disabilities, 28869
strategy teaching &/vs sequencing, identification of correct algorithm in solving addition & subtraction word problems, elementary school students with learning disabilities, 25934
strategy training & metacognition, remediation of academic difficulties, students, implications for special education, commentary, 16837
strategy training, remediation of academic difficulties, students, 16813
strategy training, remediation of academic difficulties, students, commentary, 16849
structural cuing & graphic organizer processing instructions, recall of textual content, high vs middle vs low level reading college students, 16804
teaching styles responsive vs unresponsive to individual learning styles, 5836
training in clustering strategy, maintenance of strategy awareness, 4–5 yr olds, West Germany, 14973
transfer effects of training in graphic organizers & summary writing, recognition of compare contrast text structure, college freshmen, 16802
use of individual learning style strengths toward effective study skills, counselor's role, 7th–11th graders, 5841
variables & appropriate populations & validity of instrumentation & research behind major learning styles models, 5886
video assisted metacognitive strategic intervention, written expression skills, academically at risk learning disabled students, 13939

instructional aids for lecture learning, 28804
laboratory vs lecture teaching methods, cognitive achievement in integrated science, 8th graders, Nigeria, 25840
lecture & demonstration vs self paced tutorial, computer anxiety, college students with high vs low computer anxiety, 11062
lecture repetition, recall & note taking & learning strategies, college students, 19794
lecture vs interactive computer program on use of nonsexist language, sexist language in response essays, college students, 2 wk followup, 22727
practice, psychological & physiological responses to stress of lecturing, 23–32 yr old student teachers, 28783
rhetorical analysis of Freud's 1909 Clark lectures & persuasiveness in psychoanalysis, 17131

Left Brain
consciousness & left hemisphere functioning, 23512
flashed checkerboard pattern stimulation, primary & secondary projection areas in left hemisphere visual evoked magnetic field mapping, male 22–26 yr olds, 29616
left hemisphere intracarotid amobarbital injection test, ability to read aloud or name pictures & comprehension of semantic relatedness, 17–42 yr olds with medically intractable epilepsy, 18927

Leg (Anatomy)
electronic device for examination & training of leg position shock avoidance, cockroaches, modification of G. A. Horridge method, 26532
leg muscle motoneuronal commands & common inhibitor activity during swimming, shore crabs, 471
levodopa & benserazide, 10–83 yr olds with restless legs syndrome, 2 yr study, 13461
limb intersegmental dynamics & movements & motor control, supine 3 mo olds, 15023
restless legs syndrome, male 62 yr old & his family, 13120
strain, lateral paw preference & immune function, mice, 488
tail heating with vs without innocuous mechanical stimulation of ipsilateral forelimb, spinal cord dorsal horn neuron responses, female rats, 593

Legal Arrest
adolescent psychiatric diagnosis & behavior problem history & race & IQ, prediction of arrest for property vs personal crimes, violent & assaultive male 18 yr olds, 33541
arrest & conviction & incarceration records, hyperactive male 6–12 yr olds, 10 yr followup, implications for early intervention, commentary reply, 33736
arrest & conviction & incarceration records, hyperactive male 6–12 yr olds, 10 yr followup, implications for early intervention, commentary, 33742
arrest & mental health histories before & after deinstitutionalization, incompetent to stand trial defendants vs patients hospitalized under civil commitment statutes, 15136
distance to destination & weather & road conditions & number of drinks & time to consume, perceived probability of arrest or accident due to DWI, adults with vs without previous DWI conviction, 18811
hierarchical stochastic models, estimation of arrest careers, heterogeneous offenders, 1496
legislated detoxification center police referrals, drunkenness arrests, publicly inebriated males, 1966–87, Canada, 27269
prevalence of criminal &/or antisocial behaviors & arrests, male Army personnel with 1 vs 2 previous DWI arrests, 33568
race & sex & number of victims & type of sex act & sex of perpetrator, decision to arrest & convict, perpetrators of alleged sexual abuse in day care & police & prosecuters, 4288
substance abuse, age & employment at 1st adult arrest & incarceration, female prison inmates, 31530
survival or hazard model, prediction of pretrial arrest, male arrestees released on recognizance, 1100
time to 1st arrest after termination of Willie M Program services, emotionally disturbed violent & assaultive young adults, 10882

Legal Decisions

letter rotation disorientation & simultaneity, recognition, college students, Israel, 26344
mixed case letter vs digit strings, locus of redundancy effects in letter detection, college students, 29473
neglect & letter by letter reading peripheral dyslexias, 18830
orientation, visual & vibrotactile letter identification, 20–45 yr olds, 8906
perception of exterior letter pairs vs single letters in pattern postmasked displays, adults, implications for word recognition, 8926
processing variability & transposition distance, recognition memory for single letter order information, 59–80 vs 17–31 yr olds, 4052
ratio of left to right asymmetry & fixation location, letter discrimination & word recognition, adults, 20347
sex & practice & stimulus letter, verbal fluency, college students, 17479

size vs spatial frequency composition, maximal distance of visual recognition & contrast of new letter optotype, male 18–24 yr olds, 23321
strategies for learning left vs right oriented letter shapes, 8 yr olds, implications for treatment of reversible letter confusion, 15021
use of availability heuristic in judgments of letter frequency, adults, 26445
viewing distance & object vs retinal spatial frequency of filtered letters with vs without Gaussian noise, letter discrimination, 20–27 yr olds, 32198
visual discrimination of letter like forms & intelligence & academic achievement, learning disabled 6–7 yr olds, 6 yr study, 1635
visual discrimination of letter like forms & intelligence & academic achievement, learning disabled 6–7 yr olds, 6 yr study, erratum, 12928
word frequency, parallel independent word & letter level processing during word recognition, college students, test of serial analysis & interactive activation & activation verification models, 26382
word function & frequency, missing letter effect in Hebrew, college students, Israel, 17959
Leucocytes [See Also Lymphocytes]
acute mental stress, leucocyte adhesiveness/aggregation in peripheral blood, 16–26 yr olds, 26721
basophil histamine release & leukotriene production, male 27–59 yr olds with cluster headaches, 7698
chemiluminesence responses of polymorphonuclear neutrophil, patients with endogenous depression vs panic disorder vs anxiety vs schizophrenia vs alcoholism, 4522
chronic amineptine, density of & affinity for beta adrenoceptors of intact mononuclear leucocytes, 30–66 yr olds with major depression, 28353
controllable & uncontrollable shock & noise stress, lymphocyte proliferation & leucocyte percentages, 21–36 yr olds, 20706
CS paired with cyclophosphamide, number of peripheral blood leucocytes, female rats, 12123
expression of corticotropin releasing factor messenger RNA & peptide in leucocytes, 9229
family history & frequency of human leucocyte antigens, schizophrenic patients, Italy, 15368
glucocorticoid receptor density & affinity on mononuclear leucocytes, elderly with Alzheimer's disease, 19000
human leucocyte antigen DR2 incidence & sleep onset REM, adults with major depression, implications for narcolepsy, 12780
human leucocyte antigens, schizophrenic 44–72 yr olds with tardive dyskinesia, Scotland, 24377
human leucocyte antigens, schizophrenic 44–72 yr olds with tardive dyskinesia, Scotland, commentary, 33466
human leucocyte interferon, schizophrenic 31–55 yr olds, Poland, 34088
insulin induced hypoglycemia, mobilization of peripheral blood leucocytes, depressed patients with melancholia or anorexia nervosa, 12743
iodopindolol binding to beta-2 adrenoreceptors on intact mononuclear leucocytes, 28–75 yr olds with bipolar vs unipolar vs dysthymic depression, 27536
phenelzine, platelet MAO & urinary MHPG & leucocyte beta andrenergic receptor functions, patients with major depression, 5454
platelet 3H-imipramine binding & leukoencephalopathy, depressed 57–94 yr olds, 30494
psychological stress, changes in response of peripheral blood leucocytes to gamma irradiation & phorbol ester, adults, 3744
Leukemias
child labeled as healthy vs in remission from leukemia, choice of approach to administration & expectations of child's coping with injection, medical students, 31609
CNS prophylaxis of craniospinal irradiation & drugs, cognitive functioning, 4–14 yr olds with leukemia, 4–5 yr study, 13175
CNS prophylaxis treatments, schooling & academic skills & cognitive functioning, 6.3–15.8 yr olds with leukemia vs learning disabilities, 22070
cognitive & psychosocial sequelae, children with acute lymphocytic leukemia & their families, literature review, 30902
coping behavior & marital adjustment & anxiety & family interactions & school behavior of siblings, families of children with leukemia, reprint, 27815
Coping Health Inventory for Parents, coping with childhood cancer, parents of children with acute lymphoblastic or nonlymphoblastic leukemia of solid tumors, 15741
hypnotherapy, fear of diagnostic & treatment procedures & related pain, 4 yr old male with leukemia, conference presentation, 13472
individual psychoanalytic psychotherapy, hospitalized children & adolescents with leukemia & their parents, 25135
performance on timed motor & psychomotor & nonverbal tasks, adults with AIDS vs asymptomatic HIV infection vs acute leukemia, Norway, 27935
psychosexual development, 13–25 yr old male survivors of leukemia vs other malignancies, Finland, 13096
stress inoculation vs child focused intervention, coping, parents of 3–12 yr olds with leukemia undergoing bone marrow aspirations or lumbar punctures, 10676
Leukocytes [See Leucocytes]
Leukotomy [See Psychosurgery]
Levodopa
apomorphine vs levodopa, magnitude & pattern of motor responses, 43–68 yr olds with Parkinson's disease, 13400
early levodopa, hypothalamic pituitary adrenocortical response to emotional stress, hypotensive ISIAH vs normotensive Wistar rats, 26893
early levodopa treatment & disease progression, motor fluctuations, patients wih Parkinson's disease, 2–10 yr study, 22224
intra-accumbens neurotensin, antagonism of behavioral supersensitivity to levodopa, dopamine denervated rats, 14754
levodeprenyl with levodopa, middle aged & elderly with parkinsonism, 10771
levodopa & benserazide, 10–83 yr olds with restless legs syndrome, 2 yr study, 13461
levodopa & carbidopa, cocaine abusing 27–40 yr olds in detoxification unit, 16667
levodopa & clonidine, growth hormone levels, 6.5–19.1 yr old medication free autistic males, 12765
levodopa & dextroamphetamine, locomotor activity & neurochemistry, male mice with basal casein diet supplemented with levotyrosine, 9450
levodopa, dyskinesias & other abnormal involuntary movements, MPTP treated male squirrel monkeys, 3825
levodopa, high speed memory scanning & motor speed in choice RT paradigm, nondemented patients with Parkinson's disease, 31262
levodopa, idiopathic edema resulting from haloperidol treatment, female 29 yr old with anxiety, case report, 22230
levodopa, striatal extracellular dopamine, male rats with vs without striatal 6-OHDA lesions, animal model of Parkinson's disease, 6701
ritanserin, levodopa peak of dose induced dyskinesias, 51–71 yr olds with Parkinson's disease, 16287
timing of initiation of levodopa, development of motor response fluctuations & dyskinesias & dementia, elderly with Parkinson's disease, 28310
Lexical Access [See Also Lexical Decision]
access to word form system, priming effects of letter by letter reading on word recognition, right handed 63 yr old female with brain damage, case report, 15908
categorical organization of semantic & lexical knowledge in the brain, 26684
changes in automatic lexical access, 20–24 vs 57–69 yr olds, 26440
context, accession of antecedents in reading text, college students, 17472

deficits in lexical representations of word spelling vs representations processing mechanisms & performance on spelling & rhyme decision tasks, dysgraphic male 61 yr old, 30882
dual lexical vs nonlexical route theory of print to sound translations, college students, 29435
indeterminacy of meaning & human comprehension processes, 14395
lexical & nonlexical processing, 45 yr old male with selective deficit in naming, Italy, case report, 27746
lexical analysis of functional communication & problem solving in bus traffic regulation dialogs, distant operators, 17961
lexical entry vs propositional logic reasoning program vs pragmatic principles of "if" in semantic memory, children, 23816
lexical information & verbal guidance, formulation of sentence syntax, 26413
lexical retrieval & phonological encoding in sentence production in Spanish language slips of tongue, 29962
lexical stress, auditory & visual word recognition & pronunciation, 29400
lexicality & kana type & string length & vocal interference, lexical access by assembled segmental phonology & visual orthographic lexicon, college students, Japan, test for dual route hypothesis, 3391
locus of attention & lexical processes, male 42 & 50 yr olds with left neglect dyslexia, 18831
morphological impairment vs organization of lexicon as source of errors on picture naming task, brain damaged male 33 yr old, Belgium, 33761
morphological processing & lexical access in English vs Serbo Croatian word recognition, adults, 29409
naming ability & performance on lexical memory vs semantic priming tasks, patients with multiple sclerosis, 4912
online analysis of lesion locale in lexical processing, aphasic patients, 30939
oral reading vs naming & comprehension performance, 67 yr old neurologically impaired male, test of summation hypothesis of lexical access, 15822
patient animacy & salience & lexical accessibility, acquisition of passives, 2.8–4.6 yr olds, 9556
phonetic structure & morphology, lexical recognition in American Sign Language, deaf adults with deaf vs hearing parents, 21826
prior semantic context, lexical access during sentence processing, 37–73 yr olds with Broca's or Wernicke's aphasia, 5091
prosodic structure in understanding Standard Mandarin Chinese phrases & sentences & tone sandhi rule in identification of lexical items, college students, 4002
reading Spanish pseudowords, lexical effects, college students, Spain, 26489
research issues in lexical aspect of comprehension & connections of reading & writing & speaking & listening of vocabulary acquisition from context, 14917
schematic vs taxonomic cues, recall of lexical items, 3.2–6.9 yr olds vs college students, 18010
script generation & lexical retrieval, indicator of knowledge representation, elderly patients with probable dementia of Alzheimer's type, 27836
semantic & phonological & perceptual treatment of word finding problems, generalization to untrained words in picture naming task, language impaired 1st graders, 1676
semantic organization during instruction, lexical access & sentential processing & expressive vocabulary, college students, test of vocabulary instruction procedure, 19730
stem vs full word, prefixed vs pseudoprefixed continuous processing vs word recognition & lexical access, native Dutch speakers, 20420
subsyllabic structure & lexical access to printed words, college students, Italy, 29398
type of lexical study task, independent retrieval of information from lexical & semantic memory, bilingual high school & college students, Canada, 18069
variation of stimulus onset, time course of semantic processing & reading ability, college students, 3389
verbal performance & lexical organization of nouns & verbs in brain, brain damaged aphasic adults, 21806
word finding difficulty & lexical access & retrieval, college students vs 58–87 yr olds, 20921

Lexical Decision

antecedent assignment for definite noun phrase anaphors & pronouns & instrument inferences, lexical decision & naming, college students, 8988
basic organization of semantic attributes of concepts, young adults vs elderly with vs without Alzheimer's disease, 10390
citation sorting, patterns of sense distribution for high & low frequency nouns, college students, 3363
concrete vs abstract Korean & English word pairs, priming in lexical decisions, bilingual Korean & monolingual US college students, 3995
concurrent or sequential masked or unmasked stimuli, lexical decision in semantic priming, college students, 11708
constraints in lexical acquisition, children, 6969
context & mixed-block manipulation, lexical decisions about words & object decisions about pictures, college students, 6435
degradation of auditory word stimulus quality, syllable final phonetic categorization, adults, 26371
dissociation of lexical & semantic processing in visual word recognition, college students, 6413
EPs during lexical decision word recognition task, schizophrenic 17–43 yr olds, 21493
evoked discharge rate variations in subcortical neurons during lexical processing, patients with Parkinson's disease, conference presentation, 18914
forward masked alphabet contexts, prelexical identification of phonologically ambiguous Serbo-Croatian words, high school students, Yugoslavia, 32795
frequency & enriched vs traditional types of parent administered vocabulary training, word knowledge & lexical decision accuracy & speed, dyslexic 11–14 yr olds, England, 6 mo followup, 30748
frequency of morphologically related words, lexical decision latency for irregularly inflected verb forms, college students, 14373
image rotation & stimulus orientation cuing & repetition, identification time & lexical decision, adults, 6334
interpretations of lexical ambiguity in written mathematical descriptions, 7–10 yr olds, UK, 23825
lexical decision & letter by letter reading of words vs nonwords, 42 yr old male with left internal carotid dissection, case report, 1745
lexical decision & naming, 1st graders with reading disabilities, 21760
lexical decision & word recognition & judgment of origin of native vs nonnative words, college students & employees, Sweden, 14907
lexical decision pretrial EEG coherence, prediction of semantic priming effects, right handed 25–50 yr olds, 787
lexical stress, auditory word recognition, college students, 11786
lexicality & kana type & string length & vocal interference, lexical access by assembled segmental phonology & visual orthographic lexicon, college students, Japan, test for dual route hypothesis, 3391
lexicalization vs ellipsis & pronominalization & use of articles, English- vs German- vs Italian-speaking 20–77 yr olds with Broca's vs Wernicke's aphasia, 5122
masked stimulus onset asynchrony, graphemic & associative & syntactic priming effects in lexical decision & naming, college students, 26432
morphological & semantic relatedness of repetition priming at short vs long lags, lexical decision in Hebrew, college students, 14399
nouns vs prepositions, geometric & syntactic representations in lexical learning, 3 & 5 yr olds vs adults, 9552
onset of prime vs target, interference in word naming vs lexical decision tasks, college & graduate students, 20390

oral reading & lexical decision task performance during recovery from alexia, 32 yr old right handed female with left occipital infarction, 12 mo study, case report, 12961
partial word preview, naming & lexical decision in visual word recognition, college students, 6431
phonemic vs associative vs grammatical context with masked vs unmasked primes, lexical decision, high school students, Yugoslavia, 12262
phonological priming, lexical decision & naming, college students, 3412
phrase & argument structure, initial parsing decisions, college students, 23349
prelexical vs postlexical phonological processes in reading Chinese characters, native Chinese speakers, 32258
prime set size & strength of relationship to target & type, verification & lexical decision, college students, 14384
repetition priming of pseudowords vs words, lexical decision with focused or divided attention, healthy male adults vs patients with Korsakoff's amnesia or alcoholism, 12637
repetition priming, word vs nonword lexical decision & symmetry discrimination of 2 dimensional polygons, 21–74 yr olds, 14410
response programing, hemispheric difference in lexical decision making, college students, 3679
semantic analysis of 50 msec masked visual primes & targets, target & prime responses in level of decision task, college students, 20387
semantic priming & context & lexical repetition, meaning selection, elderly with senile dementia of Alzheimer's type, 21784
semantic relatedness & word frequency, visual word recognition in oral reading, native Persian speakers, 32229
separate vs mixed hyponymous vs synonymous word pairs, response time on semantic decision task, college students, 6910
stimulus detection vs recognition, awareness in perception of words & nonwords, adults, 293
stimulus onset asynchrony, acoustic lexical decision during picture naming & speech production, adults, 11727
surface & lexical & conceptual processing, priming on word fragment completion & perceptual identification, college students, 26500
tachistoscopic presentation of abstract vs concrete words, lexical decision vocal RT, bilingual Chinese-Mandarin vs monolingual English speaking college students, 9220
temporal constraints, lexical & syntactic processing in priming paradigm, 24–69 yr olds with Broca's aphasia, 4965
tomographic images of blood flow change, identification of cortical areas related to lexical processing, 18–49 yr olds, 3685
tongue twister effect as manifestation of phonological & phonemic interference in reading & lexical decisions, college students, 20404
variations in word frequency, RT in letter detection & lexical decision task, young vs older adults, 30018
verb argument structure complexity, eye fixation times & naming & lexical decision latencies, college students, 17482
visual fields, preferential processing of concrete vs abstract nouns & active vs static or quiet verbs, healthy college students vs commissurotomized 36–60 yr olds, 21829
word frequency & access representation & temporal separation, performance on lexical decision task, college students, Australia vs Spain, 29440
word frequency & digit probe presence & item set size, response execution in lexical decision & memory scanning tasks, college students, 29454
word frequency in language, lexical decision & semantic & syntactic categorization & visual recognition naming RT & pronunciation, adults, commentary reply, 296
word shadowing uniqueness point in spoken word recognition, French speaking adults, Belgium, 783

Liberalism
understanding & use of principled moral arguments, liberal vs conservative 16–18 yr olds, 30146

Liberalism (Political) [See Political Liberalism]

Libido
libido & aggression & love & object relations in emotional relationship, couples, conference presentation, 24014

Licking
ACTH & antagonism by diazepam vs RO 15-1788, punished vs unpunished licking in conflict test, male rats, 657
bactericidal effects of saliva against pathogens, hygienic functions of maternal periparturient grooming & wound licking, dogs, 6568
preputial gland secretion in anogenital area, dam licking behavior, rat pups, 29533
procaine hydrochloride in amygdala vs ventral tegmental area vs lateral hypothalamus vs ip vs iv 2-buten-4-olide, lateral hypothalamic neural activity & licking behavior, operant conditioned rats, 723
shifts in sucrose concentration, contrast effects in consummatory behavior, rats, 17820
signalled vs unsignalled lick dependent delays, development of schedule induced drinking, rats, 20500
2nd order conditioning vs sensory preconditioning in conditioned lick suppression, water deprived rats, 20669

Lidocaine
lidocaine anesthesia during surgery, precipitation of manic episode, 27 yr old female with bipolar illness, 16448
local lidocaine anesthesia sc injections vs iontophoresis, pain & anxiety, 11–19 yr olds undergoing renal dialysis, 22369

Life Change [See Life Experiences]

Life Expectancy
active life expectancy, 65 yr olds & older eligible for Medicare, 1982–84, 27155
body size, mating success & longevity & flight endurance, male midges, 9151
health & longevity & creativity & productivity & potentials, senior scholars, 9675
levodeprenyl, longevity, male rats, 711
life expectancy, profoundly mentally retarded, 1634
medical history & self sufficiency & cognitive ability & self esteem, 100–104 yr olds, Italy, conference presentation, 27135
mental retardation level & other predictors of survival & life expectancy, patients with Down's syndrome, 24730
relationship between & statistical assessment of life events stress & depressive & other psychological symptoms & glucose induced thymosin-a1 levels, male 48–80 yr olds, 33297
review of changes in life expectancy & development of systematic approach to health promotion, 5501
use of term "life cycle" in social sciences, literature review, 4038
well life expectancy, male vs female children & adults, 26978

Life Experiences
acute vs ongoing life &/or familial stressors & parental functioning, 6–12 yr olds attending military psychiatric clinic, 24317
adult life experiences, childrearing attitudes & practices & role involvement & satisfaction, 25–58 yr old fathers of 1st born 3–17 yr olds, 27218

skill deficit & environmental adequacy & environment behavior interaction hypotheses, community based research, psychosocially retarded children with low income, 7578
small group story reading, comprehension & number & complexity of questions & comments, low SES kindergartners & their teachers, 5859
social connections in therapy, poor clients isolated from kin, 10558

social difficulties & behavioral deviance, low SES 11–12 yr olds in high unemployment & high density housing areas, Ireland, 4817
stability of Stanford Binet Fourth Edition & K-ABC, White & Black children of low SES assessed at 4 vs 6 yrs old, 3129
use of prenatal care services, low income females, Jamaica, 28451
value of health & incidence of depression & characteristics of self esteem, low income 18–31 yr old & older mothers of preschoolers, 18499
Loxapine
diminishing effectiveness of loxapine, female 21 yr old with schizoaffective disorder, case report, 31168
haloperidol vs clozapine vs loxapine, polydipsia, male treatment resistant schizophrenic 35 yr old, case report, 31232
Loyalty
nonmarket share dependent event history analysis, measurement of brand loyalty, 11379
patterns of loyalty to organization vs union, university academic vs support service staff, Canada, 18 mo study, 31845
role of loyalty in grief process & multigenerational family focus during therapeutic treatment, widows & widowers, 7860
LSD (Drug) [See Lysergic Acid Diethylamide]
Luck [See Chance (Fortune)]
Lumbar Spinal Cord
adrenal medulla transplants in subarachnoid space at lumbar spinal cord level, autotomy & transplant viability & pain, male rats, 3789
distribution of lumbar spinal EPs, 38–65 yr olds with neuropathic lower extremity pain, 24849
formalin, activity of spinal enkephalinergic neurons in lumbar & cervico trigeminal zones, male rats, 473
Lumbrosacral Plexus [See Spinal Nerves]
Luminance
age, pattern & flash visual evoked magnetic responses, 15–86 yr olds, 20583
ambient & target luminance, color matching on visual display terminal display, 17–24 yr olds, 6145
chromatic vs luminance contrast, reading color text on multicolor displays, 26–56 yr olds, implications for computer display design, 253
chromatic vs luminance contrast, reading performance for drifting text, Os, 20336
color vs luminance, temporal phase response of short wave cone signal, Os, 29371
depth information, judgment of achromatic surface color lightness vs brightness, college students, replication, 248
detection model of mechanisms & luminance increment thresholds in adaptation to stabilized retinal images, Os, 32464
dimming or brightening of motionless stimuli, apparent motion & directional motion aftereffects, 14315
display luminance & stimulus type & probe duration, visible & schematic persistence, college students, 23316
equiluminant Necker cube, perceived reversal in depth, college students, 3286
inescapable shock induced behavioral depression, circadian rhythmicity, rats housed with different lighting schedules, 606
interocular delay of monocular vs binocular presentation at differential luminance threshold, interaction between 2 pulses, Os, 11665
isochromatic luminance vs isoluminant red-green color modulations, optical accommodative responses, 3702
linear theory of masking of sinusoidal gratings by luminance noise, adults, 26352
luminance & color contrast, reading speed for text displayed on color monitor, normal vs low vision 26–74 yr olds, 7687
luminance & stimulus purity of visual display terminal color, readability, 22–24 yr olds, 11331
luminance contour & spatiotemporal uncertainty detection of coincident chromatic flash, Os, 20326
luminance, interval between flashing lights required to perceive nonsimultaneity, 23–59 yr olds, 20340
luminance polarity or hue, legibility performance & subjective preference for text/background color combinations, 20–56 yr olds, implications for videotext screen design, 245
luminance variation, role of color in stereopsis, Os with normal color vision, 11674
luminance vs hue, perception of motion direction in luminance kinematograms, adults, 8940
luminant & equiluminant red/green gratings, motion hyperacuity threshold for lateral & stereoscopic oscillatory motion, Os, 17383
mathematical model for contrast discrimination with luminance increments & decrements, 29352
mean luminance & stimulus drift rates & spatial frequency, visual spatial contrast sensitivity, goldfish, conference presentation, 20473
Munsell value of paper patches surrounded by annulus vs Mondrian displays, hue & saturation & brightness vs surface color matches, adults, 26326
near sharp & defocused luminance, light sensitivity, adults, 26345
postreceptoral adaptation to chromaticity vs luminance dimensions, change in color appearance, adults, 20635
screen color & luminance & amount of information on display, ease of reading video display terminal in automobile, adults, 6136
sensitivity of ganglion cells to luminance & chromatic sinusoidal modulation, macaques, 14552
spatial cuing, luminance increment detection accuracy, adults, 17412
spatial frequency & foveal vs parafoveal viewing, perception of luminance contrast of gratings, adults, 23318
spatial frequency discrimination thresholds of drifting sinewave luminance gratings, adults, 3292
spatial grouping of local shape & color, texture segregation in visual motion perception, Os, 20331
spatial sampling & luminance quantization, image quality of color matrix display, normally sighted adults, 6379
spatial vs temporal polarity of luminance change, motion adaptation, adults, 26349
stimulus luminance duration, visual persistence, Os, 20323
target background luminance ratio & background intensity, autokinetic illusion, college students, 17420
uniform dark vs bright vs textured visual background, evoked activity of neurons in striate cortex, male macaques, 17697
visual display terminal contrast & screen luminance, visual performance, 18–26 yr olds, 6149
window size & amount of sunlight penetration, emotional responses & satisfaction, office workers, 31836
4 levels vs fixed luminance, pattern visual EPs to transient vs steady state stimulation, normal 25–34 vs 19–47 yr olds with optic neuropathy, 24982
Luminance Threshold [See Brightness Perception, Visual Thresholds]
Lunar Synodic Cycle
full moon, aircraft accidents & disasters, 8558
lunar cycle, hospital admissions, 16 yr old & older parasuicide patients, Scotland, 33532
synodic lunar cycle, automobile traffic disasters, 1968–89, 19920
Lung
acute physiological stress with vs without naltrexone, natural killer cell cytotoxicity & lung metastases, male rats with chemically induced mammary tumors, 32487
prevalence of psychiatric problems, lung transplant applicants vs candidates vs recipients, 18428
Lung Disorders [See Also Cystic Fibrosis, Pneumonia, Pulmonary Emphysema]
functional status & stressful life changes & social supports & self esteem & physician utilization & morbidity, chronic lung disease patients, 24781

glucocorticoid discontinuation & subsequent replacement, development of delirium, 47 yr old male with restrictive lung disease & scleroderma, case report, 34051
personality & age & smoking & alcohol consumption & psychosocial factors, prediction of lung cancer, patients, 18995
personality & smoking habits, male patients with bronchial carcinoma or other chest diseases, 24872
reliability of magnitude estimation, assessment of perceptual sensitivity of dyspnea, Black 30–68 yr olds with chronic lung disease, 18976
smoking cessation counseling, cigarette smoking 19–78 yr olds hospitalized for chronic obstructive pulmonary disease, 31519

Lupus
conditioning operations, pharmacotherapy of autoimmune disease, lupus prone mice, conference presentation, 9351
cyclophosphamide paired with neutral stimulus, taste aversion learning, lupus prone vs nonlupus prone mice, 9396
daily stressors & psychological & psychosocial health status & hematological & serological parameters, adults with systemic lupus erythematosus vs rheumatoid arthritis, conference presentation, 30996
depressive disorders, systemic lupus erythematosus patients, literature review, 21842
fluoxetine, development of truncal dyskinesia & severe leg restlessness, 38 yr old female with depression & CNS lupus, case report, 28318
handedness, adults with lupus vs Type I diabetes vs migraine vs Graves' disease, 1724
health locus of control & well being, adults with systemic lupus erythematosus vs other chronic diseases, 10397
health status & disease activity, 22–69 yr olds with systemic lupus erythematosus, 10343
neuropsychiatric manifestations, male 53 yr old with lupus erythematosus, case report, 21994
neuropsychological & emotional & interpersonal disturbances, patients with systemic lupus erythematosus with vs without cerebral involvement vs rheumatoid arthritis, conference presentation, 30995
neuropsychological functioning, patients with systemic lupus erythematosus vs rheumatoid arthritis, 10356
psychiatric symptoms & frontal & temporal microinfarcts, female 70 yr old with systemic lupus erythematosus, case report, 24844
psychiatric symptoms, outpatients with systemic lupus erythematosus vs general medical vs psychiatric outpatients, 1328
serum systemic lupus erythematosus antinuclear & anti-DNA autoantibodies & symptomatology, psychiatric patients, diagnostic implications, conference presentation, 30580
systemic lupus erythematosus, mentally handicapped female, case report, 24751
voluntary consumption of cyclophosphamide, fluid deprived lupus prone Mrl-lpr/lpr vs congenic Mrl +/+ mice, 14647

Luria Nebraska Neuropsych Battery
cluster analysis of Luria Nebraska Neuropsychological Battery & Halstead Reitan Neuropsychological Battery, subtype identification, schizophrenic vs schizoaffective vs depressed vs manic patients, 7439
computerized interpretation of Luria Nebraska Neuropsychological Battery, adults with brain damage or psychiatric disorders, 9916
construction & content & construct & experimental validity & theoretical model of Luria Nebraska Neuropsychological Battery, literature review, 6291
development & utility of Berlin Luria-Neuropsychological Procedures, mentally handicapped 8–15 yr olds, 29248
development of screening batteries for adult & children's versions of Luria Nebraska Neuropsychological Batteries, 12–75 yr old patients, 15303
discrimination accuracy of Halstead Reitan vs Luria Nebraska Neuropsychological Test Battery, 19–75 yr olds with vs without medically documented brain damage, 14181
performance on Luria Nebraska Neuropsychological Battery in disorder subtypes, depressed 19–57 yr olds, 4676
performance on Luria-Nebraska Neuropsychological Battery Children's Revision, emotionally disturbed 8–18 yr olds, 10062
use of & training in & preference for Halstead-Reitan vs Luria Nebraska Neuropsychological Battery, neuropsychologists, 14147

Luteinizing Hormone
baseline FSH & LH plasma levels & their response to releasing hormone stimulation, adults with affective disorder in depressive vs normothymic phases, 1369
hatch date, courtship activity & pair bond formation & plasma LH & steroid hormone during autumn & winter, male vs female wood ducks, 29546
LH releasing hormone in lateral ventricle vs striatum vs hippocampus vs nucleus accumbens, acquisition of avoidance CR & spontaneous motility, male rats, 29872
LH releasing hormone, role of brain catecholamines in avoidance conditioning acquisition, male rats, 17893
menstrual cycle phase & LH & FSH levels, electrodermal activity & tone habituation & trait anxiety & psychosomatic symptoms, 19–24 yr old females, 12001
naloxone, LH & ACTH/cortisol circulating levels, bulimic adult females with normal body weight, 30808
naloxone vs clonidine, LH, 20–29 yr old females with vs without anorexia nervosa in luteal phase of menstrual cycle, etiological implications, 30786
plasma LH pulsatility in late luteal phase, 25–42 yr olds with vs without PMS, 21830
restraint stress, plasma testosterone & LH & binding capacity & affinity of Leydig cell receptors & steroid production, male rats, 3764

Lying [See Deception]

Lymphatic Disorders [See Blood and Lymphatic Disorders]

Lymphocytes
acute mental stress, individual differences in lymphocyte subpopulations & T-lymphocyte mitogenesis, male 18–30 yr olds, 23558
aging & environmental antigens & dietary restriction, expression of lymphocyte subsets, 6–30 mo old germ free & conventional male rats, 26747
alcohol intoxication & intense physical exercise, plasma catecholamines & lymphocytic beta adrenergic receptors, healthy male 22–38 yr olds, Finland, 29682
aversive CS, mitogenic responsiveness of splenic & blood lymphocytes & splenic natural killer cell activity & glucocorticoid secretion, male rats, 582
brief stress, CD8 suppressor/cytotoxic T cells & natural killer cell activity, 21–41 vs 65–85 yr old females, 23808
bright vs dim light phototherapy, cellular immune functioning, 30–58 yr olds with seasonal changes in mood & behavior, 28043
controllable & uncontrollable shock & noise stress, lymphocyte proliferation & leucocyte percentages, 21–36 yr olds, 20706
depression & distress & stress, immune system lymphocyte subsets & HIV manifestations & course, homosexual male adults, 6 mo followup, 21942
diazepam & immobilization stress, T-lymphocyte subsets in peripheral blood vs thymic gland vs spleen, female mice, 12040
diazepam, lymphocytic peripheral benzodiazepine receptors, anxious 21–35 yr olds, 7953
duration of peer separation, lymphocyte responses to concanavalin A & phytohemagglutinin, juvenile squirrel monkeys, 26746
early rearing experience, lymphocyte proliferation responses & natural killer cell activity, juvenile rhesus monkeys, 9241
electrical shock intensity, immunomodulatory effect on mitogenic responsiveness, male mice, 20714
glucocorticoid induced spiperone binding of lymphocytes, schizophrenic patients, replication, 15422
glycinamide ribonucleotide synthetase activity in lymphocytes, 52–78 yr olds with Alzheimer's disease, 25004
in vitro adaptive response of lymphocyte Na,K-ATPase, euthymic 23–68 yr olds with history of manic depressive psychosis, 30590

inescapable shock exposure, lymphocyte production suppression in response to mitogens, rats, commentary, 9322
isolation induced aggression, T-lymphocyte activity, dominant vs submissive male mice, 550
left vs right cortex ablation, mitogen induced lymphoproliferation & paw preference, female mice, 32518
lymphocyte cytosolic glucocorticoid receptors & plasma cortisol, male 37–45 yr old Vietnam combat veterans with PTSD, 24555
maternal antibodies reactive with antigenic proteins on cell surface of paternal lymphocytes, mothers of autistic 2–6 yr olds, 12798
mitogen induced lymphocyte proliferation, assessment of psychoimmunology, depressed male 22–71 yr olds, 18518
natural killer cell activity & lymphocyte subset distribution & lymphoproliferative response to mitogens, left vs right handed male mice with vs without left vs right cortical lesions, 32546
natural killer cell activity & mitotic response of T-lymphocytes, Roman high vs low avoidance Wistar rats, 17709
neuroleptic treatment, peripheral blood lymphocyte subsets & serum immunoglobulin levels, schizophrenic patients, 5429
physical restraint stress following local herpes simplex virus infection, generation of herpes simplex specific cytotoxic T lymphocytes & natural killer cell activity, male mice, 32489
premature maternal separation, response of blood lymphocytes to phytohemagglutinin, rat pups, 9236
propranolol before vs during conditioning, suppression of splenic mitogenic lymphocyte responsiveness induced by aversive CSs, male rats, 26888
psychological distress & plasma cortisol & lymphocyte proliferation & phytohemagglutinin & pokeweed mitogen, HIV positive gay 18–39 yr old males unaware of their infection, 30780
psychological stress, interleukin 2 receptor gene expression & interleukin 2 production in peripheral blood leukocytes, medical students, 548
psychological stress, T-lymphocytes & natural killer cells, college students, 32469
serum lymphocyte antibodies & CNS & neuropsychological functioning, females with systemic lupus erythematosus, 10285
signaled shock, modulation of splenic natural killer cell activity & T-lymphocyte mitogenic responsiveness, male rats, 9316
stress, plasma cortisol & growth hormone & prolactin & lymphocyte subpopulations, healthy 20–45 yr olds, 25885
therapeutic concentrations of lithium vs carbamazepine, inhibition of sodium nitroprusside induced accumulation of cGMP in lymphocytes, 23–53 yr olds, 32685
trichosanthin, p24 serum antigen & blood lymphocyte levels & development of side effects, HIV positive 18–64 yr olds, 19265
typical vs atypical neuroleptics, mitogen induced lymphocyte proliferation, treatment refractory schizophrenic patients high vs low in CD5 lymphocytes, 31265
2-deoxy-D-glucose, immunosuppression of splenic lymphocytes, previously immobilized male rats, 6755

Lysergic Acid Diethylamide

chronic visual disturbances, 15 yr old male with LSD induced posthallucinogen perception disorder, case report, 21679
d-LSD as 5-HT receptor antagonist, conference presentation, 14838
5-HT serotonin & platelet 3H LSD binding, patients with panic disorder, 1450

A PUBLICATION OF THE AMERICAN PSYCHOLOGICAL ASSOCIATION

PSYCSCAN: NEUROPSYCHOLOGY

A RESPECTED RESOURCE IN PSYCHOLOGY

This quarterly journal makes it easy for subscribers to stay up-to-date on current research in aspects of the relationship between the brain and behavior. Sample topics include:

- human experimental cognitive neuropsychology
- neurology research
- neuropsychopharmacology
- neuropsychological aspects of disease and disorders

and

- neurological assessment.

In this periodical, subscribers receive summaries for all the latest entries in neuropsychology — approximately 2,500 new items per year.

SEARCHES ARE FASTER & EASIER THAN EVER BEFORE.

Introducing the NEW THESAURUS OF PSYCHOLOGICAL INDEX TERMS, SIXTH EDITION!

EXPANDED, UPDATED, & REVISED.

Whether you're a psychologist doing online searching, a student of the behavioral sciences, or an experienced information professional, this new sixth edition of the **Thesaurus of Psychological Index Terms** is your key to effective searches of the PsycINFO and PsycLIT databases, and the printed **PsycBOOKS** and **Psychological Abstracts**.

This hard-cover edition is hot off-the-press. Find more cross references, a special down arrow feature in the Relationship Section, and revised hierarchical listings. There's a new Alphabetical Term Clusters Section allowing those who are unfamiliar with the terminology to have total access to the vocabulary in a particular large area (cluster) or group of "like" terms that a traditional hierarchy cannot provide. The Rotated Alphabetical Terms Section is expanded to help you locate the search terms you need.

First-Class Searches At A Single Fixed Price.

Efficiency. Quality. That's what you get when you use PsycLIT ... PsycINFO's complete search system on CD-ROM.

PsycLIT truly expands the search capacity for you and those who use your services. With easy-to-use search and retrieval software, tutorial on disc, and quick-reference card, even a novice will find information quickly and independently.

Your clients will appreciate PsycLIT's superior database that provides full bibliographic information as well as summaries from over 1300 journals in the PsycINFO® database. And, beginning with the March 1992 update, the addition of chapter and book summaries will make PsycLIT an unparalleled research tool.

Best of all, PsycLIT on CD-ROM allows *unlimited,* interactive searches for a single annual fee of $4495.00. That way, you'll know your search costs up front... there won't be any surprises at the end of the budget year.

Users can work independently, saving you staff time. Costs are fixed, saving you guess work at budget time. Call or write today for more details...and ask about the PsycLIT discount for *Psychological Abstracts* subscribers.

Only the Best.
Only from APA.
